

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

*Plan of the four last Volumes.---Succession and Characters of the Greek Emperors of Constantinople, from the Time of Heraclius to the Latin Conquest.*

I HAVE now deduced from Trajan to Con-stantine, from Constantine to Heraclius, the regular series of the Roman emperors ; and faithfully exposed the prosperous and adverse fortunes of their reigns. Five centuries of the decline and fall of the empire have already elapsed ; but a period of more than eight hundred years still separates me from the term of my labours, the taking

C H A P. of Constantinople by the Turks. Should I per-  
XLVIII. severe in the same course, should I observe the  
 same measure, a prolix and slender thread would  
be spun through many a volume, nor would the  
patient reader find an adequate reward of instruc-  
tion or amusement. At every step as we sink  
deeper in the décline and fall of the Eastern em-  
pire, the annals of each succeeding reign would  
impose a more ungrateful and melancholy task.  
These annals must continue to repeat a tedious  
and uniform tale of weakness and misery ; the  
natural connection of causes and events would be  
broken by frequent and hasty transitions, and a  
minute accumulation of circumstances must de-  
stroy the light and effect of those general pictures  
which compose the use and ornament of a remote  
history. From the time of Heraclius, the Byzan-  
tine theatre is contracted and darkened ; the line  
of empire, which had been defined by the laws of  
Justinian and the arms of Belisarius, recedes on all  
sides from our view ; the Roman name, the pro-  
per subject of our inquiries, is reduced to a narrow  
corner of Europe, to the lonely suburbs of Con-  
stantinople ; and the fate of the Greek empire has  
been compared to that of the Rhine, which loses  
itself in the sands, before its waters can mingle  
with the ocean. The scale of dominion is diminish-  
ed to our view by the distance of time and place ;  
nor is the loss of external splendour compensated  
by the nobler gifts of virtue and genius. In the  
last moments of her decay, Constantinople was  
doubtless more opulent and populous than Athens  
at her most flourishing æra, when a scanty sum of  
six

six thousand talents, or twelve hundred thousand C H A P. pounds Sterling, was possessed by twenty-one thou- XLVIII. sand male citizens of an adult age. But each of these citizens was a freeman, who dared to assert the liberty of his thoughts, words, and actions; whose person and property were guarded by equal law; and who exercised his independent vote in the government of the republic. Their numbers seem to be multiplied by the strong and various discriminations of character: Under the shield of freedom, on the wings of emulation and vanity, each Athenian aspired to the level of the national dignity. From this commanding eminence, some chosen spirits soared beyond the reach of a vulgar eye; and the chances of superior merit in a great and populous kingdom, as they are proved by experience, would excuse the computation of imaginary millions. The territories of Athens, Sparta, and their allies, do not exceed a moderate province of France or England: But after the trophies of Salamis and Plataea, they expand in our fancy to the gigantic size of Asia, which had been trampled under the feet of the victorious Greeks. But the subjects of the Byzantine empire, who assume and dishonour the names both of Greeks and Romans, present a dead uniformity of abject vices, which are neither softened by the weakness of humanity, nor animated by the vigour of memorable crimes. The freemen of antiquity might repeat, with generous enthusiasm, the sentence of Homer, “that on the first day of his servitude, the captive is deprived of one half of his manly virtue.” But the poet had only seen the effects

**C H A P.** of civil or domestic slavery, nor could he fore-  
**XLVIII.** tell that the second moiety of manhood must be  
annihilated by the spiritual despotism, which shackles not only the actions, but even the thoughts of the prostrate votary. By this double yoke, the Greeks were oppressed under the successors of Heraclius; the tyrant, a law of eternal justice, was degraded by the vices of his subjects; and on the throne, in the camp, in the schools, we search, perhaps with fruitless diligence, the names and characters that may deserve to be rescued from oblivion. Nor are the defects of the subject compensated by the skill and variety of the painters. Of a space of eight hundred years, the four first centuries are overspread with a cloud, interrupted by some faint and broken rays of historic light: In the lives of the emperors, from Maurice to Alexius, Basil the Macedonian has alone been the theme of a separate work; and the absence, or loss, or imperfection of contemporary evidence, must be poorly supplied by the doubtful authority of more recent compilers. The four last centuries are exempt from the reproach of penury: And with the Comnenian family, the historic muse of Constantinople again revives, but her apparel is gaudy, her motions are without elegance or grace. A succession of priests, or courtiers, treads in each other's footsteps in the same path of servitude and superstition: Their views are narrow, their judgment is feeble or corrupt; and we close the volume of copious barrenness, still ignorant of the causes of events, the characters of the actors, and the manners of the times, which they celebrate or deplore.

deplore. The observation which has been ap- C H A P.  
plied to a man, may be extended to a whole XLVIII.  
people, that the energy of the sword is commu-  
nicated to the pen; and it will be found, by ex-  
perience, that the tone of history will rise or fall  
with the spirit of the age.

From these considerations, I should have aban- Its con-  
doned, without regret, the Greek slaves and their nection  
servile historians, had I not reflected that the fate with the  
of the Byzantine monarchy is *passively* connected revolutions  
with the most splendid and important revolutions of the  
which have changed the state of the world. world.  
The  
space of the lost provinces was immediately re-  
plenished with new colonies and rising kingdoms:  
The active virtues of peace and war deserted from  
the vanquished to the victorious nations; and it is  
in their origin and conquests, in their religion and  
government, that we must explore the causes and  
effects of the decline and fall of the Eastern em-  
pire. Nor will this scope of narrative, the riches  
and variety of these materials, be incompatible  
with the unity of design and composition. As,  
in his daily prayers, the Musulman of Fez or Delhi  
still turns his face towards the temple of Mecca,  
the historian's eye shall be always fixed on the  
city of Constantinople. The excursive line may  
embrace the wilds of Arabia and Tartary, but the  
circle will be ultimately reduced to the decreasing  
limit of the Roman monarchy.

On this principle, I shall now establish the plan Plan of  
of the four last volumes of the present work. The the four  
first chapter will contain, in a regular series, the em- last vo-  
perors who reigned at Constantinople during a pe- lumes.

C H A P. XLVIII.  riod of six hundred years, from the days of Heraclius to the Latin conquest: A rapid abstract, which may be supported by a *general* appeal to the order and text of the original historians. In this introduction, I shall confine myself to the revolutions of the throne, the succession of families, the personal characters of the Greek princes, the mode of their life and death, the maxims and influence of their domestic government, and the tendency of their reign to accelerate or suspend the downfall of the Eastern empire. Such a chronological review will serve to illustrate the various argument of the subsequent chapters; and each circumstance of the eventful story of the Barbarians will adapt itself in a proper place to the Byzantine annals. The internal state of the empire, and the dangerous heresy of the Paulicians, which shook the East and enlightened the West, will be the subject of two separate chapters; but these inquiries must be postponed till our farther progress shall have opened the view of the world in the ninth and tenth centuries of the Christian æra. After this foundation of Byzantine history, the following nations will pass before our eyes, and each will occupy the space to which it may be entitled by greatness or merit, or the degree of connection with the Roman world and the present age. I. The FRANKS; a general appellation which includes all the Barbarians of France, Italy, and Germany, who were united by the sword and sceptre of Charlemagne. The persecution of images and their votaries, separated Rome and Italy from the Byzantine throne, and

and prepared the restoration of the Roman empire C H A P.  
 in the West. II. The ARABS or SARACENS. Three XLVIII.  
 ample chapters will be devoted to this curious and   
 interesting object. In the first, after a picture of  
 the country and its inhabitants, I shall investigate  
 the character of Mahomet; the character, religion,  
 and success of the prophet. In the second, I shall  
 lead the Arabs to the conquest of Syria, Egypt,  
 and Africa, the provinces of the Roman empire;  
 nor can I check their victorious career till they  
 have overthrown the monarchies of Persia and  
 Spain. In the third, I shall inquire how Constan-  
 tinople and Europe were saved by the luxury and  
 arts, the division and decay of the empire of the  
 caliphs. A single chapter will include, III. The  
 BULGARIANS. IV. HUNGARIANS, and, V. RUS-  
 SIANS, who assaulted by sea or by land the provinces  
 and the capital; but the last of these, so important  
 in their present greatness, will excite some curi-  
 osity in their origin and infancy. VI. The NOR-  
 MANS; or rather the private adventures of that  
 warlike people, who founded a powerful kingdom  
 in Apulia and Sicily, shook the throne of Con-  
 stantinople, displayed the trophies of chivalry, and  
 almost realised the wonders of romance. VII. The  
 LATINS; the subjects of the pope, the nations of  
 the West, who enlisted under the banner of the  
 Cross, for the recovery or relief of the holy sepul-  
 chre. The Greek emperors were terrified and pre-  
 served by the myriads of pilgrims who marched to  
 Jerusalem with Godfrey of Bouillon and the peers  
 of Christendom. The second and third crusades

C H A P. trod in the footsteps of the first : Asia and Europe;  
 XLVIII. were mingled in a sacred war of two hundred years;  
 and the Christian powers were bravely resisted, and  
 finally expelled, by Saladin and the Mamalukes  
 of Egypt. In these memorable crusades, a fleet  
 and army of French and Venetians were diverted  
 from Syria to the Thracian Bosphorus : They as-  
 sailed the capital, they subverted the Greek mo-  
 narchy ; and a dynasty of Latin princes was seated  
 near threescore years on the throne of Constantine.  
 VIII. The GREEKS themselves, during this period  
 of captivity and exile, must be considered as a fo-  
 reign nation ; the enemies, and again the sove-  
 reigns, of Constantinople. Misfortune had re-  
 kindled a spark of national virtue ; and the Impe-  
 rial series may be continued, with some dignity,  
 from their restoration to the Turkish conquest.  
 IX. The MOGULS and TARTARS. By the arms  
 of Zingis and his descendants, the globe was  
 shaken from China to Poland and Greece ; the  
 sultans were overthrown ; the caliphs fell ; and the  
 Cæsars trembled on their throne. The victories  
 of Timour suspended, above fifty years, the final  
 ruin of the Byzantine empire. X. I have already  
 noticed the first appearance of the TURKS, and  
 the names of the fathers, of *Seljuk* and *Othman*,  
 discriminate the two successive dynasties of the na-  
 tion, which emerged in the eleventh century from  
 the Scythian wilderness. The former established a  
 potent and splendid kingdom from the banks of the  
 Oxus to Antioch and Nice ; and the first crusade was  
 provoked by the violation of Jerusalem and the  
 danger

danger of Constantinople. From an humble origin, the *Ottomans* arose, the scourge and terror of Christendom. Constantinople was besieged and taken by Mahomet II. and his triumph annihilates the remnant, the image, the title of the Roman empire in the East. The schism of the Greeks will be connected with their last calamities, and the restoration of learning in the Western world. I shall return from the captivity of the new, to the ruins of ancient ROME; and the venerable name, the interesting theme, will shed a ray of glory on the conclusion of my labours.

THE emperor Heraclius had punished a tyrant and ascended his throne; and the memory of his reign is perpetuated by the transient conquest, and irreparable loss, of the Eastern provinces. After the death of Eudocia, his first wife, he disobeyed the patriarch, and violated the laws, by his second marriage with his niece Martina; and the superstition of the Greeks beheld the judgment of heaven in the diseases of the father and the deformity of his offspring. But the opinion of an illegitimate birth is sufficient to distract the choice, and loosen the obedience of the people: The ambition of Martina was quickened by maternal love, and perhaps by the envy of a step-mother; and the aged husband was too feeble to withstand the arts of conjugal allurements. Constantine, his eldest son, enjoyed in a mature age the title of Augustus; but the weakness of his constitution required a colleague

 Martina ; the imposition of the diadem was conse-  
 crated by the prayer and blessing of the patriarch ;  
 the senators and patricians adored the majesty of  
 the great emperor and the partners of his reign ;  
 and as soon as the doors were thrown open, they  
 were hailed by the tumultuary but important voice  
 of the soldiers. After an interval of five months,  
**A. D. 689,** the pompous ceremonies which formed the essence  
**January.** of the Byzantine state were celebrated in the ca-  
 thedral and hippodrome : The concord of the  
 royal brothers was affectedly displayed, by the  
 younger leaning on the arm of the elder ; and  
 the name of Martina was mingled in the reluctant  
 or venal acclamations of the people. Heraclius  
 survived this association about two years ; his last

**Feb. 11.** the Eastern empire, and commanded them to ho-  
 nour his widow Martina as their mother and their  
 sovereign.

**Constan-** When Martina first appeared on the throne with

**A. D. 641,** ed by a firm, though respectful opposition ; and  
**February.** the dying embers of freedom were kindled by the  
 breath of superstitious prejudice. “ We reve-  
 “ rence,” exclaimed the voice of a citizen, “ we  
 “ reverence the mother of our princes ; but to  
 “ those princes alone our obedience is due ; and  
 “ Constantine, the elder emperor, is of an age to

Martina descended from the throne with indignation, and sought a refuge in the female apartment of the palace. The reign of Constantine III. lasted only one hundred and three days: He expired in the thirtieth year of his age, and, although his life had been a long malady, a belief was entertained that poison had been the means, and his cruel step-mother the author, of his untimely fate. Martina reaped, indeed, the harvest of his death, and assumed the government in the name of the surviving emperor; but the incestuous widow of Heraclius was universally abhorred; the jealousy of the people was awakened, and the two orphans, whom Constantine had left, became the objects of the public care. It was in vain that the son of Martina, who was no more than fifteen years of age, was taught to declare himself the guardian of his nephews, one of whom he had presented at the baptismal font: It was in vain that he swore on the wood of the true Cross, to defend them against all their enemies. On his death-bed, the late emperor dispatched a trusty servant to arm the troops and provinces of the East in the defence of his helpless children: The eloquence and liberality of Valentin had been successful, and from his camp of Chalcedon, he boldly demanded

who devoured the grapes, and drank the wine of their Asiatic vineyards, provoked the citizens of Constantinople against the domestic authors of their calamities, and the dome of St Sophia re-echoed, not with prayers and hymns, but with the clamours and imprecations of an enraged multitude. At their imperious command, Heracleonas appeared in the pulpit with the eldest of the royal orphans; Constans alone was saluted as emperor of the Romans, and a crown of gold, which had been taken from the tomb of Heraclius, was placed on his head, with the solemn benediction of the patriarch. But in the tumult of joy and indignation, the church was pillaged, the sanctuary was polluted by a promiscuous crowd of Jews and Barbarians; and the Monothelite Pyrrhus, a creature of the empress, after dropping a protestation on the altar, escaped by a prudent flight from the zeal of the Catholics. A more serious and bloody task was reserved for the senate, who derived a temporary strength from the consent of the soldiers and people. The spirit of Roman freedom revived the ancient and awful examples of the judgment of tyrants, and the Imperial culprits were deposed and condemned as the authors of the death of Constantine. But the severity of the conscript fathers was stained by the indiscriminate punishment of the innocent and the guilty: Martina and Heracleonas were sentenced to the amputation, the former of her tongue, the latter of his nose; and after this cruel execution, they consumed the remainder

 Greeks who were capable of reflection might find XLVIII.  
 some consolation for their servitude, by observing {  
 the abuse of power when it was lodged for a mo-  
 ment in the hands of an aristocracy.

We shall imagine ourselves transported five Constans  
 hundred years backwards to the age of the Anto- II. A. D.  
 nines, if we listen to the oration which Constans 641, Sep-  
 II. pronounced in the twelfth year of his age be- tember.  
 fore the Byzantine senate. After returning his  
 thanks for the just punishment of the assassins  
 who had intercepted the fairest hopes of his fa-  
 ther's reign, "By the divine providence," said  
 the young emperor, and by your righteous decree,  
 "Martina and her incestuous progeny have been  
 "cast headlong from the throne. Your majesty  
 "and wisdom have prevented the Roman state  
 "from degenerating into lawless tyranny. I there-  
 "fore exhort and beseech you to stand forth as the  
 "counsellors and judges of their common safety."  
 The senators were gratified by the respectful ad-  
 dress and liberal donative of their sovereign; but  
 these servile Greeks were unworthy and regardless  
 of freedom; and in his mind, the lesson of an hour  
 was quickly erased by the prejudices of the age,  
 and the habits of despotism. He retained only a  
 jealous fear lest the senate or people should one  
 day invade the right of primogeniture, and seat  
 his brother Theodosius on an equal throne. By  
 the imposition of holy orders, the grandson of He-  
 raclius was disqualified for the purple; but this ce-  
 remony, which seemed to profane the sacraments  
 of

C H A P. of the church, was insufficient to appease the sus-  
XLVIII. picions of the tyrant, and the death of the deacon

— Theodosius could alone expiate the crime of his royal birth. His murder was avenged by the imprecations of the people, and the assassin, in the fulness of power, was driven from his capital into voluntary and perpetual exile. Constans embarked for Greece ; and, as if he meant to retort the abhorrence which he deserved, he is said, from the Imperial galley, to have spit against the walls of his native city. After passing the winter at Athens, he sailed to Tarentum in Italy, visited Rome, and concluded a long pilgrimage of disgrace and sacrilegious rapine, by fixing his residence at Syracuse. But if Constans could fly from his people, he could not fly from himself. The remorse of his conscience created a phantom who pursued him by land and sea, by day and by night ; and the visionary Theodosius, presenting to his lips a cup of blood, said, or seemed to say, “ Drink, brother, drink ;” a sure emblem of the aggravation of his guilt, since he had received from the hands of the deacon the mystic cup of the blood of Christ. Odious to himself and to mankind, Constans perished by domestic, perhaps by episcopal treason, in the capital of Sicily. A servant who waited in the bath, after pouring warm water on his head, struck him violently with the vase. He fell, stunned by the blow, and suffocated by the water ; and his attendants, who wondered at the tedious delay, beheld with indifference the corpse of their lifeless emperor. The troops of Sicily invested with  
the

the purple an obscure youth, whose inimitable beauty eluded, and it might easily elude, the declining art of the painters and sculptors of the age.

C H A P.  
XLVIII.

Constans had left in the Byzantine palace three sons, the eldest of whom had been clothed in his infancy with the purple. When the father summoned them to attend his person in Sicily, these precious hostages were detained by the Greeks, and a firm refusal informed him that they were the children of the state. The news of his murder was conveyed with almost supernatural speed from Syracuse to Constantinople; and Constantine, the eldest of his sons, inherited his throne without being the heir of the public hatred. His subjects contributed, with zeal and alacrity, to chastise the guilt and presumption of a province which had usurped the rights of the senate and people; the young emperor sailed from the Hellespont with a powerful fleet; and the legions of Rome and Carthage were assembled under his standard in the harbour of Syracuse. The defeat of the Sicilian tyrant was easy, his punishment just, and his beautiful head was exposed in the hippodrome: But I cannot applaud the clemency of a prince, who, among a croud of victors, condemned the son of a patrician, for deploring with some bitterness the execution of a virtuous father. The youth was castrated; he survived the operation, and the memory of this indecent cruelty is preserved by the elevation of Germanus to the rank of a patriarch and saint. After pouring this bloody libation on his father's tomb, Constantine returned to his capital, and the growth of his young beard during the

 XLVIII. surname of Pogonatus, to the Grecian world. But  
 { his reign, like that of his predecessor, was stained  
 with fraternal discord. On his two brothers, Heraclius and Tiberius, he had bestowed the title of Augustus ; an empty title, for they continued to languish, without trust or power, in the solitude of the palace. At their secret instigation, the troops of the Anatolian *theme* or province approached the city on the Asiatic side, demanded for the royal brothers the partition or exercise of sovereignty, and supported their seditious claim by a theological argument. They were Christians (they cried) and orthodox Catholics ; the sincere votaries of the holy and undivided Trinity. Since there are three equal persons in heaven, it is reasonable there should be three equal persons upon earth. The emperor invited these learned divines to a friendly conference, in which they might propose their arguments to the senate : They obeyed the summons ; but the prospect of their bodies hanging on the gibbet in the suburb of Galata, reconciled their companions to the unity of the reign of Constantine. He pardoned his brothers, and their names were still pronounced in the public acclamations ; but on the repetition or suspicion of a similar offence, the obnoxious princes were deprived of their titles and noses, in the presence of the Catholic bishops, who were assembled at Constantinople in the sixth general synod. In the close of his life, Pogonatus was anxious only to establish the right of primogeniture : The hair of his two sons, Justinian and Heraclius, was offered on the shrine of St Peter,

as a symbol of their spiritual adoption by the pope; but the elder was alone exalted to the rank of Augustus and the assurance of the empire.

XLVIII.

After the decease of his father, the inheritance of the Roman world devolved to Justinian II.; and the name of a triumphant lawgiver was dishonoured by the vices of a boy, who imitated his namesake only in the expensive luxury of building. His passions were strong; his understanding was feeble; and he was intoxicated with a foolish pride, that his birth had given him the command of millions, of whom the smallest community would not have chosen him for their local magistrate. His favourite ministers were two beings the least susceptible of human sympathy, an eunuch and a monk; to the one he abandoned the palace, to the other the finances; the former corrected the emperor's mother with a scourge, the latter suspended the insolvent tributaries, with their heads downward, over a slow and smoaky fire. Since the days of Commodus and Caracalla, the cruelty of the Roman princes had most commonly been the effect of their fear; but Justinian, who possessed some vigour of character, enjoyed the sufferings, and braved the revenge, of his subjects about ten years, till the measure was full, of his crimes and of their patience. In a dark dungeon, Leontius, a general of reputation, had groaned above three years with some of the noblest and most deserving of the patricians: he was suddenly drawn forth to assume the government of Greece; and this promotion of an injured man was a mark of the con-

XLVIII. As he was followed to the port by the kind offices of his friend, Leontius observed with a sigh, that he was a victim adorned for sacrifice, and that inevitable death would pursue his footsteps. They ventured to reply, that glory and empire might be the recompence of a generous resolution ; that every order of men abhorred the reign of a monster ; and that the hands of two hundred thousand patriots expected only the voice of a leader. The night was chosen for their deliverance ; and in the first effort of the conspirators, the præfect was slain, and the prisons were forced open ; the emissaries of Leontius proclaimed in every street, “ Christians, to St Sophia ;” and the seasonable text of the patriarch, “ this is the day of the Lord !” was the prelude of an inflammatory sermon. From the church the people adjourned to the hippodrome : Justinian, in whose cause not a sword had been drawn, was dragged before those tumultuary judges, and their clamours demanded the instant death of the tyrant. But Leontius, who was already clothed with the purple, cast an eye of pity on the prostrate son of his own benefactor, and of so many emperors. The life of Justinian was spared ; the amputation of his nose, perhaps of his tongue, was imperfectly performed ; the happy flexibility of the Greek language could impose the name of Rhinotmetus ; and the mutilated tyrant was banished to Chersonæ in Crim-Tartary, a lonely settlement, where corn, wine, and oil, were imported as foreign luxuries.

On

On the edge of the Scythian wilderness, Justinian still cherished the pride of his birth and the hope of his restoration. After three years exile, he received the pleasing intelligence that his injury was avenged by a second revolution, and that Leontius in his turn had been dethroned and mutilated by the rebel Apsimar, who assumed the more respectable name of Tiberius. But the claim of lineal succession was still formidable to a plebeian usurper; and his jealousy was stimulated by the complaints and charges of the Chersonites, who beheld the vices of the tyrant in the spirit of the exile. With a band of followers, attached to his person by common hope or common despair, Justinian fled from the inhospitable shore to the hord of the Chozars, who pitched their tents between the Tanais and Borysthenes. The khan entertained with pity and respect the royal suppliant: Phanagoria, once an opulent city, on the Asiatic side of the lake Mœotis, was assigned for his residence; and every Roman prejudice was stifled in his marriage with the sister of the Barbarian, who seems, however, from the name of Theodora, to have received the sacrament of baptism. But the faithless Chozar was soon tempted by the gold of Constantinople; and had not the design been revealed by the conjugal love of Theodora, her husband must have been assassinated, or betrayed into the power of his enemies. After strangling, with his own hands, the two emissaries of the khan, Justinian sent back his wife to her brother, and embarked on the Euxine in search of new and more faithful allies. His vessel

 { mercy of God by a vow of general forgiveness,  
 if he should be restored to the throne. “ Of for-  
 “ giveness ? ” replied the intrepid tyrant ; “ may  
 “ I perish this instant—may the Almighty overwhelm  
 “ me in the waves—if I consent to spare a single  
 “ head of my enemies ! ” He survived this im-  
 pious menace, sailed into the mouth of the Da-  
 nube, trusted his person in the royal village of  
 the Bulgarians, and purchased the aid of Terbelis,  
 a Pagan conqueror, by the promise of his daugh-  
 ter, and a fair partition of the treasures of the em-  
 pire. The Bulgarian kingdom extended to the con-  
 fines of Thrace ; and the two princes besieged Con-  
 stantinople at the head of fifteen thousand horse.  
 Apsimar was dismayed by the sudden and hostile  
 apparition of his rival, whose head had been pro-  
 mised by the Chozar, and of whose evasion he  
 was yet ignorant. After an absence of ten years,  
 the crimes of Justinian were faintly remembered,  
 and the birth and misfortunes of their hereditary  
 sovereign excited the pity of the multitude, ever  
 discontented with the ruling powers ; and by the  
 active diligence of his adherents he was intro-  
 duced into the city and palace of Constantine.

In rewarding his allies and recalling his wife,  
 Justinian displayed some sense of honour and gra-  
 titude ; and Terbelis retired, after sweeping away  
 an heap of gold coin, which he measured with his  
 Scythian whip. But never was vow more reli-  
 giously performed than the sacred oath of revenge  
 which he had sworn amidst the storms of the Euxine.

The

The two usurpers, for I must reserve the name of tyrant for the conqueror, were dragged into the hippodrome, the one from his prison, the other from his palace. Before their execution, Leontius and Apsimar were cast prostrate in chains beneath the throne of the emperor; and Justinian, planting a foot on each of their necks, contemplated above an hour the chariot-race, while the inconstant people shouted, in the words of the Psalmist, “Thou shalt trample on the asp and basilisk, and on the lion and dragon shalt thou set thy foot!” The universal defection which he had once experienced might provoke him to repeat the wish of Caligula, that the Roman people had but one head. Yet I shall presume to observe, that such a wish is unworthy of an ingenious tyrant, since his revenge and cruelty would have been extinguished by a single blow, instead of the slow variety of tortures which Justinian inflicted on the victims of his anger. His pleasures were inexhaustible: Neither private virtue nor public service could expiate the guilt of active, or even passive obedience to an established government; and during the six years of his new reign, he considered the axe, the cord, and the rack, as the only instruments of royalty. But his most implacable hatred was pointed against the Chersonites, who had insulted his exile and violated the laws of hospitality. Their remote situation afforded some means of defence, or at least of escape; and a grievous tax was imposed on Constantinople, to supply the preparations of a fleet and army. “All are guilty, and all must perish,” was the man-

mended by the epithet of the savage. Yet even  
the savage Stephen imperfectly accomplished the  
intentions of his sovereign. The slowness of his  
attack allowed the greater part of the inhabitants  
to withdraw into the country; and the minister  
of vengeance contented himself with reducing the  
youth of both sexes to a state of servitude, with  
roasting alive seven of the principal citizens, with  
drowning twenty in the sea, and with reserving  
forty two in chains to receive their doom from  
the mouth of the emperor. In their return, the  
fleet was driven on the rocky shores of Anatolia;  
and Justinian applauded the obedience of the Eux-  
ine, which had involved so many thousands of his  
subjects and enemies in a common shipwreck: But  
the tyrant was still insatiate of blood; and a se-  
cond expedition was commanded to extirpate the  
remains of the proscribed colony. In the short in-  
terval, the Chersonites had returned to their city,  
and were prepared to die in arms; the khan of  
the Chozars had renounced the cause of his odious  
brother; the exiles of every province were as-  
sembled in Tauris; and Bardanes, under the  
name of Philippicus, was invested with the purple.  
The Imperial troops, unwilling and unable to  
perpetrate the revenge of Justinian, escaped his  
displeasure by abjuring his allegiance: The fleet,  
under their new sovereign, steered back a more  
auspicious course to the harbours of Sinope and  
Constantinople; and every tongue was prompt to  
pronounce, every hand to execute, the death of the  
the

the tyrant. Destitute of friends, he was deserted C H A P.  
 by his Barbarian guards ; and the stroke of the XLVIII.  
 assassin was praised as an act of patriotism and {  
 Roman virtue. His son Tiberius had taken refuge  
 in a church ; his aged grandmother guarded the  
 door ; and the innocent youth, suspending round  
 his neck the most formidable relics, embraced with  
 one hand the altar, with the other the wood of  
 the true Cross. But the popular fury that dares  
 to trample on superstition, is deaf to the cries of  
 humanity ; and the race of Heraclius was extin-  
 guished after a reign of one hundred years.

Between the fall of the Heraclian and the rise Philippi-  
 of the Isaurian dynasty, a short interval of six years cus,  
 is divided into three reigns. Bardanes, or Philip- A. D. 711,  
 picus, was hailed at Constantinople as an hero who December.  
 had delivered his country from a tyrant ; and he  
 might taste some moments of happiness in the first  
 transports of sincere and universal joy. Justinian  
 had left behind him an ample treasure, the fruit  
 of cruelty and rapine ; but this useful fund was soon  
 and idly dissipated by his successor. On the fes-  
 tival of his birth-day, Philippicus entertained the  
 multitude with the games of the hippodrome ; from  
 thence he paraded through the streets with a thou-  
 sand banners and a thousand trumpets ; refreshed  
 himself in the baths of Zeuxippus, and, returning  
 to the palace, entertained his nobles with a sump-  
 tuous banquet. At the meridian hour he with-  
 drew to his chamber, intoxicated with flattery and  
 wine, and forgetful that his example had made  
 every subject ambitious, and that every ambitious  
 subject was his secret enemy. Some bold con-

C H A P. spirators introduced themselves in the disorder of  
 XLVIII. the feast ; and the slumbering monarch was surprised, bound, blinded, and deposed, before he was sensible of his danger. Yet the traitors were deprived of their reward ; and the free voice of the senate and people promoted Artemius from the office of secretary to that of emperor : he assumed the title of Anastasius the second, and displayed in a short and troubled reign the virtues both of peace and war. But, after the extinction of the Imperial line, the rule of obedience was violated, and every change diffused the seeds of new revolutions. In a mutiny of the fleet, an obscure and reluctant officer of the revenue was forcibly invested with the purple ; after some months of a naval war, Anastasius resigned the sceptre ; and the conqueror, Theodosius the third, submitted in his turn to the superior ascendant of Leo, the general and emperor of the Oriental troops. His two predecessors were permitted to embrace the ecclesiastical profession : the restless impatience of Anastasius tempted him to risk and to lose his life in a treasonable enterprise ; but the last days of Theodosius were honourable and secure. The single sublime word, “ HEALTH,” which he inscribed on his tomb, expresses the confidence of philosophy or religion ; and the fame of his miracles was long preserved among the people of Ephesus. This convenient shelter of the church might sometimes impose a lesson of clemency ; but it may be questioned whether it is for the public interest to diminish the perils of unsuccessful ambition.

I have dwelt on the fall of a tyrant ; I shall briefly represent the founder of a new dynasty, who is known to posterity by the invectives of his enemies, and whose public and private life is involved in the ecclesiastical story of the Iconoclasts. Yet in spite of the clamours of superstition, a favourable prejudice for the character of Leo the Isaurian, may be reasonably drawn from the obscurity of his birth, and the duration of his reign.—I. In an age of manly spirit, the prospect of an Imperial reward would have kindled every energy of the mind, and produced a crowd of competitors as deserving as they were desirous to reign. Even in the corruption and debility of the modern Greeks, the elevation of a plebeian from the last to the first rank of society, supposes some qualifications above the level of the multitude. He would probably be ignorant and disdainful of speculative science ; and in the pursuit of fortune, he might absolve himself from the obligations of benevolence and justice : but to his character we may ascribe the useful virtues of prudence and fortitude, the knowledge of mankind, and the important art of gaining their confidence and directing their passions. It is agreed that Leo was a native of Isauria, and that Conon was his primitive name. The writers, whose awkward satire is praise, describe him as an itinerant pedlar, who drove an ass with some paltry merchandise to the country fairs ; and foolishly relate that he met on the road some Jewish fortune-tellers, who promised him the Roman empire, on condition that he should abolish the worship of idols. A more probable

**C H A P.** probable account relates the migration of his fa-

 — cised the lucrative trade of a grazier; and he  
 must have acquired considerable wealth, since  
 the first introduction of his son was procured by a  
 supply of five hundred sheep to the Imperial  
 camp. His first service was in the guards of  
 Justinian, where he soon attracted the notice, and  
 by degrees the jealousy, of the tyrant. His valour  
 and dexterity were conspicuous in the Colchian  
 wa ; from Anastasius he received the command  
 of the Anatolian legions, and by the suffrage of  
 the soldiers he was raised to the empire, with the  
 general applause of the Roman world.—II. In  
 this dangerous elevation, Leo the third supported  
 himself against the envy of his equals, the dis-  
 content of a powerful faction, and the assaults of  
 his foreign and domestic enemies. The Catho-  
 lics, who accuse his religious innovations, are  
 obliged to confess that they were undertaken with  
 temper and conducted with firmness. Their  
 silence respects the wisdom of his administration  
 and the purity of his manners. After a reign of  
 twenty-four years, he peaceably expired in the pa-  
 lace of Constantinople; and the purple which he  
 had acquired was transmitted, by the right of in-  
 heritance, to the third generation.

Constan-

 Coprony-

In a long reign of thirty-four years, the son and  
 successor of Leo, Constantine the fifth, surnamed  
 Copronymus, attacked, with less temperate zeal,  
 the images or idols of the church. Their votaries  
 have exhausted the bitterness of religious gall, in  
 their portrait of this spotted panther, this anti-  
 christ,

christ, this flying dragon of the serpent's seed, C H A P. XLVIII. who surpassed the vices of Elagabalus and Nero. His reign was a long butchery of whatever was most noble, or holy, or innocent, in his empire. In person, the emperor assisted at the execution of his victims, surveyed their agonies, listened to their groans, and indulged, without satiating, his appetite for blood: A plate of noses was accepted as a grateful offering, and his domestics were often scourged or mutilated by the royal hand. His surname was derived from his pollution of his baptismal font. The infant might be excused; but the manly pleasures of Copronymus degraded him below the level of a brute; his lust confounded the eternal distinctions of sex and species; and he seemed to extract some unnatural delight from the objects most offensive to human sense. In his religion, the Iconoclast was an Heretic, a Jew, a Mahometan, a Pagan, and an Athiest; and his belief of an invisible power could be discovered only in his magic rites, human victims, and nocturnal sacrifices to Venus and the dæmons of antiquity. His life was stained with the most opposite vices, and the ulcers which covered his body, anticipated before his death the sentiment of hell-tortures. Of these accusations, which I have so patiently copied, a part is refuted by its own absurdity; and in the private anecdotes of the life of princes, the lie is more easy as the detection is more difficult. Without adopting the pernicious maxim, that where much is alleged, something must be true, I can however discern, that Constantine V. was dissolute and cruel. Calumny is more

**C H A P.** more prone to exaggerate than to invent; and  
**XLVIII.** her licentious tongue is checked in some mea-  
sure by the experience of the age and country to  
which she appeals. Of the bishops and monks,  
the generals and magistrates, who are said to have  
suffered under his reign, the numbers are re-  
corded, the names were conspicuous, the execu-  
tion was public, the mutilation visible and per-  
manent. The Catholics hated the person and  
government of Copronymus; but even their  
hatred is a proof of their oppression. They dis-  
semble the provocations which might excuse or  
justify his rigour, but even these provocations must  
gradually inflame his resentment, and harden his  
temper in the use or the abuse of despotism. Yet  
the character of the fifth Constantine was not  
devoid of merit, nor did his government always  
deserve the curses or the contempt of the Greeks.  
From the confession of his enemies, I am in-  
formed of the restoration of an ancient aqueduct,  
of the redemption of two thousand five hundred  
captives, of the uncommon plenty of the times,  
and of the new colonies with which he repeopled  
Constantinople and the Thracian cities. They  
reluctantly praise his activity and courage; he  
was on horseback in the field at the head of his  
legions; and, although the fortune of his arms  
was various, he triumphed by sea and land, on  
the Euphrates and the Danube, in civil and Bar-  
barian war. Heretical praise must be cast into  
the scale, to counterbalance the weight of ortho-  
dox invective. The Iconoclasts revered the vir-  
tues of the prince: Forty years after his death,  
they

they still prayed before the tomb of the saint. C H A P.  
 A miraculous vision was propagated by fanaticism XLVIII.  
 or fraud : And the Christian hero appeared on a milk-white steed, brandishing his lance against the Pagans of Bulgaria: "An absurd fable," says the Catholic historian, "since Copronymus is "chained with the dæmons in the abyss of hell."

Leo the fourth, the son of the fifth, and the father of the sixth Constantine, was of a feeble constitution both of mind and body, and the principal care of his reign was the settlement of the succession. The association of the young Constantine was urged by the officious zeal of his subjects ; and the emperor conscious of his decay, complied, after a prudent hesitation, with their unanimous wishes. The royal infant, at the age of five years, was crowned with his mother Irene ; and the national consent was ratified by every circumstance of pomp and solemnity, that could dazzle the eyes, or bind the conscience, of the Greeks. An oath of fidelity was administered in the palace, the church, and the hippodrome, to the several orders of the state, who adjured the holy names of the son, and mother, of God. "Be witness, O Christ! that we will watch over the safety of Constantine the son of Leo, expose our lives in his service, and bear true allegiance to his person and posterity" They pledged their faith on the wood of the true cross, and the act of their engagement was deposited on the altar of St Sophia. The first to swear, and the first to violate their oath, were the five sons of Copronymus by a second marriage ; and the story of these princes

XLVIII. mogeniture excluded them from the throne; the  
└─┘ injustice of their elder brother defrauded them of  
a legacy of about two millions Sterling; some vain  
titles were not deemed a sufficient compensation  
for wealth and power; and they repeatedly con-  
spired against their nephew, before and after the  
death of his father. Their first attempt was par-  
doned; for the second offence they were con-  
demned to the ecclesiastical state: And for the  
third treason, Nicephorus, the eldest and most  
guilty, was deprived of his eyes, and his four  
brothers, Christopher, Nicetas, Anthemeus, and  
Eudoxas, were punished, as a milder sentence, by  
the amputation of their tongues. After five years  
confinement, they escaped to the church of St  
Sophia, and displayed a pathetic spectacle to the  
people. "Countrymen and Christians," cried  
Nicephorus for himself and his mute brethren,  
"behold the sons of your emperor, if you can  
"still recognize our features in this miserable  
"state. A life, an imperfect life, is all that the  
"malice of our enemies has spared. It is now  
"threatened, and we now throw ourselves on  
"your compassion." The rising murmur might  
have produced a revolution, had it not been  
checked by the presence of a minister, who  
soothed the unhappy princes with flattery and  
hope, and gently drew them from the sanctuary  
to the palace. They were speedily embarked for  
Greece, and Athens was allotted for the place of  
their exile. In this calm retreat, and in their  
helpless condition, Nicephorus and his brothers  
were

were tormented by the thirst of power, and tempted by a Slavonian chief, who offered to break their prison, and to lead them in arms, and in the purple, to the gates of Constantinople. But the Athenian people, ever zealous in the cause of Irene, prevented their justice or cruelty; and the five sons of Copronymus were plunged in eternal darkness and oblivion.

For himself, that emperor had chosen a Barbarian wife, the daughter of the khan of the Chozars: But in the marriage of his heir, he preferred an Athenian virgin, an orphan, seventeen years old, whose sole fortune must have consisted in her personal accomplishments. The nuptials of Leo and Irene were celebrated with royal pomp; she soon acquired the love and confidence of a feeble husband, and in his testament he declared the empress guardian of the Roman world, and of their son Constantine the sixth, who was no more than ten years of age. During his childhood, Irene most ably and assiduously discharged, in her public administration, the duties of a faithful mother; and her zeal, in the restoration of images, has deserved the name and honours of a saint, which she still occupies in the Greek calendar. But the emperor attained the maturity of youth; the maternal yoke became more grievous; and he listened to the favourites of his own age, who shared his pleasures, and were ambitious of sharing his power. Their reasons convinced him of his right, their praises of his ability, to reign; and he consented to reward the services of Irene by a perpetual banishment to the isle of Sicily.

But her vigilance and penetration easily disconcerted their rash projects; a similar, or more severe punishment, was retaliated on themselves and their advisers; and Irene inflicted on the ungrateful prince the chastisement of a boy. After this contest, the mother and the son were at the head of two domestic factions; and, instead of mild influence and voluntary obedience, she held in chains a captive and an enemy. The empress was overthrown by the abuse of victory; the oath of fidelity, which she exacted to herself alone, was pronounced with reluctant murmurs; and the bold refusal of the Armenian guards encouraged a free and general declaration, that Constantine VI. was the lawful emperor of the Romans. In this character he ascended his hereditary throne, and dismissed Irene to a life of solitude and repose. But her haughty spirit condescended to the arts of dissimulation: She flattered the bishops and eunuchs, revived the filial tenderness of the prince, regained his confidence, and betrayed his credulity. The character of Constantine was not destitute of sense or spirit; but his education had been studiously neglected; and his ambitious mother exposed to the public censure the vices which she had nourished, and the actions which she had secretly advised: His divorce and second marriage offended the prejudices of the clergy, and, by his imprudent rigour, he forfeited the attachment of the Armenian guards. A powerful conspiracy was formed for the restoration of Irene; and the secret, though widely diffused, was faithfully kept above eight months, till the emperor, suspicious of  
of

of his danger, escaped from Constantinople, with the design of appealing to the provinces and armies. By this hasty flight, the empress was left on the brink of the precipice ; yet before she implored the mercy of her son, Irene addressed a private epistle to the friends whom she had placed about his person, with a menace, that unless *they* accomplished, *she* would reveal their treason. Their fear rendered them intrepid ; they seized the emperor on the Asiatic shore, and he was transported to the porphyry apartment of the palace, where he had first seen the light. In the mind of Irene, ambition had stifled every sentiment of humanity and nature ; and it was decreed in her bloody council, that Constantine should be rendered incapable of the throne : Her emissaries assaulted the sleeping prince, and stabbed their daggers with such violence and precipitation into his eyes, as if they meant to execute a mortal sentence. An ambiguous passage of Theophanes persuaded the annalist of the church, that death was the immediate consequence of this barbarous execution. The Catholics have been deceived or subdued by the authority of Baronius ; and Protestant zeal has re-echoed the words of a cardinal, desirous, as it should seem, to favour the patroness of images. Yet the blind son of Irene survived many years, oppressed by the court, and forgotten by the world : The Isaurian dynasty was silently extinguished ; and the memory of Constantine was recalled only by the nuptials of his daughter Euphrosyne with the emperor Michael the second.

Irene,  
A. D. 792,  
Aug. 19.

*Gf. Hm. 172.*  
*Prod. 27. 20.*

The most bigoted orthodoxy has justly execrated the unnatural mother, who may not easily be paralleled in the history of crimes. To her bloody deed, superstition has attributed a subsequent darkness of seventeen days ; during which, many vessels in mid-day were driven from their course, as if the sun, a globe of fire so vast and so remote, could sympathise with the atoms of a revolving planet. On earth, the crime of Irene was left five years unpunished ; her reign was crowned with external splendour ; and if she could silence the voice of conscience, she neither heard nor regarded the reproaches of mankind. The Roman world bowed to the government of a female ; and as she moved through the streets of Constantinople, the reins of four milk-white steeds were held by as many patricians, who marched on foot before the golden chariot of their queen. But these patricians were for the most part eunuchs ; and their black ingratitude justified, on this occasion, the popular hatred and contempt. Raised, enriched, entrusted with the first dignities of the empire, they basely conspired against their benefactress : The great treasurer Nicephorus was secretly invested with the purple ; her successor was introduced into the palace, and crowned at St Sophia by the venal patriarch. In their first interview, she recapitulated, with dignity, the revolutions of her life, gently accused the perfidy of Nicephorus, insinuated that he owed his life to her unsuspecting clemency, and, for the throne and treasures which she resigned, solicited a decent and

and honourable retreat. His avarice refused this modest compensation; and, in her exile of the isle of Lesbos, the empress earned a scanty subsistence by the labours of her distaff.

Many tyrants have reigned undoubtedly more criminal than Nicephorus, but none perhaps have more deeply incurred the universal abhorrence of their people. His character was stained with the three odious vices of hypocrisy, ingratitude, and avarice; his want of virtue was not redeemed by any superior talents, nor his want of talents by any pleasing qualifications. Unskilful and unfortunate in war, Nicephorus was vanquished by the Saracens, and slain by the Bulgarians; and the advantages of his death overbalanced, in the public opinion, the destruction of a Roman army. His son and heir Stauracius escaped from the field with a mortal wound; yet six months of an expiring life were sufficient to refute his indecent, though popular declaration, that he would in all things avoid the example of his father. On the near prospect of his decease, Michael, the great master of the palace, and the husband of his sister Procopia, was named by every person of the palace and city, except by his envious brother. Tenacious of a sceptre now falling from his hand, he conspired against the life of his successor, and cherished the idea of changing to a democracy the Roman empire. But these rash projects served only to inflame the zeal of the people, and to remove the scruples of the candidate: Michael the first accepted the purple, and before he sunk into the

 success exposed him to the contempt of the sol-  
 diers, the masculine spirit of his wife Procopia  
 awakened their indignation. Even the Greeks of  
 the ninth century were provoked by the insolence  
 of a female, who, in the front of their standards,  
 presumed to direct their discipline and animate  
 their valour; and their licentious clamours advised  
 the new Semiramis to reverence the majesty of a  
 Roman camp. After an unsuccessful campaign, the  
 emperor left, in their winter-quarters of Thrace, a  
 disaffected army under the command of his ene-  
 mies; and their artful eloquence persuaded the  
 soldiers to break the dominion of the eunuchs, to  
 degrade the husband of Procopia, and to assert the  
 right of a military election. They marched to-  
 wards the capital; yet the clergy, the senate, and  
 the people of Constantinople, adhered to the cause  
 of Michael; and the troops and treasures of Asia  
 might have protracted the mischiefs of civil war.  
 But his humanity (by the ambitious, it will be  
 termed his weakness) protested, that not a drop  
 of Christian blood should be shed in his quarrel,  
 and his messengers presented the conquerors with  
 the keys of the city and the palace. They were

XLVIII.

A rebel, in the time of Nicephorus, the famous and unfortunate Bardanes, had once the curiosity to consult an Asiatic prophet, who, after prognosticating his fall, announced the fortunes of his three principal officers, Leo the Armenian, Michael the Phrygian, and Thomas the Cappadocian, the successive reigns of the two former, the fruitless and fatal enterprise of the third. This prediction was verified, or rather was produced, by the event. Ten years afterwards, when the Thracian camp rejected the husband of Procopia, the crown was presented to the same Leo, the first in military rank and the secret author of the mutiny. As he affected to hesitate, "With this sword," said his companion Michael, "I will open the gates of Constantinople to your Imperial sway; or instantly plunge it into your bosom, if you obstinately resist the just desires of your fellow-soldiers." The compliance of the Armenian was rewarded with the empire, and he reigned seven years and an half under the name of Leo the fifth. Educated in a camp, and ignorant both of laws and letters, he introduced into his civil government the rigour and even cruelty of military discipline; but if his severity was sometimes dangerous to the innocent, it was always formidable to the guilty. His religious inconstancy was taxed

C H A P. by the epithet of Chameleon, but the Catholics  
XLVIII. have acknowledged, by the voice of a saint and  
— confessors, that the life of the Iconoclast was use-  
ful to the republic. The zeal of his companion  
Michael was repaid with riches, honours, and  
military command; and his subordinate talents  
were beneficially employed in the public service.  
Yet the Phrygian was dissatisfied at receiving as a  
favour a scanty portion of the Imperial prize which  
he had bestowed on his equal; and his discontent,  
which sometimes evaporated in a hasty discourse, at  
length assumed a more threatening and hostile as-  
pect against a prince whom he represented as a  
cruel tyrant. That tyrant, however, repeatedly de-  
tected, warned, and dismissed the old companion of  
his arms, till fear and resentment prevailed over gra-  
titude; and Michael, after a scrutiny into his actions  
and designs, was convicted of treason, and sentenced  
to be burnt alive in the furnace of the private  
baths. The devout humanity of the empress  
Theophano was fatal to her husband and family,  
A solemn day, the twenty-fifth of December, had  
been fixed for the execution: She urged, that the  
anniversary of the Saviour's birth would be pro-  
faned by this inhuman spectacle, and Leo consented  
with reluctance to a decent respite. But on the  
vigil of the feast, his sleepless anxiety prompted  
him to visit, at the dead of night, the chamber in  
which his enemy was confined; he beheld him re-  
leased from his chain, and stretched on his gaoler's  
bed in a profound slumber: Leo was alarmed at  
these signs of security and intelligence; but, though  
he

he retired with silent steps, his entrance and departure were noticed by a slave who lay concealed in a corner of the prison. Under the pretence of requesting the spiritual aid of a confessor, Michael informed the conspirators, that their lives depended on his discretion, and that a few hours were left to assure their own safety, by the deliverance of their friend and country. On the great festivals, a chosen band of priests and chanters was admitted into the palace, by a private gate, to sing matins in the chapel; and Leo, who regulated with the same strictness the discipline of the choir and of the camp, was seldom absent from those early devotions. In the ecclesiastical habit, but with swords under their robes, the conspirators mingled with the procession, lurked in the angles of the chapel, and expected, as the signal of murder, the intonation of the first psalm by the emperor himself. The imperfect light, and the uniformity of dress, might have favoured his escape, while their assault was pointed against an harmless priest; but they soon discovered their mistake, and encompassed on all sides the royal victim. Without a weapon, and without a friend, he grasped a weighty cross, and stood at bay against the hunters of his life; but as he asked for mercy, "This is the hour, not of mercy, but of vengeance," was the inexorable reply. The stroke of a well-aimed sword separated from his body the right arm and the cross, and Leo the Armenian was slain at the foot of the altar.

C H A P. XLVIII. **Michael II. the Stammerer,**  
 A. D. 820,  
 Dec. 25.

A memorable reverse of fortune was displayed in Michael the second, who, from a defect in his speech, was surnamed the Stammerer. He was snatched from the fiery furnace to the sovereignty of an empire; and as in the tumult a smith could not readily be found, the fetters remained on his legs several hours after he was seated on the throne of the Cæsars. The royal blood which had been the price of his elevation, was unprofitably spent: In the purple he retained the ignoble vices of his origin; and Michael lost his provinces with as supine indifference as if they had been the inheritance of his fathers. His title was disputed by Thomas, the last of the military triumvirate who transported into Europe fourscore thousand Barbarians from the banks of the Tigris and the shores of the Caspian. He formed the siege of Constantinople; but the capital was defended with spiritual and carnal weapons; a Bulgarian king assaulted the camp of the Orientals, and Thomas had the misfortune, or the weakness, to fall alive into the power of the conqueror. The hands and feet of the rebel were amputated; he was placed on an ass, and, amidst the insults of the people, was led through the streets, which he sprinkled with his blood. The depravation of manners, as savage as they were corrupt, is marked by the presence of the emperor himself. Deaf to the lamentations of a fellow-soldier, he incessantly pressed the discovery of more accomplices, till his curiosity was checked by the question of an honest or guilty minister:

“ Would

“ Would you give credit to an enemy, against  
 “ the most faithful of your friends ?” After the  
 death of his first wife, the emperor, at the request  
 of the senate, drew from her monastery Euphrosy-  
 ne, the daughter of Constantine the sixth. Her  
 august birth might justify a stipulation in the  
 marriage-contract, that her children should equal-  
 ly share the empire with their elder brother. But  
 the nuptials of Michael and Euphrosyne were  
 barren ; and she was content with the title of  
 Mother of Theophilus, his son and successor.

C H A P.

Theophi-  
 lus, A. D.  
 829, Oc-  
 tober 8,

The character of Theophilus is a rare example  
 in which religious zeal has allowed, and perhaps  
 magnified, the virtues of an heretic and a perse-  
 cutor. His valour was often felt by the enemies,  
 and his justice by the subjects, of the monarchy ;  
 but the valour of Theophilus was rash and fruit-  
 less, and his justice arbitrary and cruel. He dis-  
 played the banner of the Cross against the Sara-  
 cens ; but his five expeditions were concluded by a  
 signal overthrow ; Amorium, the native city of his  
 ancestors, was levelled with the ground, and from  
 his military toils, he derived only the surname of  
 the Unfortunate. The wisdom of a sovereign is  
 comprised in the institution of laws and the choice  
 of magistrates, and while he seems without action,  
 his civil government revolves round his centre with  
 the silence and order of the planetary system. But  
 the justice of Theophilus was fashioned on the  
 model of the Oriental despots, who, in personal  
 and irregular acts of authority, consult the reason  
 or passion of the moment, without measuring the  
 sentence

C H A P. sentence by the law or the penalty by the offence.

XLVIII.  A poor woman threw herself at the emperor's feet, to complain of a powerful neighbour, the brother of the empress, who had raised his palace-wall to such an inconvenient height, that her humble dwelling was excluded from light and air! On the proof of the fact, instead of granting, like an ordinary judge, sufficient or ample damages to the plaintiff, the sovereign adjudged to her use and benefit the palace and the ground. Nor was Theophilus content with this extravagant satisfaction: His zeal converted a civil trespass into a criminal act; and the unfortunate patrician was stripped and scourged in the public place of Constantinople. For some venial offences, some defect of equity or vigilance, the principal ministers, a præfect, a quæstor, a captain of the guards, were banished or mutilated, or scalded with boiling pitch, or burnt alive in the hippodrome; and as these dreadful examples might be the effects of error or caprice, they must have alienated from his service the best and wisest of the citizens. But the pride of the monarch was flattered in the exercise of power, or, as he thought, of virtue; and the people, safe in their obscurity, applauded the danger and debasement of their superiors. This extraordinary rigour was justified, in some measure, by its salutary consequences; since, after a scrutiny of seventeen days, not a complaint or abuse could be found in the court or city: And it might be alleged that the Greeks could be ruled only with a rod of iron, and that the public interest is the motive and law

law of the supreme judge. Yet in the crime, or C H A P.  
the suspicion, of treason, that judge is of all others XLVIII.  
the most credulous and partial. Theophilus might  
inflict a tardy vengeance on the assassins of Leo  
and the saviours of his father; but he enjoyed the  
fruits of their crime; and his jealous tyranny sacri-  
ficed a brother and a prince to the future safety of  
his life. A Persian of the race of the Sassanides  
died in poverty and exile at Constantinople, leaving  
an only son, the issue of a plebeian marriage. At  
the age of twelve years, the royal birth of Theo-  
phobus was revealed, and his merit was not un-  
worthy of his birth. He was educated in the By-  
zantine palace, a Christian and a soldier; advanced  
with rapid steps in the career of fortune and glory;  
received the hand of the emperor's sister; and was  
promoted to the command of thirty thousand  
Persians, who, like his father, had fled from the  
Mahometan conquerors. These troops, doubly  
infected with mercenary and fanatic vices, were  
desirous of revolting against their benefactor, and  
erecting the standard of their native king; but  
the loyal Theophobus rejected their offers, discon-  
certed their schemes, and escaped from their hands  
to the camp or palace of his royal brother. A  
generous confidence might have secured a faithful  
and able guardian for his wife and his infant son,  
to whom Theophilus, in the flower of his age, was  
compelled to leave the inheritance of the empire.  
But his jealousy was exasperated by envy and dis-  
ease; he feared the dangerous virtues which might  
either support or oppress their infancy and weak-  
ness; and the dying emperor demanded the head  
of

C H A P. of the Persian prince. With savage delight, he  
XLVIII. recognised the familiar features of his brother:  
“ Thou art no longer Theophobus,” he said;  
and sinking on his couch, he added, with a  
faultering voice, “ Soon, too soon, I shall be no  
“ more Theophilus !”

The Russians, who have borrowed from the  
Greeks the greatest part of their civil and eccle-  
siastical policy, preserved, till the last century, a  
singular institution in the marriage of the Czar.  
They collected, not the virgins of every rank and  
of every province, a vain and romantic idea, but  
the daughters of the principal nobles, who awaited  
in the palace the choice of their sovereign. It is  
affirmed, that a similar method was adopted in the  
nuptials of Theophilus. With a golden apple in  
his hand, he slowly walked between two lines of  
contending beauties; his eye was detained by the  
charms of Icasia, and, in the awkwardness of a first  
declaration, the prince could only observe, that, in  
this world, women had been the cause of much  
evil: “ And surely, Sir,” she pertly replied, “ they  
“ have likewise been the occasion of much good.”  
This affectation of unseasonable wit displeased the  
Imperial lover; he turned aside in disgust; Icasia  
concealed her mortification in a convent; and the  
modest silence of Theodora was rewarded with the  
golden apple. She deserved the love, but did not  
escape the severity of her lord. From the palace  
garden he beheld a vessel deeply laden, and steering  
into the port; on the discovery that the precious  
cargo of Syrian luxury was the property of his wife,  
he condemned the ship to the flames, with a sharp  
reproach,

reproach, that her avarice had degraded the character of an empress into that of a merchant. Yet his last choice entrusted her with the guardianship of the empire and her son Michael, who was left an orphan in the fifth year of his age. The restoration of images, and the final extirpation of the Iconoclasts, has endeared her name to the devotion of the Greeks; but in the fervour of religious zeal, Theodora entertained a grateful regard for the memory and salvation of her husband. After thirteen years of a prudent and frugal administration, she perceived the decline of her influence; but the second Irene imitated only the virtues of her predecessor. Instead of conspiring against the life or government of her son, she retired, without a struggle, though not without a murmur, to the solitude of private life, deploring the ingratitude, the vices, and the inevitable ruin, of the worthless youth.

Among the successors of Nero Elagabalus, we have not hitherto found the imitation of their vices, the character of a Roman prince who considered pleasure as the object of life, and virtue as the enemy of pleasure. Whatever might have been the maternal care of Theodora in the education of Michael the third, her unfortunate son was a king before he was a man. If the ambitious mother laboured to check the progress of reason, she could not cool the ebullition of passion; and her selfish policy was justly repaid by the contempt and ingratitude of the headstrong youth. At the age of eighteen, he rejected her authority, without feeling

XLVIII. himself. With Theodora, all gravity and wisdom  
retired from the court ; their place was supplied  
by the alternate dominion of vice and folly ; and it  
was impossible, without forfeiting the public esteem,  
to acquire or preserve the favour of the emperor.  
The millions of gold and silver which had been  
accumulated for the service of the state, were lavished  
on the vilest of men, who flattered his passions  
and shared his pleasures ; and in a reign of thirteen  
years, the richest of sovereigns was compelled to  
strip the palace and the churches of their precious  
furniture. Like Nero, he delighted in the  
amusements of the theatre, and sighed to be surpassed  
in the accomplishments, in which he should have  
blushed to excel. Yet the studies of Nero in music  
and poetry betrayed some symptoms of a liberal taste ;  
the more ignoble arts of the son of Theophilus were  
confined to the chariot-race of the hippodrome. The  
four factions which had agitated the peace, still  
amused the idleness of the capital : For himself, the  
emperor assumed the blue livery ; the three rival  
colours were distributed to his favourites, and in the  
vile, though eager contention, he forgot the dignity  
of his person and the safety of his dominions. He  
silenced the messenger of an invasion, who presumed  
to divert his attention in the most critical moment  
of the race ; and by his command, the importunate  
beacons were extinguished, that too frequently spread  
the alarm from Tarsus to Constantinople. The most  
skilful charioteers obtained the first place in his  
confidence and

and esteem ; their merit was profusely rewarded ; the emperor feasted in their houses, and presented their children at the baptismal font ; and while he applauded his own popularity, he affected to blame the cold and stately reserve of his predecessors. The unnatural lusts which had degraded even the manhood of Nero, were banished from the world ; yet the strength of Michael was consumed by the indulgence of love and intemperance. In his midnight revels, when his passions were inflamed by wine, he was provoked to issue the most sanguinary commands ; and if any feelings of humanity were left, he was reduced, with the return of sense, to approve the salutary disobedience of his servants. But the most extraordinary feature in the character of Michael, is the profane mockery of the religion of his country. The superstition of the Greeks might, indeed, excite the smile of a philosopher ; but his smile would have been rational and temperate, and he must have condemned the ignorant folly of a youth, who insulted the objects of public veneration. A buffoon of the court was invested in the robes of the patriarch ; his twelve metropolitans, among whom the emperor was ranked, assumed their ecclesiastical garments ; they used or abused the sacred vessels of the altar ; and in their bacchanalian feasts, the holy communion was administered in a nauseous compound of vinegar and mustard. Nor were these impious spectacles concealed from the eyes of the city. On the day of a solemn festival, the emperor, with his bishops or buffoons, rode on asses through the streets, encountered the true patriarch

**C H A P.** at the head of his clergy; and by their licentious  
**XLVIII.** shouts and obscene gestures, disordered the gravi-  
 { ty of the Christian procession. The devotion of  
 Michael appeared only in some offence to reason  
 or piety: He received his theatrical crowns from  
 the statue of the Virgin; and an Imperial tomb  
 was violated for the sake of burning the bones of  
 Constantine the Iconoclast. By this extravagant  
 conduct, the son of Theophilus became as con-  
 temptible as he was odious: Every citizen was  
 impatient for the deliverance of his country; and  
 even the favourites of the moment were appre-  
 hensive that a caprice might snatch away what a  
 caprice had bestowed. In the thirtieth year of  
 his age, and in the hour of intoxication and sleep,  
 Michael the third was murdered in his chamber,  
 by the founder of a new dynasty, whom the em-  
 peror had raised to an equality of rank and power.

**Basil I.**

**donian,**  
**A.D. 867,**  
**Sept. 24.**

The genealogy of Basil the Macedonian (if it  
 be not the spurious offspring of pride and flattery)  
 exhibits a genuine picture of the revolution of the  
 most illustrious families. The Arsacides, the rivals  
 of Rome, possessed the sceptre of the East near  
 four hundred years: A younger branch of these  
 Parthian kings continued to reign in Armenia; and  
 their royal descendants survived the partition and  
 servitude of that ancient monarchy. Two of these,  
 Artabanus and Chlienes, escaped or retired to the  
 court of Leo the first: His bounty seated them  
 in a safe and hospitable exile, in the province of  
 Macedonia: Adrianople was their final settlement.  
 During several generations, they maintained  
 the

the dignity of their birth ; and their Roman patriotism rejected the tempting offers of the Persian and Arabian powers, who recalled them to their native country. But their splendour was insensibly clouded by time and poverty ; and the father of Basil was reduced to a small farm, which he cultivated with his own hands : Yet he scorned to disgrace the blood of the Arsacides by a plebeian alliance : His wife, a widow of Adrianople, was pleased to count among her ancestors, the great Constantine ; and their royal infant was connected by some dark affinity of lineage or country with the Macedonian Alexander. No sooner was he born, than the cradle of Basil, his family, and his city, were swept away by an inundation of the Bulgarians : He was educated a slave in a foreign land ; and in this severe discipline, he acquired the hardiness of body and flexibility of mind which promoted his future elevation. In the age of youth or manhood he shared the deliverance of the Roman captives, who generously broke their fetters, marched through Bulgaria to the shores of the Euxine, defeated two armies of Barbarians, embarked in the ships which had been stationed for their reception, and returned to Constantinople, from whence they were distributed to their respective homes. But the freedom of Basil was naked and destitute : His farm was ruined by the calamities of war : After his father's death, his manual labour, or service, could no longer support a family of orphans ; and he resolved to seek a more conspicuous theatre, in which every virtue and every vice may lead to the paths

CHAP. of greatness. The first night of his arrival at Con-  
XLVIII. stantinople, without friends or money, the weary pilgrim slept on the steps of the church of St Diomedes: He was fed by the casual hospitality of a monk; and was introduced to the service of a cousin and namesake of the emperor Theophilus; who, though himself of a diminutive person, was always followed by a train of tall and handsome domestics. Basil attended his patron to the government of Peloponnesus; eclipsed, by his personal merit, the birth and dignity of Theophilus, and formed an useful connection with a wealthy and charitable matron of Patras. Her spiritual or carnal love embraced the young adventurer, whom she adopted as her son. Danielis presented him with thirty slaves; and the produce of her bounty was expended in the support of his brothers, and the purchase of some large estates in Macedonia. His gratitude or ambition still attached him to the service of Theophilus; and a lucky accident recommended him to the notice of the court. A famous wrestler, in the train of the Bulgarian ambassadors, had defied, at the royal banquet, the boldest and most robust of the Greeks. The strength of Basil was praised; he accepted the challenge; and the Barbarian champion was overthrown at the first onset. A beautiful but vicious horse was condemned to be hamstrung: It was subdued by the dexterity and courage of the servant of Theophilus; and his conqueror was promoted to an honourable rank in the Imperial stables. But it was impossible to obtain the confidence of Michael, without complying

plying with his vices ; and his new favourite, the C H A P  
great chamberlain of the palace, was raised and XLVIII.  
supported by a disgraceful marriage with a royal  
concubine, and the dishonour of his sister, who  
succeeded to her place. The public administra-  
tion had been abandoned to the Cæsar Bardas, the  
brother and enemy of Theodora ; but the arts of  
female influence persuaded Michael to hate and to  
fear his uncle ; he was drawn from Constantinople,  
under the pretext of a Cretan expedition, and stab-  
bed in the tent of audience, by the sword of the  
chamberlain, and in the presence of the emperor.  
About a month after this execution, Basil was in-  
vested with the title of Augustus and the govern-  
ment of the empire. He supported this unequal  
association till his influence was fortified by popu-  
lar esteem. His life was endangered by the ca-  
price of the emperor ; and his dignity was profan-  
ed by a second colleague, who had rowed in the  
gallies. Yet the murder of his benefactor must  
be condemned as an act of ingratitude and treason ;  
and the churches which he dedicated to the name  
of St Michael were a poor and puerile expia-  
tion of his guilt.

The different ages of Basil the first may be  
compared with those of Augustus. The situation  
of the Greek did not allow him in his earliest  
youth to lead an army against his country, or to  
proscribe the noblest of her sons ; but his aspir-  
ing genius stooped to the arts of a slave ; he dis-  
sembled his ambition and even his virtues, and  
grasped with the bloody hand of an assassin, the

C H A P. empire which he ruled with the wisdom and ten-  
XLVIII. derness of a parent. A private citizen may feel  
his interest repugnant to his duty ; but it must be  
from a deficiency of sense or courage, that an  
absolute monarch can separate his happiness from  
his glory, or his glory from the public welfare.  
The life or panegyric of Basil has, indeed, been  
composed and published under the long reign of  
his descendants ; but even their stability on the  
throne may be justly ascribed to the superior merit  
of their ancestor. In his character, his grandson  
Constantine has attempted to delineate a perfect  
image of royalty ; but that feeble prince, unless  
he had copied a real model, could not easily have  
soared so high above the level of his own conduct  
or conceptions. But the most solid praise of Basil  
is drawn from the comparison of a ruined and a  
flourishing monarchy, that which he wrested from  
the dissolute Michael, and that which he be-  
queathed to the Macedonian dynasty. The evils  
which had been sanctified by time and example,  
were corrected by his master-hand ; and he re-  
vived, if not the national spirit, at least the order  
and majesty of the Roman empire. His appli-  
cation was indefatigable, his temper cool, his un-  
derstanding vigorous and decisive ; and in his  
practice he observed that rare and salutary mo-  
deration, which pursues each virtue, at an equal  
distance between the opposite vices. His military  
service had been confined to the palace ; nor was  
the emperor endowed with the spirit or the ta-  
lents of a warrior. Yet under his reign the  
Roman arms were again formidable to the Bar-  
barians.

bárarians. As soon as he had formed a new army C H A P.  
 by discipline and exercise, he appeared in person XLVIII.  
 on the banks of the Euphrates, curbed the pride of   
 the Saracens, and suppressed the dangerous though  
 just revolt of the Manichæans. His indignation  
 against a rebel who had long eluded his pursuit,  
 provoked him to wish and to pray, that, by the  
 grace of God, he might drive three arrows into  
 the head of Chrysochir. That odious head, which  
 had been obtained by treason rather than by va-  
 lour, was suspended from a tree, and thrice ex-  
 posed to the dexterity of the Imperial archer : A  
 base revenge against the dead, more worthy of the  
 times, than of the character of Basil. But his  
 principal merit was in the civil administration of  
 the finances and of the laws. To replenish an  
 exhausted treasury, it was proposed to resume the  
 lavish and ill-placed gifts of his predecessor : His  
 prudence abated one moiety of the restitution ;  
 and a sum of twelve hundred thousand pounds  
 was instantly procured to answer the most pressing  
 demands, and to allow some space for the mature  
 operations of œconomy. Among the various  
 schemes for the improvement of the revenue, a  
 new mode was suggested of capitation, or tribute,  
 which would have too much depended on the ar-  
 bitrary discretion of the assessors. A sufficient list  
 of honest and able agents was instantly produced  
 by the minister ; but on the more careful scrutiny  
 of Basil himself, only two could be found, who  
 might be safely entrusted with such dangerous  
 powers ; and they justified his esteem by declin-  
 ing his confidence. But the serious and success-

C H A P. ful diligence of the emperor established by de-  
 XLVIII. grees an equitable balance of property and pay-  
 ————— ment, of receipt and expenditure ; a peculiar fund  
 was appropriated to each service ; and a public  
 method secured the interest of the prince and the  
 property of the people. After reforming the  
 luxury, he assigned two patrimonial estates to sup-  
 ply the decent plenty of the Imperial table : The  
 contributions of the subject were reserved for his  
 defence ; and the residue was employed in the  
 embellishment of the capital and provinces. A  
 taste for building, however costly, may deserve  
 some praise and much excuse ; from thence indus-  
 try is fed, art is encouraged, and some object is at-  
 tained of public emolument or pleasure : The use  
 of a road, an aqueduct, or an hospital, is obvious  
 and solid ; and the hundred churches that arose  
 by the command of Basil, were consecrated to the  
 devotion of the age. In the character of a judge,  
 he was assiduous and impartial ; desirous to save,  
 but not afraid to strike : The oppressors of the  
 people were severely chastised ; but his personal  
 foes, whom it might be unsafe to pardon, were  
 condemned, after the loss of their eyes, to a life  
 of solitude and repentance. The change of lan-  
 guage and manners demanded a revision of the  
 obsolete jurisprudence of Justinian : The volu-  
 minous body of his Institutes, Pandects, Code,  
 and Novels, was digested under forty titles, in the  
 Greek idiom ; and the *Basilics*, which were im-  
 proved and completed by his son and grandson,  
 must be referred to the original genius of the  
 founder of their race. This glorious reign was  
 terminated

terminated by an accident in the chase. A furious stag entangled his horns in the belt of Basil, and raised him from his horse: He was rescued by an attendant, who cut the belt and slew the animal; but the fall, or the fever, exhausted the strength of the aged monarch, and he expired in the palace, amidst the tears of his family and people. If he struck off the head of the faithful servant, for presuming to draw his sword against his sovereign; the pride of despotism, which had lain dormant in his life, revived in the last moments of despair, when he no longer wanted or valued the opinion of mankind.

Of the four sons of the emperor, Constantine died before his father, whose grief and credulity were amused by a flattering impostor and a vain apparition. Stephen, the youngest, was content with the honours of a patriarch and a saint; both Leo and Alexander were alike invested with the purple, but the powers of government were solely exercised by the elder brother. The name of Leo VI. has been dignified with the title of *philosopher*; and the union of the prince and the sage, of the active and speculative virtues, would indeed constitute the perfection of human nature. But the claims of Leo are far short of this ideal excellence. Did he reduce his passions and appetites under the dominion of reason? His life was spent in the pomp of the palace, in the society of his wives and concubines; and even the clemency which he shewed, and the peace which he strove to preserve, must be imputed to the softness and indolence of his character. Did he

C H A P. subdue his prejudices, and those of his subjects?

XLVIII. His mind was tinged with the most puerile superstition; the influence of the clergy, and the errors of the people, were consecrated by his laws; and the oracles of Leo, which reveal, in prophetic stile, the fates of the empire, are founded on the arts of astrology and divination. If we still inquire the reason of his sage appellation, it can only be replied, that the son of Basil was less ignorant than the greater part of his contemporaries in church and state; that his education had been directed by the learned Photius; and that several books of profane and ecclesiastical science were composed by the pen, or in the name, of the Imperial *philosopher*. But the reputation of his philosophy and religion was overthrown by a domestic vice, the repetition of his nuptials. The primitive ideas of the merit and holiness of celibacy were preached by the monks, and entertained by the Greeks. Marriage was allowed as a necessary means for the propagation of mankind; after the death of either party, the survivor might satisfy, by a *second* union, the weakness or the strength of the flesh: But a *third* marriage was censured as a state of legal fornication; and a *fourth* was a sin or scandal as yet unknown to the Christians of the East. In the beginning of his reign, Leo himself had abolished the state of concubines, and condemned, without annulling, third marriages; but his patriotism and love soon compelled him to violate his own laws, and to incur the penance, which, in a similar case, he had imposed on his subjects. In his three first alliances, his nuptial  
bed

bed was unfruitful; the emperor required a female companion, and the empire a legitimate heir. The beautiful Zoe was introduced into the palace as a concubine; and after a trial of her fecundity, and the birth of Constantine, her lover declared his intention of legitimating the mother and the child, by the celebration of his fourth nuptials. But the patriarch Nicholas refused his blessing: The Imperial baptism of the young prince was obtained by a promise of separation; and the contumacious husband of Zoe was excluded from the communion of the faithful. Neither the fear of exile, nor the desertion of his brethren, nor the authority of the Latin church, nor the danger of failure or doubt in the succession to the empire, could bend the spirit of the inflexible monk. After the death of Leo, he was recalled from exile to the civil and ecclesiastical administration; and the edict of union which was promulgated in the name of Constantine, condemned the future scandal of fourth marriages, and left a tacit imputation on his own birth.

In the Greek language *purple* and *porphyry* are the same word: And as the colours of nature are invariable, we may learn, that a dark deep red was the Tyrian dye which stained the purple of the ancients. An apartment of the Byzantine palace was lined with porphyry: It was reserved for the use of the pregnant empresses; and the royal birth of their children was expressed by the appellation of *porphyrogenite*, or born in the purple. Several of the Roman princes had been blessed with

**C H A P.** with an heir; but this peculiar surname was first  
**XLVIII.** applied to Constantine the seventh. His life and  
 titular reign were of equal duration; but of fifty-four years, six had elapsed before his father's death; and the son of Leo was ever the voluntary or reluctant subject of those who oppressed his weakness or abused his confidence. His uncle Alexander, who had long been invested with the title of Augustus, was the first colleague and governor of the young prince: But in a rapid career of vice and folly, the brother of Leo already emulated the reputation of Michael; and when he was extinguished by a timely death, he entertained a project of castrating his nephew, and leaving the empire to a worthless favourite. The succeeding years of the minority of Constantine were occupied by his mother Zoe, and a succession of council of seven regents, who pursued their interest, gratified their passions, abandoned the republic, supplanted each other, and finally vanished in the presence of a soldier. From an obscure origin, Romanus Lecapenus had raised himself to the command of the naval armies; and in the anarchy of the times, had deserved, or at least had obtained, the national esteem. With a victorious and affectionate fleet, he sailed from the mouth of the Danube into the harbour of Constantinople, and was hailed as the deliverer of the people, and the guardian of the prince. His supreme office was at first defined by the new appellation of father of the emperor; but Romanus soon disdained the subordinate powers of a minister, and assumed, with the titles of Cæsar and Augustus, the full independence

independence of royalty, which he held near five and twenty years. His three sons, Christopher, Stephen, and Constantine, were successively adorned with the same honours, and the lawful emperor was degraded from the first to the fifth rank in this college of princes. Yet, in the preservation of his life and crown, he might still applaud his own fortune and the clemency of the usurper. The examples of ancient and modern history would have excused the ambition of Romanus: The powers and the laws of the empire were in his hand; the spurious birth of Constantine would have justified his exclusion; and the grave or the monastery was open to receive the son of the concubine. But Lecapenus does not appear to have possessed either the virtues or the vices of a tyrant. The spirit and activity of his private life dissolved away in the sunshine of the throne; and in his licentious pleasures, he forgot the safety both of the republic and of his family. Of a mild and religious character, he respected the sanctity of oaths, the innocence of the youth, the memory of his parents, and the attachment of the people. The studious temper and retirement of Constantine disarmed the jealousy of power; his books and music, his pen and his pencil, were a constant source of amusement; and if he could improve a scanty allowance by the sale of his pictures, if their price was not enhanced by the name of the artist, he was endowed with a personal talent, which few princes could employ in the hour of adversity.

The

**C H A P.** The fall of Romanus was occasioned by his  
**XLVIII.** own vices and those of his children. After the  
 ————— decease of Christopher, his eldest son, the two  
**Constantine VII.** surviving brothers quarrelled with each other, and  
**A. D. 945,** conspired against their father. At the hour of  
**Jan. 27.** noon, when all strangers were regularly excluded  
 from the palace, they entered his apartment with  
 an armed force, and conveyed him, in the habit of  
 a monk, to a small island in the Propontis, which  
 was peopled by a religious community. The ru-  
 mour of this domestic revolution excited a tumult  
 in the city ; but Porphyrogenitus alone, the true  
 and lawful emperor, was the object of the public  
 care ; and the sons of Lecapenus were taught, by  
 tardy experience, that they had atchieved a guilty  
 and perilous enterprise for the benefit of their rival.  
 Their sister Helena, the wife of Constantine, re-  
 vealed, or supposed, their treacherous design of  
 assassinating her husband at the royal banquet.  
 His loyal adherents were alarmed ; and the two  
 usurpers were prevented, seized, degraded from  
 the purple, and embarked for the same island and  
 monastery where their father had been so lately  
 confined. Old Romanus met them on the beach  
 with a sarcastic smile, and, after a just reproach  
 of their folly and ingratitude, presented his Imperial  
 colleagues with an equal share of his water and  
 vegetable diet. In the fortieth year of his reign,  
 Constantine the seventh obtained the possession  
 of the Eastern world, which he ruled, or seemed  
 to rule, near fifteen years. But he was devoid of  
 that energy of character which could emerge into a  
 life

life of action and glory ; and the studies which C H A P.  
 had amused and dignified his leisure, were incom- XLVIII.  
 patible with the serious duties of a sovereign.   
 The emperor neglected the practice, to instruct  
 his son Romanus in the theory of government ;  
 while he indulged the habits of intemperance and  
 sloth, he dropt the reins of the administration into  
 the hands of Helena his wife ; and, in the shifting  
 scene of her favour and caprice, each minister  
 was regretted in the promotion of a more worth-  
 less successor. Yet the birth and misfortunes of  
 Constantine had endeared him to the Greeks ;  
 they excused his failings ; they respected his  
 learning, his innocence, his charity, and his love of  
 justice ; and the ceremony of his funeral was  
 mourned with the unfeigned tears of his subjects.  
 The body, according to ancient custom, lay in  
 state in the vestibule of the palace ; and the civil  
 and military officers, the patricians, the senate,  
 and the clergy, approached in due order to adore  
 and kiss the inanimate corpse of their sovereign.  
 Before the procession moved towards the Imperial  
 sepulchre, an herald proclaimed this awful admo-  
 nition : “ Arise, O king of the world, and obey the  
 “ summons of the King of kings !”

The death of Constantine was imputed to poi-  
 son ; and his son Romanus, who derived that name  
 from his maternal grandfather, ascended the  
 throne of Constantinople. A prince who, at the  
 age of twenty, could be suspected of anticipating  
 his inheritance, must have been already lost in  
 the public esteem ; yet Romanus was rather weak  
 than wicked ; and the largest share of the guilt  
 was

Romanus

C H A P. was transferred to his wife, Theophano, a woman  
 XLVIII. of base origin, masculine spirit, and flagitious  
 manners. The sense of personal glory and public happiness, the true pleasures of royalty, were unknown to the son of Constantine ; and while the two brothers, Nicephorus and Leo, triumphed over the Saracens, the hours which the emperor owed to his people were consumed in strenuous idleness. In the morning he visited the circus ; at noon he feasted the senators ; the greater part of the afternoon he spent in the *sphæristerium*, or tennis-court, the only theatre of his victories ; from thence he passed over to the Asiatic side of the Bosphorus, hunted and killed four wild boars of the largest size, and returned to the palace, proudly content with the labours of the day. In strength and beauty he was conspicuous above his equals : Tall and straight as a young cypress, his complexion was fair and florid, his eyes sparkling, his shoulders broad, his nose long and aquiline. Yet even these perfections were insufficient to fix the love of Theophano ; and, after a reign of four years, she mingled for her husband the same deadly draught which she had composed for his father.

Nicephorus II.  
 Phocas,  
 A.D. 968,  
 August 6.

By his marriage with this impious woman, Romanus the younger left two sons, Basil the second and Constantine the ninth, and two daughters, Theophano and Anne. The eldest sister was given to Otho the second, emperor of the West ; the younger became the wife of Wolodomir, great duke and apostle of Russia, and, by the marriage of her grand-daughter with Henry the first, king of

of France, the blood of the Macedonians, and perhaps of the Arsacides, still flows in the veins of the Bourbon line. After the death of her husband, the empress aspired to reign in the name of her sons, the elder of whom was five, and the younger only two years of age; but she soon felt the instability of a throne, which was supported by a female who could not be esteemed, and two infants who could not be feared. Theophano looked around for a protector, and threw herself into the arms of the bravest soldier; her heart was capricious; but the deformity of the new favourite rendered it more than probable that interest was the motive and excuse of her love. Nicephorus Phocas united, in the popular opinion, the double merit of an hero and a saint. In the former character, his qualifications were genuine and splendid: The descendant of a race, illustrious by their military exploits, he had displayed, in every station and in every province, the courage of a soldier and the conduct of a chief; and Nicephorus was crowned with recent laurels, from the important conquest of the isle of Crete. His religion was of a more ambiguous cast; and his hair-cloth, his fasts, his pious idiom, and his wish to retire from the business of the world, were a convenient mask for his dark and dangerous ambition. Yet he imposed on an holy patriarch, by whose influence, and by a decree of the senate, he was entrusted, during the minority of the young princes, with the absolute and independent command of the Oriental armies. As soon

**C H A P.** soon as he had secured the leaders and the troops,  
**XLVIII.** he boldly marched to Constantinople, trampled  
on his enemies, avowed his correspondence with the empress, and, without degrading her sons, assumed with the title of Augustus, the pre-eminence of rank and the plenitude of power. But his marriage with Theophano was refused by the same patriarch who had placed the crown on his head: By his second nuptials he incurred a year of canonical penance; a bar of spiritual affinity was opposed to their celebration; and some evasion and perjury were required to silence the scruples of the clergy and people. The popularity of the emperor was lost in the purple: In a reign of six years he provoked the hatred of strangers and subjects; and the hypocrisy and avarice of the first Nicephorus were revived in his successor. Hypocrisy I shall never justify or palliate; but I will dare to observe, that the odious vice of avarice is of all others most hastily arraigned, and most unmercifully condemned. In a private citizen, our judgment seldom expects an accurate scrutiny into his fortune and expence; and in a steward of the public treasure, frugality is always a virtue, and the increase of taxes too often an indispensable duty. In the use of his patrimony, the generous temper of Nicephorus had been proved; and the revenue was strictly applied to the service of the state: Each spring the emperor marched in person against the Saracens; and every Roman might compute the employment of his taxes in triumphs, conquests, and the security of the Eastern barrier.

Among

Among the warriors who promoted his elevation, and served under his standard, a noble and valiant Armenian had deserved and obtained the most eminent rewards. The stature of John Zimisces was below the ordinary standard; but this diminutive body was endowed with strength, beauty, and the soul of an hero. By the jealousy of the emperor's brother, he was degraded from the office of general of the East, to that of director of the posts, and his murmurs were chastised with disgrace and exile. But Zimisces was ranked among the numerous lovers of the empress; on her intercession, he was permitted to reside at Chalcedon, in the neighbourhood of the capital: Her bounty was repaid in his clandestine and amorous visits to the palace; and Theophano consented with alacrity to the death of an ugly and penurious husband. Some bold and trusty conspirators were concealed in her most private chambers; in the darkness of a winter night, Zimisces, with his principal companions, embarked in a small boat, traversed the Bosphorus, landed at the palace stairs, and silently ascended a ladder of ropes, which was cast down by the female attendants. Neither his own suspicions, nor the warnings of his friends, nor the tardy aid of his brother Leo, nor the fortress which he had erected in the palace, could protect Nicephorus from a domestic foe, at whose voice every door was opened to the assassins. As he slept on a bearskin, on the ground, he was roused by their noisy intrusion, and thirty daggers glittered before his

XLVIII. his hands in the blood of his sovereign; but he enjoyed the inhuman spectacle of revenge. The murder was protracted by insult and cruelty; and as soon as the head of Nicephorus was shewn from the window, the tumult was hushed, and the Armenian was emperor of the East. On the day of his coronation, he was stopped on the threshold of St Sophia, by the intrepid patriarch; who charged his conscience with the deed of treason and blood; and required, as a sign of repentance, that he should separate himself from his more criminal associate. This sally of apostolic zeal was not offensive to the prince, since he could neither love nor trust a woman who had repeatedly violated the most sacred obligations; and Theophano, instead of sharing his Imperial fortune, was dismissed with ignominy from his bed and palace. In their last interview, she displayed a frantic and impotent rage; accused the ingratitude of her lover; assaulted with words and blows her son Basil, as he stood silent and submissive in the presence of a superior colleague; and avowed her own prostitution, in proclaiming the illegitimacy of his birth. The public indignation was appeased by her exile, and the punishment of the meaner accomplices: The death of an unpopular prince was forgiven; and the guilt of Zimisces was forgotten in the splendour of his virtues. Perhaps his profusion was less useful to the state than the avarice of Nicephorus; but his gentle and generous behaviour delighted all who approached his person; and it was only in the paths of victory that he trod in the footsteps of his predecessor.

predecessors. The greatest part of his reign was employed in the camp and the field: His personal valour and activity was signalized on the Danube and the Tigris, the ancient boundaries of the Roman world; and by his double triumph over the Russians and the Saracens, he deserved the titles of saviour of the empire, and conqueror of the East. In his last return from Syria, he observed that the most fruitful lands of his new provinces were possessed by the eunuchs. “And is it for them,” he exclaimed, with honest indignation, “that we have fought and conquered? Is it for them that we shed our blood, and exhaust the treasures of our people?” The complaint was re-echoed to the palace, and the death of Zimisce is strongly marked with the suspicion of poison.

Under this usurpation, or regency, of twelve years, the two lawful emperors, Basil and Constantine, had silently grown to the age of manhood. Their tender years had been incapable of dominion: The respectful modesty of their attendance and salutation, was due to the age and merit of their guardians: The childless ambition of those guardians had no temptation to violate their right of succession: Their patrimony was ably and faithfully administered; and the premature death of Zimisce was a loss, rather than a benefit, to the sons of Romanus. Their want of experience detained them twelve years longer the obscure and voluntary pupils of a minister, who extended his reign by persuading them to indulge the pleasures of youth, and to disdain the labours of government. In this silken web, the weakness of Constantine

C H A P. was for ever entangled: But his elder brother felt  
XLVIII. the impulse of genius and the desire of action;  
he frowned, and the minister was no more. Basil was the acknowledged sovereign of Constantinople and the provinces of Europe; but Asia was oppressed by two veteran generals, Phocas and Sclerus, who alternately friends and enemies, subjects and rebels, maintained their independence, and laboured to emulate the example of successful usurpation. Against these domestic enemies, the son of Romanus first drew his sword, and they trembled in the presence of a lawful and high-spirited prince. The first, in the front of battle, was thrown from his horse, by the stroke of poison, or an arrow: The second, who had been twice loaded with chains, and twice invested with the purple, was desirous of ending in peace the small remainder of his days. As the aged suppliant approached the throne, with dim eyes and faltering steps, leaning on his two attendants, the emperor exclaimed, in the insolence of youth and power, “ And “ is this the man who has so long been the object “ of our terror?” After he had confirmed his own authority, and the peace of the empire, the trophies of Nicephorus and Zimisces would not suffer their royal pupil to sleep in the palace. His long and frequent expeditions against the Saracens were rather glorious than useful to the empire; but the final destruction of the kingdom of Bulgaria appears, since the time of Belisarius, the most important triumph of the Roman arms. Yet instead of applauding their victorious prince, his subjects detested the rapacious and rigid avarice  
of

of Basil; and in the imperfect narrative of his exploits, we can only discern the courage, patience, and ferociousness of a soldier. A vicious education, which could not subdue his spirit, had clouded his mind; he was ignorant of every science; and the remembrance of his learned and feeble grandsire might encourage a real or affected contempt of laws and lawyers, of artists and arts. Of such a character, in such an age, superstition took a firm and lasting possession; after the first licence of his youth, Basil the second devoted his life, in the palace and the camp, to the penance of an hermit, wore the monastic habit under his robes and armour, observed a vow of continence, and imposed on his appetites a perpetual abstinence from wine and flesh. In the sixty-eighth year of his age, his martial spirit urged him to embark in person for a holy war against the Saracens of Sicily; he was prevented by death, and Basil, surnamed the Slayer of the Bulgarians, was dismissed from the world, with the blessings of the clergy and the curses of the people. After his decease, his brother Constantine enjoyed, about three years, the power, or rather the pleasures, of royalty; and his only care was the settlement of the succession. He had enjoyed, sixty-six years, the title of Augustus; and the reign of the two brothers is the longest, and most obscure of the Byzantine history.

A lineal succession of five emperors, in a period of one hundred and sixty years, had attached the loyalty of the Greeks to the Macedonian dynasty, which had been thrice respected by the usurpers of their power. After the death of Constantine

**C H A P. IX.** the last male of the royal race, a new and  
**XLVIII.** broken scene presents itself, and the accumulated  
— years of twelve emperors do not equal the space  
of his single reign. His elder brother had preferred his private chastity to the public interest, and Constantine himself had only three daughters; Eudocia, who took the veil, and Zoe and Theodora, who were preserved till a mature age in a state of ignorance and virginity. When their marriage was discussed in council of their dying father, the cold or pious Theodora refused to give an heir to the empire, but her sister Zoe presented herself a willing victim at the altar. Romanus Argyrus, a patrician of a graceful person and fair reputation, was chosen for her husband, and, on his declining that honour, was informed, that blindness or death was the second alternative. The motive of his reluctance was conjugal affection, but his faithful wife sacrificed her own happiness to his safety and greatness; and her entrance into a monastery removed the only bar to the Imperial nuptials. After the decease of Constantine, the sceptre devolved to Romanus the third; but his labours at home and abroad were equally feeble and fruitless; and the mature age, the forty-eight years of Zoe, were less favourable to the hopes of pregnancy than to the indulgence of pleasure. Her favourite chamberlain was an handsome Paphlagonian of the name of Michael, whose first trade had been that of a money-changer; and Romanus, either from gratitude or equity, connived at their criminal intercourse, or accepted a slight assurance of their innocence. But Zoe soon justified the Roman

Roman maxim, that every adultress is capable of poisoning her husband; and the death of Romanus was instantly followed by the scandalous marriage and elevation of Michael the fourth. The expectations of Zoe were however disappointed: Instead of a vigorous and grateful lover, she had placed in her bed, a miserable wretch, whose health and reason were impaired by epileptic fits, and whose conscience was tormented by despair and remorse. The most skilful physicians of the mind and body were summoned to his aid; and his hopes were amused by frequent pilgrimages to the baths, and to the tombs of the most popular saints; the monks applauded his penance, and, except restitution, (but to whom should he have restored?) Michael sought every method of expiating his guilt. While he groaned and prayed in sackcloth and ashes, his brother, the eunuch John, smiled at his remorse, and enjoyed the harvest of a crime of which himself was the secret and most guilty author. His administration was only the art of satiating his avarice, and Zoe became a captive in the palace of her fathers and in the hands of her slaves. When he perceived the irretrievable decline of his brother's health, he introduced his nephew, another Michael, who derived his surname of Calaphates from his father's occupation in the careening of vessels: At the command of the eunuch, Zoe adopted for her son, the son of a mechanic; and this fictitious heir was invested with the title and purple of the Cæsars, in the presence of the senate and clergy. So feeble was the character of Zoe, that she was oppressed

 but the murmurs, and at length the clamours, of  
 Constantinople, deplored the exile of Zoe, the  
 daughter of so many emperors; her vices were for-  
 gotten, and Michael was taught, that there is a  
 period in which the patience of the tamest slaves  
 rises into fury and revenge. The citizens of every  
 degree assembled in a formidable tumult, which  
 lasted three days; they besieged the palace, forced  
 the gates, recalled their *mothers*, Zoe from her

 April 21. beheld with surprise the two royal sisters seated  
 on the same throne, presiding in the senate, and  
 giving audience to the ambassadors of the nations.  
 But this singular union subsisted no more than  
 two months; the two sovereigns, their tempers,  
 interests, and adherents, were secretly hostile to  
 each other; and as Theodora was still adverse to  
 marriage, the indefatigable Zoe, at the age of  
 sixty, consented, for the public good, to sustain  
 the embraces of a third husband, and the cen-

of *Monomachus*, the single combatant, must have been expressive of his valour and victory in some public or private quarrel. But his health was broken by the tortures of the gout, and his dissolute reign was spent in the alternative of sickness and pleasure. A fair and noble widow had accompanied Constantine in his exile to the isle of Lesbos, and Selerena gloried in the appellation of his mistress. After his marriage and elevation, she was invested with the title and pomp of *Augusta*; and occupied a contiguous apartment in the palace. The lawful consort (such was the delicacy or corruption of Zoe) consented to this strange and scandalous partition; and the emperor appeared in public between his wife and his concubine. He survived them both; but the last measures of Constantine to change the order of succession were prevented by the more vigilant friends of Theodora; and after his decease, she resumed, with the general consent, the possession of her inheritance. In her name, and by the influence of four eunuchs, the Eastern world was peaceably governed about nineteen months; and as they wished to prolong their dominion, they persuaded the aged princess to nominate for her successor Michael the sixth. The surname of *Stratioticus* declares his military profession; but the crazy and decrepit veteran could only see with the eyes, and execute with the hands, of his ministers. Whilst he ascended the throne, Theodora sunk into the grave; the last of the Macedonian or Basilian dynasty. I have hastily reviewed, and gladly dismiss this shameful and destructive period of twenty-eight years, in which

Isaac I.  
 Comne-  
 nus, A. D.  
 1057,  
 Aug. 31.

From this night of slavery, a ray of freedom, or at least of spirit, begins to emerge: The Greeks either preserved or revived the use of surnames, which perpetuate the fame of hereditary virtue; and we now discern the rise, succession, and alliances of the last dynasties of Constantinople and Trebizond. The *Comneni*, who upheld for a while the fate of the sinking empire, assumed the honour of a Roman origin: But the family had been long since transported from Italy to Asia. Their patrimonial estate was situate in the district of Castamona in the neighbourhood of the Euxine; and one of their chiefs, who had already entered the paths of ambition, revisited with affection, perhaps with regret, the modest though honourable dwelling of his fathers. The first of their line was the illustrious Manuel, who, in the reign of the second Basil, contributed by war and treaty to appease the troubles of the East: He left in a tender age, two sons, Isaac and John, whom with the consciousness of desert, he bequeathed to the gratitude and favour of his sovereign. The noble youths were carefully trained in the learning of the monastery, the arts of the palace, and the exercises of the camp: And from the domestic service of the guards, they were rapidly promoted to the command of provinces and armies. Their fraternal union doubled the force and reputation of the Comneni, and their ancient nobility was illustrated by the marriage of the two brothers, with a captive princess

princess of Bulgaria, and the daughter of a patriarchian, who had obtained the name of *U'baron* from the number of enemies whom he had sent to the infernal shades. The soldiers had served with reluctant loyalty a series of effeminate masters; the elevation of Michael the sixth was a personal insult to the more deserving generals; and their discontent was inflamed by the parsimony of the emperor and the insolence of the eunuchs. They secretly assembled in the sanctuary of St Sophia, and the votes of the military synod would have been unanimous in favour of the old and valiant Catacalon, if the patriotism or modesty of the veteran had not suggested the importance of birth as well as merit in the choice of a sovereign. Isaac Comnenus was approved by general consent, and the associates separated without delay to meet in the plains of Phrygia, at the head of their respective squadrons and detachments. The cause of Michael was defended in a single battle by the mercenaries of the Imperial guard, who were aliens to the public interest, and animated only by a principle of honour and gratitude. After their defeat, the fears of the emperor solicited a treaty, which was almost accepted by the moderation of the Comnenial. But the former was betrayed by his ambassadors, and the latter was prevented by his friends. The solitary Michael submitted to the voice of the people; the patriarch annulled their oath of allegiance; and as he shaved the head of the royal monk, congratulated his beneficial exchange of temporal royalty for the kingdom of heaven: An exchange, however, which the priest,

on

CHAP. on his own account, would probably have de-  
 XLVIII. clined. By the hands of the same patriarch, Isaac  
 Comnenus was solemnly crowned: The sword  
 which he inscribed on his coins, might be an of-  
 fensive symbol, if it implied his title by conquest;  
 but this sword would have been drawn against the  
 foreign and domestic enemies of the state. The  
 decline of his health and vigour suspended the  
 operation of active virtue; and the prospect of ap-  
 proaching death determined him to interpose some  
 moments between life and eternity. But instead  
 of leaving the empire as the marriage portion of  
 his daughter, his reason and inclination concurred  
 in the preference of his brother John, a sol-  
 dier, a patriot, and the father of five sons, the fu-  
 ture pillars of an hereditary succession. His first  
 modest reluctance might be the natural dictates of  
 discretion and tenderness, but his obstinate and  
 successful perseverance, however it may dazzle  
 with the shew of virtue, must be censured as a  
 criminal desertion of his duty, and a rare offence  
 against his family and country. The purple which  
 he had refused was accepted by Constantine Ducas,  
 a friend of the Comnenian house, and whose noble  
 birth was adorned with the experience and reputa-  
 tion of civil policy. In the monastic habit, Isaac  
 recovered his health, and survived two years his  
 voluntary abdication. At the command of his ab-  
 bot, he observed the rule of St Basil, and executed  
 the most servile offices of the convent: But his la-  
 tent vanity was gratified by the frequent and re-  
 spectful visits of the reigning monarch, who re-  
 vered in his person the character of a benefactor  
 and a saint.

If

If Constantine the eleventh were indeed the subject most worthy of empire, we must pity the debasement of the age and nation in which he was chosen. In the labour of puerile declamations he fought, without obtaining, the crown of eloquence, more precious in his opinion, than that of Rome; and in the subordinate functions of a judge, he forgot the duties of a sovereign and a warrior. Far from imitating the patriotic indifference of the authors of his greatness, Ducas was anxious only to secure, at the expence of the republic, the power and prosperity of his children. His three sons, Michael the seventh, Andronicus the first, and Constantine the twelfth, were invested, in a tender age, with the equal title of Augustus; and the succession was speedily opened by their father's death. His widow, Eudocia, was entrusted with the administration; but experience had taught the jealousy of the dying monarch to protect his sons from the danger of her second nuptials; and her solemn engagement, attested by the principal senators, was deposited in the hands of the patriarch. Before the end of seven months, the wants of Eudocia, or those of the state, called aloud for the male virtues of a soldier: And her heart had already chosen Romanus Diogenes, whom she raised from the scaffold to the throne. The discovery of a treasonable attempt had exposed him to the severity of the laws: His beauty and valour absolved him in the eyes of the empress; and Romanus, from a mild exile, was recalled on the second day to the command of the Oriental armies. Her royal choice was yet unknown

**C H A P.** unknown to the public, and the promise which  
**XLVIII.** would have betrayed her falsehood and levity, was  
 stolen by a dextrous emissary from the ambition of  
 the patriarch. Xiphilin at first alleged the sanctity  
 of oaths and the sacred nature of a trust; but a  
 whisper that his brother was the future emperor,  
 relaxed his scruples, and forced him to confess  
 that the public safety was the supreme law. He  
 resigned the important paper; and when his hopes  
 were confounded by the nomination of Romanus,  
 he could no longer regain his security, retract his  
 declarations, nor oppose the second nuptials of  
 the empress. Yet a murmur was heard in the  
 palace; and the Barbarian guards had raised their  
 battle-axes in the cause of the house of Ducas, till  
 the young princes were soothed by the tears of their  
 mother and the solemn assurances of the fidelity of  
 their guardian, who filled the Imperial station with  
 dignity and honour. Hereafter I shall relate his  
 valiant but unsuccessful efforts to resist the pro-  
 gress of the Turks. His defeat and captivity  
 inflicted a deadly wound on the Byzantine mo-  
 narchy of the East; and after he was released from  
 the chains of the sultan, he vainly sought his wife  
 and his subjects. His wife had been thrust into  
 a monastery, and the subjects of Romanus had  
 embraced the rigid maxim of the civil law, that a  
 prisoner in the hands of the enemy is deprived, as  
 by the stroke of death, of all the public and pri-  
 vate rights of a citizen. In the general consterna-  
 tion, the Cæsar John asserted the indefeasible right  
 of his three nephews: Constantinople listened to  
 his voice; and the Turkish captive was proclaim-

ed in the capital, and received on the frontier, as an enemy of the republic. Romanus was not more fortunate in domestic than in foreign war: The loss of two battles compelled him to yield, on the assurance of fair and honourable treatment; but his enemies were devoid of faith or humanity; and, after the cruel extinction of his sight, his wounds were left to bleed and corrupt, till in a few days he was relieved from a state of misery. Under the triple reign of the house of Ducas, the two younger brothers were reduced to the vain honours of the purple; but the eldest, the pusillanimous Michael, was incapable of sustaining the Roman sceptre; and his surname of *Parapinaces* denotes the reproach which he shared with an avaricious favourite, who enhanced the price, and diminished the measure, of wheat. In the school of Psellus, and after the example of his mother, the son of Eudocia made some proficiency in philosophy and rhetoric; but his character was degraded, rather than ennobled, by the virtues of a monk and the learning of a sophist. Strong in the contempt of their sovereign and their own esteem, two generals at the head of the European and Asiatic legions assumed the purple at Adrianople and Nice. Their revolt was in the same month; they bore the same name of Nicephorus; but the two candidates were distinguished by the surnames of Bryennius and Botaniates; the former in the maturity of wisdom and courage, the latter conspicuous, only by the memory of his past exploits. While Botaniates advanced with cautious and dilatory steps, his active competitor stood in arms before the gates

 and pillaging a suburb; and the people, who would  
 have hailed the rebel, rejected and repulsed the  
 incendiary of his country. This change of the  
 public opinion was favourable to Botaniates, who  
 at length, with an army of Turks, approached  
 the shores of Chalcedon. A formal invitation,  
 in the name of the patriarch, the synod, and the  
 senate, was circulated through the streets of Con-  
 stantinople; and the general assembly, in the  
 dome of St Sophia, debated, with order and calm-  
 ness, on the choice of their sovereign. The guards  
 of Michael would have dispersed this unarmed  
 multitude; but the feeble emperor, applauding  
 his own moderation and clemency, resigned the  
 ensigns of royalty, and was rewarded with the  
 monastic habit, and the title of archbishop of  
 Ephesus. He left a son, a Constantine, born and  
 educated in the purple; and a daughter of the  
 house of Ducas illustrated the blood, and con-  
 firmed the succession of the Comnenian dynasty.

John Comnenus, the brother of the emperor  
 Isaac, survived in peace and dignity his generous  
 refusal of the sceptre. By his wife Anne, a wo-  
 man of masculine spirit and policy, he left eight  
 children: The three daughters multiplied the Com-  
 nenian alliances with the noblest of the Greeks: Of  
 the five sons, Manuel was stopped by a premature  
 death; Isaac and Alexius restored the Imperial  
 greatness of their house, which was enjoyed with-  
 out toil or danger by the two younger brethren,

Adrian

**Adrian and Nicephorus.** Alexius, the third and most illustrious of the brothers, was endowed by nature with the choicest gifts both of mind and body : They were cultivated by a liberal education, and exercised in the school of obedience and adversity. The youth was dismissed from the perils of the Turkish war, by the paternal care of the emperor Romanus ; but the mother of the Comneni, with her aspiring race, was accused of treason, and banished, by the sons of Ducas, to an island in the Propontis. The two brothers soon emerged into favour and action, fought by each other's side against the rebels and Barbarians, and adhered to the emperor Michael, till he was deserted by the world and by himself. In his first interview with Botaniates, " Prince," said Alexius, with a noble frankness, " my duty rendered me your enemy ; " the decrees of God and of the people have made " me your subject. Judge of my future loyalty " by my past opposition." The successor of Michael entertained him with esteem and confidence : His valour was employed against three rebels, who disturbed the peace of the empire, or at least of the emperors. Ursel, Bryennius, and Basilacius, were formidable by their numerous forces, and military fame : They were successively vanquished in the field, and led in chains to the foot of the throne ; and whatever treatment they might receive from a timid and cruel court, they applauded the clemency, as well as the courage, of their conqueror. But the loyalty of the Comneni was soon tainted by fear and suspicion ; nor is it easy to settle between a subject and a despot, the debt

**C H A P.** of gratitude, which the former is tempted to claim  
**XLVIII.** by a revolt, and the latter to discharge by an executioner. The refusal of Alexius to march against a fourth rebel, the husband of his sister, destroyed the merit or memory of his past services : The favourites of Botaniates provoked the ambition which they apprehended and accused ; and the retreat of the two brothers might be justified by the defence of their life or liberty. The women of the family were deposited in a sanctuary, respected by tyrants : The men, mounted on horseback, sallied from the city, and erected the standard of civil war. The soldiers, who had been gradually assembled in the capital and the neighbourhood, were devoted to the cause of a victorious and injured leader : The ties of common interest and domestic alliance secured the attachment of the house of Ducas ; and the generous dispute of the Comneni was terminated by the decisive resolution of Isaac, who was the first to invest his younger brother with the name and ensigns of royalty. They returned to Constantinople, to threaten rather than besiege that impregnable fortress ; but the fidelity of the guards was corrupted ; a gate was surprised ; and the fleet was occupied by the active courage of George Pelæologus, who fought against his father, without foreseeing that he laboured for his posterity. Alexius ascended the throne ; and his aged competitor disappeared in a monastery. An army of various nations was gratified with the pillage of the city ; but the public disorders were expiated by the tears and fasts of the Comneni, who submitted to every penance compatible with the possession of the empire

The

The life of the emperor Alexius has been delineated by a favourite daughter, who was inspired by a tender regard for his person, and a laudable zeal to perpetuate his virtues. Conscious of the just suspicion of her readers, the princess Anna Comnena repeatedly protests, that, besides her personal knowledge, she had searched the discourse and writings of the most respectable veterans : That after an interval of thirty years, forgotten by, and forgetful of the world, her mournful solitude was inaccessible to hope and fear ; and that truth, the naked perfect truth, was more dear and sacred than the memory of her parent. Yet, instead of the simplicity of stile and narrative which wins our belief, an elaborate affectation of rhetoric and science betrays, in every page, the vanity of a female author. The genuine character of Alexius is lost in a vague constellation of virtues ; and the perpetual strain of panegyric and apology awakens our jealousy, to question the veracity of the historian and the merit of the hero. We cannot, however, refuse her judicious and important remark, that the disorders of the times were the misfortune and the glory of Alexius ; and that every calamity which can afflict a declining empire, was accumulated on his reign by the justice of heaven, and the vices of his predecessors. In the East, the victorious Turks had spread, from Persia to the Hellespont, the reign of the Koran and the Crescent : The West was invaded by the adventurous valour of the Normans ; and, in the moments of peace, the Danube poured forth new swarms, who had gained, in the science of war, what they had

**C H A P.** lost in the ferociousness of manners. The sea  
**XLVIII.** was not less hostile than the land ; and while the  
frontiers were assaulted by an open enemy, the palace was distracted with secret treason and conspiracy. On a sudden, the banner of the Cross was displayed by the Latins : Europe was precipitated on Asia ; and Constantinople had almost been swept away by this impetuous deluge. In the tempest Alexius steered the Imperial vessel with dexterity and courage. At the head of his armies he was bold in action, skilful in stratagem, patient of fatigue, ready to improve his advantages, and rising from his defeats with inexhaustible vigour. The discipline of the camp was revived, and a new generation of men and soldiers was created by the example and the precepts of their leader. In his intercourse with the Latins, Alexius was patient and artful : His discerning eye pervaded the new system of an unknown world ; and I shall hereafter describe the superior policy with which he balanced the interests and passions of the champions of the first crusade. In a long reign of thirty-seven years, he subdued and pardoned the envy of his equals : The laws of public and private order were restored : The arts of wealth and science were cultivated : The limits of the empire were enlarged in Europe and Asia ; and the Comnenian sceptre was transmitted to his children of the third and fourth generation. Yet the difficulties of the times betrayed some defects in his character ; and have exposed his memory to some just or ungenerous reproach. The reader may possibly smile at the lavish praise which his daughter so often bestows on a flying hero : The  
weakness

weakness or prudence of his situation might be mistaken for a want of personal courage ; and his political arts are branded by the Latins with the names of deceit and dissimulation. The increase of the male and female branches of his family adorned the throne and secured the succession ; but their princely luxury and pride offended the patricians, exhausted the revenue, and insulted the misery of the people. Anna is a faithful witness that his happiness was destroyed, and his health was broken, by the cares of a public life : The patience of Constantinople was fatigued by the length and severity of his reign ; and before Alexius expired, he had lost the love and reverence of his subjects. The clergy could not forgive his application of the sacred riches to the defence of the state ; but they applauded his theological learning and ardent zeal for the orthodox faith, which he defended with his tongue, his pen, and his sword. His character was degraded by the superstition of the Greeks ; and the same inconsistent principle of human nature enjoined the emperor to found an hospital for the poor and infirm, and to direct the execution of an heretic, who was burnt alive in the square of St Sophia. Even the sincerity of his moral and religious virtues was suspected by the persons who had passed their lives in his familiar confidence. In his last hours, when he was pressed by his wife Irene to alter the succession, he raised his head, and breathed a pious ejaculation on the vanity of this world. The indignant reply of the empress may

It was the wish of Irene to supplant the eldest of her surviving sons, in favour of her daughter the princess Anne, whose philosophy would not have refused the weight of a diadem. But the order of male succession was asserted by the friends of their country ; the lawful heir drew the royal signet from the finger of his insensible or conscious father, and the empire obeyed the master of the palace. Anna Comnena was stimulated by ambition and revenge to conspire against the life of her brother, and when the design was prevented by the fears or scruples of her husband, she passionately exclaimed, that nature had mistaken the two sexes, and had endowed Bryennius with the soul of a woman. The two sons of Alexius, John and Isaac, maintained the fraternal concord, the hereditary virtue of their race ; and the younger brother was content with the title of *Sebastocrator*, which approached the dignity, without sharing the power, of the emperor. In the same person, the claims of primogeniture and merit were fortunately united ; his swarthy complexion, harsh features, and diminutive stature, had suggested the ironical surname of Calo-Johannes, or John the Handsome, which his grateful subjects more seriously applied to the beauties of his mind. After the discovery of her treason, the life and fortune of Anne were justly forfeited to the laws. Her life was spared by the clemency of the emperor, but he visited the pomp and treasures of her palace, and bestowed the rich  
 confiscation.

confiscation on the most deserving of his friends. C H A P.  
 That respectable friend, Axuch, a slave of Turkish XLV/II.  
 extraction, presumed to decline the gift, and to  
 intercede for the criminal: His generous master  
 applauded and imitated the virtue of his favourite,  
 and the reproach or complaint of an injured brother  
 was the only chastisement of the guilty princess.  
 After this example of clemency, the remainder of  
 his reign was never disturbed by conspiracy or re-  
 bellion: Feared by his nobles, beloved by his peo-  
 ple, John was never reduced to the painful neces-  
 sity of punishing, or even of pardoning, his personal  
 enemies. During his government of twenty-five  
 years, the penalty of death was abolished in the  
 Roman empire, a law of mercy most delightful to  
 the human theorist, but of which the practice, in  
 a large and vicious community, is seldom consist-  
 ent with the public safety. Severe to himself, in-  
 dulent to others, chaste, frugal, abstemious, the  
 philosophic Marcus would not have disdained the  
 artless virtues of his successor, derived from his  
 heart, and not borrowed from the schools. He  
 despised and moderated the stately magnificence  
 of the Byzantine court, so oppressive to the people,  
 so contemptible to the eye of reason. Under  
 such a prince, innocence had nothing to fear, and  
 merit had every thing to hope; and without as-  
 suming the tyrannic office of a censor, he intro-  
 duced a gradual, though visible, reformation in  
 the public and private manners of Constantinople.  
 The only defect of this accomplished character  
 was the frailty of noble minds, the love of arms  
 and military glory. Yet the frequent expeditions

C H A P. of John the Handsome may be justified, at least in  
 XLVIII. their principle, by the necessity of repelling the  
 { Turks from the Hellespont and the Bosphorus. The sultan of Iconium was confined to his capital, the Barbarians were driven to the mountains, and the maritime provinces of Asia enjoyed the transient blessings of their deliverance. From Constantinople to Antioch and Aleppo, he repeatedly marched at the head of a victorious army, and in the sieges and battles of this holy war, his Latin allies were astonished by the superior spirit and prowess of a Greek. As he began to indulge the ambitious hope of restoring the ancient limits of the empire, as he revolved in his mind, the Euphrates and Tigris, the dominion of Syria, and the conquest of Jerusalem, the thread of his life and of the public felicity was broken by a singular accident. He hunted the wild boar in the valley of Anazarbus, and had fixed his javelin in the body of the furious animal: But, in the struggle, a poisoned arrow dropped from his quiver, and a slight wound in his hand, which produced a mortification, was fatal to the best and greatest of the Comnenian princes.

Manuel,  
 A. D.  
 1148,  
 April 8.

A premature death had swept away the two eldest sons of John the Handsome; of the two survivors, Isaac and Manuel, his judgment or affection preferred the younger; and the choice of their dying prince was ratified by the soldiers who had applauded the valour of his favourite in the Turkish war. The faithful Axuch hastened to the capital, secured the person of Isaac in honourable confinement, and purchased, with a gift of two hundred

hundred pounds of silver, the leading ecclesiastics of St Sophia, who possessed a decisive voice in the consecration of an emperor. With his veteran and affectionate troops, Manuel soon visited Constantinople; his brother acquiesced in the title of Sebastocrator; his subjects admired the lofty stature and martial graces of their new sovereign, and listened with credulity to the flattering promise, that he blended the wisdom of age with the activity and vigour of youth. By the experience of his government, they were taught, that he emulated the spirit, and shared the talents, of his father, whose social virtues were buried in the grave. A reign of thirty-seven years is filled by a perpetual though various warfare against the Turks, the Christians, and the hords in the wilderness beyond the Danube. The arms of Manuel were exercised on mount Taurus, in the plains of Hungary, on the coast of Italy and Egypt, and on the seas of Sicily and Greece: The influence of his negotiations extended from Jerusalem to Rome and Russia; and the Byzantine monarchy, for a while, became an object of respect or terror to the powers of Asia and Europe. Educated in the silk and purple of the East, Manuel possessed the iron temper of a soldier, which cannot easily be paralleled, except in the lives of Richard the first of England, and of Charles the twelfth of Sweden. Such was his strength and exercise in arms, that Raymond, surnamed the Hercules of Antioch, was incapable of wielding the lance and buckler of the Greek emperor. In a famous tournament, he entered the lists on a fiery courser, and overturned in his first career

C H A P. career two of the stoutest of the Italian knights.  
XLVIII. The first in the charge, the last in the retreat, his  
friends and his enemies alike trembled, the former for *his* safety, and the latter for their own. After posting an ambuscade in a wood, he rode forwards in search of some perilous adventure, accompanied only by his brother and the faithful Axuch, who refused to desert their sovereign. Eighteen horsemen, after a short combat, fled before them : But the numbers of the enemy increased ; the march of the reinforcement was tardy and fearful, and Manuel, without receiving a wound, cut his way through a squadron of five hundred Turks. In a battle against the Hungarians, impatient of the slowness of his troops, he snatched a standard from the head of the column, and was the first, almost alone, who passed a bridge that separated him from the enemy. In the same country, after transporting his army beyond the Save, he sent back the boats with an order, under pain of death, to their commander, that he should leave him to conquer or die on that hostile land. In the siege of Corfu, towing after him a captive galley, the emperor stood aloft on the poop, opposing against the volleys of darts and stones, a large buckler and a flowing sail, nor could he have escaped inevitable death, had not the Sicilian admiral enjoined, his archers to respect the person of an hero. In one day, he is said to have slain above forty of the Barbarians with his own hand ; he returned to the camp, dragging along four Turkish prisoners, whom he had tied to the rings of his saddle : He was ever the foremost to provoke or to accept a single combat ;

combat; and the *gigantic* champions, who encountered his arm, were transpierced by the lance, or cut asunder by the sword, of the invincible Manuel. The story of his exploits, which appear as a model or a copy of the romances of chivalry, may induce a reasonable suspicion of the veracity of the Greeks: I will not, to vindicate their credit, endanger my own; yet I may observe, that in the long series of their annals, Manuel is the only prince who has been the subject of similar exaggeration. With the valour of a soldier, he did not unite the skill or prudence of a general: His victories were not productive of any permanent or useful conquest; and his Turkish laurels were blasted in his last unfortunate campaign, in which he lost his army in the mountains of Pisidia, and owed his deliverance to the generosity of the sultan. But the most singular feature in the character of Manuel, is the contrast and vicissitude of labour and sloth, of hardiness and effeminacy. In war he seemed ignorant of peace, in peace he appeared incapable of war. In the field he slept in the sun or in the snow, tired in the longest marches the strength of his men and horses, and shared with a smile the abstinence or diet of the camp. No sooner did he return to Constantinople, than he resigned himself to the arts and pleasures of a life of luxury: The expence of his dress, his table, and his palace, surpassed the measure of his predecessors, and whole summer days were idly wasted in the delicious isles of the Propontis, in the incestuous love of his niece Theodora. The double cost of a warlike and dissolute prince, exhausted the revenue,

**C H A P.** revenue, and multiplied the taxes ; and Manuel, **XLVIII.** in the distress of his last Turkish camp, endured a bitter reproach from the mouth of a desperate soldier. As he quenched his thirst, he complained that the water of a fountain was mingled with Christian blood. “ It is not the first time,” exclaimed a voice from the crowd, “ that you have “ drank, O emperor ! the blood of your Christian “ subjects.” Manuel Comnenus was twice married to the virtuous Bertha or Irene of Germany, and to the beauteous Maria, a French or Latin princess of Antioch. The only daughter of his first wife was destined for Bela an Hungarian prince, who was educated at Constantinople, under the name of Alexius ; and the consummation of their nuptials might have transferred the Roman sceptre to a race of free and warlike Barbarians. But, as soon as Maria of Antioch had given a son and heir to the empire, the presumptive rights of Bela were abolished, and he was deprived of his promised bride ; but the Hungarian prince resumed his name, and the kingdom of his fathers, and displayed such virtues as might excite the regret and envy of the Greeks. The son of Maria was named Alexius ; and at the age of ten years, he ascended the Byzantine throne, after his father’s decease had closed the glories of the Comnenian line.

The fraternal concord of the two sons of the great Alexius had been sometimes clouded by an opposition of interest and passion. By ambition, Isaac the Sebastocrator was excited to flight and rebellion, from whence he was reclaimed by the firmness and clemency of John the Handsome. The

errors

errors of Isaac, the father of the emperors of Trebizond, were short and venial: But John, the elder of his sons, renounced for ever his religion. Provoked by a real or imaginary insult of his uncle, he escaped from the Roman to the Turkish camp: His apostacy was rewarded with the sultan's daughter, the title of Chelebi, or noble, and the inheritance of a princely estate; and in the fifteenth century, Mahomet the second boasted of his Imperial descent from the Comnenian family. Andronicus, younger brother of John, son of Isaac, and grandson of Alexius Comnenus, is one of the most conspicuous characters of the age; and his genuine adventures might form the subject of a very singular romance. To justify the choice of three ladies of royal birth, it is incumbent on me to observe, that their fortunate lover was cast in the best proportions of strength and beauty; and that the want of the softer graces was supplied by a manly countenance, a lofty stature, athletic muscles, and the air and deportment of a soldier. The preservation, in his old age, of health and vigour, was the reward of temperance and exercise. A piece of bread and a draught of water were often his sole and evening repast; and if he tasted of a wild boar, or a stag, which he had roasted with his own hands, it was the well-earned fruit of a laborious chase. Dexterous in arms, he was ignorant of fear: His persuasive eloquence could bend to every situation and character of life: His stile, though not his practice, was fashioned by the example of St Paul; and, in every deed of mischief, he had a heart to resolve, a head to contrive, and a hand to execute. In his youth, after the death of

C H A P.

**C H A P.** of the emperor John, he followed the retreat of the  
**XLVIII.** Roman army ; but, in the march through Asia  
 Minor, design or accident tempted him to wander  
in the mountains ; the hunter was encompassed  
by the Turkish huntsmen, and he remained some  
time a reluctant or willing captive in the power  
of the sultan. His virtues and vices recommend-  
ed him to the favour of his cousin : He shared  
the perils and the pleasures of Manuel ; and while  
the emperor lived in public incest with his niece  
Theodora, the affections of her sister Eudocia were  
seduced and enjoyed by Andronicus. Above the  
decencies of her sex and rank, she gloried in the  
name of his concubine ; and both the palace and  
the camp could witness that she slept, or watched,  
in the arms of her lover. She accompanied him  
to his military command of Cilicia, the first scene  
of his valour and imprudence. He pressed, with  
active ardour, the siege of Mopsuestia ; the day was  
employed in the boldest attacks ; but the night  
was wasted in song and dance ; and a band of Greek  
comedians formed the choicest part of his retinue.  
Andronicus was surprised by the sally of a vigilant  
foe ; but, while his troops fled in disorder, his in-  
vincible lance transpierced the thickest ranks of  
the Armenians. On his return to the Imperial  
camp in Macedonia, he was received by Manuel  
with public smiles, and a private reproof ; but the  
duchies of Naissus, Braniseba, and Castoria, were  
the reward or consolation of the unsuccessful ge-  
neral. Eudocia still attended his motions : At  
midnight, their tent was suddenly attacked by  
her angry brothers, impatient to expiate her infa-  
my

my in his blood : His daring spirit refused her advice, and the disguise of a female habit; and boldly starting from his couch, he drew his sword, and cut his way through the numerous assassins. It was here that he first betrayed his ingratitude and treachery : He engaged in a treasonable correspondence with the king of Hungary, and the German emperor ; approached the royal tent at a suspicious hour, with a drawn sword, and, under the mask of a Latin soldier, avowed an intention of revenge against a mortal foe ; and imprudently praised the fleetness of his horse, as an instrument of flight and safety. The monarch dissembled his suspicions ; but, after the close of the campaign, Andronicus was arrested and strictly confined in a tower of the palace of Constantinople.

In this prison he was left above twelve years ; a most painful restraint, from which the thirst of action and pleasure perpetually urged him to escape. Alone and pensive, he perceived some broken bricks in a corner of the chamber, and gradually widened the passage, till he had explored a dark and forgotten recess. Into this hole he conveyed himself, and the remains of his provisions, replacing the bricks in their former position, and erasing with care the footsteps of his retreat. At the hour of the customary visit, his guards were amazed by the silence and solitude of the prison, and reported, with shame and fear, his incomprehensible flight. The gates of the palace and city were instantly shut : The strictest orders were dispatched into the provinces, for the recovery of the fugitive ; and his wife, on the suspicion  
of

O H A P. of a pious act, was basely imprisoned in the same  
 XLVIII. tower. At the dead of night, she beheld a spectre :  
 { She recognized her husband : They shared their  
 provisions ; and a son was the fruit of these stolen  
 interviews, which alleviated the tediousness of their  
 confinement. In the custody of a woman, the  
 vigilance of the keepers was insensibly relaxed ;  
 and the captive had accomplished his real escape,  
 when he was discovered, brought back to Con-  
 stantinople, and loaded with a double chain. At  
 length he found the moment and the means of  
 his deliverance. A boy, his domestic servant,  
 intoxicated the guards, and obtained in wax the  
 impression of the keys. By the diligence of his  
 friends, a similar key, with a bundle of ropes, was  
 introduced into the prison, in the bottom of a  
 hogshead. Andronicus employed, with industry  
 and courage, the instruments of his safety, unlock-  
 ed the doors, descended from the tower, conceal-  
 ed himself all day among the bushes, and scaled  
 in the night the garden-wall of the palace. A  
 boat was stationed for his reception : He visited  
 his own house, embraced his children, cast away  
 his chain, mounted a fleet horse, and directed his  
 rapid course towards the banks of the Danube.  
 At Anchialus in Thrace, an intrepid friend sup-  
 plied him with horses and money : He passed the  
 river, traversed with speed the desert of Moldavia  
 and the Carpathian hills, and had almost reached  
 the town of Halicz, in the Polish Russia, when  
 he was intercepted by a party of Walachians, who  
 resolved to convey their important captive to Con-  
 stantinople. His presence of mind again extri-  
 cated him from this danger. Under the pretence  
 of

of sickness, he dismounted in the night, and was allowed to step aside from the troop ; he planted in the ground his long staff ; clothed it with his cap and upper garment ; and, stealing into the wood, left a phantom to amuse, for some time, the eyes of the Walachians. From Haliez he was honourably conducted to Kiow, the residence of the great duke ; the subtle Greek soon obtained the esteem and confidence of Ieroslaus ; his character could assume the manners of every climate ; and the Barbarians applauded his strength and courage in the chace of the elks and bears of the forest. In this northern region he deserved the forgiveness of Manuel, who solicited the Russian prince to join his arms in the invasion of Hungary. The influence of Andronicus achieved this important service : His private treaty was signed with a promise of fidelity on one side, and of oblivion on the other ; and he marched at the head of the Russian cavalry, from the Borysthenes to the Danube. In his resentment Manuel had ever sympathised with the martial and dissolute character of his cousin ; and his free pardon was sealed in the assault of Zemlin, in which he was second, and second only, to the valour of the emperor.

No sooner was the exile restored to freedom and his country, than his ambition revived, at first to his own, and at length to the public misfortune. A daughter of Manuel was a feeble bar to the succession of the more deserving males of the Comnenian blood ; her future marriage with the prince of Hungary was repugnant to the hopes or preju-

**C H A P.** dices of the princes and nobles. But when an oath  
**XLVIII.** of allegiance was required to the presumptive heir,  
 { Andronicus alone asserted the honour of the Roman  
 name, declined the unlawful engagement, and  
 boldly protested against the adoption of a stranger.  
 His patriotism was offensive to the emperor, but  
 he spoke the sentiments of the people, and was re-  
 moved from the royal presence, by an honourable  
 banishment, a second command of the Cilician  
 frontier, with the absolute disposal of the revenues  
 of Cyprus. In this station, the Armenians again  
 exercised his courage and exposed his negligence ;  
 and the same rebel, who baffled all his operations,  
 was unhorsed, and almost slain by the vigour of his  
 lance. But Andronicus soon discovered a more  
 easy and pleasing conquest, the beautiful Philippa,  
 sister of the empress Maria, and daughter of Ray-  
 mond of Poitou, the Latin prince of Antioch. For  
 her sake he deserted his station, and wasted the  
 summer in balls and tournaments ; to his love she  
 sacrificed her innocence, her reputation, and the  
 offer of an advantageous marriage. But the re-  
 sentment of Manuel for this domestic affront, inter-  
 rupted his pleasures : Andronicus left the indiscreet  
 princess to weep and to repent ; and with a band  
 of desperate adventurers, undertook the pilgrimage  
 of Jerusalem. His birth, his martial renown, and  
 professions of zeal, announced him as the champion  
 of the cross : He soon captivated both the clergy  
 and the king ; and the Greek prince was invested  
 with the lordship of Berytus, on the coast of  
 Phœnicia. In his neighbourhood resided a young  
 and

and handsome queen, of his own nation and family, great-grand-daughter of the emperor Alex-  
 ius, and widow of Baldwin the third, king of Jerusa-  
 lem. She visited and loved her kinsman. Theodo-  
 ra was the third victim of his amorous seduction ;  
 and her shame was more public and scandalous  
 than that of her predecessors. The emperor still  
 thirsted for revenge ; and his subjects and allies of  
 the Syrian frontier were repeatedly pressed to seize  
 the person, and put out the eyes, of the fugitive.  
 In Palestine he was no longer safe ; but the tender  
 Theodora revealed his danger, and accompanied  
 his flight. The queen of Jerusalem was exposed  
 to the East, his obsequious concubine ; and two  
 illegitimate children were the living monuments  
 of her weakness. Damascus was his first refuge ;  
 and, in the characters of the great Nouredin and  
 his servant Saladin, the superstitious Greek might  
 learn to revere the virtues of the Mussulmans. A  
 the friend of Nouredin he visited, most probably  
 Bagdad, and the courts of Persia ; and, after a long  
 circuit round the Caspian Sea, and the Mountains  
 of Georgia, he finally settled among the Turks of  
 Asia Minor, the hereditary enemies of his coun-  
 try. The sultan of Colonia afforded an hospitable  
 retreat to Andronicus, his mistress, and his band  
 of outlaws : The debt of gratitude was paid by fre-  
 quent inroads in the Roman province of Trebi-  
 zond ; and he seldom returned without an ample  
 harvest of spoil and of Christian captives. In the  
 story of his adventures, he was fond of comparing  
 himself to David, who escaped, by a long exile,  
 the snares of the wicked. But the royal prophet

C H A P.

XLVIII.

G H A P. (he presumed to add) was content to lurk on the  
 XLVIII. borders of Judæa, to slay an Amalekite, and to  
 threaten, in his miserable state, the life of the  
 avaricious Nabal. The excursions of the Comne-  
 nian prince had a wider range; and he had spread  
 over the Eastern world the glory of his name and  
 religion. By a sentence of the Greek church, the  
 licentious rover had been separated from the faith-  
 ful; but even this excommunication may prove,  
 that he never abjured the profession of Chris-  
 tianity.

His vigilance had eluded or repelled the open  
 and secret persecution of the emperor; but he was  
 at length ensnared by the captivity of his female  
 companion. The governor of Trebizond suc-  
 ceeded in his attempt to surprise the person of  
 Theodora: The queen of Jerusalem and her two  
 children were sent to Constantinople, and their  
 loss embittered the tedious solitude of banishment.  
 The fugitive implored and obtained a final par-  
 don, with leave to throw himself at the feet of his  
 sovereign, who was satisfied with the submission of  
 this haughty spirit. Prostrate on the ground, he  
 deplored with tears and groans the guilt of his past  
 rebellion; nor would he presume to arise, unless  
 some faithful subject would drag him to the foot  
 of the throne, by an iron chain with which he had  
 secretly encircled his neck. This extraordinary  
 penance excited the wonder and pity of the assem-  
 bly; his sins were forgiven by the church and  
 state; but the just suspicion of Manuel fixed his  
 residence at a distance from the court, at Oenoe,  
 a town of Pontus, surrounded with rich vineyards,  
 and situate on the coast of the Euxine. The death  
 of

of Manuel, and the disorders of the minority, soon opened the fairest field to his ambition. The emperor was a boy of twelve or fourteen years of age, without vigour, or wisdom, or experience; his mother, the empress Mary, abandoned her person and government to a favourite of the Comnenian name; and his sister, another Mary, whose husband, an Italian, was decorated with the title of Cæsar, excited a conspiracy, and at length an insurrection, against her odious stepmother. The provinces were forgotten, the capital was in flames, and a century of peace and order was overthrown in the vice and weakness of a few months. A civil war was kindled in Constantinople; the two factions fought a bloody battle in the square of the palace, and the rebels sustained a regular siege in the cathedral of St Sophia. The patriarch laboured with honest zeal to heal the wounds of the republic, the most respectable patriots called aloud for a guardian and avenger, and every tongue repeated the praise of the talents, and even the virtues of Andronicus. In his retirement, he affected to revolve the solemn duties of his oath: “If the safety or honour of the Imperial family be threatened, I will reveal and oppose the mischief to the utmost of my power.” His correspondence with the patriarch and patricians was seasoned with apt quotations from the Psalms of David and the Epistles of St Paul; and he patiently waited till he was called to her deliverance by the voice of his country. In his march from Oenoe to Constantinople, his slender train insensibly swelled to a crowd and an army; his professions of religion

C. H. A. P.  
XLVIII.

C H A P. and loyalty were mistaken for the language of his  
XLVIII. heart; and the simplicity of a foreign dress, which  
shewed to advantage his majestic stature, displayed a lively image of his poverty and exile. All opposition sunk before him; he reached the streights of the Thracian Bosphorus; the Byzantine navy sailed from the harbour to receive and transport the saviour of the empire: The torrent was loud and irresistible, and the insects who had basked in the sunshine of royal favour, disappeared at the blast of the storm. It was the first care of Andronicus to occupy the palace, to salute the emperor, to confine his mother, to punish her minister, and to restore the public order and tranquillity. He then visited the sepulchre of Manuel: The spectators were ordered to stand aloof; but, as he bowed in the attitude of prayer, they heard, or thought they heard, a murmur of triumph and revenge. "I no longer fear thee, my old enemy, who hast driven me a vagabond to every climate of the earth. Thou art safely deposited under a seven-fold dome, from whence thou canst never arise till the signal of the last trumpet. It is now my turn, and speedily will I trample on thy ashes and thy posterity." From his subsequent tyranny, we may impute such feelings to the man and the moment; but it is not extremely probable that he gave an articulate sound to his secret thoughts. In the first months of his administration, his designs were veiled by a fair semblance of hypocrisy, which could delude only the eyes of the multitude: The coronation of Alexius was performed with due solemnity, and his perfidious guardian, holding

holding in his hands the body and blood of Christ, C H A P.  
most fervently declared, that he lived, and was XLVIII.  
ready to die, for the service of his beloved pupil.   
But his numerous adherents were instructed to maintain, that the sinking empire must perish in the hands of a child, that the Romans could only be saved by a veteran prince, bold in arms, skilful in policy, and taught to reign by the long experience of fortune and mankind ; and that it was the duty of every citizen to force the reluctant modesty of Andronicus to undertake the burthen of the public care. The young emperor was himself constrained to join his voice to the general acclamation, and to solicit the association of a colleague; who instantly degraded him from the supreme rank, secluded his person, and verified the rash declaration of the patriarch, that Alexius might be considered as dead, so soon as he was committed to the custody of his guardian. But his death was preceded by the imprisonment and execution of his mother. After blackening her reputation, and inflaming against her the passions of the multitude, the tyrant accused and tried the empress for a treasonable correspondence with the king of Hungary. His own son, a youth of honour and humanity, avowed his abhorrence of this flagitious act, and three of the judges had the merit of preferring their conscience to their safety ; but the obsequious tribunal, without requiring any proof, or hearing any defence, condemned the widow of Manuel ; and her unfortunate son subscribed the sentence of her death. Maria was strangled, her corpse was

C H A P. buried in the sea, and her memory was wounded  
 XLVIII. by the insult most offensive to female vanity, a  
 — false and ugly representation of her beauteous form. The fate of her son was not long deferred ; he was strangled with a bowstring, and the tyrant, insensible to pity or remorse, after surveying the body of the innocent youth, struck it rudely with his foot : “ Thy father,” he cried, “ was a *knave*, “ thy mother a *whore*, and thyself a *fool* !”

Androni-

 A. D.  
 1183,  
 October.

The Roman sceptre, the reward of his crimes, was held by Andronicus about three years and a half, as the guardian or sovereign of the empire. His government exhibited a singular contrast of vice and virtue. When he listened to his passions, he was the scourge ; when he consulted his reason, the father of his people. In the exercise of private justice, he was equitable and rigorous ; a shameful and pernicious venality was abolished, and the offices were filled with the most deserving candidates, by a prince who had sense to chuse, and severity to punish. He prohibited the inhuman practice of pillaging the goods and persons of shipwrecked mariners ; the provinces, so long the objects of oppression or neglect, revived in prosperity and plenty ; and millions applauded the distant blessings of his reign, while he was cursed by the witnesses of his daily cruelties. The ancient proverb, That blood-thirsty is the man who returns from banishment to power, had been applied with too much truth to Marius and Tiberius ; and was now verified for the third time in the life of Andronicus. His memory was stored with a black list of the enemies and rivals, who had tra-  
 duced

duced his merit, opposed his greatness, or insulted his misfortunes; and the only comfort of his exile was the sacred hope and promise of revenge. C H A P.  
XLVIII.

The necessary extinction of the young emperor and his mother imposed the fatal obligation of extirpating the friends, who hated, and might punish the assassin; and the repetition of murder rendered him less willing, and less able, to forgive. An horrid narrative of the victims whom he sacrificed by poison or the sword, by the sea or the flames, would be less expressive of his cruelty than the appellation of the Halcyon-days, which was applied to a rare and bloodless week of repose: The tyrant strove to transfer, on the laws and the judges, some portion of his guilt; but the mask was fallen, and his subjects could no longer mistake the true author of their calamities. The noblest of the Greeks, more especially those who, by descent or alliance, might dispute the Comnenian inheritance, escaped from the monster's den: Nice or Prusa, Sicily or Cyprus, were their places of refuge; and as their flight was already criminal, they aggravated their offence by an open revolt, and the Imperial title. Yet Andronicus resisted the daggers and swords of his most formidable enemies: Nice and Prusa were reduced and chastised; the Sicilians were content with the sack of Thessalonica; and the distance of Cyprus was not more propitious to the rebel than to the tyrant. His throne was subverted by a rival without merit, and a people without arms. Isaac Angelus, a descendant in the female line from the great Alexius, was marked as a victim, by the prudence  
or

C H A P. or superstition of the emperor. In a moment of  
XLVIII. despair, Angelus defended his life and liberty,  
slew the executioner, and fled to the church of St  
Sophia. The sanctuary was insensibly filled with  
a curious and mournful crowd, who, in his fate,  
prognosticated their own. But their lamentations  
were soon turned to curses, and their curses to  
threats; they dared to ask, "Why do we fear?  
" why do we obey? We are many, and he is one;  
" our patience is the only bond of our slavery."  
With the dawn of day the city burst into a ge-  
neral sedition, the prisons were thrown open, the  
coldest and most servile were roused to the defence  
of their country, and Issac, the second of the name,  
was raised from the sanctuary to the throne. Un-  
conscious of his danger, the tyrant was absent;  
withdrawn from the toils of state, in the delicious  
islands of the Propontis. He had contracted an  
indecent marriage with Alice, or Agnes, daughter  
of Lewis the seventh of France, and relict of the  
unfortunate Alexius; and his society, more suit-  
able to his temper than to his age, was composed  
of a young wife and a favourite concubine. On the  
first alarm he rushed to Constantinople, impatient  
for the blood of the guilty; but he was astonished  
by the silence of the palace, the tumult of the city,  
and the general desertion of mankind. Androni-  
cus proclaimed a free pardon to his subjects;  
they neither desired, nor would grant forgiveness;  
he offered to resign the crown to his son Manuel;  
but the virtues of the son could not expiate his  
father's crimes. The sea was still open for his  
retreat; but the news of the revolution had flown  
along

along the coast ; when fear had ceased, obedience was no more ; the Imperial galley was pursued and taken by an armed brigantine ; and the tyrant was dragged to the presence of Isaac Angelus, loaded with fetters, and a long chain round his neck. His eloquence, and the tears of his female companions, pleaded in vain for his life ; but, instead of the decencies of a legal execution, the new monarch abandoned the criminal to the numerous sufferers, whom he had deprived of a father, an husband, or a friend. His teeth and hair, an eye and a hand, were torn from him, as a poor compensation for their loss ; and a short respite was allowed, that he might feel the bitterness of death. Astride on a camel, without any danger of a rescue, he was carried through the city, and the basest of the populace rejoiced to trample on the fallen majesty of their prince. After a thousand blows and outrages, Andronicus was hung by the feet, between two pillars that supported the statues of a wolf and sow ; and every hand that could reach the public enemy, inflicted on his body some mark of ingenious or brutal cruelty, till two friendly or furious Italians, plunging their swords into his body, released him from all human punishment. In this long and painful agony, “ Lord have mercy upon me ! and why will you bruise a broken reed ? ” were the only words that escaped from his mouth. Our hatred for the tyrant is lost in pity for the man ; nor can we blame his pusillanimous resignation, since a Greek Christian was no longer master of his life.

April 12.

I have been tempted to expatiate on the extraordinary character and adventures of Andronicus ; but I shall here terminate the series of the Greek emperors since the time of Heraclius. The branches that sprang from the Comnenian trunk had insensibly withered ; and the male line was continued only in the posterity of Andronicus himself, who, in the public confusion, usurped the sovereignty of Trebizond, so obscure in history, and so famous in romance. A private citizen of Philadelphia, Constantine Angelus, had emerged to wealth and honours. by his marriage with a daughter of the emperor Alexius. His son Andronicus is conspicuous only by his cowardice. His grandson Isaac punished and succeeded the tyrant ; but he was dethroned by his own vices, and the ambition of his brother ; and their discord introduced the Latins to the conquest of Constantinople, the first great period in the fall of the Eastern empire.

If we compute the number and duration of the reigns, it will be found, that a period of six hundred years is filled by sixty emperors, including, in the Augustan list, some female sovereigns ; and deducting some usurpers who were never acknowledged in the capital, and some princes who did not live to possess their inheritance. The average proportion will allow ten years for each emperor, far below the chronological rule of Sir Isaac Newton, who, from the experience of more recent and regular monarchies, has defined about eighteen or twenty years as the term of an ordinary reign. The Byzantine empire was most tranquil and prosperous,

sperous, when it could acquiesce in hereditary C H A P.  
 succession ; five dynasties, the Heracian, Isauri- XLVIII.  
 an, Amorian, Basilian, and Comnenian families,   
 enjoyed and transmitted the royal patrimony dur-  
 ing their respective series, of five, four, three, six,  
 and four generations ; several princes number the  
 years of their reign with those of their infancy ;  
 and Constantine the seventh and his two grandsons  
 occupy the space of an entire century. But in the  
 intervals of the Byzantine dynasties, the succession  
 is rapid and broken, and the name of a successful  
 candidate is speedily erased by a more fortunate  
 competitor. Many were the paths that led to the  
 summit of royalty ; the fabric of rebellion was  
 overthrown by the stroke of conspiracy, or under-  
 mined by the silent arts of intrigue ; the favourites  
 of the soldiers or people, of the senate or clergy,  
 of the women and eunuchs, were alternately cloth-  
 ed with the purple ; the means of their elevation  
 were base, and their end was often contemptible  
 or tragic. A being of the nature of man, endowed  
 with the same faculties, but with a longer measure  
 of existence, would cast down a smile of pity and  
 contempt on the crimes and follies of human am-  
 bition, so eager, in a narrow span, to grasp at a  
 precarious and short-lived enjoyment. It is thus  
 that the experience of history exalts and enlarges  
 the horizon of our intellectual view. In a compo-  
 sition of some days, in a perusal of some hours,  
 six hundred years have rolled away, and the dura-  
 tion of a life or reign is contracted to a fleeting  
 moment ; the grave is ever beside the throne ; the  
 success

C H A P. success of a criminal is almost instantly followed  
 XLVIII. by the loss of his prize; and our immortal reason  
 survives and disdains the sixty phantoms of kings  
 who have passed before our eyes, and faintly dwell  
 on our remembrance. The observation, that, in  
 every age and climate, ambition has prevailed with  
 the same commanding energy, may abate the sur-  
 prize of a philosopher; but while he condemns the  
 vanity, he may search the motive, of this universal  
 desire to obtain and hold the sceptre of dominion.  
 To the greater part of the Byzantine series we can-  
 not reasonably ascribe the love of fame and of man-  
 kind. The virtue alone of John Comnenus was be-  
 neficent and pure; the most illustrious of the prin-  
 ces, who precede or follow that respectable name,  
 have trod with some dexterity and vigour the crook-  
 ed and bloody paths of a selfish policy; in scrutini-  
 zing the imperfect characters of Leo the Isaurian,  
 Basil the first, and Alexius Comnenus, of Theophi-  
 lus, the second Basil, and Manuel Comnenus, our  
 esteem and censure are almost equally balanced;  
 and the remainder of the Imperial crowd could  
 only desire and expect to be forgotten by posterity.  
 Was personal happiness the aim and object of their  
 ambition? I shall not descant on the vulgar topics  
 of the misery of kings; but I may surely observe,  
 that their condition, of all others, is the most  
 pregnant with fear, and the least susceptible of  
 hope. For these opposite passions, a larger scope  
 was allowed in the revolutions of antiquity, than  
 in the smooth and solid temper of the modern  
 world, which cannot easily repeat either the triumph  
 of

of Alexander or the fall of Darius. But the peculiar infelicity of the Byzantine princes exposed them to domestic perils, without affording any lively promise of foreign conquest. From the pinnacle of greatness, Andronicus was precipitated by a death more cruel and shameful than that of the vilest malefactor; but the most glorious of his predecessors had much more to dread from their subjects than to hope from their enemies. The army was licentious without spirit, the nation turbulent without freedom; the Barbarians of the East and West pressed on the monarchy, and the loss of the provinces was terminated by the final servitude of the capital.

The entire series of Roman emperors, from the first of the Cæsars to the last of the Constantines, extends above fifteen hundred years; and the term of dominion unbroken by foreign conquest, surpasses the measure of the ancient monarchies; the Assyrians or Medes, the successors of Cyrus, or those of Alexander.

**I**N the connection of the church and state, I have considered the former as subservient only, and relative to the latter; a salutary maxim, if in fact, as well as in narrative, it had ever been held sacred. The oriental philosophy of the Gnostics, the dark abyss of predestination and grace, and the strange transformations of the Eucharist from the sign to the substance of Christ's body \*, I have purposely abandoned to the curiosity of speculative divines. But I have reviewed, with diligence and pleasure, the objects of ecclesiastical history, by which the decline and fall of the Roman empire were

were materially affected, the propagation of Chris- C H A P.  
 tianity, the constitution of the Catholic church, XLIX.  
 the ruin of Paganism, and the sects that arose  
 from the mysterious controversies concerning the  
 Trinity and incarnation. At the head of this  
 class, we may justly rank the worship of images,  
 so fiercely disputed in the eighth and ninth cen-  
 turies; since a question of popular superstition  
 produced the revolt of Italy, the temporal power  
 of the popes, and the restoration of the Roman  
 empire in the West.

The primitive Christians were possessed with an  
 unconquerable repugnance to the use and abuse of  
 images, and this aversion may be ascribed to their  
 descent from the Jews, and their enmity to the  
 Greeks. The Mosaic law had severely proscribed  
 all representations of the Deity; and that precept  
 was firmly established, in the principles and prac-  
 tice of the chosen people. The wit of the Chris-  
 tian apologists was pointed against the foolish ido-  
 lators, who bowed before the workmanship of their  
 own hands; the images of brass and marble,  
 which, had *they* been endowed with sense and  
 motion, should have started rather from the pe-  
 destal to adore the creative powers of the artist\*.  
 Perhaps some recent and imperfect converts of  
 the Gnostic tribe might crown the statues of  
 Christ and St Paul with the profane honours which

C H A P. they paid to those of Aristotle and Pythagoras \*;  
 XLIX. but the public religion of the Catholics was uni-  
 formly simple and spiritual; and the first notice of  
 the use of pictures is in the censure of the council  
 of Illiberis, three hundred years after the Christian  
 æra. Under the successors of Constantine, in the  
 peace and luxury of the triumphant church, the  
 more prudent bishops condescended to indulge a  
 visible superstition for the benefit of the multi-  
 tude; and, after the ruin of Paganism, they were  
 no longer restrained by the apprehension of an  
 odious parallel. The first introduction of a sym-  
 bolic worship was in the veneration of the cross,  
 and of relics. The saints and martyrs, whose in-  
 tercession was implored, were seated on the right  
 hand of God; but the gracious and often super-  
 natural favours, which, in the popular belief, were  
 showered round their tomb, conveyed an unques-  
 tionable sanction of the devout pilgrims, who vi-  
 sited, and touched, and kissed, these lifeless remains,  
 the memorials of their merits and sufferings †. But  
 a memorial, more interesting than the skull or the  
 sandals of a departed worthy, is a faithful copy of  
 his person and features, delineated by the arts of  
 painting or sculpture. In every age, such copies,  
 so congenial to human feelings, have been che-  
 rished by the zeal of private friendship, or public  
 esteem: The images of the Roman emperors were  
 adored

adored with civil and almost religious honours ; C H A P.

 was applied to the statues of sages and patriots ;  
 and these profane virtues, these splendid sins,  
 disappeared in the presence of the holy men,  
 who had died for their celestial and everlasting  
 country. At first, the experiment was made with  
 caution and scruple ; and the venerable pictures <sup>Their</sup>  
 were discreetly allowed to instruct the ignorant, <sup>worship,</sup>  
 to awaken the cold, and to gratify the prejudices  
 of the heathen proselytes. By a slow though ine-  
 vitable progression, the honours of the original  
 were transferred to the copy : The devout Chris-  
 tian prayed before the image of a saint ; and the  
 Pagan rites of genuflexion, luminaries, and in-  
 cense, again stole into the Catholic church. The  
 scruples of reason, or piety, were silenced by the  
 strong evidence of visions and miracles ; and the  
 pictures which speak, and move, and bleed, must  
 be endowed with a divine energy, and may be  
 considered as the proper object of religious ado-  
 ration. The most audacious pencil might trem-  
 ble in the rash attempt of defining, by forms  
 and colours, the infinite Spirit, the eternal Father,  
 who pervades and sustains the universe \*. But the  
 superstitious mind was more easily reconciled to  
 paint and to worship the angels, and above all, the

(Concilium Nicenum, ii. in Collect. Labb. tom. viii. p. 1025. edit. Venet.) Il seroit peut-être à-propos de ne point souffrir d'images de la Trinité ou de la Divinité ; les défenseurs les plus zelés des images ayant condamné celles-ci, et le concile de Trente ne parlant que des images de Jesus Christ et des Saints, (Dupin, Bibliot.  ed into heaven, and, had not some similitude been  
 presented to the eyes of his disciples, the spiritual  
 worship of Christ might have been obliterated by  
 the visible relics and representations of the saints.  
 A similar indulgence was requisite, and propitious,  
 for the Virgin Mary : The place of her burial was  
 unknown ; and the assumption of her soul and  
 body into heaven was adopted by the credulity of the  
 Greeks and Latins. The use, and even the worship  
 of images, was firmly established before the end of  
 the sixth century ; they were fondly cherished by  
 the warm imagination of the Greeks and Asiatics ;  
 the Pantheon and Vatican were adorned with the  
 emblems of a new superstition ; but this semblance  
 of idolatry was more coldly entertained by the rude  
 Barbarians and the Arian clergy of the West. The  
 bolder forms of sculpture, in brass or marble,  
 which peopled the temples of antiquity, were  
 offensive to the fancy or conscience of the Chris-  
 tian Greeks ; and a smooth surface of colours has  
 ever been esteemed a more decent and harmless  
 mode of imitation \*.

Christians were ignorant of the genuine features C H A P.

The statue of Christ at Paneas in Palestine \* was {  
more probably that of some temporal saviour ;  
The Gnostics and their profane monuments were  
reprobated ; and the fancy of the Christian artists  
could only be guided by the clandestine imitation  
of some heathen model. In this distress, a bold  
and dexterous invention assured at once the like-  
ness of the image and the innocence of the  
worship. A new superstructure of fable was  
raised on the popular basis of a Syrian legend, on  
the correspondence of Christ and Abgarus, so fa-  
mous in the days of Eusebius, so reluctantly de-  
serted by our modern advocates. The bishop of  
Cæsarea † records the epistle ‡, but he most

\* After removing some rubbish of miracle and inconsistency, it may be allowed, that as late as the year 300, Paneas in Palestine was decorated with a bronze statue, representing a grave personage wrapt in a cloak, with a grateful or suppliant female kneeling before him, and that an inscription—*τω Σωτηρι, τω σωτηρι*—was perhaps inscribed on the pedestal. By the Christians, this group was foolishly explained of their founder, and the poor woman whom he had cured of the bloody flux. (Euseb. vii. 18. Philostorg. vii. 3, &c.) M. de Beausobre more reasonably conjectures the philosopher Apollonius, or the emperor Vespasian : In the latter supposition, the female is a city, a province, or perhaps the queen Berenice. (Bibliothèque Germanique, tom. xiii. p. 1—92.)

† Euseb. Hist. Eccles. l. i. c. 13. The learned Assemanus has brought up the collateral aid of three Syrians, St Ephrem, Josua Stylites, and James bishop of Sarug ; but I do not find any notice of the Syriac original or the archives of Edessa. (Bibliot. Orient. tom. i. p. 318. 420. 554;) their vague belief is probably derived from the Greeks.

 which he gratified the faith of the royal stranger, who had invoked his healing power, and offered the strong city of Edessa to protect him against the malice of the Jews. The ignorance of the primitive church is explained by the long imprisonment of the image, in a nich of the wall, from whence, after an oblivion of five hundred years, it was released by some prudent bishop, and seasonably presented to the devotion of the times. Its first and most glorious exploit was the deliverance of the city from the arms of Chosroes Nushirvan; and it was soon revered as a pledge of the divine promise, that Edessa should never be taken by a foreign enemy. It is true, indeed, that the text of Procopius ascribes the double deliverance of Edessa to the wealth and valour of her citizens, who purchased the absence and repelled the assaults of the Persian monarch. He was ignorant, the profane historian, of the testimony which he is compelled to deliver in the ecclesiastical page of

\* From the silence of James of Sarug, (Asseman. Bibliot. Orient. p. 289. 318.) and the testimony of Evagrius, (Hist. Eccles. l. iv. c. 27.) I conclude that this fable was invented between the years 521 and 594, most probably after the siege of Edessa in 540. (Asseman. tom. i. p. 416. Procopius, de Bell. Persic. l. ii.) It is the sword and buckler of Gregory II. (in Epist. i. and Leon. Isaur. Concil. tom. viii. p. 656, 657.) of John Damascenus, (Opera, tom. i. p. 281. edit. Lequien,) and of the second Nicene Council. (Actio, v. p. 1030.) The most perfect edition may be found in Cedrenus. Compend. p. 175—178.)

of Evagrius, that the Palladium was exposed on the  
 rampart, and that the water which had been sprin-  
 kled on the holy face, instead of quenching, added  
 new fuel to the flames of the besieged. After this  
 important service, the image of Edessa was pre-  
 served with respect and gratitude; and if the Ar-  
 menians rejected the legend, the more credulous  
 Greeks adored the similitude, which was not the  
 work of any mortal pencil, but the immediate  
 creation of the divine original. The stile and sen-  
 timents of a Byzantine hymn will declare how  
 far their worship was removed from the grossest  
 idolatry. “How can we with mortal eyes con-  
 “template this image, whose celestial splendour  
 “the host of heaven presumes not to behold? HE  
 “who dwells in heaven condescends this day to  
 “visit us by his venerable image; HE who is

 “picture, which the Father has delineated with  
 “his immaculate hand, which he has formed in  
 “an ineffable manner, and which we sanctify by  
 “adoring it with fear and love.” Before the end  
 of the sixth century, these images, *made without*

Of these pictures, the far greater part, the transcripts of a human pencil, could only pretend to a secondary likeness and improper title: But there were some of higher descent, who derived their resemblance from an immediate contact with the original, endowed, for that purpose, with a miraculous and prolific virtue. The most ambitious aspired from a filial to a fraternal relation with the image of Edessa; and such is the *veronica* of Rome, or Spain, or Jerusalem, which Christ in his agony [and bloody sweat applied to his face, and delivered to an holy matron. The fruitful precedent was speedily transferred to the Virgin Mary, and the saints and martyrs. In the church of Diospolis in Palestine, the features of the mother of God † were deeply inscribed in a marble column: The East and West have been decorated by the pencil of St Luke; and the evangelist, who was perhaps a physician, has been forced to exercise the occupation of a painter, so profane and odious in the eyes

XLIX.

The worship of images had stolen into the church by insensible degrees, and each petty step was pleasing to the superstitious mind, as productive of comfort and innocent of sin. But in the beginning of the eighth century, in the full magnitude of the abuse, the more timorous Greeks were awakened by an apprehension, that under the mask of Christianity, they had restored the religion of their fathers: They heard, with grief and impatience, the name of idolaters; the incessant charge of the Jews and Mahometans †, who derived from the Law and the Koran an immortal hatred to graven images and all relative worship. The servitude of the Jews might curb their zeal and depreciate their authority; but the triumphant Mussulmans, who reigned at Damascus, and threatened Constantinople, cast into the scale of reproach the accumulated weight of truth and victory. The cities of Syria, Palestine, and Egypt, had been fortified with the images of Christ, his mother,

\* “Your scandalous figures stand quite out from the canvass: They are as bad as a group of statues!” It was thus that the ignorance and bigotry of a Greek priest applauded the pictures of Titian, which he had ordered, and refused to accept.

† By Cedrenus, Zonaras, Glycas, and Manasses, the origin of the Iconoclasts is imputed to the caliph Yezid and two Jews, who promised the empire to Leo; and the reproaches of these hostile sectaries are turned into an absurd conspiracy for restoring the purity of the Christian worship. **XLIX.** on the hope or promise of miraculous defence.  
 { In a rapid conquest of ten years, the Arabs subdued those cities and these images; and, in their opinion, the Lord of Hosts pronounced a decisive judgment between the adoration and contempt of these mute and inanimate idols. For a while Edessa had braved the Persian assaults; but the chosen city, the spouse of Christ, was involved in the common ruin; and his divine resemblance became the slave and trophy of the infidels. After a servitude of three hundred years, the Palladium was yielded to the devotion of Constantinople, for a ransom of twelve thousand pounds of silver, the redemption of two hundred Mussulmans; and a perpetual truce for the territory of Edessa \*. In this season of distress and dismay, the eloquence of the monks was exercised in the defence of images; and they attempted to prove, that the sin and schism of the greatest part of the Orientals had forfeited the favour, and annihilated the virtue, of these precious symbols. But they were now opposed by the murmurs of many simple or rational Christians, who appealed to the evidence of texts, of facts, and of the primitive times, and secretly desired the reformation of the church. As the worship of images had never been established by any general or positive law, its progress in the  
 Eastern

The prudent Franciscan refuses to determine, whether the image of Edessa now reposes at Rome or Genoa; but its repose is inglorious, and this ancient object of worship is no longer famous or fashionable.

Eastern empire had been retarded, or accelerated, by the differences of men and manners, the local degrees of refinement, and the personal characters of the bishops. The splendid devotion was fondly cherished by the levity of the capital, and the inventive genius of the Byzantine clergy, while the rude and remote districts of Asia were strangers to this innovation of sacred luxury. Many large congregations of Gnostics and Arians maintained, after their conversion, the simple worship which had preceded their separation; and the Armenians, the most warlike subjects of Rome, were not reconciled, in the twelfth century, to the sight of images \*. These various denominations of men afforded a fund of prejudice and aversion, of small account in the villages of Anatolia or Thrace, but which, in the fortune of a soldier, a prelate, or an eunuch, might be often connected with the powers of the church and state.

Of such adventurers, the most fortunate was the emperor Leo the third †, who, from the mountains

XLIX. He was ignorant of sacred and profane letters ;  
 but his education, his reason, perhaps his intercourse with the Jews and Arabs, had inspired the martial peasant with an hatred of images ; and it was held to be the duty of a prince, to impose on his subjects the dictates of his own conscience. But in the outset of an unsettled reign, during ten years of toil and danger, Leo submitted to the meanness of hypocrisy, bowed before the idols which he despised, and satisfied the Roman pontiff with the annual professions of his orthodoxy and zeal. In the reformation of religion, his first steps were moderate and cautious ; he assembled a great council of senators and bishops, and enacted, with their consent, that all the images should be removed from the sanctuary and altar to a proper height in the churches, where they might be visible to the eyes, and inaccessible to the superstition of the people. But it was impossible, on either side, to check the rapid, though adverse impulse of veneration and abhorrence : In their lofty position, the sacred images still edified their votaries and reproached the tyrant. He was himself provoked by resistance and invective ; and his own party accused him of an imperfect discharge of his duty, and urged for his imitation, the example of the Jewish king, who had broken, without scruple, the brazen serpent of the temple. By a second edict, he proscribed the

existence as well as the use of religious pictures ; C H A P. the churches of Constantinople and the provinces XLIX. were cleansed from idolatry ; the images of Christ, the Virgin, and the Saints, were demolished, or a smooth surface of plaster was spread over the walls of the edifice. The sect of the Iconoclasts was supported by the zeal and despotism of six emperors, and the East and West were involved in a noisy conflict of one hundred and twenty years. It was the design of Leo the Isaurian to pronounce the condemnation of images, as an article of faith, and by the authority of a general council ; but the convocation of such an assembly was reserved for his son Constantine \* ; and though it is stigmatised by triumphant bigotry as a meeting of fools and atheists, their own partial and mutilated acts betray many symptoms of reason and piety. The debates and decrees of many provincial synods introduced the summons of the general council, which met in the suburbs of Constantinople, and was composed of the respectable number of three hundred and thirty-eight bishops of Europe and Anatolia ; for the patriarchs of Antioch and Alexandria were the slaves of the caliph, and the Roman pontiff had withdrawn the churches of Italy and the West from the communion of the Greeks.

Spanheim's Apology for the Synod of Constantinople, (p. 171, &c.) is worked up with truth and ingenuity, from such materials as he could find in the Nicene Acts, (p. 1046, &c.) The witty John of Damascus converts *ἐπισκοπὴς* into *ἐπισκοτὴς* ; makes them *κοιλιοδύλας*, slaves of their belly, &c. Opera, tom. i. p. 306.

**C H A P. XLIX.** **Greeks.** This Byzantine synod assumed the rank and powers of the seventh general council; yet even this title was a recognition of the six preceding assemblies which had laboriously built the structure of the Catholic faith. After a serious deliberation of six months, the three hundred and thirty-eight bishops pronounced and subscribed an unanimous decree, that all visible symbols of Christ, except in the Eucharist, were either blasphemous or heretical; that image worship was a corruption of Christianity, and a renewal of Paganism; that all such monuments of idolatry should be broken or erased; and that those who should refuse to deliver the objects of their private superstition, were guilty of disobedience to the authority of the church and of the emperor. In their loud and loyal acclamations, they celebrated the merits of their temporal redeemer; and to his zeal and justice they entrusted the execution of their spiritual censures. At Constantinople, as in the former councils, the will of the prince was the rule of episcopal faith; but on this occasion, I am inclined to suspect that a large majority of the prelates sacrificed their secret conscience to the temptations of hope and fear. In the long night of superstition, the Christians had wandered far away from the simplicity of the gospel; nor was it easy for them to discern the clue, and tread back the mazes, of the labyrinth. The worship of images was inseparably blended, at least to a pious fancy, with the Cross, the Virgin, the Saints, and their relics: The holy ground was involved in a cloud of miracles and visions; and the

the nerves of the mind, curiosity and scepticism, were benumbed by the habits of obedience and belief. Constantine himself is accused of indulging a royal licence to doubt, or deny, or deride the mysteries of the Catholics \*, but they were deeply inscribed in the public and private creed of his bishops; and the boldest Iconoclast might assault with a secret horror, the monuments of popular devotion, which were consecrated to the honour of his celestial patrons. In the reformation of the sixteenth century, freedom and knowledge had expanded all the faculties of man; the thirst of innovation superseded the reverence of antiquity, and the vigour of Europe could disdain those phantoms which terrified the sickly and servile weakness of the Greeks.

The scandal of an abstract heresy can be only proclaimed to the people by the blast of the ecclesiastical trumpet; but the most ignorant can perceive, the most torpid must feel, the profanation and downfall of their visible deities. The first hostilities of Leo were directed against a lofty Christ on the vestibule, and above the gate, of the palace. A ladder had been planted for the assault, but it was furiously shaken by a crowd of zealots and women: They beheld, with pious transport, the ministers of sacrilege tumbling from on high, and dashed against the pavement; and the honours of the ancient martyrs were prostituted to these

CHAPTER XLIX.  these criminals, who justly suffered for murder and rebellion \*. The execution of the Imperial edict was resisted by frequent tumults in Constantinople and the provinces: The person of Leo was endangered, his officers were massacred, and the popular enthusiasm was quelled by the strongest efforts of the civil and military power. Of the Archipelago, or Holy Sea, the numerous islands were filled with images and monks: Their votaries abjured, without scruple, the enemy of Christ; his mother, and the saints: They armed a fleet of boats and galleys, displayed their consecrated banners, and boldly steered for the harbour of Constantinople, to place on the throne a new favourite of God and the people. They depended on the succour of a miracle; but their miracles were inefficient against the *Greek fire*; and, after the defeat and conflagration of their fleet, the naked islands were abandoned to the clemency or justice of the conqueror. The son of Leo, in the first year of his reign, had undertaken an expedition against the Saracens: During his absence, the capital, the palace, and the purple, were occupied by his kinsman Artavasdes, the ambitious champion of the orthodox faith. The worship of images was triumphantly restored: The patriarch renounced his dissimulation, or dissembled his sentiments; and the righteous claim of the usurper was acknowledged, both in the new, and in ancient,

cient, Rome. Constantine flew for refuge to his paternal mountains; but he descended at the head of the bold and affectionate Isaurians; and his final victory confounded the arms and predictions of the fanatics. His long reign was distracted with clamour, sedition, conspiracy, and mutual hatred, and sanguinary revenge: The persecution of images was the motive, or pretence, of his adversaries; and, if they missed a temporal diadem, they were rewarded by the Greeks with the crown of martyrdom. In every act of open and clandestine treason, the emperor felt the unforgiving enmity of the monks, the faithful slaves of the superstition to which they owed their riches and influence. They prayed, they preached, they absolved, they inflamed, they conspired; the solitude of Palestine poured forth a torrent of invective; and the pen of St John Damascenus \*, the last of the Greek fathers, devoted the tyrant's head, both in this world and the next †. \* John, or Mansur, was a noble Christian of Damascus, who held a considerable office in the service of the caliph. His zeal in the cause of images exposed him to the resentment and treachery of the Greek emperor; and on the suspicion of a treasonable correspondence, he was deprived of his right hand, which was miraculously restored by the Virgin. After this deliverance, he resigned his office, distributed his wealth, and buried himself in the monastery of St Sabas, between Jerusalem and the Dead Sea. The legend is famous; but his learned editor, Father Lequien, has unluckily proved that St John Damascenus was already a monk before the Iconoclast dispute. (Opera, tom. i. Vit. St Joan. From the chastisement of individuals, he proceeded to the abolition of the order; and, as it was wealthy and useless, his resentment might be stimulated by avarice and justified by patriotism. The formidable name and mission of the *Dragon* \*, his visitor-general, excited the terror and abhorrence of the *black* nation: The religious communities were dissolved, the buildings were converted into magazines, or barracks; the lands, moveables, and cattle, were confiscated; and our modern precedents will support the charge, that much wanton or malicious havoc was exercised against the relics, and even the books, of the monasteries. With the habit and profession of monks, the public and private worship of images was rigorously proscribed; and it should seem, that a solemn abjuration of idolatry was exacted from the subjects, or at least from the clergy, of the Eastern empire †.

vigorously defended, by the independent zeal of the Italians. In ecclesiastical rank and jurisdiction, the patriarch of Constantinople and the pope of Rome were nearly equal. But the Greek prelate was a domestic slave under the eye of his master, at whose nod he alternately passed from the convent to the throne, and from the throne to the convent. A distant and dangerous station, amidst the Barbarians of the West, excited the spirit and freedom of the Latin bishops. Their popular election endeared them to the Romans; the public and private indigence was relieved by their ample revenue; and the weakness or neglect of the emperors compelled them to consult, both in peace and war, the temporal safety of the city. In the school of adversity the priest insensibly imbibed the virtues and the ambition of a prince; the same character was assumed, the same policy was adopted by the Italian, the Greek, or the Syrian, who ascended the chair of St Peter; and, after the loss of her legions and provinces, the genius and fortune of the popes again restored the supremacy of Rome. It is agreed, that in the eighth century, their dominion was founded on rebellion, and that the rebellion was produced, and justified, by the heresy of the Iconoclasts; but the conduct of the second and third Gregory, in this memorable contest, is variously interpreted by the wishes of their friends and enemies. The Byzantine writers unanimously declare, that, after a fruitless admonition, they pronounced the separation of the East and West, and deprived the sacrilegious tyrant of the revenue and sovereignty

Epistles  
of Gre-

the em-

A. D. 727.

Two original epistles, from Gregory the second to the emperor Leo, are still extant \*; and if they cannot be praised as the most perfect models of eloquence and logic, they exhibit the portrait, or at least the mask, of the founder of the papal monarchy. “ During ten pure and fortunate years,” says Gregory to the emperor, “ we have tasted the annual comfort of your royal letters, subscribed in purple ink, with your own hand, the sacred pledges of your attachment to the orthodox creed of our fathers. How deplorable is the change! how tremendous the scandal! You now accuse the Catholics of idolatry; and, by the accusation, you betray your own impiety and ignorance. To this ignorance we are compelled to adapt the grossness of our stile and arguments: The first elements of holy letters are sufficient for your confusion; and were you to enter a grammar-school, and avow yourself the enemy of our worship, the simple and pious children would be provoked to cast their horn-books at your head.” After this decent salutation, the pope attempts the usual distinction between the idols of antiquity and the Christian images. The former were the fanciful representations of phantoms or dæmons, at a time when the true God had not manifested his person in any visible likeness. The latter

\* The two epistles of Gregory II. have been preserved in the Acts of the Nicene Council, (tom. viii. p. 651—674.) They are without a date, which is variously fixed, by Baronius in the year 726, by Muratori (Annali d’Italia, tom. vi. p. 120.) in 729, and by Pagi in 730. Such is the force of prejudice, that some Papists have praised the good sense and moderation of these letters.

latter are the genuine forms of Christ, his mother, and his saints, who had approved, by a crowd of miracles, the innocence and merit of this relative worship. He must indeed have trusted to the ignorance of Leo, since he could assert the perpetual use of images, from the apostolic age, and their venerable presence in the six synods of the Catholic church. A more specious argument is drawn from present possession and recent practice: The harmony of the Christian world supersedes the demand of a general council; and Gregory frankly confesses, that such assemblies can only be useful under the reign of an orthodox prince. To the impudent and inhuman Leo, more guilty than an heretic, he recommends peace, silence, and implicit obedience to his spiritual guides of Constantinople and Rome. The limits of civil and ecclesiastical powers are defined by the pontiff. To the former he appropriates the body; to the latter, the soul: The sword of justice is in the hands of the magistrate; the more formidable weapon of excommunication is entrusted to the clergy; and in the exercise of their divine commission, a zealous son will not spare his offending father; the successor of St Peter may lawfully chastise the kings of the earth. “ You assault  
 “ us, O tyrant! with a carnal and military hand,  
 “ unarmed and naked, we can only implore the  
 “ Christ, the prince of the heavenly host, that  
 “ he will send unto you a devil, for the destruc-

Neither zeal nor policy allowed him to hesitate ; and the haughty strain in which Gregory addressed the emperor displays his confidence in the truth of his doctrine or the powers of resistance. Without depending on prayers or miracles, he boldly armed against the public enemy, and his pastoral letters admonished the Italians of their danger and their duty \*. At this signal, Ravenna, Venice, and the cities of the Exarchate and Pentapolis, adhered to the cause of religion ; their military force by sea and land consisted, for the most part, of the natives ; and the spirit of patriotism and zeal was transfused into the mercenary strangers. The Italians swore to live and die in the defence of the pope and the holy images ; the Roman people was devoted to their father, and even the Lombards were ambitious to share the merit and advantage of this holy war. The most treasonable act, but the most obvious revenge, was the destruction of the statues of Leo himself ; the most effectual and pleasing measure of rebellion, was the with-holding the tribute of Italy, and depriving him of a power which he had recently abused

 A form of administration was preserved by the election of magistrates and governors; and so high was the public indignation, that the Italians were prepared to create an orthodox emperor, and to conduct him with a fleet and army to the palace of Constantinople. In that palace, the Roman bishops, the second and third Gregory, were condemned as the authors of the revolt, and every attempt was made, either by fraud or force, to seize their persons, and to strike at their lives. The city was repeatedly visited or assaulted by captains of the guards, and dukes and exarchs of high dignity or secret trust: They landed with foreign troops, they obtained some domestic aid, and the superstition of Naples may blush that her fathers were attached to the cause of heresy. But these clandestine or open attacks were repelled by the courage and vigilance of the Romans; the Greeks were overthrown and massacred, their leaders suffered an ignominious death, and the popes, however inclined to mercy, refused to intercede for these guilty victims. **XLIX.** a bloody and hereditary feud ; in religious controversy they found a new aliment of faction ; but the votaries of images were superior in numbers or spirit, and the exarch, who attempted to stem the torrent, lost his life in a popular sedition. To punish this flagitious deed, and restore his dominion in Italy, the emperor sent a fleet and army into the Adriatic gulf. After suffering from the winds and waves much loss and delay, the Greeks made their descent in the neighbourhood of Ravenna : They threatened to depopulate the guilty capital, and to imitate, perhaps to surpass, the example of Justinian the second, who had chastised a former rebellion by the choice and execution of fifty of the principal inhabitants. The women and clergy, in sackcloth and ashes, lay prostrate in prayer ; the men were in arms for the defence of their country ; the common danger had united the factions, and the event of a battle was preferred to the slow miseries of a siege. In a hard-fought day, as the two armies alternately yielded and advanced, a phantom was seen, a voice was heard, and Ravenna was victorious by the assurance of victory. The strangers retreated to their ships, but the populous sea-coast poured forth a multitude of boats ; the waters of the Po were so deeply infected with blood, that during six years, the public prejudice abstained from the fish of the river ; and the institution of an annual feast perpetuated the worship of images, and the abhorrence of the Greek tyrant. Amidst the triumph of the Catholic arms, the Roman pontiff convened

vened a synod of ninety-three bishops against the heresy of the Iconoclasts. With their consent he pronounced a general excommunication against all who by word or deed should attack the tradition of the fathers and the images of the saints; in this sentence the emperor was tacitly involved \*, but the vote of a last and hopeless remonstrance may seem to imply that the anathema was yet suspended over his guilty head. No sooner had they confirmed their own safety, the worship of images, and the freedom of Rome and Italy, than the popes appear to have relaxed of their severity, and to have spared the relics of the Byzantine dominion. Their moderate counsels delayed and prevented the election of a new emperor, and they exhorted the Italians not to separate from the body of the Roman monarchy. The exarch was permitted to reside within the walls of Ravenna, a captive rather than a master; and till the Imperial coronation of Charlemagne, the government of Rome and Italy was exercised in the name of the successors of Constantine †.

The last vestige of the substance, or even the forms, of the constitution, was obliterated from the practice and memory of the Romans; and they were devoid of knowledge or virtue, again to build the fabric of a commonwealth. Their scanty remnant, the offspring of slaves and strangers, was despicable in the eyes of the victorious Barbarians. As often as the Franks or Lombards expressed their most bitter contempt of a foe, they called him a Roman; “and in this name,” says the bishop Liutprand, “we include whatever is base, whatever is cowardly, whatever is perfidious, the extremes of avarice and luxury, and every vice that can prostitute the dignity of human nature \*.” By the necessity of their situation, the inhabitants of Rome were cast into the rough model of a republican government: They were compelled to elect some judges in peace, and some leaders in war; the nobles assembled to deliberate, and their resolves could

The stile of the Roman senate and people was revived \*, but the spirit was fled ; and their new independence was disgraced by the tumultuous conflict of licentiousness and oppression. The want of laws could only be supplied by the influence of religion, and their foreign and domestic counsels were moderated by the authority of the bishop. His alms, his sermons, his correspondence with the kings and prelates of the West, his recent services, their gratitude, and oath, accustomed the Romans to consider him as the first magistrate or prince of the city. The Christian humility of the popes was not offended by the name of *Dominus*, or Lord ; and their face and inscription are still apparent on the most ancient coins †. Their temporal dominion is now confirmed by the reverence of a thousand years ; and their noblest title is the free choice of a people, whom they have redeemed from slavery.

 wand of a legislator and a sage: This pacific system  
 was incompatible with the zeal and ambition of the

 Liutprand invaded the province of Romagna, which  
 had already assumed that distinctive appellation ;

 dangerous and unnatural alliance ; the king and  
 the exarch marched to the conquest of Spoleto

was subdued by force or treachery \*, and this final conquest extinguished the series of the exarchs, who had reigned with a subordinate power since the time of Justinian, and the ruin of the Gothic kingdom. Rome was summoned to acknowledge the victorious Lombard as her lawful sovereign; the annual tribute of a piece of gold was fixed as the ransom of each citizen, and the sword of destruction was unsheathed to exact the penalty of her disobedience. The Romans hesitated; they entreated; they complained; and the threatening Barbarians were checked by arms and negotiations, till the popes had engaged the friendship of an ally and avenger beyond the Alps †.

In his distress, the first Gregory had implored the aid of the hero of the age, of Charles Martel, who governed the French monarchy with the humble title of mayor or duke; and who, by his signal victory over the Saracens, had saved his country, and perhaps Europe, from the Mahometan yoke. The ambassadors of the pope were received by Charles with decent reverence; but the greatness of his occupations, and the shortness of his life, prevented his interference in the affairs of Italy, except by a friendly and ineffectual mediation. C H A P. assumed the office of champion of the Roman  
XLIX. church; and the zeal of the French prince appears  
to have been prompted by the love of glory and religion. But the danger was on the banks of the Tiber, the succour on those of the Seine; and our sympathy is cold to the relation of distant misery. Amidst the tears of the city, Stephen the third embraced the generous resolution of visiting in person the courts of Lombardy and France, to deprecate the injustice of his enemy, or to excite the pity and indignation of his friend. After soothing the public despair by litanies and orations, he undertook this laborious journey with the ambassadors of the French monarch and the Greek emperor. The king of the Lombards was inexorable; but his threats could not silence the complaints, nor retard the speed of the Roman pontiff, who traversed the Pennine Alps, reposed in the abbey of St Maurice, and hastened to grasp the right-hand of his protector, a hand which was never lifted in vain, either in war or friendship. Stephen was entertained as the visible successor of the apostle; at the next assembly, the field of March or of May, his injuries were exposed to a devout and warlike nation, and he repassed the Alps, not as a suppliant, but as a conqueror, at the head of a French army, which was led by the king in person. The Lombards, after a weak resistance, obtained an ignominious peace, and swore to restore the possessions, and to respect the sanctity, of the Roman church. But no sooner was Astolphus delivered from the presence of the French arms, than he forgot his promise and resented his disgrace. Rome was again encompassed by his arms; and  
Stephen,

Stephen, apprehensive of fatiguing the zeal of his Transalpine allies, enforced his complaint and request, by an eloquent letter in the name and person of St Peter himself \*. The apostle assures his adoptive sons, the king, the clergy, and the nobles of France, that dead in the flesh, he is still alive in the spirit; that they now hear, and must obey, the voice of the founder and guardian of the Roman church: That the Virgin, the angels, the saints, and the martyrs, and all the host of heaven, unanimously urge the request, and will confess the obligation; that riches, victory, and paradise, will crown their pious enterprise, and that eternal damnation will be the penalty of their neglect, if they suffer his tomb, his temple, and his people, to fall into the hands of the perfidious Lombards. The second expedition of Pepin was not less rapid and fortunate than the first: St Peter was satisfied, Rome was again saved, and Astolphus was taught the lessons of justice and sincerity by the scourge of a foreign master. After this double chastisement, the Lombards languished about twenty years in a state of languor and decay. But their minds were not yet humbled to their condition; and instead of affecting the pacific virtues of the feeble, they peevishly harassed the Romans with a repetition of claims, evasions, and inroads, which they undertook without reflection, and terminated

The passes of the Alps, and the walls of Pavia, were the only defence of the Lombards; the former were surprised, the latter were invested, by the son of Pepin; and after a blockade of two years, Desiderius, the last of their native princes, surrendered his sceptre and his capital. Under the dominion of a foreign king, but in the possession of their national laws, the Lombards became the brethren, rather than the subjects, of the Franks; who derived their blood, and manners, and language, from the same Germanic origin†.

Under the sacerdotal monarchy of St Peter, the nations began to resume the practice of seeking, on the banks of the Tiber, their kings, their laws, and the oracles of their fate. The Franks were perplexed between the name and substance of their government. All the powers of royalty were exercised by Pepin, mayor of the palace; and nothing, except the regal title, was wanting to his ambition. His enemies were crushed by his valour; his friends were multiplied by his liberality; his father had been the saviour of Christendom; and the claims of personal merit were repeated and ennobled in a descent of four generations. The name and image of royalty was still preserved in the last descendant of Clovis, the feeble Childeric; but his obsolete right could only be used as an instrument of sedition: The nation was desirous of restoring the simplicity of the constitution; and Pepin, a subject and a prince, was ambitious to ascertain his own rank and the fortune of his family. The mayor and the nobles were bound, by an oath of fidelity, to the royal phantom: The blood of Clovis was pure and sacred

An answer so agreeable to their wishes was accepted by the Franks, as the opinion of a casuist, the sentence of a judge, or the oracle of a prophet: The Merovingian race disappeared from the earth; and Pepin was exalted on a buckler by the suffrage of a free people, accustomed to obey his laws and to march under his standard. His coronation was twice performed, with the sanction of the popes, by their most faithful servant St Boniface, the apostle of Germany, and by the grateful hands of Stephen the third, who, in the monastery of St Denys, placed the diadem on the head of his benefactor. Since the revolt of Italy and the loss of the Exarchate, the distress of the Romans had exacted some sacrifice of their independence. Yet, even in this act, they exercised the right of disposing of themselves; and the decrees of the senate and people successively invested Charles Martel, and his posterity, with the honours of patrician of Rome. The leaders of a powerful nation would have disdained a servile title and subordinate office; but the reign of the Greek emperors was suspended; and, in the vacancy of the empire, they derived a more glorious commission from the pope and the republic. The Roman ambassadors presented these patricians with the keys of the shrine of St Peter, as a pledge and symbol of sovereignty; with a holy banner, which it was their right and duty to unfurl in the defence of the church and city\*. In the time of Charles Martel and of Pepin, the interposition of the Lombard kingdom covered the freedom, while it threatened the safety, of Rome; and the *patriciate* represented only the title, the service, the alliance, of these distant protectors. The power and policy of Charlemagne annihilated an enemy, and imposed a master. In his first visit

\* The papal advocates can soften the symbolic meaning of the banner and the keys; but the stile of ad *regnum* dimisimus, or direximus, (Codex Carolin. epist. i. tom. iii. pars ii. p. 76.) seems to allow of no palliation or escape. In the MS. of the Vienna library, they read, instead of *regnum*, *rogum*, prayer or request, (see Ducange) and the royalty of Charles Martel is subverted by this important correction, (Catalini, in his Critical Prefaces Annali d'Italia, tom. xvii. p. 95—99.)

to the capital, he was received with all the honours C H A P.  
 which had formerly been paid to the exarch, the XLIX.  
 representative of the emperor; and these honours  
 obtained some new decorations from the joy and  
 gratitude of pope Adrian the first \*. No sooner  
 was he informed of the sudden approach of the  
 monarch, than he dispatched the magistrates and  
 nobles of Rome to meet him, with the banner,  
 about thirty miles from the city. At the distance  
 of one mile, the Flaminian way was lined with the  
*schools*, or national communities, of Greeks, Lom-  
 bards, Saxons, &c.: The Roman youth were under  
 arms; and the children of a more tender age, with  
 palms and olive branches in their hands, chaunted  
 the praises of their great deliverer. At the aspect  
 of the holy crosses, and ensigns of the saints, he  
 dismounted from his horse, led the procession of  
 his nobles to the Vatican, and, as he ascended the  
 stairs, devoutly kissed each step of the threshold  
 of the apostles. In the portico, Adrian expected  
 him at the head of his clergy: They embraced, as  
 friends and equals; but in their march to the altar,  
 the king or patrician assumed the right-hand of  
 the pope. Nor was the Frank content with these  
 vain and empty demonstrations of respect. In the  
 twenty-six years that elapsed, between the conquest  
 of Lombardy and his Imperial coronation, Rome,  
 which had been delivered by the sword, was sub-  
 ject, as his own, to the sceptre of Charlemagne.

**C H A P.** The people swore allegiance to his person and family: In his name money was coined, and justice was administered; and the election of the popes was examined and confirmed by his authority. Except an original and self-inherent claim of sovereignty, there was not any prerogative remaining, which the title of emperor could add to the patrician of Rome \*.

**XLIX.**  The gratitude of the Carlovingians was adequate to these obligations, and their names are consecrated as the saviours and benefactors of the Roman church. Her ancient patrimony of farms and houses was transformed by their bounty into the temporal dominion of cities and provinces; and the donation of the Exarchate was the first fruits of the conquests of Pepin †. Astolphus with a sigh relinquished his prey; the keys and the hostages of the principal cities were delivered to the French ambassador; and, in his master's name, he presented them before the tomb of St Peter. The original act has never been produced; but the *Liber Pontificalis* represents, (p. 171.) and the *Codex Carolinus* supposes, this ample gift. Both are contemporary records: And the latter is the more authentic, since it has been preserved, not in the papal, but the Imperial library.

 stretched along the Adriatic from Rimini to An-

 far as the ridges of the Appenine. In this trans-  
 action, the ambition and avarice of the popes had  
 been severely condemned. Perhaps the humility  
 of a Christian priest should have rejected an earth-  
 ly kingdom, which it was not easy for him to go-

 pope from the reproach of treachery and falsehood.  
 But in the rigid interpretation of the laws, every

The splendid donation was granted in supreme and absolute dominion, and the world beheld, for the first time, a Christian bishop invested with the prerogatives of a temporal prince; the choice of magistrates, the exercise of justice, the imposition of taxes, and the wealth of the palace of Ravenna. In the dissolution of the Lombard kingdom, the inhabitants of the dutchy of Spoleto \* sought a refuge from the storm, shaved their heads after the Roman fashion, declared themselves the servants and subjects of St Peter, and completed, by this voluntary surrender, the present circle of the ecclesiastical state. That mysterious circle was enlarged to an indefinite extent, by the verbal or written donation of Charlemagne †, who, in the first transports of his victory, despoiled himself and the Greek emperor of the cities and islands which had formerly been annexed to the Exarchate. But, in the cooler moments of absence and reflection, he viewed,

I believe, with him, that they were only verbal. The most ancient act of donation that pretends to be extant, is that of the emperor Louis the Pious. (*Sigonius, de Regno Italiæ*, l. iv. *Opera*, tom. ii. p. 267—270.) Its authenticity, or at least its integrity, are much questioned; (*Pagi, A. The execution of his own and his father's promises was respectfully eluded: The king of the Franks and Lombards asserted the inalienable rights of the empire; and, in his life and death, Ravenna \*, as well as Rome, was numbered in the list of his metropolitan cities. The sovereignty of the Exarchate melted away in the hands of the popes; they found in the archbishops of Ravenna a dangerous and domestic rival †: The nobles and priests disdained the yoke of a priest; and, in the disorders of the times, they could only retain the memory of an ancient claim, which, in a more prosperous age, they have revived and realized.

Fraud is the resource of weakness and cunning; and the strong, though ignorant Barbarian, was often entangled in the net of sacerdotal policy. The Vatican and Lateran were an arsenal and manufacture, which, according to the occasion, have produced or concealed a various collection of false or genuine, of corrupt or suspicious acts, as they tended to promote the interest of the Roman church. According to the legend, the first of the Christian emperors was healed of the leprosy, and purified in the waters of baptism, by St Silvester, the Roman bishop; and never was physician more gloriously recompensed. His royal proselyte withdrew from the seat and patrimony of St Peter; declared his resolution of founding a new capital in the East; and resigned to the popes the free and perpetual sovereignty of Rome, Italy, and the provinces of the West †. This fiction was productive of the most beneficial effects. The Greek princes were convicted of the guilt of usurpation; and the revolt of Gregory was the claim of his lawful inheritance. The popes were delivered from their debt of gratitude; and the nominal gifts of the Carolingians

The sovereignty of Rome no longer depended on the choice of a fickle people; and the successors of St Peter and Constantine were invested with the purple and prerogatives of the Cæsars. The emperors, and the Romans, were incapable of discerning a forgery, that subverted their rights and freedom; and the only opposition proceeded from a Sabine monastery, which, in the beginning of the twelfth century, disputed the truth and validity of the donation of Constantine †. While the popes established in Italy their freedom and dominion, the images, the first cause of their revolt, were restored in the Eastern empire\*. Under the reign of Constantine the fifth, the union of civil and ecclesiastical power had overthrown the tree, without extirpating the root, of superstition. The idols, for such they were now held, were secretly cherished by the order and the sex most prone to devotion; and the fond alliance of the monks and females, obtained a final victory over the reason and authority of man. Leo the fourth maintained with less rigour the religion of his father and grandfather; but his wife, the fair and ambitious Irene, had imbibed the zeal of the Athenians, the heirs of the idolatry, rather than the philosophy, of their ancestors. During the life of her husband, these sentiments were inflamed by danger and dissimulation, and she could only labour to protect and promote some favourite monks whom she drew from their caverns, and seated on the metropolitan thrones of the East. But as soon as she reigned in her own name and that of her son, Irene more seriously

By the opportunities of death or removal, the episcopal seats were judiciously filled ; the most eager competitors for earthly or celestial favour, anticipated and flattered the judgment of their sovereign ; and the promotion of her secretary Tarasius, gaye Irene the patriarch of Constantinople, and the command of the Oriental church. But the decrees of a general council could only be repealed by a similar assembly \* ; the Iconoclasts whom she convened, were bold in possession, and averse to debate ; and the feeble voice of the bishops was re-echoed by the more formidable clamour of the soldiers and people of Constantinople. The delay and intrigues of a year, the separation of the disaffected troops, and the choice of Nice for a second orthodox synod, removed these obstacles ; and the episcopal conscience was again, after the Greek fashion, in the hands of the prince. No more than eighteen days were allowed for the consummation of this important work ; the Iconoclasts appeared, not as judges, but as criminals or penitents ; the scene was decorated by the legates of pope Adrian and the

the Eastern patriarchs\*, the decrees were framed by the president Tarasius, and ratified by the acclamations and subscriptions of three hundred and fifty bishops. They unanimously pronounced, that the worship of images is agreeable to scripture and reason, to the fathers and councils of the church: But they hesitate whether that worship be relative or direct; whether the Godhead, and the figure of Christ, be entitled to the same mode of adoration. Of this second Nicene council, the acts are still extant; a curious monument of superstition and ignorance, of falsehood and folly. I shall only notice the judgment of the bishops, on the comparative merit of image-worship and morality. A monk had concluded a truce with the dæmon of fornication, on condition of interrupting his daily prayers to a picture that hung in his cell. His scruples prompted him to consult the abbot. "Rather than abstain from adoring Christ and his Mother in their holy images, it would be better for you," replied the casuist, "to enter every brothel, and visit every prostitute, in the city †."

For the honour of orthodoxy, at least, the orthodoxy of the Roman church, it is somewhat unfortunate, that the two princes who convened the two councils of Nice, are both stained with the blood of their sons. The second of these assemblies was approved and rigorously executed by the despotism of Irene, and she refused her adversaries the toleration which at first she had granted to her friends. During the five succeeding reigns, a period of thirty-eight years, the contest was maintained, with unabated rage and various success, between the worshippers, and the breakers of the images ; but I am not inclined to pursue, with minute diligence the repetition of the same events. Nicephorus allowed a general liberty of speech and practice ; and the only virtue of his reign is accused by the monks as the cause of his temporal and eternal perdition. Superstition and weakness formed the character of Michael the first, but the saints and images were incapable of supporting their votary on the throne. In the purple, Leo the fifth asserted the name and religion of an Armenian ; and the idols, with their seditious adherents, were condemned to a second exile. Their applause would have sanctified the murder of an impious tyrant, but his assassin and successor, the second Michael, was tainted from his birth with the Phrygian heresies : He attempted to mediate between the contending parties ; and the intractable spirit of the Catholics insensibly cast him into the opposite scale. His moderation was guarded by timidity ; but his son Theophilus, alike ignorant of fear and pity, was  
the

the last and most cruel of the Iconoclasts. The enthusiasm of the times ran strongly against them; and the emperors, who stemmed the torrent, were exasperated and punished by the public hatred. After the death of Theophilus, the final victory of the images was atchieved by a second female, his widow Theodora, whom he left the guardian of the empire. Her measures were bold and decisive. The fiction of a tardy repentance absolved the fame and the soul of her deceased husband: The sentence of the Iconoclast patriarch was commuted from the loss of his eyes to a whipping of two hundred lashes: The bishops trembled, the monk shouted, and the festival of orthodoxy preserves the annual memory of the triumph of the images. A single question yet remained, whether they are endowed with any proper and inherent sanctity; it was agitated by the Greeks of the eleventh century\*; and as this opinion has the strongest recommendation of absurdity, I am surprised that it was not more explicitly decided in the affirmative. In the West, pope Adrian the first accepted and announced the decrees of the Nicene assembly, which is now revered by the Catholics as the seventh in rank of the general councils. Rome and Italy were docile to the voice of their father; but the greatest part of the Latin Christians were far behind in the race of superstition. The churches of France, Germany, England, and Spain, steered a middle course

It was after the Nicene synod, and under the reign of the pious Irene, that the popes consummated the separation of Rome and Italy, by the translation of the empire to the less orthodox Charlemagne. They were compelled to chuse between the rival nations: Religion was not the sole motive of their choice; and while they dissembled the failings of their friends, they beheld, with reluctance and suspicion, the Catholic virtues of their foes. The difference of language and manners had perpetuated the enmity of the two capitals; and they were alienated from each other by the hostile opposition of seventy years. In that schism the Romans had tasted of freedom, and the popes of sovereignty: Their submission would have exposed them to the revenge of a jealous tyrant; and the revolution of Italy had betrayed the impotence, as well as the tyranny, of the Byzantine court. The Greek emperors had restored the images, but they had not restored the Calabrian estates \* and the Illyrian diocese †, which

 might be tainted by the breath of the reigning  
 monarch: The Franks were now contumacious;  
 but a discerning eye might discern their approach-  
 ing conversion from the use, to the adoration, of  
 images. The name of Charlemagne was stained  
 by the polemic acrimony of his scribes; but the  
 conqueror himself conformed, with the temper of  
 a statesman, to the various practice of France and  
 Italy. In his four pilgrimages or visits to the  
 Vatican, he embraced the popes in the commu-  
 nion of friendship and piety; knelt before the  
 tomb, and consequently before the image, of the  
 apostle; and joined, without scruple, in all the  
 prayers and processions of the Roman liturgy.  
 Would prudence or gratitude allow the pontiffs  
 to renounce their benefactor? Had they a right  
 to alienate his gift of the Exarchate? Had they  
 power to abolish his government of Rome? The

his prison, he escaped to the Vatican; the duke of Spoleto hastened to his rescue, Charlemagne sympathised in his injury, and in his camp of Paderborn in Westphalia accepted or solicited a visit from the Roman pontiff. Leo repassed the Alps with a commission of counts and bishops, the guards of his safety, and the judges of his innocence; and it was not without reluctance, that the conqueror of the Saxons delayed till the ensuing year the personal discharge of this pious office. In his fourth and last pilgrimage, he was received at Rome with the due honours of king and patrician: Leo was permitted to purge himself by oath of the crimes imputed to his charge: His enemies were silenced, and the sacrilegious attempt against his life was punished by the mild and insufficient penalty of exile. On the festival of Christmas, the last year of the eighth century, Charlemagne appeared in the church of St Peter; and, to gratify the vanity of Rome, he had exchanged the simple dress of his country for the habit of a patrician \*. After the celebration of the holy mysteries, Leo suddenly placed a precious crown on his head †, and the dome resounded

\* Twice, at the request of Hadrian and Leo, he appeared at Rome—*longâ tunicâ et chlamyde amictus, et calceamentis quoque Romano more formatis*. Eginhard (c. xxiii. p. 109—113.) describes, like Suetonius, the simplicity of his dress, so popular in the nation, that when Charles the Bald returned to France in a foreign habit, the patriotic dogs barked at the apostate. (Gaillard, *Vie de Charlemagne*, tom. iv. p. 109.)

† See Anastasius (p. 199.) and Eginhard, (c. xxviii. p. 124—128.) The unction is mentioned by Theophanes, (p. 399.) the oath by Sigonius, (from the *Ordo Romanus*,) and the pope's adoration *more antiquorum principum*, by the *Annales Bertiniani*. (Script. Murator. tom. i. pars ii. p. 505.)

 “ pacific emperor of the Romans !” The head  
 and body of Charlemagne were consecrated by  
 the royal unction : After the example of the Cæ-  
 sars he was saluted or adored by the pontiff ; his  
 coronation oath represents a promise to maintain  
 the faith and privileges of the church ; and the  
 first fruits were paid in his rich offerings to the  
 shrine of the apostle. In his familiar conversa-  
 tion, the emperor protested his ignorance of the  
 intentions of Leo, which he would have disap-  
 pointed by his absence on that memorable day.  
 But the preparations of the ceremony must have  
 disclosed the secret ; and the journey of Charle-  
 magne reveals his knowledge and expectation : He  
 had acknowledged that the imperial title was the  
 object of his ambition, and a Roman senate had  
 pronounced, that it was the only adequate reward  
 of his merit and services \*.

\* This great event of the translation or restoration of the em-

 derns have some religious or national bias.

That name, with the addition of *saint*, is inserted in the Roman calendar; and the saint, by a rare felicity, is crowned with the praises of the historians and philosophers of an enlightened age \*. His *real* merit is doubtless enhanced by the barbarism of the nation and the times from which he emerged: But the *apparent* magnitude of an object is likewise enlarged by an unequal comparison; and the ruins of Palmyra derive a casual splendour from the nakedness of the surrounding desert. Without injustice to his fame, I may discern some blemishes in the sanctity and greatness of the restorer of the Western empire. Of his moral virtues, chastity is not the most conspicuous †: But the public happiness could not be materially injured by his nine wives or concubines, the various indulgence of meaner or more transient amours, the multitude of his bastards whom he bestowed on the church, and the long celibacy and licentious manners of his daughters,

\* By Mably, (*Observations sur l'Histoire de France*,) Voltaire, (*Histoire Generale*,) Robertson, (*History of Charles V.*) and Montesquieu, (*Esprit des Loix*, l. xxxi c. 18.) In the year 1782, M. Gaillard published his *Histoire de Charlemagne*, (in 4 vols. in 12mo,) which I have freely and profitably used. The author is a man of sense and humanity; and his work is laboured with industry and elegance. But I have likewise examined the original monuments of the reigns of Pepin and Charlemagne, in the fifth volume of the *Historians of France*.

† The vision of Weltin, composed by a monk, eleven years after the death of Charlemagne, shews him in purgatory, with a vulture, who is perpetually gnawing the guilty member, while the rest of his body, the emblem of his virtues, is sound and perfect. (See Gaillard, tom. ii. p. 317—360.)

C H A P. daughters \*, whom the father was suspected of  
 XLIX. loving with too fond a passion. I shall be scarcely  
 permitted to accuse the ambition of a conqueror; but in a day of equal retribution, the sons of his brother Carloman, the Merovingian princes of Aquitain, and the four thousand five hundred Saxons who were beheaded on the same spot, would have something to allege against the justice and humanity of Charlemagne. His treatment of the vanquished Saxons † was an abuse of the right of conquest; his laws were not less sanguinary than his arms, and in the discussion of his motives, whatever is subtracted from bigotry must be imputed to temper. The sedentary reader is amazed by his incessant activity of mind and body; and his subjects and enemies were not less astonished at his sudden presence, at the moment when they believed him at the most distant extremity of the empire; neither peace nor war, nor summer nor winter, were a season of repose: And our fancy cannot easily reconcile the annals of his reign with the geography of his expeditions.

But

\* The marriage of Eginhard with Imma, daughter of Charlemagne, is, in my opinion, sufficiently refuted by the *probrum* and *suspicio* that sullied these fair damsels, without excepting his own wife. (c. xix. p. 98—100. cum Notis Schmincke.) The husband must have been too strong for the historian.

† Besides the massacres and transmigrations, the pain of death was pronounced against the following crimes: 1. The refusal of baptism. 2. The false pretence of baptism. 3. A relapse to idolatry. 4. The murder of a priest or bishop. 5. Human sacrifices. 6. Eating meat in Lent. But every crime might be expiated by baptism or penance: (Gaillard, tom. ii. p. 241—247.) and the Christian Saxons became the friends and equals of the Franks. (Struv. Corpus Hist. Germanicæ, p. 133.)

But this activity was a national, rather than a personal virtue ; the vagrant life of a Frank was spent in the chase, in pilgrimage, in military adventures ; and the journies of Charlemagne were distinguished only by a more numerous train and a more important purpose. His military renown must be tried by the scrutiny of his troops, his enemies, and his actions. Alexander conquered with the arms of Philip, but the *two* heroes who preceded Charlemagne bequeathed him their name, their examples, and the companions of their victories. At the head of his veteran and superior armies, he oppressed the savage or degenerate nations, who were incapable of confederating for their common safety ; nor did he ever encounter an equal antagonist in numbers, in discipline, or in arms. The science of war has been lost and revived with the arts of peace ; but his campaigns are not illustrated by any siege or battle of singular difficulty and success ; and he might behold, with envy, the Saracen trophies of his grandfather. After his Spanish expedition, his rear guard was defeated in the Pyrenæan mountains ; and the soldiers, whose situation was irretrievable, and whose valour was useless, might accuse, with their last breath, the want of skill or caution of their general \*. I touch, with reverence, the laws of Charlemagne, so highly ap-

They compose not a system, but a series, of occasional and minute edicts, for the correction of abuses, the reformation of manners, the œconomy of his farms, the care of his poultry, and even the sale of his eggs. He wished to improve the laws and the character of the Franks ; and his attempts, however feeble and imperfect, are deserving of praise : The inveterate evils of the times were suspended or mollified by his government \* ; but in his institutions I can seldom discover the general views and the immortal spirit of a legislator, who survives himself for the benefit of posterity. The union and stability of his empire depended on the life of a single man : He imitated the dangerous practice of dividing his kingdoms among his sons ; and, after his numerous diets, the whole constitution was left to fluctuate between the disorders of anarchy and despotism. His esteem for the piety and knowledge of the clergy tempted him to entrust that aspiring order with temporal dominion and civil jurisdiction ; and his son Lewis, when he was stripped and degraded by the bishops, might accuse, in some measure, the imprudence of his father. His laws enforced the imposition of tithes, because the dæmons had proclaimed in the air, that the default of payment had been the cause of the last scarcity †. The literary merits of

 were published in his name, and his familiar con-

 knowledge from conversation, rather than from  
 books; and, in his mature age, the emperor  
 strove to acquire the practice of writing, which

 France.

That empire was not unworthy of its title \*; and some of the fairest kingdoms of Europe were the patrimony or conquest of a prince, who reigned at the same time in France, Spain, Italy, Germany, and Hungary †. I. The Roman province of Gaul had been transformed into the name and monarchy of FRANCE; but, in the decay of the Merovingian line, its limits were contracted by the independence of the *Britons* and the revolt of *Aquitain*. Charlemagne pursued, and confined, the Britons on the shores of the ocean; and that ferocious tribe, whose origin and language are so different from the French, was chastised by the imposition of tribute, hostages, and peace. After a long and evasive contest, the rebellion of the dukes

writers have it increased it to eight feet, and the giant was endowed with matchless strength and appetite: At a single stroke of his good sword *Joyeuse*, he cut asunder an horseman and his horse; at a single repast he devoured a goose, two fowls, a quarter of mutton, &c.

\* See the concise, but correct and original work, of d'Anville, (*Etats formés en Europe après la Chute de l'Empire Romain en Occident*, Paris, 1771, in 4to,) whose map includes the empire of Charlemagne; the different parts are illustrated, by Valesius (*Notitia Galliarum*) for France, Beretti (*Dissertatio Chorographica*) for Italy, de Marca (*Marca Hispanica*) for Spain. For the middle geography of Germany, I confess myself poor and destitute.

† After a brief relation of his wars and conquests, (*Vit. Carol. c. 5—14.*) Eginhard recapitulates, in a few words, (*c. 15.*) the countries subject to his empire. Struvius (*Corpus Hist. German. p. 118—149.*) has inserted in his Notes the texts of the old Chronicles.

dukes of Aquitain was punished by the forfeiture of their province, their liberty, and their lives. Harsh and rigorous would have been such treatment of ambitious governors, who had too faithfully copied the mayors of the palace. But a recent discovery\* has proved that these unhappy princes were the last and lawful heirs of the blood and sceptre of Clovis, a younger branch, from the brother of Dagobert, of the Merovingian house. Their ancient kingdom was reduced to the duchy of Gascogne, to the counties of Fesenzac and Armagnac, at the foot of the Pyrenees: Their race was propagated till the beginning of the sixteenth century; and, after surviving their Carlovingian tyrants, they were reserved to feel the injustice, or the favours, of a third dynasty. By the re-union of Aquitain, France was enlarged to its present boundaries, with the additions of the Netherlands and Spain, as far as the Rhine. II. The Saracens had been expelled from France by the grandfather and father of Charlemagne; but they still possessed the greatest part of SPAIN, from the rock of Gibraltar to the Pyrenees. Amidst their civil divisions, an Arabian emir of Saragossa implored his protection in the diet of Paderborn. Charlemagne undertook the expedition, restored the emir, and, without dis-

 Lombards, and patrician of Rome, he reigned  
 over the greatest part of ITALY †, a tract of a  
 thousand miles from the Alps to the borders of  
 Calabria. The duchy of *Beneventum*, a Lombard  
 fief, had spread, at the expence of the Greeks, over  
 the modern kingdom of Naples. But Arrechis,  
 the reigning duke, refused to be included in the  
 slavery of his country; assumed the independent  
 title of prince; and opposed his sword to the Car-  
 lovingian monarchy. His defence was firm, his  
 submission was not inglorious, and the emperor  
 was content with an easy tribute, the demolition  
 of his fortresses, and the acknowledgment, on his  
 coins, of a supreme lord. The artful flattery of  
 his son Grimoald added the appellation of father,

 country was inscribed within the modern limits of  
*Alsace*, *Swabia*, and *Switzerland*. The *Bavarians*,  
 with a similar indulgence of their laws and man-  
 ners, were less patient of a master; the repeated  
 treasons of Tasillo justified the abolition of her he-  
 reditary dukes; and their power was shared among  
 the counts, who judged and guarded that import-  
 ant frontier. But the north of Germany, from the  
 Rhine and beyond the Elbe, was still hostile and  
 Pagan; nor was it till after a war of thirty-three  
 years, that the Saxons bowed under the yoke of  
 Christ and of Charlemagne. The idols and their  
 votaries were extirpated: The foundation of eight

C H A P. XLIX. overspread the modern dominions of Prussia, Poland, and Bohemia, and some transient marks of obedience have tempted the French historian to extend the empire to the Baltic and the Vistula. The conquest or conversion of those countries is of a more recent age ; but the first union of *Bohemia* with the Germanic body may be justly ascribed to the arms of Charlemagne. V. He retaliated on the Avars, or Huns of Pannonia, the same calamities which they had inflicted on the nations. Their rings, the wooden fortifications which encircled their districts and villages, were broken down by the triple effort of a French army, that was poured into their country by land and water, through the Carpathian mountains, and along the plain of the Danube. After a bloody conflict of eight years, the loss of some French generals was avenged by the slaughter of the most noble Huns : The relics of the nation submitted ; the royal residence of the chagan was left desolate and unknown ; and the treasures, the rapine of two hundred and fifty years, enriched the victorious troops, or decorated the churches of Italy and Gaul \*. After the reduction of Pannonia, the empire of Charlemagne was bounded only by the conflux of the Danube with the Teyss and the Save : The provinces of Istria, Liburnia, and Dalmatia,

matia, were an easy, though unprofitable, accession ; and it was an effect of his moderation, that he left the maritime cities under the real or nominal sovereignty of the Greeks. But these distant possessions added more to the reputation than to the power of the Latin emperor ; nor did he risk any ecclesiastical foundations to reclaim the Barbarians from their vagrant life and idolatrous worship. Some canals of communication between the rivers, the Saône and the Meuse, the Rhine and the Danube, were faintly attempted \*. Their execution would have vivified the empire ; and more cost and labour were often wasted in the structure of a cathedral.

C H A P.  
XLIX.

If we retrace the outlines of this geographical picture, it will be seen, that the empire of the Franks extended, between east and west, from the Ebro to the Elbe or Vistula ; between the north and south, from the duchy of Beneventum to the river Eyder, the perpetual boundary of Germany and Denmark. The personal and political importance of Charlemagne was magnified by the distress and division of the rest of Europe. The islands of Great Britain and Ireland were disputed by a crowd of princes of Saxon or Scottish origin ; and, after the loss of Spain, the Christian and Gothic

His neighbours and enemies.

\* The junction of the Rhine and Danube was undertaken only for the service of the Pannonian war, (Gaillard, *Vie de Charlemagne*, tom. ii. p. 312—315.) The canal, which would have been only two leagues in length, and of which some traces are still extant in Swabia, was interrupted by excessive rains, military avocations, and superstitious fears, (Schæpflin, *Hist. de l'Academie des Inscriptions*, tom. xviii. p. 256. *Molimina fluviorum, &c. jungendorum*, p. 59—62.)

C H A P. this kingdom of Alphonso the Chaste, was con-  
 XLIX. fined to the narrow range of the Asturian moun-  
 { tains. These petty sovereigns revered the power  
 or virtue of the Carlovingian monarch, implored  
 the honour and support of his alliance, and stiled  
 him their common parent, the sole and supreme  
 emperor of the West \*. He maintained a more  
 equal intercourse with the caliph Harun al Ra-  
 shid †, whose dominion stretched from Africa to  
 India, and accepted from his ambassadors a tent,  
 a water-clock, an elephant, and the keys of the  
 Holy Sepulchre. It is not easy to conceive the  
 private friendship of a Frank and an Arab, who  
 were strangers to each other's person, and lan-  
 guage, and religion ; but their public correspon-  
 dence was founded on vanity, and their remote si-  
 tuation left no room for a competition of interest.  
 Two-thirds of the Western empire of Rome were  
 subject to Charlemagne, and the deficiency was  
 amply supplied by his command of the inaccessi-  
 ble or invincible nations of Germany. But in the  
 choice of his enemies, we may be reasonably sur-  
 prised that he so often preferred the poverty of the  
 north to the riches of the south. The thirty-three  
 campaigns laboriously consumed in the woods and  
 morasses of Germany, would have sufficed to assert

The weakness of the Greeks would have ensured ┌  
an easy victory: And the holy crusade against the  
Saracens would have been prompted by glory and  
revenge, and loudly justified by religion and policy.  
Perhaps, in his expeditions beyond the Rhine and  
the Elbe, he aspired to save his monarchy from  
the fate of the Roman empire, to disarm the ene-  
mies of civilized society, and to eradicate the seed  
of future emigrations. But it has been wisely ob-  
served, that in a light of precaution, all conquest  
must be ineffectual, unless it could be universal;  
since the increasing circle must be involved in a  
larger sphere of hostility \*. The subjugation of  
Germany withdrew the veil which had so long  
concealed the continent or islands of Scandinavia  
from the knowledge of Europe, and awakened  
the torpid courage of their barbarous natives. The  
fiercest of the Saxon idolaters escaped from the  
Christian tyrant to their brethren of the north;  
the Ocean and Mediterranean were covered with  
their piratical fleets; and Charlemagne beheld  
with a sigh the destructive progress of the Nor-  
mans, who, in less than seventy years, precipitated  
the fall of his race and monarchy.

 though with less energy, in the subsequent associa-

 son in a lineal descent of four generations; and the  
 ambition of the popes was reduced to the empty  
 honour of crowning and anointing these hereditary  
 princes who were already invested with their pow-  
 er and dominion. The pious Lewis survived his  
 brothers, and embraced the whole empire of Char-

 bishops and his children, quickly discerned that  
 this mighty mass was no longer inspired by the  
 same soul; and the foundations were undermined

was divided by treaty between his three sons, who had violated every filial and fraternal duty. The kingdoms of Germany and France were for ever separated; the provinces of Gaul, between the Rhone and the Alps, the Meuse and the Rhine, were assigned, with Italy, to the Imperial dignity of Lothaire. In the partition of his share, Lorraine and Arles, two recent and transitory kingdoms, were bestowed on the younger children; and Lewis the second, his eldest son, was content with the realm of Italy, the proper and sufficient patrimony of a Roman emperor. On his death without any male issue, the vacant throne was disputed by his uncles and cousins, and the popes most dexterously seized the occasion of judging the claims and merits of the candidates, and of bestowing on the most obsequious or most liberal, the Imperial office of advocate of the Roman church. The dregs of the Carlovingian race no longer exhibited any symptoms of virtue or power, and the ridiculous epithets of the *bald*, the *stammerer*, the *fat*, and the *simple*, distinguished the tame and uniform features of a crowd of kings alike deserving of oblivion. By the failure of the collateral branches, the whole inheritance devolved to Charles the Fat, the last emperor of his family; his insanity authorised the desertion of Germany, Italy, and France: He was deposed in a diet, and solicited his daily bread from the rebels, by whose contempt his life and liberty had been spared. According to the measure of their force, the governors, the bishops, and the lords, usurped the fragments of the falling empire; and some preference was shewn to the female or illegitimate blood

 frequently satisfied with the appellation of kings  
 of Italy; and the whole term of seventy-four years  
 may be deemed a vacancy, from the abdication of

Otho \* was of the noble race of the dukes of Saxony; and if he truly descended from Witikind, the adversary and proselyte of Charlemagne, the posterity of a vanquished people was exalted to reign over their conquerors. His father Henry the Fowler was elected, by the suffrage of the nation, to save and institute the kingdom of Germany. Its limits † were enlarged on every side by his son, the first and greatest of the Othos. A portion of Gaul to the west of the Rhine, along the banks of the Meuse and the Moselle, was assigned to the Germans, by whose blood and language

Hist. German. p. 216.) Yet Gundling (in Henrico Aucepe) is not satisfied of his descent from Witikind.

† See the treatise of Conringius, (de Finibus Imperii Germanici Francofurt, 1680, in 4to;) he rejects the extravagant and improper scale of the Roman and Carlovingian empires, and discusses, with moderation, the rights of Germany, her vassals, and her neighbours.

guage it has been tinged since the time of Cæsar and Tacitus. Between the Rhine, the Rhone, and the Alps, the successors of Otho acquired a vain supremacy over the broken kingdoms of Burgundy and Arles. In the north, Christianity was propagated by the sword of Otho, the conqueror and apostle of the Slavic nations of the Elbe and Oder; the marches of Brandenburg and Sleswick were fortified with German colonies; and the king of Denmark, the dukes of Poland and Bohemia, confessed themselves his tributary vassals. At the head of a victorious army, he passed the Alps, subdued the kingdom of Italy, delivered the pope, and for ever fixed the Imperial crown in the name and nation of Germany. From that memorable æra, two maxims of public jurisprudence were introduced by force, and ratified by time. I. *That* the prince who was elected in the German diet, acquired from that instant the subject kingdoms of Italy and Rome. II. But that he might not legally assume the titles of emperor and Augustus, till he had received the crown from the hands of the Roman pontiff \*.

\* The power of custom forces me to number Conrad I. and Henry I. the Fowler, in the list of emperors, a title which was never assumed by those kings of Germany. The Italians, Muratori for instance, are more scrupulous and correct, and only reckon the princes who have been crowned at Rome.

C H A P. and familiar appellation of brother \*. Perhaps in  
 XLIX. his connection with Irene he aspired to the name  
 of husband : His embassy to Constantinople spoke  
 the language of peace and friendship, and might  
 conceal a treaty of marriage with that ambitious  
 princess, who had renounced the most sacred du-  
 ties of a mother. The nature, the duration, the  
 probable consequences of such an union between  
 two distant and dissonant empires, it is impossible  
 to conjecture ; but the unanimous silence of the  
 Latins may teach us to suspect, that the report was  
 invented by the enemies of Irene, to charge her  
 with the guilt of betraying the church and state  
 to the strangers of the West †. The French am-  
 bassadors were the spectators, and had nearly been  
 the victims, of the conspiracy of Nicephorus, and  
 the national hatred. Constantinople was exaspera-  
 ted by the treason and sacrilege of ancient Rome :  
 A proverb, “ That the Franks were good friends  
 “ and bad neighbours,” was in every one’s mouth ;  
 but it was dangerous to provoke a neighbour who  
 might be tempted to reiterate, in the church of St  
 Sophia, the ceremony of his Imperial coronation.

ambassadors of Nicephorus found him in his camp, on the banks of the river Sala; and Charlemagne affected to confound their vanity by displaying, in a Franconian village, the pomp, or at least the pride, of the Byzantine palace \*. The Greeks were successively led through four halls of audience; in the first, they were ready to fall prostrate before a splendid personage in a chair of state, till he informed them that he was only a servant, the constable, or master of the horse of the emperor. The same mistake, and the same answer, were repeated in the apartments of the count palatine, the steward, and the chamberlain; and their impatience was gradually heightened, till the doors of the presence-chamber were thrown open, and they beheld the genuine monarch, on his throne, enriched with the foreign luxury which he despised, and encircled with the love and reverence of his victorious chiefs. A treaty of peace and alliance was concluded between the two empires, and the limits of the East and West were defined by the right of present possession. But the Greeks † soon forgot this humiliating equality, or remembered it only to hate the Barbarians by whom it was extorted. During the short union of virtue and power,

 extinct, they despoiled Lewis the second of his he-  
 reditary title, and, with the barbarous appellation  
 of rex or *regis*, degraded him among the crowd of  
 Latin princes. His reply \* is expressive of  
 his weakness; he proves, with some learning, that  
 both in sacred and profane history, the name of  
 king is synonymous with the Greek word *basileus*;  
 if, at Constantinople, it were assumed in a more ex-  
 clusive and imperial sense, he claims from his an-  
 cestors, and from the pope, a just participation of  
 the honours of the Roman purple. The same con-  
 troversy was revived in the reign of the Othos; and  
 their ambassador describes, in lively colours, the  
 insolence of the Byzantine court †. The Greeks

 the Franks and Saxons; and in their last decline,

These emperors, in the election of the popes, continued to exercise the powers which had been assumed by the Gothic and Grecian princes; and the importance of this prerogative increased with the temporal estate and spiritual jurisdiction of the Roman church. In the Christian aristocracy, the principal members of the clergy still formed a senate to assist the administration, and to supply the vacancy of the bishop. Rome was divided into twenty-eight parishes, and each parish was governed by a cardinal-priest, or presbyter, a title which, however common and modest in its origin, has aspired to emulate the purple of kings. Their number was enlarged by the association of the seven deacons of the most considerable hospitals, the seven palatine judges of the Lateran, and some dignitaries of the church. This ecclesiastical senate was directed by the seven cardinal-bishops of the Roman province, who were less occupied in the suburb dioceses of Ostia, Porto, Velitræ, Tusculum, Præneste, Tibur, and the Sabines, than by their weekly service in the Lateran, and their superior share in the honours and authority of the apostolic see. On the death of the pope, these bishops recommended a successor to the suffrage of the college of cardinals \*, and their choice was

 The royal commissioner examined, on the spot,  
 the form and freedom of the proceedings; nor was  
 it, till after a previous scrutiny into the qualifi-  
 cations of the candidates, that he accepted an  
 oath of fidelity, and confirmed the donations which  
 had successively enriched the patrimony of St  
 Peter. In the frequent schisms, the rival claims  
 were submitted to the sentence of the emperor; and  
 in a synod of bishops he presumed to judge, to con-  
 demn, and to punish, the crimes of a guilty pontiff.  
 Otho the first imposed a treaty on the senate and  
 people, who engaged to prefer the candidate most  
 acceptable to his majesty \*; his successors anti-

rogative were most speciously excused by the vices of a popular election. The competitor who had been excluded by the cardinals, appealed to the passions or avarice of the multitude: The Vatican and the Lateran were stained with blood; and the most powerful senators, the marquisses of Tuscany and the counts of Tusculm, held the apostolic see in a long and disgraceful servitude. The Roman pontiffs, of the ninth and tenth centuries, were insulted, imprisoned, and murdered, by their tyrants; and such was their indigence after the loss and usurpation of the ecclesiastical patrimonies, that they could neither support the state of a prince, nor exercise the charity of a priest \*. The influence of two sister prostitutes, Marozia, and Theodora, was founded on their wealth and beauty, their political and amorous intrigues: the most strenuous of their lovers were rewarded with the Roman mitre, and their reign † may have suggested to the darker ages ‡ the

fable

\* The oppression and vices of the Roman church in the tenth century are strongly painted in the history and legation of Liutprand, (see p. 440. 450. 471—476. 479, &c.) and it is whimsical enough to observe Muratori tempering the invectives of Baronius against the popes. But these popes had been chosen, not by the cardinals, but by lay-patrons.

† The time of pope Joan (*papissa Joanna*) is placed somewhat earlier than Theodora or Marozia; and the two years of her imaginary reign are forcibly inserted between Leo IV. and Benedict III. But the contemporary Anastasius indissolubly links the death of Leo and the elevation of Benedict, (*illico, mox*, p. 247. and the accurate chronology of Pagi, Muratori, and Leibnitz, fixes both events to the year 857.

‡ The advocates for pope Joan produce one hundred and fifty witnesses, or rather echoes, of the fourteenth, fifteenth, and sixteenth centuries. They bear testimony against themselves and

 XLIX. grandson and the great grandson of Marozia, a rare  
 genealogy, were seated in the chair of St Peter, and  
 it was at the age of nineteen years that the second of  
 these became the head of the Latin church. His  
 youth and manhood were of a suitable complexion;  
 and the nations of pilgrims could bear testimony to  
 the charges that were urged against him in a Roman  
 synod, and in the presence of Otho the great. As  
 John XII. had renounced the dress and decencies  
 of his profession, the *soldier* may not perhaps be  
 dishonoured by the wine which he drank, the blood  
 that he spilt, the flames that he kindled, or the  
 licentious pursuits of gaming and hunting. His

and the legend, by multiplying the proof that so curious a story *must* have been repeated by writers of every description to whom it was known. On those of the ninth and tenth centuries, the recent event would have flashed with a double force. Would Photius have spared such a reproach? Could Liutprand have missed such scandal? It is scarcely worth while to discuss the various readings of Martinus Polonus, Sigebert of Gemblours, or even Marianus Scotus; but a most palpable forgery is the passage of pope Joan, which has been foisted into some MSS. and editions of the Roman Anastasius.

\* As *false*, it deserves that name; but I would not pronounce it incredible. Suppose a famous French chevalier of our own times to have been born in Italy, and educated in the church, instead of the army; *her* merit or fortune *might* have raised her to St Peter's chair; her amours would have been natural; her delivery in the streets unlucky, but not improbable.

† Till the Reformation, the tale was repeated and believed without offence; and Joan's female statue long occupied her place among the popes in the cathedral of Sienna, (Pagi, *Critica*, tom. iii. p. 624—626.) She has been annihilated by two learned Protestants, Blondel and Bayle, (*Dictionnaire Critique*, PAIESSE, POLONUS, BLONDEL;) but their brethren were scandalised by this equitable and generous criticism. Spanheim and Lenfant attempt to save this poor engine of controversy; and even Mosheim condescends to cherish some doubt and suspicion, (p. 289.)

and his blasphemous invocation of Jupiter and Venus, if it be true, could not possibly be serious. C H A P. XLIX.

But we read with some surprise, that the worthy grandson of Marozia lived in public adultery with the matrons of Rome; that the Lateran palace was turned into a school for prostitution, and that his rapes of virgins and widows had deterred the female pilgrims from visiting the tomb of St Peter, lest, in the devout act, they should be violated by his successor \*. The Protestants have dwelt with malicious pleasure on these characters of antichrist; but to a philosophic eye, the vices of the clergy are far less dangerous than their virtues. After a long series of scandal, the apostolic see was reformed and exalted by the austerity and zeal of Gregory VII. That ambitious monk devoted his life to the execution of two projects. I. To fix in the college of cardinals the freedom and independence of election, and for ever to abolish the right or usurpation of the emperors and the Roman people. II. Authority  
 of the em-

 Rome.

In the revival of the empire of Rome, neither the bishop nor the people could bestow on Charlemagne or Otho, the provinces which were lost, as they had been won, by the chance of arms. But the Romans were free to chuse a master for themselves ; and the powers which had been delegated to the patrician, were irrevocably granted to the French and Saxon emperors of the West. The broken records of the times \* preserve some remembrance of their palace, their mint, their tribunal, their edicts, and the sword of justice, which, as late as the thirteenth century, was derived from Cæsar to the præfect of the city †. Between the arts of the popes and the violence of the people, this supremacy was crushed and annihilated. Content with the titles of emperor and Augustus, the successors of Charlemagne neglected to assert this local jurisdiction. In the hour of prosperity,

 her faction into the mole of Hadrian or castle of St

 Alberic, was compelled to attend at the nuptial

 blow was productive of a revolution. "Romans,"

 son; and his brother, pope John XI. was reduced  
 to the exercise of his spiritual functions. With  
 the title of prince, Alberic possessed above twenty  
 years the government of Rome, and he is said to  
 have gratified the popular prejudice, by restoring

 conflict of prerogative and freedom, and Otho  
 commanded his sword-bearer not to stir from his

 severe process was justified by the ancient laws of  
 Theodosius and Justinian. The voice of fame has

scientius was the Brutus of the republic. From the condition of a subject and an exile, he twice rose to the command of the city, oppressed, expelled, and created the popes, and formed a conspiracy for restoring the authority of the Greek emperors. In the fortress of St Angelo, he maintained an obstinate siege, till the unfortunate consul was betrayed by a promise of safety: His body was suspended on a gibbet, and his head was exposed on the battlements of the castle. By a reverse of fortune, Otho, after separating his troops, was besieged three days, without food, in his palace; and a disgraceful escape saved him from the justice or fury of the Romans. The senator Ptolemy was the leader of the people, and the widow of Crescentius enjoyed the pleasure or the fame of revenging her husband, by a poison which she administered to her Imperial lover. It was the design of Otho the third to abandon the ruder countries of the north, to erect his throne in Italy, and to revive the institutions of the Roman monarchy. But his successors only once in their lives appeared on the banks of the Tiber, to receive their crown in the Vatican \*. Their absence was contemptible, their presence odious and formidable. There is nothing perhaps more adverse to na-

 countries and foreign nations, in opposition to  
 their inclination and interest. A torrent of Bar-

 empire must be supported by a refined system of  
 policy and oppression; in the centre, an absolute  
 power, prompt in action, and rich in resources; a  
 swift and easy communication with the extreme  
 parts: Fortifications to check the first effort of re-  
 bellion: A regular administration to protect and  
 punish; and a well-disciplined army to inspire fear,  
 without provoking discontent and despair. Far  
 different was the situation of the German Cæsars,  
 who were ambitious to enslave the kingdom of  
 Italy. Their patrimonial estates were stretched  
 along the Rhine, or scattered in the provinces;  
 but this ample domain was alienated by the im-  
 prudence or distress of successive princes; and  
 their revenue, from minute and vexatious prero-

Whole armies were swept away by the pestilential influence of the climate; the survivors brought back the bones of their princes and nobles \*, and the effects of their own intemperance were often imputed to the treachery and malice of the Italians, who rejoiced at least in the calamities of the Barbarians. This irregular tyranny might contend on equal terms with the petty tyrants of Italy; nor can the people, or the reader, be much interested in the event of the quarrel. But in the eleventh and twelfth centuries, the Lombards rekindled the flame of industry and freedom; and the generous example was at length imitated by the republics of Tuscany. In the Italian cities a municipal government had never been totally abolished; and their first privileges were granted by the favour and policy of the emperors, who were desirous of erecting a plebeian barrier against the independence of the nobles. But their rapid progress, the daily extension of their power and pretensions, were founded on the numbers and spirit of these rising communities †. Each city filled the

The legislative authority was inherent in the general assembly; but the executive powers were entrusted to three consuls, annually chosen from the three orders of *captains*, *valvassors* \*, and commons, into which the republic was divided. Under the protection of equal law, the labours of agriculture and commerce were gradually revived; but the martial spirit of the Lombards was nourished by the presence of danger; and as often as the bell was rung, or the standard † erected, the gates of the city poured forth a numerous and intrepid band, whose zeal in their own cause was soon guided by the use and discipline of arms. At the foot of these popular ramparts, the pride of the Cæsars was overthrown; and the invincible genius of liberty prevailed over the two Frederics, the greatest princes of the middle age: The first, superior perhaps in military prowess; the second, who undoubtedly excelled in the softer accomplishments of peace and learning.

Ambitious of restoring the splendour of the purple, Frederic the first invaded the republics of Lombardy, with the arts of a statesman, the valour of a soldier, and the cruelty of a tyrant. The recent discovery of the pandects had renewed a science most favourable to despotism; and his venal advocates proclaimed the emperor the absolute master of the lives and properties of his subjects. His royal prerogatives, in a less odious sense, were acknowledged in the diet of Roncaglia; and the revenue of Italy was fixed at thirty thousand pounds of silver\*, which were multiplied to an indefinite demand, by the rapine of the fiscal officers. The obstinate cities were reduced by the terror or the force of his arms; his captives were delivered to the executioner, or shot from his military engines; and, after the siege and surrender of Milan, the buildings of that stately capital were razed to the ground, three hundred hostages were sent into Germany, and the inhabitants were dispersed in four villages, under the yoke of the inflexible conqueror †. But Milan soon rose from her ashes; and the league of Lombardy was cemented by distress; their cause was espoused by Venice, pope Alexander the third, and the Greek emperor: The fabric of oppression was overturned in a day; and in the treaty of Constance, Frederic

ric subscribed, with some reservations, the freedom of four-and-twenty cities. His grandson contended with their vigour and maturity; but Frederic the second \* was endowed with some personal and peculiar advantages. His birth and education recommended him to the Italians; and in the implacable discord of the two factions, the Ghibelins were attached to the emperor, while the Guelfs displayed the banner of liberty and the church. The court of Rome had slumbered, when his father Henry the sixth was permitted to unite with the empire the kingdoms of Naples and Sicily; and from these hereditary realms, the son derived an ample and ready supply of troops and treasure. Yet Frederic the second was finally oppressed by the arms of the Lombards and the thunders of the Vatican; his kingdom was given to a stranger, and the last of his family was beheaded at Naples on a public scaffold. During sixty years no emperor appeared in Italy, and the name was remembered only by the ignominious sale of the last relics of sovereignty.

&c.

The Barbarian conquerors of the West were pleased to decorate their chief with the title of emperor; but it was not their design to invest him with the despotism of Constantine and Justinian. The persons of the Germans were free, their conquests were their own, and their national character was animated by a spirit which scorned the servile jurisprudence of the new or the ancient Rome. It would

would have been a vain and dangerous attempt to impose a monarch on the armed freemen, who were impatient of a magistrate ; on the bold, who refused to obey ; on the powerful, who aspired to command. The empire of Charlemagne and Otho was distributed among the dukes of the nations or provinces, the counts of the smaller districts, and the margraves of the marches or frontiers, who all united the civil and military authority as it had been delegated to the lieutenants of the first Cæsars. The Roman governors, who, for the most part, were soldiers of fortune, seduced their mercenary legions, assumed the Imperial purple, and either failed or succeeded in their revolt, without wounding the power and unity of government. If the dukes, margraves, and counts of Germany, were less audacious in their claims, the consequences of their success were more lasting and pernicious to the state. Instead of aiming at the supreme rank, they silently laboured to establish and appropriate their provincial independence. Their ambition was seconded by the weight of their estates and vassals, their mutual example and support, the common interest of the subordinate nobility, the change of princes and families, the minorities of Otho the third and Henry the fourth, the ambition of the popes, and the vain pursuits of the fugitive crowns of Italy and Rome. All the attributes of regal and territorial jurisdiction were gradually usurped by the commanders of the provinces ; the right of peace and war, of life and death, of coinage and taxation, of foreign alliance and domestic œconomy. Whatever had been seized by violence was ratified by favour or distress, was granted as

 XLIX. whatever had been granted to one could not, without injury, be denied to his successor or equal ;  
 { and every act of local or temporary possession was insensibly moulded into the constitution of the Germanic kingdom. In every province, the visible presence of the duke or count was interposed between the throne and the nobles ; the subjects of the law became the vassals of a private chief ; and the standard, which *he* received from his sovereign, was often raised against him in the field. The temporal power of the clergy was cherished and exalted by the superstition or policy of the Carolingian and Saxon dynasties, who blindly depended on their moderation and fidelity ; and the bishoprics of Germany were made equal in extent and privilege, superior in wealth and population, to the most ample states of the military order. As long as the emperors retained the prerogative of bestowing on every vacancy these ecclesiastic and secular benefices, their cause was maintained by the gratitude or ambition of their friends and favourites. But in the quarrel of the investitures, they were deprived of their influence over the episcopal chapters ; the freedom of election was restored, and the sovereign was reduced, by a solemn mockery, to his *first prayers*, the recommendation, once in his reign, to a single prebend in each church. The secular governors, instead of being recalled at the will of a superior, could be degraded only by the sentence of their peers. In the first age of the monarchy, the appointment of the son to the duchy or county of his father, was  
 soli-

solicited as a favour ; it was gradually obtained as a custom, and extorted as a right : The lineal succession was often extended to the collateral or female branches ; the states of the empire (their popular, and at length their legal appellation) were divided and alienated by testament and sale ; and all idea of a public trust was lost in that of a private and perpetual inheritance. The emperor could not even be enriched by the casualties of forfeiture and extinction : Within the term of a year, he was obliged to dispose of the vacant fief, and in the choice of the candidate, it was his duty to consult either the general or the provincial diet.

After the death of Frederick the second, Germany was left a monster with an hundred heads. A crowd of princes and prelates disputed the ruins of the empire : The lords of innumerable castles were less prone to obey, than to imitate their superiors ; and according to the measure of their strength, their incessant hostilities received the names of conquest or robbery. Such anarchy was the inevitable consequence of the laws and manners of Europe ; and the kingdoms of France and Italy were shivered into fragments by the violence of the same tempest. But the Italian cities and French vassals were divided and destroyed, while the union of the Germans has produced, under the name of an empire, a great system of a fœderative republic. In the frequent and at last the perpetual institution of diets, a national spirit was kept alive, and the powers of a common legislature are still exercised by the three branches or colleges of the electors, the princes, and the free and Im-

perial cities of Germany. I. Seven of the most powerful feudatories were permitted to assume, with a distinguished name and rank, the exclusive privilege of choosing the Roman emperor; and these electors were the king of Bohemia, the duke of Saxony, the Margrave of Brandenburg, the count palatine of the Rhine, and the three archbishops of Mentz, of Treves, and of Cologne. II. The college of princes and prelates purged themselves of a promiscuous multitude: They reduced to four representative votes, the long series of independent counts, and excluded the nobles or equestrian order, sixty thousand of whom, as in the Polish diets, had appeared on horseback in the field of election. III. The pride of birth and dominion, of the sword and the mitre, wisely adopted the commons as the third branch of the legislature, and, in the progress of society, they were introduced about the same æra into the national assemblies of France, England, and Germany. The Hanseatic league commanded the trade and navigation of the north: The confederates of the Rhine secured the peace and intercourse of the inland country: The influence of the cities has been adequate to their wealth and policy, and their negative still invalidates the acts of the two superior colleges of electors and princes\*.

\* In the immense labyrinth of the *jus publicum* of Germany, I must either quote one writer or a thousand; and I had rather trust to one faithful guide, than transcribe, on credit, a multitude of names and passages.  Roman empire of Germany, which no longer held, except on the borders of the Rhine and Danube, a single province of Trajan or Constantine. Their unworthy successors were the counts of Hapsburgh, of Nassau, of Luxemburgh, and of Schwartzzenburgh: The emperor Henry the seventh procured for his son the crown of Bohemia, and his grandson Charles the fourth was born among a people, strange and barbarous in the estimation of the Germans themselves \*. After the excommunication of Lewis of Bavaria, he received the gift or promise of the vacant empire from the Roman pontiffs, who, in the exile and captivity of Avignon, affected the dominion of the earth. The death of his competitors united the electoral college, and Charles was unanimously saluted king of the Romans, and future emperor; a title which, in the same age, was prostituted to the Cæsars of Germany and Greece. The German emperor was no more

learning and judgment have discerned the most interesting facts; his simple brevity comprises them in a narrow space; his chronological order distributes them under the proper dates; and an elaborate index collects them under their respective heads. To this work, in a less perfect state, Dr Robertson was gratefully indebted for that masterly sketch which traces even the modern changes of the Germanic body. The *Corpus Historiæ Germanicæ* of Struvius has been likewise consulted, the more usefully, as that huge compilation is fortified, in every page, with the original texts.

\* Yet, *personally*, Charles IV. must not be considered as a Barbarian. After his education at Paris, he recovered the use of the Bohemian, his native, idiom; and the emperor conversed and wrote with equal facility in French, Latin, Italian, and German; (Struvius, p. 615, 616.) Petrarch always represents him as a polite and learned prince.

C H A P. XLIX.  than the elective and impotent magistrate of an aristocracy of princes, who had not left him a village that he might call his own. His best prerogative was the right of presiding and proposing in the national senate, which was convened at his summons ; and his native kingdom of Bohemia, less opulent than the adjacent city of Nurembergh. was the firmest seat of his power, and the richest source of his revenue. The army with which he passed the Alps consisted of three hundred horse. In the cathedral of St Ambrose, Charles was crowned with the *iron* crown, which tradition ascribed to the Lombard monarchy ; but he was admitted only with a peaceful train ; the gates of the city were shut upon him ; and the king of Italy was held a captive by the arms of the Visconti, whom he confirmed in the sovereignty of Milan. In the Vatican he was again crowned with the *golden* crown of the empire ; but, in obedience to a secret treaty, the Roman emperor immediately withdrew, without reposing a single night within the walls of Rome. The eloquent Petrarch \*, whose fancy revived the visionary glories of the Capitol, deplores and upbraids the ignominious flight of the Bohemian ; and even his contemporaries could observe, that the sole exercise of his authority was in the lucrative sale of privileges and titles. The gold of Italy secured the election of his son ;

\* Besides the German and Italian historians, the expedition of Charles IV. is painted in lively and original colours in the curious *Memoires sur la Vie de Petrarque*, tom. iii. p 376—430. by the Abbé de Sade, whose prolixity has never been blamed by any reader of taste and curiosity.

son ; but such was the shameful poverty of the Roman emperor, that his person was arrested by a butcher in the streets of Worms, and was detained in the public inn, as a pledge or hostage for the payment of his expences.

C H A P.

From this humiliating scene, let us turn to the apparent majesty of the same Charles in the diets of the empire. The golden bull, which fixes the Germanic constitution, is promulgated in the stile of a sovereign and legislator. An hundred princes bowed before his throne, and exalted their own dignity, by the voluntary honours which they yielded to their chief or minister. At the royal banquet, the hereditary great officers, the seven electors, who in rank and title were equal to kings, performed their solemn and domestic service of the palace. The seals of the triple kingdom were borne in state by the archbishops of Mentz, Cologne, and Treves, the perpetual arch-chancellors of Germany, Italy, and Arles. The great marshal, on horseback, exercised his function with a silver measure of oats, which he emptied on the ground, and immediately dismounted to regulate the order of the guests. The great steward, the count palatine of the Rhine, placed the dishes on the table. The great chamberlain, the margrave of Brandenburg, presented, after the repast, the golden ewer and bason, to wash. The king of Bohemia, as great cup-bearer, was represented by the emperor's brother, the duke of Luxemburgh and Brabant ; and the procession was closed by the great huntsmen, who introduced a boar and a stag,

 XLIX. was the supremacy of the emperor confined to  
 Germany alone ; the hereditary monarchs of Europe confessed the pre-eminence of his rank and dignity ; he was the first of the Christian princes, the temporal head of the great republic of the West † : To his person the title of majesty was long appropriated ; and he disputed with the pope the sublime prerogative of creating kings and assembling councils. The oracle of the civil law, the learned Bartolus, was a pensioner of Charles the fourth ; and his school resounded with the doctrine, that the Roman emperor was the rightful sovereign of the earth, from the rising to the setting sun. The contrary opinion was condemned, not as an error, but as an heresy, since even the gospel had pronounced, “ And there

Contrast  
 of the  
 power and

 of Augustus.

If we annihilate the interval of time and space between Augustus and Charles, strong and striking will be the contrast between the two Cæsars ; the Bohemian, who concealed his weakness under the mask of ostentation, and the Roman, who disguised his strength under the semblance of modesty. At the head of his victorious legions, in his reign over the sea and land, from the Nile and Euphrates to the Atlantic ocean, Augustus professed himself the

While the state was exhausted by the Persian war, and the church was distracted by the Nestorian and Monophysite sects, Mahomet, with the sword in one hand, and the koran in the other, erected his throne on the ruins of Christianity and of Rome. The genius of the Arabian prophet, the manners of his nation, and the spirit of his religion, involve the causes of the decline and fall of the Eastern empire ; and our eyes are curiously intent on one of the most memorable revolutions which have impressed a new and lasting character on the nations of the globe \*.

In the vacant space between Persia, Syria, Egypt, and Æthiopia, the Arabian peninsula \* may be conceived as a triangle of spacious but irregular dimensions. Natur. v. 12. vi. 32.) and Ptolemy, (Descript. et Tabulæ Urbium, in Hudson, tom. iii.) 2. The *Arabic writers*, who have treated the subject with the zeal of patriotism or devotion; the extracts of Pocock, (Specimen Hist. Arabum, p. 125—128.) from the Geography of the Sherif al Edrissi, render us still more dissatisfied with the version or abridgment (p. 24—27. 44—56. 108, &c. 119, &c.) which the Maronites have published under the absurd title of Geographia Nubiensis, (Paris, 1619.) but the Latin and French translators, Graves (in Hudson, tom. iii.) and Galland, (Voyage de la Palestine par la Roque, p. 265—346.) have opened to us the Arabia of Abulfeda, the most copious and correct account of the peninsula, which may be enriched, however, from the Bibliothèque Orientale of d'Herbelot, p. 120. et alibi passim. 3. The *European travellers*; among whom Shaw (p. 438—455.) and Niebuhr (Description, 1773. Voyages, tom. i. 1776.) deserve an honourable distinction: Busching (Geographie par Berenger, tom. viii. p. 416—510.) has compiled with judgment; and d'Anville's Maps (Orbis Veteribus Notus and 1re Partie de l'Asie) should lie before the reader, with his Geographie Ancienne, tom. ii. p. 208—231.

The entire surface of the peninsula exceeds in a fourfold proportion that of Germany or France ; but the far greater part has been justly stigmatised with the epithets of the *stony* and the *sandy*. Even the wilds of Tartary are decked by the hand of nature with lofty trees and luxuriant herbage ; and the lonesome traveller derives a sort of comfort and society from the presence of vegetable life. But in the dreary waste of Arabia, a boundless level of sand is intersected by sharp and naked mountains, and the face of the desert, without shade or shelter, is scorched by the direct and intense rays of a tropical sun. Instead of refreshing breezes, the winds, particularly from the south-west, diffuse a noxious and even deadly vapour ; the hillocks of sand which they alternately raise and scatter, are compared to the billows of the ocean, and whole caravans, whole armies, have been lost and buried in the whirlwind. The common benefits of water are an object of desire and contest ; and such is the scarcity of wood, that some art is requisite to preserve and propagate the element of fire. Arabia is destitute of navigable rivers, which fertilize the soil, and convey its produce to the adjacent regions : The torrents that fall from the hills are imbibed by the thirsty earth ; the rare and hardy plants, the tamarind or the acacia, that strike their roots into the clefts of

\* Reland has proved, with much superfluous learning, 1. That our Red Sea (the Arabian Gulph) is no more than a part of the *Mare Rubrum*, the *Ερυθρα θαλασσα* of the ancients, which was extended to the indefinite space of the Indian ocean. 2. That the synonymous words *ερυθρος*, *αιθιοψς*, alluded to the colour of the blacks or negroes, (Dissert. Miscell. tom. i. p. 59—117.)

of the rocks, are nourished by the dews of the night; a scanty supply of rain is collected in cisterns and aqueducts; the wells and springs are the secret treasure of the desert; and the pilgrim of Mecca\*, after many a dry and sultry march, is disgusted by the taste of the waters, which have rolled over a bed of sulphur or salt. Such is the general and genuine picture of the climate of Arabia. The experience of evil enhances the value of any local or partial enjoyments. A shady grove, a green pasture, a stream of fresh water, are sufficient to attract a colony of sedentary Arabs to the fortunate spots which can afford food and refreshment to themselves and their cattle, and which encourage their industry in the cultivation of the palm-tree and the vine. The high lands that border on the Indian ocean are distinguished by their superior plenty of wood and water; the air is more temperate, the fruits are more delicious, the animals and the human race more numerous; the fertility of the soil invites and rewards the toil of the husbandman; and the peculiar gifts of frankincense† and coffee have attracted, in different ages, the merchants of the world. If it be compared with the

The measure of population is regulated by the means of subsistence ; and the inhabitants of this vast peninsula might be out-numbered by the subjects of a fertile and industrious province. Along the shores of the Persian gulf, of the ocean, and even of the Red Sea, the *Ichthyophagi*\*, or fish-eaters, continued to wander in quest of their precarious food. In this primitive and abject state, which ill deserves the name of society, the human brute, without arts or laws, almost without sense or language, is poorly distinguished from the rest of the animal creation. Generations and ages might roll away in silent oblivion, and the helpless savage was restrained from multiplying his race, by the wants and pursuits which confined his existence to the narrow margin of the sea-coast. But in an early period of antiquity, the great body of the Arabs had emerged from this scene of misery ; and as the naked wilderness could not maintain a people of hunters, they rose at once to the more secure and plentiful condition of the pastoral life. The same life is uniformly pursued by the roving tribes of the desert, and in the portrait of the modern *Bedoweens*, we may trace the features of their ancestors †, who, in the

\* Arrian remarks the *Ichthyophagi* of the coast of Hejaz, (*Periplus Maris Erythræi*, p. 12.) and beyond Aden, (p. 15.) It seems probable, that the shores of the Red Sea (in the largest sense) were occupied by these savages in the time, perhaps, of Cyrus ; but I can hardly believe that any cannibals were left among the savages in the reign of Justinian, (*Procop. de Bell. Persic. l. i. c. 19.*)

Our toil is lessened, and our wealth is increased, by our dominion over the useful animals; and the Arabian shepherd had acquired the absolute possession of a faithful friend and a laborious slave \*. Arabia, in the opinion of the naturalist, is the genuine and original country of the *horse*; the climate most propitious, not indeed to the size, but to the spirit and swiftness, of that generous animal. The merit of the Barb, the Spanish, and the English breed, is derived from a mixture of Arabian blood †: The Bedowens preserve, with superstitious care, the honours and the memory of the purest race: The males are sold at a high price, but the females are seldom alienated; and the birth of a noble foal was esteemed, among the tribes, as a subject of joy and mutual congratulation. These horses are educated in the tents, among the children of the Arabs, with a tender familiarity, which trains them

\* Read (it is no unpleasing task) the incomparable articles of the *Horse* and the *Camel*, in the *Natural History* of M. de Buffon.

† For the Arabian horses, see d'Arvieux, (p. 159—173.) and Niebuhr, (p. 142—144.) At the end of the thirteenth century, the horses of Naged were esteemed sure footed, those of Yemen strong and serviceable, those of Hejaz most noble. The horses of Europe, the tenth and last class, were generally despised, as having too much body and too little spirit; (d'Herbelot, *Bibliot. Orient.* p. 339.) their strength was requisite to bear the weight of the knight and his armour.

They are accustomed only to walk and to gallop: L.

Their sensations are not blunted by the incessant  abuse of the spur and the whip: Their powers are reserved for the moments of flight and pursuit; but no sooner do they feel the touch of the hand or the stirrup, than they dart away with the swiftness of the wind; and if their friend be dismounted in the rapid career, they instantly stop till he has recovered his seat. In the sands of Africa and Arabia, the *camel* is a sacred and precious gift. That strong and patient beast of burthen can perform, without eating or drinking, a journey of several days; and a reservoir of fresh water is preserved in a large bag, a fifth stomach of the animal, whose body is imprinted with the marks of servitude: The larger breed is capable of transporting a weight of a thousand pounds; and the dromedary, of a lighter and more active frame, outstrips the fleetest courser in the race. Alive or dead, almost every part of the camel is serviceable to man; her milk is plentiful and nutritious; the young and tender flesh has the taste of veal \*; a valuable salt is extracted from the urine; the dung supplies the deficiency of fuel; and the long hair, which falls each year and is renewed, is coarsely manufactured into the gar-

In the rainy seasons they consume the rare and insufficient herbage of the desert: During the heats of summer and the scarcity of winter, they remove their encampments to the sea-coast, the hills of Yemen, or the neighbourhood of the Euphrates, and have often extorted the dangerous licence of visiting the banks of the Nile, and the villages of Syria and Palestine. The life of a wandering Arab is a life of danger and distress; and though sometimes, by rapine or exchange, he may appropriate the fruits of industry, a private citizen in Europe is in the possession of more solid and pleasing luxury, than the proudest emir, who marches in the field at the head of ten thousand horse.

Cities of  
Arabia.

Yet an essential difference may be found between the hords of Scythia and the Arabian tribes, since many of the latter were collected into towns, and employed in the labours of trade and agriculture. A part of their time and industry was still devoted to the management of their cattle: They mingled, in peace and war, with their brethren of the desert; and the Bedoweens derived from their useful intercourse, some supply of their wants, and some rudiments of art and knowledge. Among the forty-two cities of Arabia \*, enumerated by Abulfeda, the most ancient and populous were situate in the *happy* Yemen; the

 of the Homerites; but their profane lustre was  
 eclipsed by the prophetic glories of MEDINA ‡

 seventy miles. The last of these holy places was  
 known to the Greeks under the name of Ma-

 pressive of its greatness, which has not indeed, in  
 the most flourishing period, exceeded the size and  
 populousness of Marseilles. Some latent motive,

\* It is compared by Abulfeda (in Hudson, tom. iii. p. 54.) to Damascus, and is still the residence of the Iman of Yemen, (Voyages de Niebuhr, tom. i. p. 331—342.) Saana is twenty-four parasangs from Dabar, (Abulfeda, p. 51.) and sixty-eight from Aden, (p. 53.)

† Pocock, Specimen, p. 57. Geograph. Nubiensis, p. 52. Meriaba, or Merab, six miles in circumference, was destroyed by the legions of Augustus, (Plin. Hist. Nat. vi. 32.) and had not revived in the fourteenth century, (Abulfed. Descript. Arab. p. 58.)

‡ The name of *city*, *Medina*, was appropriated, κατ' ἐξοχην, to Yatreb, (the Iatrippa of the Greeks,) the seat of the prophet. The distances from Medina are reckoned by Abulfeda in stations, or days journey of a caravan, (p. 15.) to Bahrein, xv.; to Bassora, xviii.; to Cusah, xx.; to Damascus or Palestine, xx.; to Cairo, xxv.; to Mecca, x.; from Mecca to Saana, (p. 52.) or Aden, xxx.; to Cairo, xxxi days, or 412 hours; Shaw's Travels, p. 477.) which, according to the estimate of d'Anville, (Mesures Itinéraires, p. 99.) allows about twenty-five English miles for a day's journey. From the land of frankincense, (Hadramant, in Yemen, between Aden and Cape Fartasch,) to Gaza, in Syria, Pliny, (Hist. Nat. xii. 32.) computes lxv. mansions of camels. These measures may assist fancy and elucidate facts.

§ Our notions of Mecca must be drawn from the Arabians, (d'Herbelot, Bibliotheque Orientale, p. 368—371. Pocock, Specimen, p. 125—128. Abulfeda, p. 11—40.) As no unbeliever is permitted to enter the city, our travellers are silent; and the short hints of Thevenot (Voyages du Levant, part i. p. 490.) are taken from the suspicious mouth of an African renegado. Some Persians counted 6000 houses, (Chardin. tom. iv. p. 167.)

C H A P. perhaps of superstition, must have impelled the  
 L. founders, in the choice of a most unpromising  
 situation. They erected their habitations of mud  
 or stone, in a plain about two miles long and one  
 mile broad, at the foot of three barren moun-  
 tains: The soil is a rock; the water even of the  
 holy well of Zemzem is bitter or brackish; the  
 pastures are remote from the city; and grapes  
 are transported above seventy miles from the  
 gardens of Tayef. The fame and spirit of the  
 Koreishites, who reigned in Mecca, were conspi-  
 cuous among the Arabian tribes; but their un-  
 grateful soil refused the labours of agriculture,  
 and their position was favourable to the enterprises  
 of trade. By the sea-port of Gedda, at the dis-  
 tance only of forty miles, they maintained an easy  
 correspondence with Abyssinia; and that Christian  
 kingdom afforded the first refuge to the disciples  
 of Mahomet. The treasures of Africa were con-  
 veyed over the peninsula to Gerrha or Katif, in  
 the province of Bahrein, a city built, as it is said,  
 of rock-salt, by the Chaldean exiles\*; and from  
 thence, with the native pearls of the Persian Gulf,  
 they were floated on rafts to the mouth of the  
 Euphrates. Mecca is placed almost at an equal  
 distance, a month's journey, between Yemen on  
 the right, and Syria on the left hand. The  
 former was the winter, the latter the summer, sta-  
 tion of her caravans; and their seasonable arrival  
 relieved the ships of India from the tedious and  
 troublesome navigation of the Red Sea. In the  
 markets

markets of Saana and Merab, in the harbours of C H A P. Oman and Aden, the camels of the Koreishites L. were laden with a precious cargo of aromatics; a supply of corn and manufactures was purchased in the fairs of Bostra and Damascus; the lucrative exchange diffused plenty and riches in the streets of Mecca; and the noblest of her sons united the love of arms with the profession of merchandise \*.

The perpetual independence of the Arabs has been the theme of praise among strangers and natives; and the arts of controversy transform this singular event into a prophecy and a miracle, in favour of the posterity of Ismael †. Some exceptions, that can neither be dissembled nor eluded, render this mode of reasoning as indiscreet as it is superfluous: The kingdom of Yemen has been successively subdued by the Abyssinians, the Persians, the sultans of Egypt ‡, and the Turks §: The holy cities of Mecca and Medina

C H A P. dina have repeatedly bowed under a Scythian  
 L. tyrant; and the Roman province of Arabia \*  
 embraced the peculiar wilderness in which Ismael and his sons must have pitched their tents in the face of their brethren. Yet these exceptions are temporary or local; the body of the nation has escaped the yoke of the most powerful monarchies: The arms of Sesostris and Cyrus, of Pompey and Trajan, could never atchieve the conquest of Arabia; the present sovereign of the Turks † may exercise a shadow of jurisdiction, but his pride is reduced to solicit the friendship of a people, whom it is dangerous to provoke, and fruitless to attack. The obvious causes of their freedom are inscribed on the character and country of the Arabs. Many ages before Mahomet,

201. 221. The Pasha, who resided at Saana, commanded twenty-one Beys, but no revenue was ever remitted to the Porte, (Marsigli, *Stato Militare dell' Imperio Ottomanno*, p. 124.) and the Turks were expelled about the year 1630, (Niebuhr, p. 167, 168.)

\* Of the Roman province, under the name of Arabia and the third Palestine, the principal cities were Bostra and Petra, which dated their æra from the year 105, when they were subdued by Palma, a lieutenant of Trajan, (Dion. Cassius, l. lxxviii.) Petra was the capital of the Nabathæans; whose name is derived from the eldest of the sons of Ismael, (Gen. xxv. 12, &c. with the Commentaries of Jerom, Le Clerc, and Calmet.) Justinian relinquished a palm country of ten days journey to the south of Ælah, (Procop. de Bell. Persic. l. i. c. 19.) and the Romans maintained a centurion and a custom-house, (Arrian in *Peripio Maris Erythræi*, p. 11. in Hudson, tom. i.) at a place, (λευκη παμνη, Pagus Albus Hawara,) in the territory of Medina, (d'Anville *Memoire sur l'Égypte*, p. 243.) These real possessions, and some naval inroads of Trajan, (Peripl. p. 14, 15.) are magnified by history and medals into the Roman conquest of Arabia.

 war. The patient and active virtues of a soldier  
 are insensibly nursed in the habits and discipline  
 of a pastoral life. The care of the sheep and  
 camels is abandoned to the women of the tribe;  
 but the martial youth under the banner of the  
 emir, is ever on horseback, and in the field, to  
 practise the exercise of the bow, the javelin, and  
 the scymetar. The long memory of their inde-  
 pendence is the firmest pledge of its perpetuity,  
 and succeeding generations are animated to prove  
 their descent, and to maintain their inheritance.  
 Their domestic feuds are suspended on the ap-  
 proach of a common enemy; and in their last  
 hostilities against the Turks, the caravan of  
 Mecca was attacked and pillaged by fourscore  
 thousand of the confederates. When they ad-  
 vance to battle, the hope of victory is in the  
 front; in the rear, the assurance of a retreat.  
 Their horses and camels, who in eight or ten  
 days can perform a march of four or five hun-  
 dred miles, disappear before the conqueror; the  
 secret waters of the desert elude his search; and  
 his victorious troops are consumed with thirst,  
 hunger, and fatigue, in the pursuit of an invis-  
 ible foe, who scorns his efforts, and safely reposes  
 in the heart of the burning solitude. The arms  
 and deserts of the Bedoween are not only the  
 safeguards of their own freedom, but the bar-

\* Diodorus Siculus (tom. ii. l. xix. p. 390—393. edit. Wes-

 who resisted the arms of Antigonus and his son.

C H A P. riers also of the happy Arabia, whose inhabitants,  
 L. remote from war, are enervated by the luxury of  
 the soil and climate. The legions of Augustus melted away in disease and lassitude \*; and it is only by a naval power that the reduction of Yemen has been successfully attempted. When Mahomet erected his holy standard †, that kingdom was a province of the Persian empire; yet seven princes of the Homerites still reigned in the mountains; and the vicegerent of Chosroes was tempted to forget his distant country and his unfortunate master. The historians of the age of Justinian represent the state of the independent Arabs, who were divided by interest or affection in the long quarrel of the East: The tribe of *Gassan* was allowed to encamp on the Syrian territory: The princes of *Hira* were permitted to form a city about forty miles to the southward of the ruins of Babylon. Their service in the field was speedy and vigorous; but their friendship was venal, their faith inconstant, their enmity capricious: It was an easier task to excite than to disarm these roving Barbarians; and, in the familiar intercourse of war, they learned to see, and to despise, the splendid weakness both of Rome and of Persia. From Mecca to the Euphrates,

phrates, the Arabian tribes \* were confounded by the Greeks and Latins, under the general appellation of SARACENS †, a name which every Christian mouth has been taught to pronounce with terror and abhorrence.

The slaves of domestic tyranny may vainly exult in their national independence; but the Arab is personally free; and he enjoys, in some degree, the benefits of society, without forfeiting the prerogatives of nature. In every tribe, superstition, or gratitude, or fortune, has exalted a particular family above the heads of their equals. The dignities of sheich and emir invariably descend in this chosen race; but the order of succession is loose and precarious; and the most worthy or aged of the noble kinsmen are preferred to the simple, though important, office of composing

\* The Σαρακηνικα φυλα, μυριαδες ταυτα και το πλεον αυτων ιερμονομαι, και αδισποτοι, are described by Menander, (Excerpt. Legation, p. 149.) Procopius de Bell. Persic. l. i. c. 17. 19. l. ii. c. 10.) and, in the most lively colours, by Ammianus Marcellinus, (l. xiv. c. 4.) who had spoken of them as early as the reign of Marcus.

† The name which, used by Ptolemy and Pliny in a more confined, by Ammianus and Procopius in a larger sense, has been derived, ridiculously from *Sarah*, the wife of Abraham, obscurely from the village of *Saraka*, (μστα Ναβαταυς. Stephan. de Urbibus,) more plausibly from the Arabic words, which signify a *tribe* character, or *Oriental* situation, (Hollinger, Hist. Oriental. l. i. c. i. p. 7, 8. Pocock. Specimen, p. 33. 35. Asseman Bibliot. Orient. tom. iv. p. 567.) Yet the last and most popular of these etymologies is refuted by Ptolemy, (Arabia, p. 2. 18. in Hudson, tom. iv.) who expressly remarks the western and southern position of the Saracens, then an obscure tribe on the borders of Egypt. The appellation cannot therefore allude to any *national* character; and, since it was imposed by strangers, it must be found, not in the Arabic, but in a foreign language.

C H A P. composing disputes by their advice, and guiding  
 L. valour by their example. Even a female of sense  
 and spirit has been permitted to command the  
 countrymen of Zenobia \*. The momentary  
 junction of several tribes produces an army; their  
 more lasting union constitutes a nation; and the  
 supreme chief, the emir of emirs, whose banner  
 is displayed at their head, may deserve, in the  
 eyes of strangers, the honours of the kingly name.  
 If the Arabian princes abuse their power, they  
 are quickly punished by the desertion of their  
 subjects, who had been accustomed to a mild and  
 parental jurisdiction. Their spirit is free, their  
 steps are unconfined, the desert is open, and the  
 tribes and families are held together by a mutual  
 and voluntary compact. The softer natives of  
 Yemen supported the pomp and majesty of a  
 monarch; but if he could not leave his palace  
 without endangering his life †, the active powers  
 of government must have been devolved on his  
 nobles and magistrates. The cities of Mecca and

 or rather the substance, of a commonwealth. The

princes of their country ; but 'they' reigned, like C H A P. L.  
 Pericles at Athens, or the Medici at Florence, by  
 the opinion of their wisdom and integrity ; their  
 influence was divided with their patrimony ; and  
 the sceptre was transferred from the uncles of the  
 prophet to a younger branch of the tribe of  
 Koreish. On solemn occasions they convened the  
 assembly of the people ; and since mankind must  
 be either compelled or persuaded to obey, the  
 use and reputation of oratory among the ancient  
 Arabs is the clearest evidence of public freedom \*.  
 But their simple freedom was of a very different  
 cast from the nice and artificial machinery of the  
 Greek and Roman republics, in which each  
 member possessed an undivided share of the civil  
 and political rights of the community. In the  
 more simple state of the Arabs the nation is  
 free, because each of her sons disdains a base  
 submission to the will of a master. His breast is  
 fortified with the austere virtues of courage, pa-  
 tience, and sobriety ; the love of independence  
 prompts him to exercise the habits of self-com-  
 mand ; and the fear of dishonour guards him  
 from the meaner apprehension of pain, of danger,  
 and of death. The gravity and firmness of the  
 mind is conspicuous in his outward demeanor ;  
 his speech is slow, weighty, and concise ; he is  
 seldom provoked to laughter ; his only gesture is  
 that of stroking his beard, the venerable symbol  
 of

The liberty of the Saracens survived their conquests ; the first caliphs indulged the bold and familiar language of their subjects ; they ascended the pulpit to persuade and edify the congregation ; nor was it before the seat of empire was removed to the Tigris, that the Abbassides adopted the proud and pompous ceremonial of the Persian and Byzantine courts.

Civil wars  
and private  
revenge.

In the study of nations and men, we may observe the causes that render them hostile or friendly to each other, that tend to narrow or enlarge, to mollify or exasperate, the social character. The separation of the Arabs from the rest of mankind, has accustomed them to confound the ideas of stranger and enemy ; and the poverty of the land has introduced a maxim of jurisprudence, which they believe and practise to the present hour. They pretend, that in the division of the earth, the rich and fertile climates were assigned to the other branches of the human family ; and that the posterity of the outlaw Ismael might recover, by fraud or force, the portion of inheritance of which he had been unjustly deprived. According to the remark of Pliny, the Arabian tribes are equally addicted to theft and merchandise : The  
caravans

\* I must remind the reader that d'Arvieux, d'Herbelot, and Niebuhr, represent, in the most lively colours, the manners and government of the Arabs, which are illustrated by many incidental passages in the life of Mahomet.

caravans that traverse the desert are ransomed or pillaged; and their neighbours, since the remote times of Job and Sesostris \*, have been the victims of their rapacious spirit. If a Bedoween discovers from afar a solitary traveller, he rides furiously against him, crying, with a loud voice, "Undress thyself, thy aunt (*my wife*) is without a garment." A ready submission entitles him to mercy; resistance will provoke the aggressor, and his own blood must expiate the blood which he presumes to shed in legitimate defence. A single robber, or a few associates, are branded with their genuine name; but the exploits of a numerous band assume the character of a lawful and honourable war. The temper of a people, thus armed against mankind, was doubly inflamed by the domestic licence of rapine, murder, and revenge. In the constitution of Europe, the right of peace and war is now confined to a small, and the actual exercise to a much smaller, list of respectable potentates; but each Arab, with impunity and renown, might point his javelin against the life of his countryman. The union of the nation consisted only in a vague resemblance of language and manners; and in each community, the jurisdiction of the magistrate was mute and impotent. Of the time of ignorance which preceded

\* Observe the first chapter of Job, and the long wall of 1500 stadia which Sesostris built from Pelusium to Heliopolis, (Diodor. Sicul. tom. i. l. i. p. 67.) Under the name of *Hycsos*, the shepherd kings, they had formerly subdued Egypt, (Marsham, Canon. Chron. p. 98—163, &c.)

C H A P. ceded Mahomet, seventeen hundred battles \* are  
 L. recorded by tradition: Hostility was embittered  
 { with the rancour of civil faction; and the recital  
 in prose or verse, of an obsolete feud, was sufficient  
 to rekindle the same passions among the descen-  
 dants of the hostile tribes. In private life, every  
 man, at least every family, was the judge and  
 avenger of its own cause. The nice sensibility of  
 honour, which weighs the insult rather than the  
 injury, shed its deadly venom on the quarrels of  
 the Arabs: The honour of their women, and of  
 their *beards*, is most easily wounded; an indecent  
 action, a contemptuous word, can be expiated  
 only by the blood of the offender; and such is  
 their patient inveteracy, that they expect whole  
 months and years the opportunity of revenge.  
 A fine or compensation for murder is familiar to  
 the Barbarians of every age; but in Arabia the  
 kinsmen of the dead are at liberty to accept the  
 atonement, or to exercise with their own hands  
 the law of retaliation. The refined malice of the  
 Arabs refuses even the head of the murderer,  
 substitutes an innocent to the guilty person, and  
 transfers the penalty to the best and most con-  
 siderable of the race by whom they have been in-  
 jured. If he falls by their hands, they are ex-  
 posed in their turn to the danger of reprisals, the

The two historians who wrote of the *Ayam al Arab*, the battles of the Arabs, lived in the ninth and tenth century. interest and principal of the bloody debt are accumulated; the individuals of either family lead a life of malice and suspicion, and fifty years may sometimes elapse before the account of vengeance be finally settled \*. This sanguinary spirit, ignorant of pity or forgiveness, has been moderated, however, by the maxims of honour, which require in every private encounter some decent equality of age and strength, of numbers and weapons. An annual festival of two, perhaps of four months, was observed by the Arabs before the time of Mahomet, during which their swords were religiously sheathed, both in foreign and domestic hostility; and this partial truce is more strongly expressive of the habits of anarchy and warfare †.

But the spirit of rapine and revenge was attempered by the milder influence of trade and literature. The solitary peninsula is encompassed by the most civilized nations of the ancient world; the merchant is the friend of mankind; and the annual caravans imported the first seeds of knowledge and politeness into the cities, and even the camps of the desert. Whatever may be the pedigree of the Arabs, their language is derived from the

† Procopius (de Bell. Persic. l. i. c. 16.) places the *two* holy months about the summer solstice. The Arabians consecrate *four* months of the year—the first, seventh, eleventh, and twelfth; and pretend, that in a long series of ages the truce was infringed only four or six times. In Arabia as well as in Greece, the perfection of language outstripped the refinement of manners; and her speech could diversify the fourscore names of honey, the two hundred of a serpent, the five hundred of a lion, the thousand of a sword, at a time when this copious dictionary was entrusted to the memory of an illiterate people. The monuments of the Homerites were inscribed with an obsolete and mysterious character; but the Cufic letters, the ground work of the present alphabet, were invented on the banks of the Euphrates; and the recent invention was taught at Mecca by a stranger who settled in that city after the birth of Mahomet. The arts of grammar, of metre, and of rhetoric, were unknown to the freeborn eloquence of the Arabians; but their penetration was sharp, their fancy luxuriant, their wit strong and sententious †, and

The one hundred and sixty-nine sentences of Ali (translated by Ockley, London, 1718.) afford a just and favourable specimen of Arabian wit.

and their more elaborate compositions were addressed with energy and effect to the minds of their hearers. The genius and merit of a rising poet was celebrated by the applause of his own and the kindred tribes. A solemn banquet was prepared, and a chorus of women, striking their tymbals, and displaying the pomp of their nuptials, sung in the presence of their sons and husbands the felicity of their native tribe; that a champion had now appeared to vindicate their rights; that a herald had raised his voice to immortalise their renown. The distant or hostile tribes resorted to an annual fair, which was abolished by the fanaticism of the first Moslems; a national assembly that must have contributed to refine and harmonise the Barbarians. Thirty days were employed in the exchange, not only of corn and wine, but of eloquence and poetry. The prize was disputed by the generous emulation of the bards; the victorious performance was deposited in the archives of princes and emirs; and we may read in our own language, the seven original poems which were inscribed in letters of gold, and suspended in the temple of Mecca\*. The Arabian poets were the historians and moralists of the age; and if they sympathised with the prejudices, they inspired and crowned the virtues, of their countrymen. The indissoluble union of ge-

**C H A P.** generosity and valour was the darling theme of their song ; and when they pointed their keenest satire against a despicable race, they affirmed, in the bitterness of reproach, that the men knew not how to give, nor the women to deny\*. The same hospitality, which was practised by Abraham and celebrated by Homer, is still renewed in the camps of the Arabs. The ferocious Bedowens, the terror of the desert, embrace, without inquiry or hesitation, the stranger who dares to confide in their honour, and to enter their tent. His treatment is kind and respectful ; he shares the wealth or the poverty of his host ; and, after a needful repose, he is dismissed on his way, with thanks, with blessings, and perhaps with gifts. The heart and hand are more largely expanded by the wants of a brother or a friend ; but the heroic acts that could deserve the public applause, must have surpassed the narrow measure of discretion and experience. A dispute had arisen, who, among citizens of Mecca, was entitled to the prize of generosity ; and a successive application was made to the three who were deemed most worthy of the trial. Abdallah, the son of Abbas, had undertaken a distant journey, and his foot was in the stirrup when he heard the voice of a suppliant, " O son of the uncle of the apostle of God, I am a traveller, and in distress !" He instantly dismounted to present the pilgrim with his camel, her rich caparison, and a purse of four thousand pieces of gold, excepting only the sword, either for its intrinsic value, or as the gift of an honoured kinsman.

soon as he awoke, praised and enfranchised his  
faithful steward, with a gentle reproof, that by  
respecting his slumbers he had stinted his bounty.  
The third of these heroes, the blind Arabah, at  
the hour of prayer, was supporting his steps on  
the shoulders of two slaves. "Alas!" he replied,  
"my coffers are empty! but these you may sell;  
"if you refuse, I renounce them." At these  
words, pushing away the youths, he groped a-  
long the wall with his staff. The character of  
Hatem is the perfect model of Arabian virtue \*;  
he was brave and liberal, an eloquent poet and a  
successful robber: Forty camels were roasted at  
his hospitable feast; and at the prayer of a sup-  
pliant enemy, he restored both the captives and  
the spoil. The freedom of his countrymen dis-  
dained the laws of justice: They proudly indulged  
the spontaneous impulse of pity and benevolence.

 The regularity of their motions may be ascribed to  
 a principle of reason or instinct; and their real or

 the earth and its inhabitants are the object of their  
 peculiar care. The science of astronomy was cul-

 was a clear firmament and a naked plain. In their  
 nocturnal marches, they steered by the guidance  
 of the stars: Their names, and order, and daily  
 station, were familiar to the curiosity and devotion  
 of the Bedoween; and he was taught by experience  
 to divide in twenty-eight parts, the zodiac of the  
 moon, and to bless the constellations who refreshed,  
 with salutary rains, the thirst of the desert. The  
 reign of the heavenly orbs could not be extended  
 beyond the visible sphere; and some metaphysical  
 powers were necessary to sustain the transmigration  
 of souls and the resurrection of bodies: A camel  
 was left to perish on the grave, that he might serve  
 his master in another life; and the invocation of  
 departed spirits implies that they were still endowed  
 with consciousness and power. I am ignorant, and  
 I am careless, of the blind mythology of the Bar-

Each tribe, each family, each independent warrior, created and changed the rites and the object of his fantastic worship; but the nation, in every age, has bowed to the religion, as well as to the language, of Mecca. The genuine antiquity of the CAABA ascends beyond the Christian æra: In describing the coast of the Red Sea, the Greek historian Diodorus \* has remarked, between the Thamudites and the Sabæans, a famous temple, whose superior sanctity was revered by *all* the Arabians: The linen or silken veil, which is annually renewed by the Turkish emperor, was first offered by a pious king of the Homerites, who reigned seven hundred years before the time of Mahomet †. A tent or a cavern might suffice for the worship of the savages, but an edifice of stone and clay has been erected in its place; and the art and power of the monarchs of the East have been confined to the simplicity of the original

position are so correctly apposite, that I am surprised how this  
curious passage should have been read without notice or appli-  
cation. Yet this famous temple had been overlooked by Aga-  
tharcides, (de Mari Rubro, p. 58. in Hudson, tom. i.) whom  
Diodorus copies in the rest of the description. Was the Sici-

The tribe of Koreish, by fraud or force, had acquired the custody of the Caaba: The sacerdotal office devolved through four lineal descents to the grandfather of Mahomet; and the family of the Hashemites, from whence he sprung, was the most respectable and sacred in the eyes of their country †. The precincts of Mecca enjoyed the rights of sanctuary; and, in the last month of each year, the city and the temple were crowded with a long train of pilgrims, who presented their vows and offerings in the house of God. The same rites, which are now accomplished by the faithful Mussulman, were invented and practised by the superstition of the idolaters. At an awful distance they cast away their garments; seven times, with hasty steps, they encircled the Caaba, and kissed the black stone; seven

seven times they visited and adored the adjacent mountains; seven times they threw stones into the valley of Mina; and the pilgrimage was achieved, as at the present hour, by a sacrifice of sheep and camels, and the burial of their hair and nails in the consecrated ground. Each tribe either found or introduced in the Caaba their domestic worship; the temple was adorned, or defiled, with three hundred and sixty idols of men, eagles, lions, and antelopes; and most conspicuous was the statue of Hebal, of red agate, holding in his hand seven arrows, without heads or feathers, the instruments and symbols of profane divination. But this statue was a monument of Syrian arts; the devotion of the ruder ages was content with a pillar or a tablet; and the rocks of the desert were hewn into gods or altars, in imitation of the black stone \* of Mecca, which is deeply tainted with the reproach of an idolatrous origin. From Japan to Peru, the use of sacrifice has universally prevailed; and the votary has expressed his gratitude, or fear, by destroying or consuming, in honour of the gods, the dearest and most precious of their gifts. Arabia was free ; the adjacent kingdoms were shaken by the storms of conquest and tyranny, and the persecuted sects fled to the happy land where they might profess what they thought, and practise what they professed. The religions of the Sabians and Magians, of the Jews and Christians, were disseminated from the Persian Gulf to the Red Sea. † Diodorus Siculus (tom. i. l. ii. p. 142—145.) has cast on their religion the curious, but superficial, glance of a Greek. They adored the seven gods or angels who directed the course of the seven planets, and shed their irresistible influence on the earth. But the flexible genius of their faith was always ready either to teach or to learn: In the tradition of the creation, the deluge, and the patriarchs, they held a singular agreement with their Jewish captives; they appealed to the secret books of Adam, Seth, and Enoch; and a slight infusion of the gospel has transformed the last remnant of the Polytheists into the Christians of St John, in the territory of Bas-sora ‡. The most rational of the Arabs acknowledged his power, though they neglected his worship\*; and it was habit rather than conviction that still attached them to the relics of idolatry. The Jews and Christians were the people of the *book*; the Bible was already translated into the Arabic language†, and the volume of the Old Testament was accepted by the concord of these implacable enemies. The grandfather of Mahomet was Abdol Motaleb, the son of Hashem, a wealthy and generous citizen, who relieved the distress of famine with the supplies of commerce. Prideaux (Life of Mahomet, p. 48.) calls it a lie of the coinage of Mahomet; but Sale, (Koran, p. 501—503.) who is half a Mussulman, attacks the inconsistent faith of the Doctor for believing the miracles of the Delphic Apollo. Maracci (Alcoran, tom. i. part ii. p. 14. tom. ii. p. 823.) ascribes the miracle to the devil, and extorts from the Mahometans the confession, that God would not have defended against the Christians the idols of the Caaba.

 the only son of Abdallah and Amina, was born at  
 Mecca, four years after the death of Justinian, and  
 two months after the defeat of the Abyssinians \*,  
 whose victory would have introduced into the  
 Caaba the religion of the Christians. In his early  
 infancy, he was deprived of his father, his mother,  
 and his grandfather ; his uncles were strong and  
 numerous ; and in the division of the inheritance,  
 the orphan's share was reduced to five camels and  
 an Ethiopian maid-servant. At home and abroad,  
 in peace and war, Abu Taleb, the most respectable  
 of his uncles, was the guide and guardian of his  
 youth ; in his twenty-fifth year, he entered into  
 the service of the Cadijah, a rich and noble widow  
 of Mecca, who soon rewarded his fidelity with the  
 gift of her hand and fortune. The marriage con-  
 tract, in the simple stile of antiquity, recites the  
 mutual love of Mahomet and Cadijah ; describes  
 him as the most accomplished of the tribe of Ko-  
 reish ;

 of Mahomet to the year of Christ 570, the 10th of November.  
 Yet this date would agree with the year 882 of the Greeks,  
 which is assigned by Elmacin (Hist. Saracen. p. 5.) and Abul-  
 pharagius. (Dynast. p. 101. and Errata, Pocock's version.)

 the habits of courtesy were imputed to personal

 both of thought and action; and, although his de-

 first idea which he entertained of his divine mission  
 bears the stamp of an original and superior genius.  
 The son of Abdallah was educated in the bosom  
 of the noblest race, in the use of the purest dialect  
 of Arabia; and the fluency of his speech was cor-  
 rected and enhanced by the practice of discreet and  
 seasonable silence. With these powers of eloquence,  
 Mahomet was an illiterate Barbarian; his youth

C H A P. I. from shame or reproach, but he was reduced to a narrow circle of existence, and deprived of those faithful mirrors, which reflect to our mind the minds of sages and heroes. Yet the book of nature and of man was open to his view; and some fancy has been indulged in the political and philosophical observations which are ascribed to the Arabian traveller \*. He compares the nations and the religions of the earth; discovers the weakness of the Persian and Roman monarchies; beholds, with pity and indignation, the degeneracy of the times; and resolves to unite, under one God and one king, the invincible spirit and primitive virtues of the Arabs. Our more accurate inquiry will suggest, that instead of visiting the courts, the camps, the temples of the East, the two journies of Mahomet into Syria were confined to the fairs of Bostra and Damascus; that he was only thirteen years of age when he accompanied the

imposture, of the prophet. His arguments are far from satisfactory. Two short trading journies to the fairs of Syria, were surely not sufficient to infuse a science so rare among the citizens of Mecca; it was not in the cool deliberate act of a treaty that Mahomet would have dropped the mask; nor can any conclusion be drawn from the words of disease and delirium. The lettered youth, before he aspired to the prophetic character, must have often exercised, in private life, the arts of reading and writing; and his first converts of his own family, would have been the first to detect and upbraid his scandalous hypocrisy. \* The Count de Boulainvilliers (Vie de Mahommed, p. 202—228.) leads his Arabian pupil, like the Telemachus of Fenelon, or the Cyrus of Ramsay. His journey to the court of Persia is probably a fiction; nor can I trace the origin of his exclamation, "Les Grecs sont pourtant des hommes." The two Syrian journies are expressed by almost all the Arabian writers, both Mahometans and Christians. (Gagnier ad Abulfed. p. 10.)

In these hasty and superficial excursions, the eye of genius might discern some objects invisible to his grosser companions ; some seeds of knowledge might be cast upon a fruitful soil ; but his ignorance of the Syriac language must have checked his curiosity ; and I cannot perceive, in the life or writings of Mahomet, that his prospect was far extended beyond the limits of the Arabian world. From every region of that solitary world, the pilgrims of Mecca were annually assembled, by the calls of devotion and commerce : In the free concourse of multitudes, a simple citizen, in his native tongue, might study the political state and character of the tribes, the theory and practice of the Jews and Christians. Some useful strangers might be tempted, or forced, to implore the rights of hospitality ; and the enemies of Mahomet have named the Jew, the Persian, and the Syrian monk, whom they accuse of lending their secret aid to the composition of the Koran \*. Conversation enriches the understanding, but solitude is the school of genius ; and the uniformity of a work denotes the hand of a single artist. From his earliest youth, Mahomet was addicted to religious contemplation ; each year, during the month of Ramadan, he withdrew

CHAPTER. from the world and from the arms of Cadijah :

L. In the cave of Hera, three miles from Mecca\*,  
 he consulted the spirit of fraud or enthusiasm,  
 whose abode is not in the heavens, but in the  
 mind of the prophet. The faith which, under the  
 name of *Islam*, he preached to his family and na-  
 tion, is compounded of an eternal truth, and a ne-  
 cessary fiction, THAT THERE IS ONLY ONE GOD, AND  
 THAT MAHOMET IS THE APOSTLE OF GOD.

One God. It is the boast of the Jewish apologists, that  
 while the learned nations of antiquity were deluded  
 by the fables of polytheism, their simple ancestors  
 of Palestine preserved the knowledge and worship  
 of the true God. The moral attributes of Jehovah  
 may not easily be reconciled with the standard of  
*human* virtue ; his metaphysical qualities are dark-  
 ly expressed ; but each page of the Pentateuch and  
 the Prophets is an evidence of his power : The  
 unity of his name is inscribed on the first table of  
 the law ; and his sanctuary was never defiled by  
 any visible image of the invisible essence. After  
 the ruin of the temple, the faith of the Hebrew ex-  
 iles was purified, fixed, and enlightened, by the spi-  
 ritual devotion of the synagogue ; and the authority  
 of Mahomet will not justify his perpetual reproach,  
 that the Jews of Mecca or Medina adored Ezra as  
 the son of God †. But the children of Israel had

ceased to be a people ; and the religions of the world were guilty, at least in the eyes of the prophet, of giving sons, or daughters, or companions, to the supreme God. In the rude idolatry of the Arabs, the crime is manifest and audacious: The Sabians are poorly excused by the pre-eminence of the first planet, or intelligence in their cœlestial hierarchy ; and in the Magian system the conflict of the two principles betrays the imperfection of the conqueror. The Christians of the seventh century had insensibly relapsed into a semblance of paganism ; their public and private vows were addressed to the relics and images that disgraced the temples of the East : The throne of the Almighty was darkened by a cloud of martyrs, and saints, and angels, the objects of popular veneration ; and the Collyridian heretics, who flourished in the fruitful soil of Arabia, invested the Virgin Mary with the name and honours of a goddess \*. The mysteries of the Trinity and Incarnation *appear* to contradict the principle of the divine unity. In their obvious sense, they introduce three equal deities, and transform the man Jesus into the substance of the son of God † ; an orthodox commentary

\* Holtinger, Hist. Orient. p. 225—228. The Collyridian heresy was carried from Thrace to Arabia by some women, and the name was borrowed from the *καλλυρις*, or cake, which they offered to the goddess. This example, that of Beryllus, bishop of Bostra, (Euseb. Hist. Eccles. l. vi. c. 33.) and several others, may excuse the reproach, Arabia hæresean serax.

† The three gods in the Koran (c. 4. p. 81. c. 5. p. 92.) are obviously directed against our Catholic mystery ; but the Arabic commentators understand them of the Father, the Son, and the Virgin Mary, an heretical Trinity, maintained, as it is said, by some

 L. curiosity and zeal had torn the veil of the sanctua-  
 ry; and each of the Oriental sects was eager to confess that all, except themselves, deserved the reproach of idolatry and polytheism. The creed of Mahomet is free from suspicion or ambiguity; and the Koran is a glorious testimony to the unity of God. The prophet of Mecca rejected the worship of idols and men, of stars and planets, on the rational principle, that whatever rises must set, that whatever is born must die, that whatever is corruptible must decay and perish \*. In the author of the universe, his rational enthusiasm confessed and adored an infinite and eternal being, without form or place, without issue or similitude, present to our most secret thoughts, existing by the necessity of his own nature, and deriving from himself all moral and intellectual perfection. These sublime truths, thus announced in the language of the prophet †, are firmly held by his disciples, and defined with metaphysical precision by the interpreters of the Koran. A philosophic

But the existence of the *Marianites* is denied by the candid Beausobre; (Hist. de Manicheisme, tom. i. p. 532.) and he derives the mistake from the word *Rounb*, the Holy Ghost, which, in some Oriental tongues, is of the feminine gender, and is figuratively stiled the Mother of Christ in the gospel of the Nazarenes.

sophic Athiest might subscribe the popular creed of the Mahometans \*: A creed too sublime perhaps for our present faculties. What object remains for the fancy, or even the understanding, when we have abstracted from the unknown substance all ideas of time and space, of motion and matter, of sensation and reflection? The first principle of reason and revelation was confirmed by the voice of Mahomet: His proselytes, from India to Morrocco, are distinguished by the name of *Unitarians*; and the danger of idolatry has been prevented by the interdiction of images. The doctrine of eternal decrees and absolute predestination is strictly embraced by the Mahometans; and they struggle with the common difficulties, *how* to reconcile the prescience of God with the freedom and responsibility of man; *how* to explain the permission of evil under the reign of infinite power and infinite goodness.

The God of nature has written his existence on all his works, and his law in the heart of man. To restore the knowledge of the one and the practice of the other, has been the real or pretended aim of the prophets of every age; the liberality of Mahomet allowed to his predecessors the same credit which he claimed for himself; and the chain of inspiration was prolonged from the fall of Adam

\* It is darkly hinted in the Koran, (c. 3. p. 39.) and more clearly explained by the tradition of the Sonnites, (Sale's Note, and Maracci, tom. ii. p. 112.) In the twelfth century, the immaculate conception was condemned by St Bernard as a presumptuous novelty. (Fra Paolo, Istoria del Concilio di Trento, l. ii.)

‡ This charge is obscurely urged in the Koran; (c. 3. p. 45.) but neither Mahomet, nor his followers, are sufficiently versed in languages and criticism to give any weight or colour to their suspicions. C H A P. L.

The communication of ideas requires a similitude of thought and language ; the discourse of a philosopher would vibrate, without effect, on the ear of a peasant ; yet how minute is the distance of *their* understandings, if it be compared with the contact of an infinite and a finite mind, with the word of God expressed by the tongue or the pen of a mortal ? The inspiration of the Hebrew prophets, of the apostles and evangelists of Christ, might not be incompatible with the exercise of their reason and memory ; and the diversity of their genius is strongly marked in the stile and composition of the books of the Old and New Testament. But Mahomet was content with a character, more humble, yet more sublime, of a simple editor : The substance of the Koran †, according to himself

\* Among the prophecies of the Old and New Testament, which are perverted by the fraud or ignorance of the Mussulmans, they apply to the prophet the promise of the *Paraclete*, or Comforter, which had been already usurped by the Montanists and Manichæans ; (Beausobre, Hist. Critique du Manichéisme, tom. i. p. 263, &c.) and the easy change of letters, *παρακλητος* for *παρεκλητος*, affords the etymology of the name of Mohammed ; (Maracci, tom. i. part i. p. 15—28.)

the angel Gabriel, who, under the Jewish œcono-  
my, had indeed been dispatched on the most impor-  
tant errands ; and this trusty messenger successive-  
ly revealed the chapters and verses to the Arabian  
prophet. Instead of a perpetual and perfect mea-  
sure of the divine will, the fragments of the Koran  
were produced at the discretion of Mahomet ; each  
revelation is suited to the emergencies of his policy  
or passion ; and all contradiction is removed by  
the saving maxim, that any text of scripture is  
abrogated or modified by any subsequent passage.  
The word of God, and of the apostle, was dili-  
gently recorded by his disciples on palm-leaves  
and the shoulder-bones of mutton ; and the pages,  
without order or connection, were cast into a do-  
mestic chest, in the custody of one of his wives.  
Two years after the death of Mahomet, the sacred  
volume was collected and published by his friend  
and successor Abubeker ; the work was revised by  
the caliph Othman, in the thirtieth year of the  
Hegira ; and the various editions of the Koran as-  
sert the same miraculous privilege of an uniform  
and incorruptible text. In the spirit of enthusiasm  
or vanity, the prophet rests the truth of his mission

both men and angels to imitate the beauties of a  
single page, and presumes to assert that God alone

could dictate this incomparable performance \*. C H A P. L. This argument is most powerfully addressed to a devout Arabian, whose mind is attuned to faith and rapture, whose ear is delighted by the music of sounds, and whose ignorance is incapable of comparing the productions of human genius †. The harmony and copiousness of stile will not reach, in a version, the European infidel; he will peruse, with impatience, the endless incoherent rhapsody of fable, and precept, and declamation, which seldom excites a sentiment or an idea, which sometimes crawls in the dust, and is sometimes lost in the clouds. The divine attributes exalt the fancy of the Arabian missionary; but his loftiest strains must yield to the sublime simplicity of the book of Job, composed in a remote age, in the same country, and in the same language ‡. Yet Michaelis (p. 671—673.) has detected many Egyptian images, the elephantiasis, papyrus, Nile, crocodile, &c. The language is ambiguously stiled, *Arabico-Hebræa*. The resemblance of the sister dialects was much more visible in their childhood than in their mature age; (Michaelis, p. 682. Schultens, in Præfat. Job.)

C H A P. founder supplies the silence of his written revelation : The sayings of Mahomet were so many lessons of truth ; his actions so many examples of virtue ; and the public and private memorials were preserved by his wives and companions. At the end of two hundred years, the *Sonna*, or oral law, was fixed and consecrated by the labours of Al Bochari, who discriminated seven thousand two hundred and seventy-five genuine traditions, from a mass of three hundred thousand reports, of a more doubtful or spurious character. Each day the pious author prayed in the temple of Mecca, and performed his ablutions with the water of Zemzem : The pages were successively deposited on the pulpit, and the sepulchre of the apostle ; and the work has been approved by the four orthodox sects of the Sonnites \*.

Miracles. The mission of the ancient prophets, of Moses and of Jesus, had been confirmed by many splendid prodigies ; and Mahomet was repeatedly urged, by the inhabitants of Mecca and Medina, to produce a similar evidence of his divine legation ; to call down from heaven the angel or the volume of his revelation, to create a garden in the desert, or to kindle a conflagration in the unbelieving city. As often as he is pressed by the demands of the Koreish, he involves himself in the obscure boast of vision and prophecy, appeals to the internal proofs of his doctrine, and shields himself behind the providence of God, who refuses

fuses those signs and wonders that would depreciate the merit of faith, and aggravate the guilt of infidelity. But the modest or angry tone of his apologies betrays his weakness and vexation; and these passages of scandal establish, beyond suspicion, the integrity of the Koran \*. The votaries of Mahomet are more assured than himself of his miraculous gifts, and their confidence and credulity increase as they are farther removed from the time and place of his spiritual exploits. They believe or affirm that trees went forth to meet him; that he was saluted by stones; that water gushed from his fingers; that he fed the hungry, cured the sick, and raised the dead; that a beam groaned to him; that a camel complained to him; that a shoulder of mutton informed him of its being poisoned; and that both animate and inanimate nature were equally subject to the apostle of God †. His dream of a nocturnal journey is seriously described as a real and corporeal transaction. A mysterious animal, the Borak, conveyed him from the temple of Mecca to that of Jerusalem: With his companion Gabriel,

Maracci, with a more learned apparatus, has shewn that the passages which deny his miracles are clear and positive, (*Alcoran*, tom. i. part ii. p. 7—12.) and those which seem to assert them, are ambiguous and insufficient; (p. 12—22.)

Maracci (*Alcoran*, tom. i. p. 22—64.) has most laboriously collected and confuted the miracles and prophecies of Mahomet, which, according to some writers, amount to three thousand.

C H A P. briel, he successively ascended the seven heavens,  
 L. and received and repaid the salutations of the pa-  
 triarchs, the prophets, and the angels, in their  
 respective mansions. Beyond the seventh heaven,  
 Mahomet alone was permitted to proceed; he  
 passed the veil of unity, approached within two  
 bow-shots of the throne, and felt a cold that  
 pierced him to the heart, when his shoulder was  
 touched by the hand of God. After this fami-  
 liar though important conversation, he again de-  
 scended to Jerusalem, remounted the Borak, re-  
 turned to Mecca, and performed in the tenth part  
 of a night the journey of many thousand years\*.  
 According to another legend, the apostle con-  
 founded in a national assembly the malicious chal-  
 lenge of the Koreish. His resistless word split a-  
 sunder the orb of the moon: The obedient planet  
 stooped from her station in the sky, accomplished  
 the seven revolutions round the Caaba, saluted  
 Mahomet in the Arabian tongue, and suddenly  
 contracting her dimensions, entered at the collar,  
 and issued forth through the sleeve, of his shirt†.

\* The nocturnal journey is circumstantially related by Abul-  
 fedā, (in Vit. Mohammed. c. 19. p. 33.) who wishes to think it  
 a vision; by Prideaux, (p. 31—40.) who aggravates the absur-  
 dities; and by Gagnier, (tom. i. p. 252—343.) who declares,  
 from the zealous Al Jannabi, that to deny this journey, is to  
 disbelieve the Koran. Yet the Koran, without naming either  
 heaven or Jerusalem, or Mecca, has only dropped a mysterious  
 hint: *Laus illi qui transtulit servum suum ab oratorio Haram  
 ad oratorium remotissimum.* (Koran, c. 17. v. 1. in Maracci,  
 tom. ii. p. 407.; for Sale's version is more licentious.) A

The vulgar are amused with these marvellous tales ; but the gravest of the Mussulman doctors imitate the modesty of their master, and indulge a latitude of faith or interpretation \*. They might speciously allege, that in preaching the religion, it was needless to violate the harmony of nature ; that a creed unclouded with mystery may be excused from miracles ; and that the sword of Mahomet was not less potent than the rod of Moses.

The polytheist is oppressed and distracted by the variety of superstition : A thousand rites of Egyptian origin were interwoven with the essence of the Mosaic law : And the spirit of the gospel had evaporated in the pageantry of the church. The prophet of Mecca was tempted by prejudice, or policy, or patriotism, to sanctify the rites of the Arabians, and the custom of visiting the holy stone of the Caaba. But the precepts of Mahomet himself inculcate a more simple and rational piety : Prayer, fasting, and alms, are the religious duties of a Mussulman ; and he is encouraged

figure of rhetoric has been converted into a fact, which is said to be attested by the most respectable eye witnesses. (Maracci, tom. ii. p. 690.) The festival is still celebrated by the Persians ; (Hardin, tom. iv. p. 201.) and the legend is tediously spun out by Gagnier (Vie de Mahomet, tom. i. p. 183—224.) on the faith, as it should seem, of the credulous Al Jannabi. Yet a Mahometan doctor has arraigned the credit of the principal witness ; (apud Pocock. Specimen, p. 187.) the best interpreters are content with the simple sense of the Koran ; (Al Beidawi, apud Holtinger, Hist. Orient. l. ii. p. 302.) and the silence of Abulfeda is worthy of a prince and a philosopher.

 I. According to the tradition of the nocturnal journey, the apostle, in his personal conference with the Deity, was commanded to impose on his disciples the daily obligation of fifty prayers. By the advice of Moses, he applied for an alleviation of this intolerable burthen ; the number was gradually reduced to five ; without any dispensation of business or pleasure, or time or place : The devotion of the faithful is repeated at day-break, at noon, in the afternoon, in the evening, and at the first watch of the night ; and, in the present decay of religious fervour, our travellers are edified by the profound humility and attention of the Turks and Persians. Cleanliness is the key of prayer : The frequent lustration of the hands, the face, and the body, which was practised of old by the Arabs, is solemnly enjoined by the Koran ; and a permission is formally granted to supply with sand the scarcity of water. The words and attitudes of supplication, as it is performed either sitting, or standing, or prostrate on the

\* The most authentic account of these precepts, pilgrimage, prayer, fasting, alms, and ablutions, is extracted from the Persian and Arabian theologians by Maracci ; (*Prodrom. part iv. p. 9—24.*) Reland ; (in his excellent treatise *de Religione Mohammedicâ*, Utrecht, 1717, p. 67—123.) and Chardin. (*Voyages en Perse, tom. iv. p. 47—195.*) Maracci is a partial accuser ; but the jeweller, Chardin, had the eyes of a philosopher ; and Reland, a judicious student, had travelled over the East in his closet at Utrecht. the ground, are prescribed by custom or authority, C.H A P.  
 but the prayer is poured forth in short and fervent L.  
 ejaculations; the measure of zeal is not exhausted  
 by a tedious liturgy; and each Mussulman, for his  
 own person, is invested with the character of a  
 priest. Among the Theists, who reject the use of  
 images, it has been found necessary to restrain  
 the wanderings of the fancy, by directing the eye  
 and the thought towards a *kebla*, or visible point  
 of the horizon. The prophet was at first in-  
 clined to gratify the Jews by the choice of Je-  
 rusalem; but he soon returned to a more natural  
 partiality; and five times every day the eyes of  
 the nations at Astracan, at Fez, at Delhi, are de-  
 voutly turned to the holy temple of Mecca. Yet  
 every spot for the service of God is equally pure;  
 the Mahometans indifferently pray in their cham-  
 ber or in the street. As a distinction from the Jews  
 and Christians, the Friday in each week is set  
 apart for the useful institution of public worship;  
 the people is assembled in the mosch and the  
 imam; some respectable elder ascends the pulpit,  
 to begin the prayer and pronounce the sermon.  
 But the Mahometan religion is destitute of priest-  
 hood or sacrifice; and the independent spirit of  
 fanaticism looks down with contempt on the mi-  
 nisters and the slaves of superstition. II. The

\* Mahomet (Sale's Koran, c. 9. p. 153.) reproaches the Christians with taking their priests and monks for their lords, besides God. Yet Maracci (Prodromus, part iii. p. 69, 70.) excuses the worship, especially of the pope, and quotes, from the Koran itself, the case of Eblis, or Satan, who was cast from heaven for refusing to adore Adam.

C H A P. and glory of their lives, was odious to a prophet  
 L. who censured in his companions a rash vow of ab-

 firmly declared, that he would suffer no monks in  
 his religion \*. Yet he instituted, in each year,  
 a fast of thirty days; and strenuously recom-  
 mended the observance, as a discipline which  
 purifies the soul and subdues the body, as a sa-  
 lutory exercise of obedience to the will of God  
 and his apostle. During the month of Ramadan,  
 from the rising to the setting of the sun, the Mus-  
 sulman abstains from eating, and drinking, and  
 women, and baths, and perfumes; from all nou-  
 rishment that can restore his strength, from all  
 pleasure that can gratify his senses. In the revo-  
 lution of the lunar year, the Ramadan coincides  
 by turns with the winter cold and the summer  
 heat; and the patient martyr, without assuaging  
 his thirst with a drop of water, must expect the  
 close of a tedious and sultry day. The inter-  
 diction of wine, peculiar to some orders of priests  
 or hermits, is converted by Mahomet alone into a  
 positive and general law †; and a considerable  
 portion of the globe has abjured, at his com-  
 mand, the use of that salutary, though dangerous  
 liquor. These painful restraints are, doubtless,

Orient. p. 292. 718.)

† See the double prohibition, (Koran, c. 2. p. 25. c. 5. p. 94.) the one in the stile of a legislator, the other in that of a fanatic. The public and private motives of Mahomet are investigated by Prideaux, (Life of Mahomet, p. 62—64.) and Sale, (Preliminary Discourse, p. 124.)

infringed by the libertine and eluded by the hypocrite; but the legislator, by whom they are enacted, cannot surely be accused of alluring his proselytes by the indulgence of their sensual appetites. III. The charity of the Mahometans descends to the animal creation; and the Koran repeatedly inculcates, not as a merit, but as a strict and indispensable duty, the relief of the indigent and unfortunate. Mahomet, perhaps, is the only lawgiver who has defined the precise measure of charity: The standard may vary with the degree and nature of property, as it consists either in money, in corn or cattle, in fruits or merchandise; but the Mussulman does not accomplish the law, unless he bestows a *tenth* of his revenue; and if his conscience accuses him of fraud or extortion, the tenth, under the idea of restitution, is enlarged to a *fifth* \*. Benevolence is the foundation of justice, since we are forbid to injure those whom we are bound to assist. A prophet may reveal the secrets of heaven and of futurity; but in his moral precepts he can only repeat the lessons of our own hearts.

The two articles of belief, and the four practical duties of Islam, are guarded by rewards and punishments; and the faith of the Mussulman is devoutly

\* The jealousy of Maracci (Prodromus, part iv. p. 33.) prompts him to enumerate the more liberal alms of the Catholics of Rome. Fifteen great hospitals are open to many thousand patients and pilgrims, fifteen hundred maidens are annually portioned, fifty-six charity schools are founded for both sexes, one hundred and twenty confraternities relieve the wants of their brethren, &c. The benevolence of London is still more extensive; but I am afraid that much more is to be ascribed to the humanity, than to the religion of the people.

**C H A P.** devoutly fixed on the event of the judgment and  
**L.** the last day. The prophet has not presumed to  
 determine the moment of that awful catastrophe, though he darkly announces the signs, both in heaven and earth, which will precede the universal dissolution, when life shall be destroyed, and the order of creation shall be confounded in the primitive chaos. At the blast of the trumpet, new worlds will start into being; angels, genii, and men, will arise from the dead, and the human soul will again be united to the body. The doctrine of the resurrection was first entertained by the Egyptians\*; and their mummies were embalmed, their pyramids were constructed, to preserve the ancient mansion of the soul, during a period of three thousand years. But the attempt is partial and unavailing; and it is with a more philosophic spirit that Mahomet relies on the omnipotence of the Creator, whose word can re-animate the breathless clay, and collect the innumerable atoms, that no longer retain their form or substance†. The intermediate state of the soul it is hard to decide; and those who most firmly believe her immaterial nature, are at a loss to understand how she can think or act without the agency of the organs of sense.

The

The *Adæ* of the same writer (p. 254—274.) is an elaborate sketch of the infernal regions, as they were painted by the fancy of the Egyptians and Greeks, of the poets and philosophers of antiquity.

† The Koran (c. 2. p. 259, &c.; of Sale, p. 32.; of Maracci, p. 97.) relates an ingenious miracle, which satisfied the curiosity, and confirmed the faith, of Abraham.

The re-union of the soul and body will be followed by the final judgment of mankind ; and, in his copy of the Magian picture, the prophet has too faithfully represented the forms of proceeding, and even the slow and successive operations of an earthly tribunal. By his intolerate adversaries he is upbraided for extending, even to themselves, the hope of salvation, for asserting the blackest heresy, that every man who believes in God, and accomplishes good works, may expect in the last day a favourable sentence. Such rational indifference is ill adapted to the character of a fanatic ; nor is it probable that a messenger from heaven should depreciate the value and necessity of his own revelation. In the idiom of the Koran \*, the belief of God is inseparable from that of Mahomet : The good works are those which he has enjoined ; and the two qualifications imply the profession of Islam, to which all nations and all sects are equally invited. Their spiritual blindness, though excused by ignorance and crowned with virtue, will be scourged with everlasting torments ; and the tears which Mahomet shed over the tomb of his mother, for whom he was forbidden to pray, display a striking contrast of humanity and enthusiasm †. \* The candid Reland has demonstrated, that Mahomet damns all unbelievers ; (de Religion. Moham. p. 128—142.) that devils will not be finally saved ; (p. 196—199.) that paradise will not *solely* consist of corporeal delights ; (p. 199—205.) and that women's souls are immortal ; (p. 205—209.)

† Al Beidawi, apud Sale, Koran, c. 9. p. 164. The refusal to pray for an unbelieving kindred is justified, according to Mahomet, by the duty of a prophet, and the example of Abraham, who reprobated his own father as an enemy of God. Yet Abraham, (he adds, c. 9. v. 116. Maracci, tom. ii. p. 317.) fuit sane pius, mitis.

C H A P. L.  fideis is common : The measure of their guilt and punishment is determined by the degree of evidence which they have rejected, by the magnitude of the errors which they have entertained : The eternal mansions of the Christians, the Jews, the Sabians, the Magians, and the idolaters, are sunk below each other in the abyss ; and the lowest hell is reserved for the faithless hypocrites who have assumed the mask of religion. After the greater part of mankind has been condemned for their opinions, the true believers only will be judged by their actions. The good and evil of each Mussulman will be accurately weighed in a real or allegorical balance, and a singular mode of compensation will be allowed for the payment of injuries :  The aggressor will refund an equivalent of his own good actions, for the benefit of the person whom he has wronged ; and if he should be destitute of any moral property, the weight of his sins will be loaded with an adequate share of the demerits of the sufferer. According as the shares of guilt or virtue shall preponderate, the sentence will be pronounced, and all, without distinction, will pass over the sharp and perilous bridge of the abyss ; but the innocent, treading in the footsteps of Mahomet, will gloriously enter the gates of paradise, while the guilty will fall into the first and mildest of the seven hells. The term of expiation will vary from nine hundred to seven thousand years ; but the prophet has judiciously promised, that *all* his disciples, whatever may be their sins, shall be saved, by their own faith and his intercession, from eternal damnation. It is not surprising that superstition should act most powerfully on

on the fears of her votaries, since the human fancy can paint with more energy the misery than the bliss of a future life. With the two simple elements of darkness and fire we create a sensation of pain, which may be aggravated to an infinite degree by the idea of endless duration. But the same idea operates with an opposite effect on the continuity of pleasure ; and too much of our present enjoyments is obtained from the relief or the comparison of evil. It is natural enough that an Arabian prophet should dwell with rapture on the groves, the fountains, and the rivers, of paradise; but instead of inspiring the blessed inhabitants with a liberal taste for harmony and science, conversation and friendship, he idly celebrates the pearls and diamonds, the robes of silk, palaces of marble, dishes of gold, rich wines, artificial dainties, numerous attendants, and the whole train of sensual and costly luxury, which becomes insipid to the owner, even in the short period of this mortal life. Seventy-two *Houris*, or black-eyed girls of resplendent beauty, blooming youth, virgin purity, and exquisite sensibility, will be created for the use of the meanest believer ; a moment of pleasure will be prolonged to a thousand years, and his faculties will be increased an hundred fold, to render him worthy of his felicity. Notwithstanding a vulgar prejudice, the gates of heaven will be open to both sexes ; but Mahomet has not specified the male companions of the female elect, lest he should either alarm the jealousy of their former husbands, or disturb their felicity of the suspicion of an everlasting marriage. This image of a carnal paradise has provoked the indignation, perhaps

**C H A P.** perhaps the envy, of the monks: They declaim

 modest apologists are driven to the poor excuse of  
 figures and allegories. But the sounder and more  
 consistent party adhere, without shame, to the li-  
 teral interpretation of the Koran; useless would be  
 the resurrection of the body, unless it were re-  
 stored to the possession and exercise of its worthiest  
 faculties; and the union of sensual and intellectual  
 enjoyment is requisite to complete the happiness  
 of the double animal, the perfect man. Yet the  
 joys of the Mahometan paradise will not be con-  
 fined to the indulgence of luxury and appetite;  
 and the prophet has expressly declared, that all  
 meaner happiness will be forgotten and despised  
 by the saints and martyrs, who shall be admitted  
 to the beatitude of the divine vision \*.

In the article of Mahomet, Bayle has shewn how indifferently wit and philosophy supply the absence of genuine information.

† Before I enter on the history of the prophet, it is incumbent on me to produce my evidence. The Latin, French, and English versions of the Koran, are preceded by historical discourses, and the three translators, Maracci, (tom. i. p. 10—32.) Savary, (tom. i. p. 1—248.) and Sale, (Preliminary Discourse, p. 33—56) had accurately studied the language and character of their author. pupil, and his friend \* ; since he presented himself as a prophet to those who were most conversant with his infirmities as a man. Yet Cadijah believed the words, and cherished the glory, of her husband; the obsequious and affectionate Zeid was tempted by the prospect of freedom; the illustrious Ali, the son of Abu Taleb, embraced the sentiments of his cousin with the spirit of a youthful hero; and the wealth, the moderation, the veracity of Abubeker, confirmed the religion of the prophet whom he was destined to succeed. By his persuasion, ten of the most respectable citizens of Mecca were introduced to the private lessons of Islam; they yielded to the voice of reason

de Mahommed, Londres, 1730, in octavo,) but the adverse wish of finding an impostor or an hero, has too often corrupted the learning of the doctor and the ingenuity of the count. The article in d'Herbelot, (*Bibliot. Orient.* p. 598—603.) is chiefly drawn from Novairi and Mircond; but the best and most authentic of our guides is M. Gagnier, a Frenchman by birth, and professor at Oxford of the Oriental tongues. In two elaborate works, (*Ismael Abulfeda de Vita et Rebus gestis Mohammedis, &c. Latine vertit, Præfatione et Notis illustravit Johannes Gagnier, Oxon. 1723, in folio. La Vie de Mahomet traduite et compilée de l'Alcoran, des Traditions authentiques de la Sonna et des meilleurs Auteurs Arabes; Amsterdam, 1748, 3 vols. in 12mo.*) he has interpreted, illustrated, and supplied the Arabic text of Abulfeda and Al Jannabi; the first, an enlightened prince, who reigned at Hamah, in Syria, A. D. 1310—1332. (see Gagnier *Præfat. ad Abulfed.*) the second, a credulous doctor, who visited Mecca A. D. 1556. (d'Herbelot, p. 397. Gagnier, tom. iii. p. 209, 210.) These are my general vouchers, and the inquisitive reader may follow the order of time, and the division of chapters. Yet I must observe, that both Abulfeda and Al Jannabi are modern historians, and that they cannot appeal to any writers of the first century of the Hegira.

\* After the Greeks, Pridcaux (p. 8.) discloses the secret doubts of the wife of Mahomet. As if he had been a privy counsellor of the prophet, Boulainvilliers (p. 272, &c.) unfolds the sublime and patriotic views of Cadijah and the first disciples.

Three years were silently employed in the conversion of fourteen proselytes, the first fruits of his mission; but in the fourth year he assumed the prophetic office, and resolving to impart to his family the light of divine truth, he prepared a banquet, a lamb, as it is said, and a bowl of milk, for the entertainment of forty guests of the race of Hashem. "Friends and kinsmen," said Mahomet to the assembly, "I offer you, "and I alone can offer, the most precious of "gifts, the treasures of this world and of the "world to come. God has commanded me to "call you to his service. Who among you will "support my burthen? Who among you will "be my companion and my vizir \*?" No answer was returned, till the silence of astonishment, and doubt, and contempt, was at length broken by the impatient courage of Ali, a youth in the fourteenth year of his age. "O prophet, "I am the man; whosoever rises against thee, I "will dash out his teeth, tear out his eyes, break "his legs, rip up his belly. O prophet, I will "be thy vizir over them." Mahomet accepted his offer with transport, and Abu Taleb was ironically

nically exhorted to respect the superior dignity of his son. In a more serious tone, the father of Ali advised his nephew to relinquish his impracticable design. "Spare your remonstrances," replied the intrepid fanatic to his uncle and benefactor; "if they should place the sun on my right-hand, and the moon on my left, they should not divert me from my course." He persevered ten years in the exercise of his mission; and the religion which has overspread the East and the West, advanced with a slow and painful progress within the walls of Mecca. Yet Mahomet enjoyed the satisfaction of beholding the encrease of his infant congregation of Unitarians, who revered him as a prophet, and to whom he seasonably dispensed the spiritual nourishment of the Koran. The number of proselytes may be esteemed by the absence of eighty-three men and eighteen women, who retired to Æthiopia in the seventh year of his mission: And his party was fortified by the timely conversion of his uncle Hamza, and of the fierce and inflexible Omar, who signalized in the cause of Islam the same zeal which he had exerted for its destruction. Nor was the charity of Mahomet confined to the tribe of Koreish or the precincts of Mecca: On solemn festivals, in the days of pilgrimage, he frequented the Caaba, accosted the strangers of every tribe, and urged, both in private converse and public discourse, the belief and worship of a sole Diety.  former of his country : The pious orations of Ma-

 “ Al Lâta and Al Uzzah.” Yet the son of Ab-  
 dallah was ever dear to the aged chief ; and he  
 protected the fame and person of his nephew  
 against the assaults of the Koreishites, who had  
 long been jealous of the pre-eminence of the fa-  
 mily of Hashem. Their malice was coloured with  
 the pretence of religion ; in the age of Job, the  
 crime of impiety was punished by the Arabian  
 magistrate ;

But so loose was the policy of Mecca, that the leaders of the Koreish, instead of accusing a criminal, were compelled to employ the measures of persuasion or violence. They repeatedly addressed Abu Taleb in the stile of reproach and menace. “ Thy nephew reviles our religion ; he accuses our wise forefathers of ignorance and folly ; silence him quickly, lest he kindle tumult and discord in the city. If he persevere, we shall draw our swords against him and his adherents, and thou wilt be responsible for the blood of thy fellow-citizens.” The weight and moderation of Abu Taleb eluded the violence of religious faction ; the most helpless or timid of the disciples retired to Æthiopia, and the prophet withdrew himself to various places of strength in the town and country. As he was still supported by his family, the rest of the tribe of Koreish engaged themselves to renounce all intercourse with the children of Hashem, neither to buy nor sell, neither to marry nor to give in marriage, but to pursue them with implacable enmity, till they should deliver the person of Mahomet to the justice of the gods. The decree was suspended in the Caaba before the eyes of the nation ; the messengers of the Koreish pursued the Mussulman exiles in the heart of Africa :

 Taleb abandoned Mahomet to the power of his  
 enemies, at the moment when he was deprived of  
 his domestic comforts, by the loss of his faithful  
 and generous Cadjah. Abu Sophian, the chief of  
 the branch of Ommyah, succeeded to the princi-

 of the idols, a mortal foe of the line of Hashem,  
 he convened an assembly of the Koreishites and  
 their allies, to decide the fate of the apostle. His  
 imprisonment might provoke the despair of his

 popular fanatic would diffuse the mischief through  
 the provinces of Arabia. His death was resolved ;  
 and they agreed, that a sword from each tribe

picture of his anxiety, his tenderness, and his religious confidence. Three days Mahomet and his companion were concealed in the cave of Thor; at the distance of a league from Mecca; and in the close of each evening, they received from the son and daughter of Abubeker a secret supply of intelligence and food. The diligence of the Koreish explored every haunt in the neighbourhood of the city, they arrived at the entrance of the cavern; but the providential deceit of a spider's web and a pigeon's nest, is supposed to convince them that the place was solitary and inviolate. "We are only two," said the trembling Abubeker. "There is a third," replied the prophet; "it is God himself." No sooner was the pursuit abated, than the two fugitives issued from the rock, and mounted their camels: On the road to Medina, they were overtaken by the emissaries of the Koreish; they redeemed themselves with prayers and promises from their hands. In this eventful moment, the lance of an Arab might have changed the history of the world. The flight of the prophet from Mecca to Medina has fixed the memorable æra of the *Hegira* \*,

The religion of the Koran might have perished in its cradle, had not Medina embraced with faith and reverence the holy outcasts of Mecca. Medina, or the *city*, known under the name of Yathreb, before it was sanctified by the throne of the prophet, was divided between the tribes of the Charegites and the Awsites, whose hereditary feud was rekindled by the slightest provocations: Two colonies of Jews, who boasted a sacerdotal race, were their humble allies, and without converting the Arabs, they introduced the taste of science and religion, which distinguished Medina as the city of the book. Some of her noblest citizens, in a pilgrimage to the Caaba, were converted by the preaching of Mahomet; on their return, they diffused the belief of God and his prophet, and the new alliance was ratified by their deputies in two secret and nocturnal interviews on a hill in the suburbs of Mecca. In the first, ten Charegites and two Awsites united in faith and love, protested in the name of their wives, their children, and their absent brethren, that they would for ever profess the creed, and observe the precepts, of the Koran. The second was a political association, the first vital spark of the empire of

of the Saracens \*. Seventy-three men and two women of Medina held a solemn conference with Mahomet, his kinsmen, and his disciples; and pledged themselves to each other by a mutual oath of fidelity. They promised in the name of the city, that if he should be banished, they would receive him as a confederate, obey him as a leader, and defend him to the last extremity, like their wives and children. “But if you are recalled by your country,” they asked with a flattering anxiety, “will you not abandon your new allies?” “All things,” replied Mahomet with a smile, “are now common between us; your blood is as my blood, your ruin as my ruin. We are bound to each other by the ties of honour and interest. I am your friend, and the enemy of your foes.” “But if we are killed in your service, what,” exclaimed the deputies of Medina, “will be our reward?” “PARADISE,” replied the prophet, “Stretch forth thy hand.” He stretched it forth, and they reiterated the oath of allegiance and fidelity. Their treaty was ratified by the people, who unanimously embraced the profession of Islam; they rejoiced in the exile of the apostle, but they trembled for his safety, and impatiently expected his arrival. After a perilous and rapid journey along the sea-coast, he halted at Koba, two miles from the city, and made his public entry into Medina, sixteen days after

C H A P. his flight from Mecca. Five hundred of the citi-  
 L. zens advanced to meet him; he was hailed with  
 { acclamations of loyalty and devotion; Mahomet  
 was mounted on a she-camel, an umbrella shaded  
 his head, and a turban was unfurled before him to  
 supply the deficiency of a standard. His bravest  
 disciples, who had been scattered by the storm,  
 assembled round his person; and the equal, though  
 various, merit of the Moslems was distinguished  
 by the names of *Mobagerians* and *Ansars*, the fu-  
 gitives of Mecca, and the auxiliaries of Medina.  
 To eradicate the seeds of jealousy, Mahomet ju-  
 diciously coupled his principal followers with the  
 rights and obligations of brethren, and when Ali  
 found himself without a peer, the prophet ten-  
 derly declared, that *he* would be the companion  
 and brother of the noble youth. The expedient  
 was crowned with success; the holy fraternity was  
 respected in peace and war, and the two parties  
 vied with each other in a generous emulation of  
 courage and fidelity. Once only the concord was  
 slightly ruffled by an accidental quarrel; a pa-  
 triot of Medina arraigned the insolence of the  
 strangers, but the hint of their expulsion was  
 heard with abhorrence, and his own son most  
 eagerly offered to lay at the apostle's feet the  
 head of his father.

His regal  
 dignity,  
 A. D.  
 622—632.

From his establishment at Medina, Mahomet  
 assumed the exercise of the regal and sacerdotal  
 office; and it was impious to appeal from a judge  
 whose decrees were inspired by the divine wisdom.  
 A small portion of ground, the patrimony of two  
 orphans,

orphans, was acquired by gift or purchase \*; on that chosen spot, he built an house and a mosch, more venerable in their rude simplicity than the palaces and temples of the Assyrian caliphs. His seal of gold, or silver, was inscribed with the apostolic title; when he prayed and preached in the weekly assembly, he leaned against the trunk of a palm-tree; and it was long before he indulged himself in the use of a chair or pulpit of rough timber †. After a reign of six years, fifteen hundred Moslems, in arms and in the field, renewed their oath of allegiance; and their chief repeated the assurance of protection till the death of the last member, or the final dissolution of the party. It was in the same camp that the deputy of Mecca was astonished by the attention of the faithful to the words and looks of the prophet, by the eagerness with which they collected his spittle, an hair that dropped on the ground, the refuse water of his lustrations, as if they participated in some degree of the prophetic virtue. “ I have

\* Prideaux (Life of Mohamet, p. 44.) reviles the wickedness of the impostor, who despoiled two poor orphans, the sons of a carpenter; a reproach which he drew from the *Disputatio contra Saracenos*, composed in Arabic before the year 1130; but the honest Gagnier (ad Abulfed. p. 53.) has shewn that they were deceived by the word *Al Nagjar*, which signifies, in this place, not an obscure trade, but a noble tribe of Arabs. The desolate state of the ground is described by Abulfeda; and his worthy interpreter has proved from Al Bochari, the offer of a price; from Al Jannabi, the fair purchase; and from Ahmed Ben Joseph, the payment of the money by the generous Abubeker. On these grounds the prophet must be honourably acquitted.

† Al Jannabi (apud Gagnier, tom. ii. p. 246. 324.) describes the seal and pulpit, as two venerable relics of the apostle of God; and the portrait of his court is taken from Abulfeda, (c. 44. p. 85.)

 the infi-  
 dels.

In the state of nature every man has a right to defend, by force of arms, his person and his possessions; to repel, or even to prevent, the violence of his enemies, and to extend his hostilities to a reasonable measure of satisfaction and retaliation. In the free society of the Arabs, the duties of subject and citizen imposed a feeble restraint; and Mahomet, in the exercise of a peaceful and benevolent mission, had been despoiled and banished by the injustice of his countrymen. The choice of an independent people had exalted the fugitive of Mecca to the rank of a sovereign; and he was invested with the just prerogative of forming alliances, and of waging offensive or defensive war. The imperfection of human rights was supplied and armed by the plenitude of divine power: The prophet of Medina assumed, in his new revelations, a fiercer and more sanguinary tone, which proves that his former moderation was the effect of weakness\*: The means of persuasion had been tried, the season of forbearance was elapsed, and he was now commanded to propagate his religion by the sword, to destroy the monuments of idolatry,

latry, and, without regarding the sanctity of days C H A P.  
 or months, to pursue the unbelieving nations of L.  
 the earth. The same bloody precepts, so re-  
 peatedly inculcated in the Koran, are ascribed by  
 the author to the Pentateuch and the Gospel.  
 But the mild tenor of the evangelic stile may ex-  
 plain an ambiguous text, that Jesus did not bring  
 peace on the earth, but a sword : His patient and  
 humble virtues should not be confounded with the  
 intolerant zeal of princes and bishops, who have  
 disgraced the name of his disciples. In the pro-  
 secution of religious war, Mahomet might appeal  
 with more propriety to the example of Moses, of  
 the judges, and the kings of Israel. The military  
 laws of the Hebrews are still more rigid than those  
 of the Arabian legislator \*. The Lord of Hosts  
 marched in person before the Jews : If a city re-  
 sisted their summons, the males, without distinc-  
 tion, were put to the sword ; the seven nations of  
 Canaan were devoted to destruction ; and neither  
 repentance nor conversion could shield them from  
 the inevitable doom, that no creature within their  
 precincts should be left alive. The fair option of  
 friendship, or submission, or battle, was proposed  
 to the enemies of Mahomet. If they professed  
 the creed of Islam, they were admitted to all the  
 temporal and spiritual benefits of his primitive  
 disciples, and marched under the same banner to

L. The clemency of the prophet was decided by his

 enemy ; and he seems to promise, that, on the  
 payment of a tribute, the least guilty of his un-  
 believing subjects might be indulged in their  
 worship, or at least in their imperfect faith. In  
 the first months of his reign, he practised the les-  
 sons of holy warfare, and displayed his white ban-  
 ner before the gates of Medina : The martial apos-  
 tle fought in person at nine battles or sieges \* ;  
 and fifty enterprises of war were atchieved in ten  
 years by himself or his lieutenants. The Arab  
 continued to unite the professions of a merchant  
 and a robber ; and his petty excursions, for the  
 defence or the attack of a caravan, insensibly pre-  
 pared his troops for the conquest of Arabia. The  
 distribution of the spoil was regulated by a divine  
 law † ; the whole was faithfully collected in one  
 common mass ; a fifth of the gold and silver, the  
 prisoners and cattle, the moveables and immove-  
 ables, was reserved by the prophet for pious and  
 charitable uses ; the remainder was shared in ade-

the slain devolved to their widows and orphans; L.  
and the increase of cavalry was encouraged by —  
the allotment of a double share to the horse and  
to the man. From all sides the roving Arabs  
were allured to the standard of religion and plunder: The apostle sanctified the licence of embracing the female captives as their wives or concubines; and the enjoyment of wealth and beauty was a feeble type of the joys of paradise prepared for the valiant martyrs of the faith. “The  
“sword,” says Mahomet, “is the key of heaven  
“and of hell: A drop of blood shed in the cause  
“of God, a night spent in arms, is of more avail  
“than two months of fasting or prayer:  
“Whosoever falls in battle, his sins are forgiven;  
“at the day of judgment his wounds shall be resplendent  
“as vermillion, and odoriferous as musk;  
“and the loss of his limbs shall be supplied by  
“the wings of angels and cherubim.” The intrepid souls of the Arabs were fired with enthusiasm; the picture of the invisible world was strongly painted on their imagination; and the death which they had always despised became an object of hope and desire. The Koran inculcates, in the most absolute sense, the tenets of fate and predestination, which would extinguish both industry and virtue, if the actions of man were governed by his speculative belief. Yet their influence in every age has exalted the courage of the Saracens and Turks. The first companions of Mahomet advanced to battle with a fearless confidence; there is no danger where there is no chance: They were ordained to perish in their

Perhaps the Koreish would have been content with the flight of Mahomet, had they not been provoked and alarmed by the vengeance of an enemy, who could intercept their Syrian trade as it passed and repassed through the territory of Medina. Abu Sophian himself, with only thirty or forty followers, conducted a wealthy caravan of a thousand camels; the fortune or dexterity of his march escaped the vigilance of Mahomet ; but the chief of the Koreish was informed that the holy robbers were placed in ambush to wait his return. He dispatched a messenger to his brethren of Mecca, and they were roused, by the fear of losing their merchandise and their provisions, unless they hastened to his relief with the military force of the city. The sacred band of Mahomet was formed of three hundred and thirteen Moslems, of whom seventy-seven were fugitives, and the rest auxiliaries : They mounted by turns a train of seventy camels, (the camels of Yathreb were formidable in war ;) but such was the poverty of his first disciples, that only two could appear on horseback in the field †. In the fertile and famous vale of Beder,

After a short debate, he sacrificed the prospect of wealth to the pursuit of glory and revenge; and a slight intrenchment was formed to cover his troops, and a stream of fresh water that glided through the valley. “O God,” he exclaimed as the numbers of the Koreish descended from the hills, “O God, if these are destroyed, by whom wilt thou be worshipped on the earth? —Courage, my children, close your ranks; discharge your arrows, and the day is your own.” At these words he placed himself, with Abubeker, on a throne or pulpit†, and instantly demanded the succour of Gabriel and three thousand angels.  four thousand drams of silver, compensated in some

\* The loose expressions of the Koran (c. 3. p. 124, 125. c. 8. p. 9.) allow the commentators to fluctuate between the numbers of 1000, 3000, or 9000 angels; and the smallest of these might suffice for the slaughter of seventy of the Koreish, (Maracci, Alcoran, tom. ii. p. 131.) Yet the same scholiasts confess, that this angelic band was not visible to any mortal eye, (Maracci, p. 297.) They refine on the words (c. 8. 16.) “ not thou, but God,” &c. (d’Herbelot, Bibliot. Orientale, p. 600, 601.)

Henda, with fifteen matrons of Mecca, incessantly sounded their timbrels to animate the troops, and to magnify the greatness of Hobal, the most popular deity of the Caaba. The standard of God and Mahomet was upheld by nine hundred and fifty believers; the disproportion of numbers was not more alarming than in the field of Beder; and their presumption of victory prevailed against the divine and human sense of the apostle. The second battle was fought on mount Ohud, six miles to the north of Medina \*; the Koreish advanced in the form of a crescent; and the right wing of cavalry was led by Caled, the fiercest and most successful of the Arabian warriors. The troops of Mahomet were skilfully posted on the declivity of the hill; and their rear was guarded by a detachment of fifty archers. The weight of their charge impelled and broke the centre of the idolaters; but in the pursuit they lost the advantage of their ground; the archers deserted their station; the Mussulmans were tempted by the spoil, disobeyed their general, and disordered their ranks. The intrepid Caled, wheeling his cavalry on their flank and rear, exclaimed, with a loud voice, that Mahomet was slain. He was indeed wounded in the face with a javelin; two of his teeth were shattered with a stone; yet, in the midst of tumult and dismay, he reproached the infidels with the murder of a prophet; and blessed the friendly hand that staunched his blood, and conveyed him to a place of safety. Seventy martyrs died for the sins of the people; they fell, said the apostle, in

Their obstinacy converted his friendship into implacable hatred, with which he pursued that unfortunate people to the last moment of his life ; and in the double character of an apostle and a conqueror, his persecution was extended to both worlds \*. The Kainoka dwelt at Medina, under the protection of the city : He seized the occasion of an accidental tumult, and summoned them to embrace his religion, or contend with him in battle. “ Alas,” replied the trembling Jews, “ we are ignorant of the use of arms, but we persevere in the faith and worship of our fathers ; why wilt thou reduce us to the necessity of a just defence ?” The unequal conflict was terminated in fifteen days ; and it was with extreme reluctance that Mahomet yielded to the importunity of his allies, and consented to spare the lives of the captives. But their riches were confiscated, their arms became more effectual in the hands of the Mussulmans ; and a wretched colony of seven hundred exiles was driven with their wives and children to implore a refuge on the confines of Syria. The Nadhirites were more guilty, since they conspired in a friendly interview to assassinate the prophet. He besieged their castle three miles from Medina, but their resolute defence obtained an honourable capitulation ; and the garrison, sounding their trumpets and beating their

 L.  the war of the Koreish : No sooner had the *nations* retired from the *ditch*, than Mahomet, without laying aside his armour, marched on the same day to extirpate the hostile race of the children of Koraidha. After a resistance of twenty-five days, they surrendered at discretion. They trusted to the intercession of their old allies, of Medina ; they could not be ignorant that fanaticism obliterates the feelings of humanity. A venerable elder, to whose judgment they appealed, pronounced the sentence of their death : Seven hundred Jews were dragged in chains to the market-place of the city ; they descended alive into the grave prepared for their execution and burial ; and the apostle beheld with an inflexible eye the slaughter of his helpless enemies. Their sheep and camels were inherited by the Mussulmans ; three hundred cuirasses, five hundred pikes, a thousand lances, composed the most useful portion of the spoil. Six days journey to the north-east of Medina, the ancient and wealthy town of Chaibar was the seat of the Jewish power in Arabia ; the territory, a fertile spot in the desert, was covered with plantations and cattle, and protected by eight castles, some of which were esteemed of impregnable strength. The forces of Mahomet consisted of two hundred horse and fourteen hundred foot : In the succession of eight regular and painful sieges, they were exposed to danger, and fatigue, and hunger ; and the most undaunted chiefs despaired of the event. The apostle revived their faith and courage by the example of Ali, on whom

whom he bestowed the surname of the Lion of God: C H A P. L.  
 Perhaps we may believe that an Hebrew champion of gigantic stature was cloven to the chest by his irresistible scymetar; but we cannot praise the modesty of romance, which represents him as tearing from its hinges the gate of a fortress, and wielding the ponderous buckler in his left hand\*. After the reduction of the castles, the town of Chaibar submitted to the yoke. The chief of the tribe was tortured in the presence of Mahomet, to force a confession of his hidden treasure: The industry of the shepherds and husbandmen was rewarded with a precarious toleration: They were permitted, so long as it should please the conqueror, to improve their patrimony, in equal shares, for *his* emolument and their own. Under the reign of Omar, the Jews of Chaibar were transplanted to Syria; and the caliph alleged the injunction of his dying master, that one and the true religion should be professed in his native land of Arabia†.

Five times each day the eyes of Mahomet were turned towards Mecca ‡, and he was urged

† The banishment of the Jews is attested by Elmacin (Hist. Saracen. p. 9.) and the great Al Zabari. (Gagnier, tom. ii. p. 285.) Yet Neibuhr (Description de l'Arabie, p. 324.) believes, that the Jewish religion, and Kareite sect, are still professed by the tribe of Chaibar; and that in the plunder of the caravans, the disciples of Moses are the confederates of those of Mahomet.

C H A P. by the most sacred and powerful motives to revisit  
L. as a conqueror, the city and the temple from whence  
he had been driven as an exile. The Caaba was present to his waking and sleeping fancy: An idle dream was translated into vision and prophecy; he unfurled the holy banner; and a rash promise of success too hastily dropped from the lips of the apostle. His march from Medina to Mecca displayed the peaceful and solemn pomp of a pilgrimage: Seventy camels chosen and bedecked for sacrifice, preceded the van; the sacred territory was respected, and the captives were dismissed without ransom, to proclaim his clemency and devotion. But no sooner did Mahomet descend into the plain, within a day's journey of the city, than he exclaimed, "they have clothed themselves with the skins of tygers;" the numbers and resolution of the Koreish opposed his progress; and the roving Arabs of the desert might desert or betray a leader whom they had followed for the hopes of spoil. The intrepid fanatic sunk into a cool and cautious politician: He waved in the treaty his title of apostle of God, concluded with the Koreish and their allies a truce of ten years, engaged to restore the fugitives of Mecca who should embrace his religion, and stipulated only, for the ensuing year, the humble privilege of entering the city as a friend, and of remaining three days to accomplish the rites of the pilgrimage. A cloud of shame and sorrow hung on the retreat of the Mussulmans, and their disappointment might justly accuse the failure of a prophet who had so often appealed to the evidence of success. The  
faith

faith and hope of the pilgrims were rekindled by the prospect of Mecca; their swords were sheathed; seven times in the footsteps of the apostle they encompassed the Caaba; the Koreish had retired to the hills, and Mahomet, after the customary sacrifice, evacuated the city on the fourth day. The people was edified by his devotion; the hostile chiefs were awed, or divided, or seduced; and both Caled and Amrou, the future conquerors of Syria and Egypt, most seasonably deserted the sinking cause of idolatry. The power of Mahomet was increased by the submission of the Arabian tribes: Ten thousand soldiers were assembled for the conquest of Mecca, and the idolaters, the weaker party, were easily convicted of violating the truce. Enthusiasm and discipline impelled the march and preserved the secret, till the blaze of ten thousand fires proclaimed to the astonished Koreish, the design, the approach, and the irresistible force of the enemy. The haughty Abu Sophian presented the keys of the city, admired the variety of arms and ensigns that passed before him in review; observed that the son of Abdallah had acquired a mighty kingdom, and confessed, under the scymetar of Omar, that he was the apostle of the true God. The return of Marius and Sylla was stained with the blood of the Romans; the revenge of Mahomet was stimulated by religious zeal, and his injured followers were eager to execute or to prevent the order of a massacre. Instead of indulging their passions and his own\*,

\* After the conquest of Mecca, the Mahomet of Voltaire imagines and perpetrates the most horrid crimes. The poet confesses,

C H A P. the victorious exile forgave the guilt, and united  
 L. the factions, of Mecca. His troops, in three di-  
 ————— visions, marched into the city; eight and twenty  
 of the inhabitants were slain by the sword of Ca-  
 led; eleven men and six women were proscribed  
 by the sentence of Mahomet; but he blamed the  
 cruelty of his lieutenant; and several of the most  
 obnoxious victims were indebted for their lives to  
 his clemency or contempt. The chiefs of the  
 Koreish were prostrate at his feet. “What mercy  
 “can you expect from the man whom you have  
 “wronged?” “We confide in the generosity of  
 “our kinsman.” “And you shall not confide in  
 “vain: Begone! you are safe, you are free.”  
 The people of Mecca deserved their pardon by  
 the profession of Islam; and after an exile of seven  
 years, the fugitive missionary was enthroned as the  
 prince and prophet of his native country \*. But  
 the three hundred and sixty idols of the Caaba  
 were ignominiously broken; the house of God was  
 purified and adorned; as an example to future  
 times, the apostle again fulfilled the duties of a  
 pilgrim; and a perpetual law was enacted that no  
 unbeliever

confesses, that he is not supported by the truth of history, and  
 can only allege, que celui qui fait la guerre à sa patrie au nom  
 de Dieu, est capable de tout. (Oeuvres de Voltaire, tom. xv.  
 p. 282.) The maxim is neither charitable nor philosophic;  
 and some reverence is surely due to the fame of heroes and the  
 religion of nations. I am informed that a Turkish ambassador  
 at Paris was much scandalized at the representation of this tra-  
 gedy.

\* The Mahometan doctors still dispute, whether Mecca was  
 reduced by force or consent; (Abulfeda, p. 107. et Gagnier ad  
 locum,) and this verbal controversy is of as much moment, as  
 our own about William the Conqueror.

unbeliever should dare to set his foot on the territory of the holy city \*.

The conquest of Mecca determined the faith and obedience of the Arabian tribes †; who, according to the vicissitudes of fortune, had obeyed or disregarded the eloquence or the arms of the prophet. Indifference for rites and opinions still marks the character of the Bedowees; and they might accept, as loosely as they hold, the doctrine of the Koran. Yet an obstinate remnant still adhered to the religion and liberty of their ancestors, and the war of Honain derived a proper appellation from the *idols*, whom Mahomet had vowed to destroy, and whom the confederates of Tayef had sworn to defend ‡. Four thousand Pagans advanced with secrecy and speed to surprise the conqueror; they pitied and despised the supine negligence of the Koreish, but they depended on the wishes, and perhaps the aid, of a people who had so lately renounced their gods, and bowed beneath the yoke of their enemy. Miscell.* tom. iii. p. 51.) are more rigid than the Mussulmans themselves. The Christians are received without scruple into the ports of Mocha, and even of Gedda, and it is only the city and precincts of Mecca that are inaccessible to the profane. ‡ The siege of Tayef, division of the spoil, &c. are related by Abulfeda, (p. 117—123.) and Gagnier, (tom. iii. p. 88—111.) It is Al Jannabi who mentions the engines and engineers of the tribe of Daws. The fertile spot of Tayef was supposed to be a piece of the land of Syria detached and dropped in the general deluge.

**C H A P.** Medina and Mecca were displayed by the prophet;  
**L.** a crowd of Bedowens increased the strength or  
numbers of the army, and twelve thousand Mussulmans entertained a rash and sinful presumption of their invincible strength. They descended without precaution into the valley of Honain; the heights had been occupied by the archers and slingers of the confederates; their numbers were oppressed, their discipline was confounded, their courage was appalled, and the Koreish smiled at their impending destruction. The prophet, on his white mule, was encompassed by the enemies; he attempted to rush against their spears in search of a glorious death: Ten of his faithful companions interposed their weapons and their breasts; three of these fell dead at his feet: "O my brethren," he repeatedly cried with sorrow and indignation, "I am the son of Abdallah, I am the apostle of truth! O man stand fast in the faith! O God send down thy succour!" His uncle Abbas, who like the heroes of Homer, excelled in the loudness of his voice, made the valley resound with the recital of the gifts and promises of God; the flying Moslems returned from all sides to the holy standard; and Mahomet observed with pleasure, that the furnace was again rekindled; his conduct and example restored the battle, and he animated his victorious troops to inflict a merciless revenge on the authors of their shame. From the field of Honain, he marched without delay to the siege of Tayef, sixty miles to the south-east of Mecca, a fortress of strength, whose fertile lands produce the fruits of Syria in the midst of the Arabian desert.

A friendly tribe, instructed (I know not how) in the art of sieges, supplied him with a train of battering rams and military engines, with a body of five hundred artificers. But it was in vain that he offered freedom to the slaves of Tayef; that he violated his own laws by the extirpation of the fruit-trees; that the ground was opened by the miners; that the breach was assaulted by the troops. After a siege of twenty days, the prophet sounded a retreat, but he retreated with a song of devout triumph, and affected to pray for the repentance and safety of the unbelieving city. The spoil of this fortunate expedition amounted to six thousand captives, twenty-four thousand camels, forty-thousand sheep, and four thousand ounces of silver: a tribe who had fought at Honain, redeemed their prisoners by the sacrifice of their idols; but Mahomet compensated the loss, by resigning to the soldiers his fifth of the plunder, and wished for their sake, that he possessed as many head of cattle as there were trees in the province of Tehama. Instead of chastising the disaffection of the Koreish, he endeavoured to cut out their tongues (his own expression), and to secure their attachment by a superior measure of liberality: Abu Sophian alone was presented with three hundred camels and twenty ounces of silver; and Mecca was sincerely converted to the profitable religion of the Koran.

The *fugitives* and *auxiliaries* complained, that they who had borne the burthen were neglected in the season of victory. "Alas," replied their artful leader, "suffer me to conciliate these recent

 L. " some perishable goods. To your guard I entrust  
 { " my life and fortunes. You are the companions

 " toleration of our ancient worship." " Not a  
 " month, not an hour." " Excuse us at least  
 " from the obligation of prayer." " Without  
 " prayer religion is of no avail." They submitted in silence ; their temples were demolished, and the same sentence of destruction was executed on all the idols of Arabia. His lieutenants, on the shores of the Red Sea, the Ocean, and the Gulf of Persia, were saluted by the acclamations of a faithful people ; and the ambassadors who knelt before the throne of Medina, were as numerous (says the Arabian proverb) as the dates that fall from the maturity of a palm-tree. The nation submitted to the God and the sceptre of Mahomet ; the opprobrious name of tribute was abolished ; the spontaneous or reluctant oblations of alms and tithes were applied to the service of religion ; and one hundred and fourteen thousand Moslems accompanied the last pilgrimage of the apostle \*.

 On this foundation the zeal of the Arabians has supposed the secret conversion of the Christian emperor: The vanity of the Greeks has feigned a personal visit to the prince of Medina, who accepted from the royal bounty a rich domain, and a secure retreat in the province of Syria \*. But the friendship of Heraclius and Mahomet was of short continuance: the new religion had inflamed rather than assuaged the rapacious spirit of the Saracens; and the murder of an envoy afforded a decent pretence for invading, with three thousand soldiers, the territory of Palestine, that extends to the eastward of the Jordan. The holy banner was entrusted to Zeid; and such was the discipline or enthusiasm of the rising sect, that the noblest chiefs served without reluctance, under the slave of the prophet. On the event of his decease, Jaafar and Abdallah were successively substituted to the command; and if the three should perish in the war, the troops were authorised to elect their general. The three leaders were slain in the battle of Muta †, the first military action which tried the valour of the Moslems against a foreign enemy. Zeid fell, like a soldier, in the foremost ranks: The death of Jaafar was heroic and memorable; he lost his right-hand; he shifted the standard to his left;

In the nocturnal council of the camp he was chosen to command : His skilful evolutions of the ensuing day secured either the victory or the retreat of the Saracens ; and Caled is renowned among his brethren and his enemies, by the glorious appellation of the *Sword of God*. In the pulpit, Mahomet described, with prophetic rapture, the crowns of the blessed martyrs ; but in private he betrayed the feelings of human nature ; he was surprised as he wept over the daughter of Zeid : “ What do I “ see ?” said the astonished votary. “ You see,” replied the apostle, “ a friend who is deploring “ the loss of his most faithful friend.” After the conquest of Mecca the sovereign of Arabia affected to prevent the hostile preparations of Heraclius ; and solemnly proclaimed war against the Romans, without attempting to disguise the hardships and dangers of the enterprise \*.  disdained to compel their service; but on his re-  
 turn he admonished the most guilty, by an excom-  
 munication of fifty days. Their desertion enhanced  
 the merit of Abubeker, Othman, and the faithful  
 companions who devoted their lives and fortunes;  
 and Mahomet displayed his banner at the head of  
 ten thousand horse and twenty thousand foot. Pain-  
 ful indeed was the distress of the march; lassitude  
 and thirst were aggravated by the scorching and  
 pestilential winds of the desert; ten men rode by  
 turns on the same camel; and they were reduced  
 to the shameful necessity of drinking the water  
 from the belly of that useful animal. In the mid-  
 way, ten days journey from Medina and Damascus,  
 they reposed near the grove and fountain of Ta-  
 buc. Beyond that place, Mahomet declined the  
 prosecution of the war; he declared himself satisfied  
 with the peaceful intentions, he was more proba-  
 bly daunted by the martial array, of the emperor  
 of the East. But the active and intrepid Caled  
 spread around the terror of his name; and the pro-  
 phet received the submission of the tribes and ci-  
 ties, from the Euphrates to Ailah, at the head of  
 the Red Sea. To his Christian subjects, Maho-

Death of  
 Mahomet,  
 A. D. 682,  
 June 7.

Till the age of sixty-three years, the strength of  
 Mahomet was equal to the temporal and spiritual  
 fatigues of his mission. His epileptic fits, an ab-  
 surd calumny of the Greeks, would be an object of  
 pity rather than abhorrence \*; but he seriously  
 believed that he was poisoned at Chaibar by the  
 revenge of a Jewish female †. During four years,  
 the

macin, (Hist. Saracen. p. 11.) though he owns Mahomet's re-  
 gard for the Christians, (p. 13.) only mention peace and tri-  
 bute. In the year 1630, Sionita published at Paris the text  
 and version of Mahomet's patent in favour of the Christians;  
 which was admitted and reprobated by the opposite taste of  
 Salmasius and Grotius. (Bayle, MAHOMET, Rem. AA.) Hottinger  
 doubts of its authenticity; (Hist. Orient. p. 237.) Renau-  
 dot urges the consent of the Mahometans; (Hist. Patriarch.  
 Alex. p. 169.) but Mosheim (Hist. Eccles. p. 244.) shews the  
 futility of their opinion, and inclines to believe it spurious.  
 Yet Abulpharagius quotes the impostor's treaty with the Nes-  
 torian patriarch; (Asseman. Bibliot. Orient. tom. ii. p. 418.)  
 but Abulpharagius was primate of the Jacobites.

\* The epilepsy, or falling-sickness, of Mahomet, is asserted  
 by Theophanes, Zonaras, and the rest of the Greeks; and is  
 greedily swallowed by the gross bigotry of Hottinger, (Hist.  
 Orient. p. 10, 11.) Prideaux, (Life of Mahomet, p. 12.) and  
 Maracci, (tom. ii. Alcoran, p. 762, 763.) The titles (*the wrap-  
 ped up, the covered*) of two chapters of the Koran, (73, 74.) can  
 hardly be strained to such an interpretation; the silence, the  
 ignorance of the Mahometan commentators, is more conclusive  
 than the most peremptory denial; and the charitable side is  
 espoused by Ockley, (Hist. of the Saracens, tom. i. p. 301.)  
 Gagnier, (ad Abulfeda, p. 9. Vie de Mahomet, tom. i. p. 118.)  
 and Sale, (Koran, p. 469—474.)

† This poison (more ignominious since it was offered as a  
 test of his prophetic knowledge) is frankly confessed by his  
 zealous votaries, Abulfeda (p. 92.) and Al Jannabi; (apud  
 Gagnier, tom. ii. p. 286—288.)

the health of the prophet declined; his infirmities C H A P.  
 increased; but his mortal disease was a fever of L.  
 fourteen days, which deprived him by intervals of {  
 the use of reason. As soon as he was conscious of  
 his danger, he edified his brethren by the humi-  
 lity of his virtue or penitence. “ If there be any  
 “ man,” said the apostle from the pulpit, “ whom  
 “ I have unjustly scourged, I submit my own back  
 “ to the lash of retaliation. Have I aspersed the  
 “ reputation of a Mussulman? let him proclaim  
 “ *my* faults in the face of the congregation. Has  
 “ any one been despoiled of his goods? the little  
 “ that I possess shall compensate the principal and  
 “ the interest of the debt.” “ Yes,” replied a  
 voice from the crowd, “ I am entitled to three  
 “ drams of silver.” Mahomet heard the com-  
 plaint, satisfied the demand, and thanked his credi-  
 tor for accusing him in this world rather than at the  
 day of judgment. He beheld with temperate firm-  
 ness the approach of death; enfranchised his slaves;  
 (seventeen men, as they are named, and eleven  
 women) minutely directed the order of his funeral,  
 and moderated the lamentations of his weeping  
 friends, on whom he bestowed the benediction of  
 peace. Till the third day before his death, he re-  
 gularly performed the function of public prayer:  
 The choice of Abubeker to supply his place, ap-  
 peared to mark that ancient and faithful friend  
 as his successor in the sacerdotal and regal office;  
 but he prudently declined the risk and envy of a  
 more explicit nomination. At a moment when his  
 faculties were visibly impaired, he called for pen  
 and

**C H A P.** and ink, to write, or more properly to dictate, a  
**I.** divine book, the sum and accomplishment of all  
his revelations; a dispute arose in the chamber, whether he should be allowed to supersede the authority of the Koran; and the prophet was forced to reprove the indecent vehemence of his disciples. If the slightest credit may be afforded to the traditions of his wives and companions, he maintained in the bosom of his family, and to the last moments of his life, the dignity of an apostle and the faith of an enthusiast; described the visits of Gabriel, who bade an everlasting farewell to the earth, and expressed his lively confidence, not only of the mercy but of the favour of the Supreme Being. In a familiar discourse he had mentioned his special prerogative, that the angel of death was not allowed to take his soul till he had respectfully asked the permission of the prophet. The request was granted; and Mahomet immediately fell into the agony of his dissolution; his head was reclined on the lap of Ayesha, the best beloved of all his wives; he fainted with the violence of pain; recovering his spirits, he raised his eyes towards the roof of the house, and, with a steady look, though a faltering voice, uttered the last broken, though articulate, words: "O God! . . . . . pardon my sins  
" . . . . . Yes, . . . . . I come, . . . . . among my  
" fellow-citizens on high;" and thus peaceably expired on a carpet spread upon the floor. An expedition for the conquest of Syria was stopped by this mournful event; the army halted at the gates of Medina; the chiefs were assembled round  
their

their dying master. The city, more especially the C H A P.  
house of the prophet, was a scene of clamorous sor- L.  
row, or silent despair: fanaticism alone could sug- —  
gest a ray of hope and consolation. “How can  
“he be dead, our witness, our intercessor, our  
“mediator with God? By God he is not dead;  
“like Moses and Jesus, he is wrapt in a holy X  
“trance, and speedily will he return to his faith-  
“ful people.” The evidence of sense was disre-  
garded; and Omar unsheathing his scymetar,  
threatened to strike off the heads of the infidels,  
who should dare to affirm that the prophet was no  
more. The tumult was appeased by the weight  
and moderation of Abubeker. “Is it Mahomet,”  
said he to Omar and the multitude, “or the God  
“of Mahomet, whom you worship? The God of  
“Mahomet liveth for ever, but the apostle was  
“a mortal like ourselves, and according to his  
“own prediction, he has experienced the com-  
“mon fate of mortality.” He was piously inter-  
red by the hands of his nearest kinsman, on the  
same spot on which he expired\*; Medina has

His character.

At the conclusion of the life of Mahomet, it may perhaps be expected, that I should balance his faults and virtues, that I should decide whether the title of enthusiast or impostor more properly belongs to that extraordinary man. Had I been intimately conversant with the son of Abdallah, the task would still be difficult, and the success uncertain: At the distance of twelve centuries, I darkly contemplate his shade through a cloud of religious incense; and could I truly delineate the portrait of an hour, the fleeting resemblance would not equally apply to the solitary of mount Hera, to the preacher of Mecca, and to the conqueror of Arabia. The author of a mighty revolution appears to have been endowed with a pious and contemplative disposition: So soon as marriage had raised him above the pressure of want, he avoided the paths of ambition and avarice; and, till the age of forty, he lived with innocence, and would have died

\* Al Jannabi enumerates (*Vie de Mahomet*, tom. iii. p. 372—391.) the multifarious duties of a pilgrim who visits the tombs of the prophet and his companions; and the learned casuist decides, that this act of devotion is nearest in obligation and merit to a divine precept. The doctors are divided, which, of Mecca and Medina, be the most excellent, (p. 391—394.)

† The last sickness, death, and burial of Mahomet, are described by Abulfeda and Gagnier. (*Vit. Moham.* p. 133—142. *Vie de Mahomet*, tom. iii. p. 220—271.) The most private and interesting circumstances were originally received from Ayesha, Ali, the sons of Abbas, &c.; and as they dwelt at Medina, and survived the prophet many years, they might repeat the pious tale to a second or third generation of pilgrims.

As this pretended miracle is urged by Grotius, (*de Veritate Religionis Christianæ*,) his Arabic translator, the learned Pocock, inquired of him the names of his authors ; and Grotius confessed, that it is unknown to the Mahometans themselves. Lest it should provoke their indignation and laughter, the pious *lie* is suppressed in the Arabic version ; but it has maintained an edifying place in the numerous editions of the Latin text, (Pocock, *Specimen Hist. The familiar examples, which Socrates urges in his Dialogue with Theages, (Platon. *Opera*, tom. i. p. 128, 129. edit. Hen. Charity may believe that the original motives of Mahomet were those of pure and genuine benevolence; but a human missionary is incapable of cherishing the obstinate unbelievers who reject his claims, despise his arguments, and persecute his life; he might forgive his personal adversaries, he may lawfully hate the enemies of God; the stern passions of pride and revenge were kindled in the bosom of Mahomet, and he sighed like the prophet of Nineveh, for the destruction of the rebels whom he had condemned. The injustice of Mecca, and the choice of Medina, transformed the citizen into a prince, the humble preacher into the leader of armies; but his sword was consecrated by the example of the saints; and the same God who afflicts a sinful world with pestilence and earthquakes, might inspire for their conversion or chastisement the valour of his servants. In the exercise of political government, he was compelled to abate of the stern rigour of fanaticism, to comply in some measure with the prejudices and passions of his followers, and to employ even the vices of mankind as the instruments of their salvation. The use of fraud and perfidy, of cruelty and injustice, were often subservient to the propagation of the faith; and Mahomet commanded or approved the assassination of the Jews and idolaters

By the repetition of such acts, the character of Mahomet must have been gradually stained; and the influence of such pernicious habits would be poorly compensated by the practice of the personal and social virtues which are necessary to maintain the reputation of a prophet among his sectaries and friends. Of his last years, ambition was the ruling passion; and a politician will suspect, that he secretly smiled (the victorious impostor!) at the enthusiasm of his youth, and the credulity of his proselytes \*. A philosopher will observe, that *their* cruelty and *his* success would tend more strongly to fortify the assurance of his divine mission, that his interest and religion were inseparably connected, and that his conscience would be soothed by the persuasion, that he alone was absolved by the Deity from the obligation of positive and moral laws. If he retained any vestige of his native innocence, the sins of Mahomet may be allowed as an evidence of his sincerity. In the support of truth, the arts of fraud and fiction may be deemed less criminal; and he would have started at the foulness of the means, had he not been satisfied of the importance and justice of the end. Private  
life of  
Mahomet.

The good sense of Mahomet † despised the pomp of royalty ; the apostle of God submitted to the menial offices of the family ; he kindled the fire, swept the floor, milked the ewes, and mended with his own hands his shoes and his woollen garment. Disdaining the penance and merit of an hermit, he observed without effort or vanity, the abstemious diet of an Arab and a soldier. On solemn occasions, he feasted his companions with rustic and hospitable plenty ; but in his domestic life, many weeks would elapse without a fire being kindled on the hearth of the prophet. The interdiction of wine was confirmed by his example ; his hunger was appeased with a sparing allowance of barley-bread ; he delighted in the taste of milk and honey ; but his ordinary food consisted of dates and water. Perfumes and women were the two sensual enjoyments which his nature required, and his religion did not forbid ; and Mahomet affirmed, that

The most original evidence of the three last transactions is contained in the xxiv. xxxiii. and lxvi. chapters of the Koran, with Sale's Commentary. the fervour of his devotion was increased by these innocent pleasures. The heat of the climate inflames the blood of the Arabs; and their libidinous complexion has been noticed by the writers of antiquity \*. Their incontinence was regulated by the civil and religious laws of the Koran; their incestuous alliances were blamed, the boundless licence of polygamy was reduced to four legitimate wives or concubines; their rights both of bed and of dowry were equitably determined; the freedom of divorce was discouraged, adultery was condemned as a capital offence, and fornication, in either sex, was punished with an hundred stripes †. Such were the calm and rational precepts of the legislator; but in his private conduct, Mahomet indulged the appetites of a man, and abused the claims of a prophet. A special revelation dispensed him from the laws which he had imposed on his nation; the female sex, without reserve, was abandoned to his desires; and this singular prerogative excited the envy, rather than the scandal, the veneration, rather than the envy, of the devout Mussulmans. If we remember the seven hundred wives and three hundred concubines of the wise Solomon, we shall applaud the modesty of the Arabian, who espoused no more than seventeen or fifteen wives; eleven are enumerated who occupied at Medina their separate apartments round the

 youth, the beauty, the spirit of Ayesha, gave her  
 a superior ascendant ; she was beloved and trusted  
 by the prophet ; and, after his death, the daughter  
 of Abubeker was long revered as the mother of  
 the faithful. Her behaviour had been ambiguous  
 and indiscreet ; in a nocturnal march, she was ac-

 returned to the camp with a man. The temper of  
 Mahomet was inclined to jealousy ; but a divine  
 revelation assured him of her innocence : He chas-  
 tised her accusers, and published a law of domestic  
 peace, that no woman should be condemned unless  
 four male witnesses had seen her in the act of adul-

 of Zeid, and with Mary, an Egyptian captive, the  
 amorous prophet forgot the interest of his reputa-  
 tion. At the house of Zeid, his freedman and  
 adopted son, he beheld, in a loose undress, the  
 beauty of Zeineb, and burst forth into an ejacu-

After her death, he placed her in the rank of the four perfect women, with the sister of Moses, the mother of Jesus and Fatima, the best beloved of his daughters. “Was she not old?” said Ayesha, with the insolence of a blooming beauty; “has not God given you a better in her place?” “No, by God,” said Mahomet, with an effusion of honest gratitude, “there never can be a better! she believed in me, when men despised me; she relieved my wants, when I was poor and persecuted by the world ‡.”

The silence and death of the prophet restored the liberty of the people ; and his companions convened an assembly to deliberate on the choice of his successor. The hereditary claim and lofty spirit of Ali were offensive to an aristocracy of elders, desirous of bestowing and resuming the sceptre, by a free and frequent election : The Koreish could never be reconciled to the proud pre-eminence of the line of Hashem ; the ancient discord of the tribes was rekindled ; the *fugitives* of Mecca and the *auxiliaries* of Medina asserted their respective merits, and the rash proposal of choosing two independent caliphs would have crushed, in their infancy, the religion and empire of the Saracens. The tumult was appeased by the disinterested resolution of Omar, who, suddenly renouncing his own pretensions, stretched forth his hand, and declared himself the first subject of the mild and venerable Abubeker. The urgency of the moment, and the acquiescence of the people, might excuse this illegal and precipitate measure ; but Omar himself confessed from the pulpit, that if any Mussulman should hereafter presume to anticipate the suffrage of his brethren, both the elector and the elected would be worthy of death\*. \* Ockley, (Hist. of the Saracens, vol. i. p. 5, 6.) from an Arabian MS. represents Ayesha as adverse to the substitution of her father in the place of the apostle. This fact, so improbable in itself, is unnoticed by Abulfeda, Al Jannabi, and Al Bochari ; the last of whom quotes the tradition of Ayesha herself ; (Vit. Mohammed. p. 136. Vie de Mahomet, tom. iii. p. 236.)

**C H A P.** the simple inauguration of Abubeker, he was

 Arabia ; the Hashemites alone declined the oath  
 of fidelity ; and their chief, in his own house,  
 maintained, above six months, a sullen and inde-  
 pendent reserve ; without listening to the threats  
 of Omar, who attempted to consume with fire the  
 habitation of the daughter of the apostle. The  
 death of Fatima, and the decline of his party,  
 subdued the indignant spirit of Ali : He conde-  
 scended to salute the commander of the faithful,  
 accepted his excuse of the necessity of preventing  
 their common enemies, and wisely rejected his  
 courteous offer of abdicating the government of  
 the Arabians. After a reign of two years, the  
 aged caliph was summoned by the angel of death.  
 In his testament, with the tacit approbation of the  
 companions, he bequeathed the sceptre to the  
 firm and intrepid virtue of Omar. “ I have no  
 “ occasion,” said the modest candidate, “ for the  
 “ place.”—“ But the place has occasion for you,”  
 replied Abubeker ; who expired with a fervent  
 prayer, that the God of Mahomet would ratify  
 his choice, and direct the Mussulmans in the way  
 of concord and obedience. The prayer was not  
 ineffectual, since Ali himself, in a life of privacy  
 and prayer, professed to revere the superior worth  
 and dignity of his rival ; who comforted him for  
 the loss of empire, by the most flattering marks of  
 confidence and esteem. In the twelfth year of his  
 reign, Omar received a mortal wound from the  
 hand of an assassin ; he rejected with equal impar-

load his conscience with the sins of his successor, and devolved on six of the most respectable companions, the arduous task of electing a commander of the faithful. On this occasion, Ali was again blamed by his friends \* for submitting his right to the judgment of men, for recognising their jurisdiction by accepting a place among the six electors. He might have obtained their suffrage, had he deigned to promise a strict and servile conformity, not only to the Koran and tradition, but likewise to the determinations of two *seniors* †. With these limitations, Othman, the secretary of Mahomet, accepted the government; nor was it till after the third caliph, twenty-four years after the death of the prophet, that Ali was invested, by the popular choice, with the regal and sacerdotal office. The manners of the Arabians retained their primitive simplicity, and the son of Abu Taleb despised the pomp and vanity of this world. At the hour of prayer, he repaired to the mosch of Medina, clothed in a thin cotton gown, a coarse turban on his head, his slippers in one hand, and his bow in the other, instead of a walking staff. Discord of  
 the Turks  
 and Per-  
 sians.

The mischiefs that flow from the contests of ambition are usually confined to the times and countries in which they have been agitated. But the religious discord of the friends and enemies of Ali has been renewed in every age of the Hegira, and is still maintained in the immortal hatred of the Persians and Turks \*. The former, who are branded with the appellation of *Sbiites*, or sectaries, have enriched the Mahometan creed with a new article of faith ; and if Mahomet be the apostle, his companion Ali is the vicar, of God. In their private converse, in their public worship, they bitterly execrate the three usurpers who intercepted his indefeasible right to the dignity of Imam and Caliph ; and the name of Omar expresses, in their tongue, the perfect accomplishment of wickedness and impiety †. The *Sonnites*, who are supported by the general consent and orthodox tradition of the Mussulmans, entertain a more impartial, or at least a more decent opinion. They respect the memory of Abubeker, Omar, Othman, and Ali, the

\* The schism of the Persians is explained by all our travellers of the last century, especially in the ii. and iv. volumes of their master, Chardin. the holy and legitimate successors of the prophet. C H A P.  
 But they assign the last and most humble place to L.  
 the husband of Fatima, in the persuasion that the  
 order of succession was determined by the degrees  
 of sanctity\*. An historian who balances the four  
 caliphs with a hand unshaken by superstition, will  
 calmly pronounce, that their manners were alike  
 pure and exemplary; that their zeal was fervent,  
 and probably sincere; and that in the midst of  
 riches and power, their lives were devoted to the  
 practice of moral and religious duties. But the  
 public virtues of Abubeker and Omar, the pru-  
 dence of the first, the severity of the second, main-  
 tained the peace and prosperity of their reigns. The  
 feeble temper and declining age of Othman were  
 incapable of sustaining the weight of conquest and  
 empire. He chose, and he was deceived; he trust-  
 ed, and he was betrayed: The most deserving of  
 the faithful became useless or hostile to his govern-  
 ment, and his lavish bounty was productive only  
 of ingratitude and discontent. The spirit of dis-  
 cord went forth in the provinces, their deputies  
 assembled at Medina, and the Charegites, the des-  
 perate fanatics who disclaimed the yoke of subor-  
 dination and reason, were confounded among the  
 free-born Arabs, who demanded the redress of  
 their wrongs and the punishment of their oppres-  
 sors.

\* This gradation of merit is distinctly marked in a creed il-  
 lustrated by Reland, (*de Relig. Mohamm.* l. i. p. 37.) and a  
 Sonnite argument inserted by Ockley, (*Hist. of the Saracens*,  
 tom. ii. p. 230.) The practice of cursing the memory of Ali  
 was abolished, after forty years, by the Ommiades themselves;  
 (d'Herbelot, p. 690.) and there are few among the Turks  
 who presumed to revile him as an infidel, (*Voyages de Char-*  
*din*, tom. iv. p. 46.).

From Cufa, from Bassora, from Egypt, from the tribes of the desert, they rose in arms, encamped about a league from Medina, and dispatched an haughty mandate to their sovereign, requiring him to execute justice, or to descend from the throne. His repentance began to disarm and disperse the insurgents; but their fury was rekindled by the arts of his enemies; and the forgery of a perfidious secretary was contrived to blast his reputation and precipitate his fall. The caliph had lost the only guard of his predecessors, the esteem and confidence of the Moslems; during a siege of six weeks his water and provisions were intercepted, and the feeble gates of the palace were protected only by the scruples of the more timorous rebels. Forsaken by those who had abused his simplicity, the helpless and venerable caliph expected the approach of death; the brother of Ayesha marched at the head of the assassins; and Othman, with the Koran in his lap, was pierced with a multitude of wounds. A tumultuous anarchy of five days was appeased by the inauguration of Ali; his refusal would have provoked a general massacre. In this painful situation he supported the becoming pride of the chief of the Hashemites; declared that he had rather serve than reign; rebuked the presumption of the strangers; and required the formal, if not the voluntary, assent of the chiefs of the nation. He has never been accused of prompting the assassin of Omar; though Persia indiscreetly celebrates the festival of that holy martyr. The quarrel between Othman and his

his subjects were assuaged by the early mediation C H A P.  
of Ali; and Hassan, the eldest of his sons, was L.  
insulted and wounded in the defence of the caliph. —

Yet it is doubtful whether the father of Hassan, was strenuous and sincere in his opposition to the rebels; and it is certain that he enjoyed the benefit of their crime. The temptation was indeed of such magnitude as might stagger and corrupt the most obdurate virtue. The ambitious candidate no longer aspired to the barren sceptre of Arabia: The Saracens had been victorious in the East and West; and the wealthy kingdoms of Persia, Syria, and Egypt, were the patrimony of the commander of the faithful.

A life of prayer and contemplation had not chilled the martial activity of Ali; but in a mature age, after a long experience of mankind, he still betrayed in his conduct the rashness and indiscretion of youth. In the first days of his reign, he neglected to secure, either by gifts or fetters, the doubtful allegiance of Telha and Zobeir, two of the most powerful of the Arabian chiefs. They escaped from Medina to Mecca, and from thence to Bassora; erected the standard of revolt; and usurped the government of Irak, or Assyria, which they had vainly solicited as the reward of their services. The mask of patriotism is allowed to cover the most glaring inconsistencies; and the enemies, perhaps the assassins, of Othman now demanded vengeance for his blood. They were accompanied in their flight by Ayesha, the widow of the prophet, who cherished, to the last hour of her life, an implacable hatred against the husband

**C H A P.** and the posterity of Fatima. The most reasonable Moslems were scandalised, that the mother of the faithful should expose in a camp her person and character ; but the superstitious crowd was confident that her presence would sanctify the justice, and assure the success, of their cause. At the head of twenty thousand of his loyal Arabs, and nine thousand valiant auxiliaries of Cufa, the caliph encountered and defeated the superior numbers of the rebels under the walls of Bassora. Their leaders, Telha and Zobeir, were slain in the first battle that stained with civil blood the arms of the Moslems. After passing through the ranks to animate the troops, Ayesha had chosen her post amidst the dangers of the field. In the heat of the action, seventy men who held the bridle of her camel, were successively killed or wounded ; and the cage or litter in which she sat, was stuck with javelins and darts like the quills of a porcupine. The venerable captive sustained with firmness the reproaches of the conqueror, and was speedily dismissed to her proper station, at the tomb of Mahomet, with the respect and tenderness that was still due to the widow of the apostle. After this victory, which was styled the Day of the Camel, Ali marched against a more formidable adversary ; against Moawiyah, the son of Abu Sophian, who had assumed the title of caliph, and whose claim was supported by the forces of Syria and the interest of the house of the Ommiyah. From the passage of Thapsacus, the plain of Siffin\* extends along the western bank of the Euphrates. On this spacious

cious and level theatre, the two competitors waged a desultory war of one hundred and ten days. In the course of ninety actions or skirmishes, the loss of Ali was estimated at twenty-five, that of Moawiyah at forty-five, thousand soldiers; and the list of the slain was dignified with the names of five and twenty veterans who had fought at Beder under the standard of Mahomet. In this sanguinary contest, the lawful caliph displayed a superior character of valour and humanity. His troops were strictly enjoined to await the first onset of the enemy, to spare their flying brethren, and to respect the bodies of the dead, and the chastity of the female captives. He generously proposed to save the blood of the Moslems by a single combat; but his trembling rival declined the challenge as a sentence of inevitable death. The ranks of the Syrians were broken by the charge of a hero who was mounted on a pyebald horse, and wielded with irresistible force his ponderous and two-edged sword. As often as he smote a rebel, he shouted the Allah Acbar, "God is victorious;" and in the tumult of a nocturnal battle, he was heard to repeat four hundred times that tremendous exclamation. The prince of Damascus already meditated his flight, but the certain victory was snatched from the grasp of Ali by the disobedience and enthusiasm of his troops. Their conscience was awed by the solemn appeal to the books of the Koran which Moawiyah exposed on the foremost lances; and Ali was compelled to yield to a disgraceful truce and an insidious compromise. He retreated with sorrow and indignation to Cufa; his party was discouraged; the distant provinces

 L. or seduced by his crafty rival; and the stroke of  
 fanaticism which was aimed against the three chiefs  
 of the nation, was fatal only to the cousin of Ma-  
 homet. In the temple of Mecca, three Charegites  
 or enthusiasts discoursed of the disorders of the  
 church and state: They soon agreed, that the deaths  
 of Ali, of Moawiyah, and of his friend Amrou,  
 the viceroy of Egypt, would restore the peace and  
 unity of religion. Each of the assassins chose his  
 victim, poisoned his dagger, devoted his life, and  
 secretly repaired to the scene of action. Their re-  
 solution was equally desperate; but the first mis-  
 took the person of Amrou, and stabbed the deputy  
 who occupied his seat; the prince of Damascus  
 was dangerously hurt by the second; the lawful  
 caliph in the mosch of Cufa, received a mortal  
 wound from the hand of the third. He expired in  
 the sixty-third year of his age, and mercifully re-  
 commended to his children, that they would dis-  
 patch the murderer by a single stroke. The se-

The persecutors of Mahomet usurped the inheritance of his children; and the champions of idolatry became the supreme heads of his religion and empire. The opposition of Abu Sophian had been fierce and obstinate; his conversion was tardy and reluctant; his new faith was fortified by necessity and interest; he served, he fought, perhaps he believed; and the sins of the time of ignorance were expiated by the recent merits of the family of Ommyiah. Moawiyah, the son of Abu Sophian, and of the cruel Henda, was dignified in his early youth with the office or title of secretary of the prophet; the judgment of Omar entrusted him with the government of Syria; and he administered that important province above forty years either in a subordinate or supreme rank. Without renouncing the fame of valour and liberality, he affected the reputation of humanity and moderation; a grateful people was attached to their benefactor; and the victorious Moslems were enriched with the spoils of Cyprus and Rhodes. The sacred duty of pursuing the assassins of Othman was the engine and pretence of

 L. was exposed in the mosch of Damascus; the emir  
 { deplored the fate of his injured kinsman; and  
 sixty thousand Syrians were engaged in his service  
 by an oath of fidelity and revenge. Amrou, the  
 conqueror of Egypt, himself an army, was the  
 first who saluted the new monarch, and divulged  
 the dangerous secret, that the Arabian caliphs  
 might be created elsewhere than in the city of  
 the prophet \*. The policy of Moawiyah eluded  
 the valour of his rival; and, after the death of Ali,  
 he negotiated the abdication of his son Hassan,  
 whose mind was either above or below the go-  
 vernment of the world, and who retired without  
 a sigh from the palace of Cufa to an humble cell  
 near the tomb of his grandfather. The aspiring  
 wishes of the caliph were finally crowned by the  
 important change of an elective to an hereditary  
 kingdom. Some murmurs of freedom or fana-  
 ticism attested the reluctance of the Arabs, and  
 four citizens of Medina refused the oath of fide-  
 lity; but the designs of Moawiyah were conducted  
 with vigour and address; and his son Yezid, a  
 feeble and dissolute youth, was proclaimed as the  
 commander of the faithful and the successor of  
 the apostle of God.

Death of  
 Hosein,  
 A. D. 680.  
 Oct. 10.

A familiar story is related of the benevolence of  
 one of the sons of Ali. In serving at table, a slave  
 had inadvertently dropt a dish of scalding broth on  
 his master; the heedless wretch fell prostrate, to  
 deprecate

\* I borrow, on this occasion, the strong sense and expres-  
 sion of Tacitus: (Hist. i. 4.) *Evulgato imperii arcano posse  
 imperatorem alibi quam Romæ fieri.*

deprecate his punishment, and repeated a verse of the Koran: "Paradise is for those who command their anger;"—"I am not angry:"—"and  
 "for those who pardon offences:"—"I pardon  
 "your offence:"—"and for those who return  
 "good for evil:"—"I give you your liberty,  
 "and four hundred pieces of silver."—With an equal measure of piety, Hosein, the younger brother of Hassan, inherited a remnant of his father's spirit, and served with honour against the Christians in the siege of Constantinople. The primogeniture of the line of Hashem, and the holy character of grandson of the apostle, had centered in his person, and he was at liberty to prosecute his claim against Yezid the tyrant of Damascus, whose vices he despised, and whose title he had never deigned to acknowledge. A list was secretly transmitted from Cufa to Medina, of one hundred and forty thousand Moslems, who professed their attachment to his cause, and who were eager to draw their swords so soon as he should appear on the banks of the Euphrates. Against the advice of his wisest friends, he resolved to trust his person and family in the hands of a perfidious people. He traversed the desert of Arabia with a timorous retinue of women and children; but as he approached the confines of Irak, he was alarmed by the solitary or hostile face of the country, and suspected either the defection or ruin of his party. His fears were just; Obeidollah, the governor of Cufa, had extinguished the first sparks of an insurrection; and Hosein, in the plain of Kerbela, was encompassed by a body of five thousand

C H A P. horse, who intercepted his communication with the  
L. city and the river. He might still have escaped to  
a fortress in the desert, that had defied the power  
of Cæsar and Chosroes, and confided in the fidelity  
of the tribe of Tai, which would have armed ten  
thousand warriors in his defence. In a confer-  
ence with the chief of the enemy, he proposed  
the option of three honourable conditions; that  
he should be allowed to return to Medina, or be  
stationed in a frontier garrison against the Turks,  
or safely conducted to the presence of Yezid.  
But the commands of the caliph, or his lieutenant,  
were stern and absolute; and Hosein was informed  
that he must either submit as a captive and a cri-  
minal to the commander of the faithful, or expect  
the consequences of his rebellion. "Do you  
" think," replied he, "to terrify me with death?"  
And, during the short respite of a night, he pre-  
pared with calm and solemn resignation to en-  
counter his fate. He checked the lamentations  
of his sister Fatima, who deplored the impending  
ruin of his house. "Our trust," said Hosein,  
"is in God alone. All things, both in heaven  
"and earth, must perish and return to their  
"Creator. My brother, my father, my mother,  
"were better than me; and every Mussulman has  
"an example in the prophet." He pressed his  
friends to consult their safety by a timely flight:  
they unanimously refused to desert or survive their  
beloved master; and their courage was fortified by  
a fervent prayer and the assurance of paradise.  
On the morning of the fatal day, he mounted on  
horseback, with his sword in one hand and the  
Koran

Koran in the other ; his generous band of martyrs consisted only of thirty-two horse and forty foot ; but their flanks and rear were secured by the tent-ropes, and by a deep trench which they had filled with lighted faggots, according to the practice of the Arabs. The enemy advanced with reluctance ; and one of their chiefs deserted, with thirty followers, to claim the partnership of inevitable death. In every close onset, or single combat, the despair of the Fatimites was invincible ; but the surrounding multitudes galled them from a distance with a cloud of arrows, and the horses and men were successively slain : a truce was allowed on both sides for the hour of prayer ; and the battle at length expired by the death of the last of the companions of Hosein. Alone, weary and wounded, he seated himself at the door of his tent. As he tasted a drop of water, he was pierced in the mouth with a dart ; and his son and nephew, two beautiful youths, were killed in his arms. He lifted his hands to heaven, they were full of blood, and he uttered a funeral prayer for the living and the dead. In a transport of despair his sister issued from the tent, and adjured the general of the Cufians, that he would not suffer Hosein to be murdered before his eyes : A tear trickled down his venerable beard ; and the boldest of his soldiers fell back on every side as the dying hero threw himself among them. The remorseless Shamer, a name detested by the faithful, reproached their cowardice ; and the grandson of Mahomet was slain with three and thirty strokes of lances and swords. After they had trampled on

C H A P. on his body, they carried his head to the castle  
 L. of Cufa, and the inhuman Obeidollah struck him  
 on the mouth with a cane : “ Alas ! exclaimed an  
 aged Mussulman, “ on these lips have I seen the  
 “ lips of the apostle of God !” In a distant age  
 and climate the tragic scene of the death of Hosein  
 will awaken the sympathy of the coldest reader \*.

 devout pilgrimage to his sepulchre, his Persian  
 votaries abandon their souls to the religious frenzy  
 of sorrow and indignation †.

When the sisters and children of Ali were  
 brought in chains to the throne of Damascus, the  
 caliph was advised to extirpate the enmity of a  
 popular and hostile race, whom he had injured be-  
 yond the hope of reconciliation. But Yezid pre-  
 ferred the counsels of mercy ; and the mourning  
 family was honourably dismissed to mingle their  
 tears with their kindred at Medina. The glory of  
 martyrdom superseded the right of primogeniture ;  
 and the twelve IMAMS ‡, or pontiffs, of the Per-  
 sian creed are Ali, Hassan, Hosein, and the lineal  
 descendants of Hosein to the ninth generation.

† Niebuhr the Dane (Voyages en Arabie, &c. tom. ii. p. 208,

 visit Meshed Ali and Meshed Hosein. The two sepulchres are  
 in the hands of the Turks, who tolerate and tax the devotion of  
 the Persian heretics. The festival of the death of Hosein is  
 amply described by Sir John Chardin, a traveller whom I have  
 often praised.

‡ The general article of *Imam*, in d’Herbelot’s *Bibliothèque*,  
 will indicate the succession ; and the lives of the *twelve* are  
 given under their respective names.

Without arms, or treasures, or subjects, they successively enjoyed the veneration of the people, and provoked the jealousy of the reigning caliphs; their tombs at Mecca or Medina, on the banks of the Euphrates, or in the province of Chorasán, are still visited by the devotion of their sect. Their names were often the pretence of sedition and civil war; but these royal saints despised the pomp of the world, submitted to the will of God and the injustice of man, and devoted their innocent lives to the study and practice of religion. The twelfth and last of the Imams, conspicuous by the title of *Mahadi*, or the Guide, surpassed the solitude and sanctity of his predecessors. He concealed himself in a cavern near Bagdad; the time and place of his death are unknown; and his votaries pretend that he still lives, and will appear before the day of judgment to overthrow the tyranny of Dejal, or the Antichrist \*. In the lapse of two or three centuries the posterity of Abbas, the uncle of Mahomet, had multiplied to the number of thirty-three thousand †; the race of Ali might be equally prolific; the meanest individual was above the first and greatest of princes; and the most eminent were supposed to excel the perfection of angels. But their adverse fortune, and the wide extent of the Mussulman empire, allowed

 plause, but his success has perhaps too strongly at-

 multitude of proselytes should embrace the doc-  
 trine and the passions of an eloquent fanatic? In  
 the heresies of the church, the same seduction has  
 been tried and repeated from the time of the  
 apostles to that of the reformers. Does it seem  
 incredible that a private citizen should grasp the  
 sword and the sceptre, subdue his native country,  
 and erect a monarchy by his victorious arms? In  
 the moving picture of the dynasties of the East,  
 an hundred fortunate usurpers have arisen from a  
 baser origin, surmounted more formidable obsta-  
 cles, and filled a larger scope of empire and con-  
 quest. Mahomet was alike instructed to preach  
 and to fight, and the union of these opposite qua-

\* The present state of the family of Mahomet and Ali is most accurately described by Demetrius Cantemir, (*Hist. of the Othman Empire*, p. 94.) and Niebuhr, (*Description de l'Arabie*, p. 9—16. 317, &c.) It is much to be lamented, that the Danish traveller was unable to purchase the chronicles of Arabia.

C H A P. L. lities, while it enhanced his merit, contributed to his success: The operation of force and persuasion, of enthusiasm and fear, continually acted on each other, till every barrier yielded to their irresistible power. His voice invited the Arabs to freedom and victory, to arms and rapine, to the indulgence of their darling passions in this world and the other; the restraints which he imposed were requisite to establish the credit of the prophet, and to exercise the obedience of the people; and the only objection to his success, was his rational creed of the unity and perfections of God. It is not the propagation but the permanency of his religion that deserves our wonder: The same pure and perfect impression which he engraved at Mecca and Medina, is preserved, after the revolutions of twelve centuries, by the Indian, the African, and the Turkish proselytes of the Koran. If the Christian apostles, St Peter or St Paul, could return to the Vatican, they might possibly inquire the name of the Deity who is worshipped with such mysterious rites in that magnificent temple: At Oxford or Geneva, they would experience less surprise; but it might still be incumbent on them to peruse the catechism of the church, and to study the orthodox commentators on their own writings and the words of their Master. But the Turkish dome of St Sophia, with an increase of splendour and size, represents the humble tabernacle erected at Medina by the hands of Mahomet. The Mahometans have uniformly withstood the temptation of reducing the object of their faith and devotion to a level with the

the senses and imagination of man. “ I believe C H A P.  
“ in one God, and Mahomet the apostle of God,” L.  
is the simple and invariable profession of Islam.   
The intellectual image of the Deity has never  
been degraded by any visible idol: The honours  
of the prophet have never transgressed the mea-  
sure of human virtue; and his living precepts  
have restrained the gratitude of his disciples  
within the bounds of reason and religion. The  
votaries of Ali have indeed consecrated the me-  
mory of their hero, his wife and his children, and  
some of the Persian doctors pretend that the di-  
vine essence was incarnate in the person of the  
Imams; but their superstition is universally con-  
demned by the Sonnites; and their impiety has  
afforded a seasonable warning against the worship  
of saints and martyrs. The metaphysical questions  
on the attributes of God, and the liberty of man,  
have been agitated in the schools of the Mahomet-  
ans, as well as in those of the Christians; but  
among the former they have never engaged the  
passions of the people or disturbed the tranquillity  
of the state. The cause of this important dif-  
ference may be found in the separation or union  
of the regal and sacerdotal characters. It was  
the interest of the caliphs, the successors of the  
prophet and commanders of the faithful, to repress  
and discourage all religious innovations: The order,  
the discipline, the temporal and spiritual ambition  
of the clergy, are unknown to the Moslems; and  
the sages of the law are the guides of their con-  
science and the oracles of their faith. From the  
Atlantic to the Ganges, the Koran is acknow-  
ledged

G H A P. L.  ledged as the fundamental code, not only of theology but of civil and criminal jurisprudence ; and the laws which regulate the actions and the property of mankind, are guarded by the infallible and immutable sanction of the will of God. This religious servitude is attended with some practical disadvantage ; the illiterate legislator had been often misled by his own prejudices and those of his country ; and the institutions of the Arabian desert may be ill adapted to the wealth and numbers of Ispahan and Constantinople. On these occasions, the Cadhi respectfully places on his head the holy volume, and substitutes a dextrous interpretation more apposite to the principles of equity, and the manners and policy of the times.

His merit  
towards  
his country.

His beneficial or pernicious influence on the public happiness is the last consideration in the character of Mahomet. The most bitter or most bigotted of his Christian or Jewish foes, will surely allow that he assumed a false commission to inculcate a salutary doctrine, less perfect only than their own. He piously supposed, as the basis of his religion, the truth and sanctity of *their* prior revelations, the virtues and miracles of their founders. The idols of Arabia were broken before the throne of God ; the blood of human victims was expiated by prayer, and fasting, and alms, the laudable or innocent arts of devotion ; and his rewards and punishments of a future life were painted by the images most congenial to an ignorant and carnal generation. Mahomet was perhaps incapable of dictating a moral and political

litical system for the use of his countrymen ; but he breathed among the faithful a spirit of charity and friendship, recommended the practice of the social virtues, and checked, by his laws and precepts, the thirst of revenge and the oppression of widows and orphans. The hostile tribes were united in faith and obedience, and the valour which had been idly spent in domestic quarrels, was vigorously directed against a foreign enemy. Had the impulse been less powerful, Arabia, free at home, and formidable abroad, might have flourished under a succession of her native monarchs. Her sovereignty was lost by the extent and rapidity of conquest. The colonies of the nation were scattered over the East and West, and their blood was mingled with the blood of their converts and captives. After the reign of three caliphs, the throne was transported from Medina to the valley of Damascus, and the banks of the Tigris ; the holy cities were violated by impious war ; Arabia was ruled by the rod of a subject, perhaps of a stranger ; and the Bedoweens of the desert, awakening from their dream of dominion, resumed their old and solitary independence\*.

\* The writers of the Modern Universal History (vol. i. and ii.) have compiled, in 850 folio pages, the life of Mahomet and the annals of the caliphs. They enjoyed the advantage of reading, and sometimes correcting the Arabic text ; yet, notwithstanding their high-sounding boasts, I cannot find, after the conclusion of my work, that they have afforded me much (if any) additional information. The dull mass is not quickened by a spark of philosophy or taste ; and the compilers indulge the criticism of acrimonious bigotry against Boulainvilliers, Sale, Gagnier, and all who have treated Mahomet with favour, or even justice.

Union of  
the Arabs,  
A.D. 632.

THE revolution of Arabia had not changed the character of the Arabs: The death of Mahomet was the signal of independence; and the hasty structure of his power and religion tottered to its foundations. A small and faithful band of his primitive disciples had listened to his eloquence, and shared his distress; had fled with the apostle from the persecution of Mecca, or had received the fugitive in the walls of Medina. The increasing myriads, who acknowledged Mahomet as their king and prophet, had been compelled by his arms, or allured by his prosperity. The polytheists were confounded by the simple idea of a solitary and invisible God: The pride of the Christians and Jews disdained the yoke of a mortal and contemporary legislator. Their habits of faith and obedience were not sufficiently confirmed; and many of the new converts regretted the venerable antiquity of the law of Moses, or the rites and mysteries of the Catholic church, or the idols, the sacrifices, the joyous festivals, of  
their

their pagan ancestors. The jarring interests and hereditary feuds of the Arabian tribes had not yet coalesced in a system of union and subordination; and the Barbarians were impatient of the mildest and most salutary laws that curbed their passions, or violated their customs. They submitted with reluctance to the religious precepts of the Koran, the abstinence from wine, the fast of the Ramadan, and the daily repetition of five prayers; and the alms and tithes, which were collected for the treasury of Medina, could be distinguished only by a name from the payment of a perpetual and ignominious tribute. The example of Mahomet had excited a spirit of fanaticism or imposture, and several of his rivals presumed to imitate the conduct and defy the authority of the living prophet. At the head of the *fugitives* and *auxiliaries*, the first caliph was reduced to the cities of Mecca, Medina, and Tayef; and perhaps the Koreish would have restored the idols of the Caaba, if their levity had not been checked by a seasonable reproof. “Ye men of Mecca, will ye be the last to embrace, and the first to abandon the religion of Islam?” After exhorting the Moslems to confide in the aid of God and his apostle, Abubeker resolved, by a vigorous attack, to prevent the junction of the rebels. The women and children were safely lodged in the cavities of the mountains: The warriors, marching under eleven banners, diffused the terror of their arms; and the appearance of a military force revived and confirmed the loyalty of the faithful. The inconstant tribes accepted, with

 a city not inferior to Medina itself, a powerful  
 chief, his name was Moseilama, had assumed the  
 character of a prophet, and the tribe of Hanifa  
 listened to his voice. A female prophetess was  
 attracted by his reputation: The decencies of  
 words and actions were spurned by these favourites

 mystic and amorous converse. An obscure sen-

† Their first salutation may be transcribed, but cannot be translated. It was thus that Moseilama said or sung:

in the pride of his mission, Moseilama condescended to offer a partition of the earth. The proposal was answered by Mahomet with contempt; but the rapid progress of the impostor awakened the fears of his successor: Forty thousand Moslems were assembled under the standard of Caled; and the existence of their faith was resigned to the event of a decisive battle. In the first action, they were repulsed with the loss of twelve hundred men; but the skill and perseverance of their general prevailed: Their defeat was avenged by the slaughter of ten thousand infidels; and Moseilama himself was pierced by an Ethiopian slave with the same javelin which had mortally wounded the uncle of Mahomet. The various rebels of Arabia, without a chief or a cause, were speedily suppressed by the power and discipline of the rising monarchy; and the whole nation again professed, and more stedfastly held, the religion of the Koran. The ambition of the caliphs provided an immediate exercise for the restless spirit of the Saracens: Their valour was united in the prosecution of an holy war; and their enthusiasm was equally confirmed by opposition and victory.

From the rapid conquests of the Saracens, a presumption will naturally arise, that the first caliphs commanded in person the armies of the faithful, and sought the crown of martyrdom in the foremost ranks of the battle. The courage of Abubeker\*,

C H A P. Omar \*, and Othman †, had indeed been tried  
 LI. in the persecution and wars of the prophet ; and  
 { the personal assurance of paradise must have  
 taught them to despise the pleasures and dangers  
 of the present world. But they ascended the  
 throne in a venerable or mature age, and esteem-  
 ed the domestic cares of religion and justice the  
 most important duties of a sovereign. Except  
 the presence of Omar at the siege of Jerusalem,  
 the longest expeditions were the frequent pilgrim-  
 age from Medina to Mecca ; and they calmly re-  
 ceived the tidings of victory as they prayed or  
 preached before the sepulchre of the prophet.  
 The austere and frugal measure of their lives was  
 the effect of virtue or habit, and the pride of their  
 simplicity insulted the vain magnificence of the  
 kings of the earth. When Abubeker assumed the  
 office of caliph, he enjoined his daughter Ayesha  
 to take a strict account of his private patrimony,  
 that it might be evident whether he were enrich-  
 ed or impoverished by the service of the state. He  
 thought himself entitled to a stipend of three pieces  
 of gold, with the sufficient maintenance of a single  
 camel and a black slave ; but on the Friday of each  
 week, he distributed the residue of his own and the  
 public money, first to the most worthy, and then  
 to the most indigent, of the Moslems. The remains  
 of his wealth, a coarse garment, and five pieces of  
 gold,

gold, were delivered to his successor, who lamented with a modest sigh his own inability to equal such an admirable model. Yet the abstinence and humility of Omar were not inferior to the virtues of Abubekér; his food consisted of barley-bread or dates; his drink was water; he preached in a gown that was torn or tattered in twelve places; and a Persian satrap who paid his homage to the conqueror, found him asleep among the beggars on the steps of the mosch of Medina. Oeconomy is the source of liberality, and the increase of the revenue enabled Omar to establish a just and perpetual reward for the past and present services of the faithful. Careless of his own emolument, he assigned to Abbas, the uncle of the prophet, the first and most ample allowance of twenty-five thousand drams or pieces of silver. Five thousand were allotted to each of the aged warriors, the relics of the field of Beder, and the last and meanest of the companions of Mahomet was distinguished by the annual reward of three thousand pieces. One thousand was the stipend of the veterans who had fought in the first battles against the Greeks and Persians, and the decreasing pay, as low as fifty pieces of silver, was adapted to the respective merit and seniority of the soldiers of Omar. Under his reign, and that of his predecessor, the conquerors of the East were the trusty servants of God and the people; the mass of the public treasure was consecrated to the expences of peace and war; a prudent mixture of justice and bounty, maintained the discipline of

C H A P. the Saracens, and they united, by a rare felicity,  
 LI. the dispatch and execution of despotism, with the  
 equal and frugal maxims of a republican govern-  
 ment. The heroic courage of Ali \*, the consummate prudence of Moawiyah †, excited the emulation of their subjects ; and the talents which had been exercised in the school of civil discord, were more usefully applied to propagate the faith and dominion of the prophet. In the sloth and vanity of the palace of Damascus, the succeeding princes of the house of Ommyiah were alike destitute of the qualifications of statesmen and of saints ‡. Yet the spoils of unknown nations were continually laid at the foot of their throne, and the uniform ascent of the Arabian greatness must be ascribed to the spirit of the nation rather than the abilities of their chiefs. A large deduction must be allowed for the weakness of their enemies. The birth of Mahomet was fortunately placed in the most degenerate and disorderly period of the Persians, the Romans, and the Barbarians of Europe : The empires of Trajan, or even of Constantine or Charlemagne, would have repelled the assault of the naked Saracens, and the torrent of fanaticism might have been obscurely lost in the sands of Arabia.

In the victorious days of the Roman republic, it had been the aim of the senate to confine their consuls and legions to a single war, and completely to suppress a first enemy before they provoked the hostilities of a second. These timid maxims of policy were disdained by the magnanimity or enthusiasm of the Arabian caliphs. With the same vigour and success they invaded the successors of Augustus, and those of Artaxerxes; and the rival monarchies at the same instant became the prey of an enemy whom they had been so long accustomed to despise. In the ten years of the administration of Omar, the Saracens reduced to his obedience thirty-six thousand cities or castles, destroyed four thousand churches or temples of the unbelievers, and edified fourteen hundred moschs for the exercise of the religion of Mahomet. One hundred years after his flight from Mecca, the arms and the reign of his successors extended from India to the Atlantic Ocean, over the various and distant provinces, which may be comprised under the names of, I. Persia; II. Syria; III. Egypt; IV. Africa; and, V. Spain. Under this general division, I shall proceed to unfold these memorable transactions; dispatching, with brevity, the remote and less interesting conquests of the East, and reserving a fuller narrative for those domestic countries, which had been included within the pale of the Roman Empire. Yet I must excuse my own defects, by a just complaint of the blindness and insufficiency of my guides. The Greeks, so loquacious in controversy, have not been anxious to

Paris, 1648, in folio,) who both lived in the beginning of the ninth century; (see Hanc-  
 kius de Scriptor. Byzant. p. 200—246.) Their contemporary Photius does not seem to be more opulent. After praising the style of Nicephorus, he adds, *Και ἔλας πολλὰς ἐν τῷ προ αὐτοῦ ἀπεκρυπτομένης τὰς ἱστορίας, τῇ συνληφῇ*, and only complains of his extreme brevity; (Phot. Bibliot. cod. lxvi. p. 100.) Some additions may be gleaned from the more recent histories of Cedrenus and Zonaras of the twelfth century.

† Tabari, or Al Tabari, a native of Taborestan, a famous Imam of Bagdad, and the *Livy of the Arabians*, finished his general history in the year of the Hegira 302, (A. D. 914.) At the request of his friends, he reduced a work of 30,000 sheets to a more reasonable size. But his Arabic original is known only by the Persian and Turkish versions. The Saracenic history of Ebn Amid, or Elmacin, is said to be an abridgment of the great Tabari; (Ockley's *Hist. of the Saracens*, vol. ii. preface, p. xxxix. and, list of authors, d'Herbelot, p. 866. 870. 1014.)

‡ Besides the lists of authors framed by Prideaux, (*Life of Mahomet*, p. 179—189.) Ockley, (at the end of his second volume,) and Petit de la Croix, (*Hist. de Gengiscan*, p. 525—550.) we find in the *Bibliothèque Orientale Tarikh*, a catalogue of two or three hundred histories or chronicles of the East, of which not more than three or four are older than Tabari. A lively sketch of Oriental literature is given by Reiske, (in his *Prodidagmata ad Hagji Chalifæ librum memorialem ad calcem Abulfedæ Tabulæ Syriæ*, Lipsiæ, 1766;) but his project and the French version of Petit de la Croix (*Hist. de Timur Bec* tom. i. preface, p. xlv.) have fallen to the ground.

The art and genius of history C H A P. have ever been unknown to the Asiatics †; they are LI. ignorant of the laws of criticism; and our monkish chronicles of the same period may be compared to their most popular works, which are never vivified by the spirit of philosophy and freedom. The *Oriental library* of a Frenchman ‡ would instruct the most learned mufti of the East; and perhaps the Arabs might not find in a single historian, so clear and comprehensive a narrative of their own exploits,

\* The particular historians and geographers will be occasionally introduced. The four following titles represent the annals, which have guided me in this general narrative, 1. *Annales Eutychii, Patriarchæ Alexandrini. ab Edwardo Pocockio, Oxon. 1656, 2 vols. in 4to.* A pompous edition of an indifferent author, translated by Pocock to gratify the Presbyterian prejudice of his friend Selden. 2. *Historia Saracenica Georgii Elmacini, opera et studio Thome Erpini, in 4to. Lugd. Batavorum, 1625.* He is said to have hastily translated a corrupt MS. and his version is often deficient in stile and sense. 3. *Historia compendiosa Dynastiæ a Gregorio Abulpharagio, interprete Edwardo Pocockio, in 4to. Oxon, 1663.* More useful for the literary than the civil history of the East. 4. *Abulfeda Annales Moslemici ad Ann. Hegiræ cccvi. a Jo. Jac. Reiske, in 4to. Lipsiæ, 1754.* The best of our Chronicles, both for the original version, yet how far below the name of Abulfeda. We know that he wrote at Hamah, in the xivth century. The three former were Christians of the xth, xiith, and xiiith centuries; the two first, natives of Egypt; a Melchite, patriarch, and a Jacobite scribe.

† M. du Guignes (*Hist. des Huns, tom. i. pref. p. xix. xx.*) has characterised, with truth and knowledge, the two sorts of Arabian historians, the dry annalist, and the tumid and flowery orator.

‡ *Bibliothèque Orientale, par M. d'Herbelot, in folio, Paris, 1697.* For the character of the respectable author, consult his friend Thevenot; (*Voyages du Levant, part. i. chap. 1.*) His work is an agreeable miscellany, which must gratify every taste; but I never can digest the alphabetical order, and I find him more satisfactory in the Persian than the Arabic history. The recent supplement from the papers of M. M. Visselou and Galland (*in folio, La Haye, 1779.*) is of a different cast, a medley of tales, proverbs, and Chinese antiquities.

 Invasion  
 of Persia,  
 A. D. 632.

I. In the first year of the first caliph, his lieutenant Caled, the sword of God, and the scourge of the infidels, advanced to the banks of the Euphrates, and reduced the cities of Anbar, and Hira. Westward of the ruins of Babylon, a tribe of sedentary Arabs had fixed themselves on the verge of the desert; and Hira was the seat of a race of kings who had embraced the Christian religion, and reigned above six hundred years under the shadow of the throne of Persia \*. The last of the Monarchs was defeated and slain by Caled; his son was sent a captive to Medina; his nobles bowed before the successor of the prophet: The people was tempted by the example and success of their countrymen: And the caliph accepted as the first fruits of foreign conquest, an annual tribute of seventy thousand pieces of gold. The conquerors, and even their historians, were astonished by the dawn of their future greatness: “ In the same year,” says “ Elmacin, Caled fought many signal battles; an “ immense multitude of infidels was slaughtered; “ and spoils, infinite and innumerable, were acquired by the victorious Moslems †.” But the

The English scholar understood more Arabic than the Mufti of Aleppo; (Ockley, vol. ii. p. 34.) the French geographer is equally at home in every age and every climate of the world.

invincible Caled was soon transferred to the Syrian war: The invasion of the Persian frontier was conducted by less active, or less prudent, commanders: The Saracens were repulsed with loss in the passage of the Euphrates; and, though they chastised the insolent pursuit of the Magians, their remaining forces still hovered in the desert of Babylon.

The indignation and fears of the Persians suspended for a moment their intestine divisions. By the unanimous sentence of the priests and nobles, their queen Arzema was deposed; the sixth of the transient usurpers, who had arisen and vanished in three or four years, since the death of Chosroes and the retreat of Heraclius. Her tiara was placed on the head of Yezdegerd, the grandson of Chosroes; and the same æra, which coincides with an astronomical period \*, has recorded the fall of the Sassanian dynasty and the religion of Zoroaster†. The youth

In a great revolution of 1440 years, this intercalation was successively removed from the first to the twelfth month; but Hyde and Freret are involved in a profound controversy, whether the twelve, or only eight of these changes were accomplished before the æra of Yezdegerd, which is unanimously fixed to the 16th of June, A. D. 632. How laboriously does the curious spirit of Europe explore the darkest and most distant antiquities! (Hyde, de Religione Persarum, c. 14—18. p. 181—211. Freret in the Mem. de l'Academie des Inscriptions, tom. xvi. p. 233—267.)

† Nine days after the death of Mahomet, (7th June A. D. 632,) we find the æra of Yezdegerd (16th June A. D. 632.) and his accession cannot be postponed beyond the end of the first year. His predecessors could not therefore resist the arms of the caliph Omar, and these unquestionable dates overthrow the thoughtless chronology of Abulpharagius. See Ockley's Hist. of the Saracens, vol. i. p. 130.

C H A P. youth and inexperience of the prince, he was only

 { the royal standard was delivered into the hands of  
 his general Rustam; and a remnant of thirty thousand regular troops was swelled in truth, or in opinion, to one hundred and twenty thousand subjects, or allies, of the great king. The Moslems, whose numbers were reinforced from twelve to thirty thousand, had pitched their camp in the plains of Cadesia\*; and their line, though it consisted of fewer *men*, could produce more *soldiers* than the unwieldy host of the infidels. I shall here observe what I must often repeat, that the charge of the Arabs was not like that of the Greeks and Romans, the effort of a firm and compact infantry: Their military force was chiefly formed of cavalry and archers; and the engagement, which was often interrupted and often renewed by single combats and flying skirmishes, might be protracted without any decisive event to the continuance of several days. The periods of the battle of Cadesia were distinguished by their peculiar appellations. The first, from the well-timed appearance of six thousand of the Syrian brethren, was denominated the day of *succour*. The day of *concussion* might express the disorder of one, or perhaps of both, of the contending armies. The third, a nocturnal tumult, received the whimsical name of the night of *barking*, from the discordant clamours, which were compared

pared to the inarticulate sounds of the fiercest animals. The morning of the succeeding day determined the fate of Persia ; and a seasonable whirlwind drove a cloud of dust against the faces of the unbelievers. The clangor of arms was re-echoed to the tent of Rustam, who, far unlike the ancient hero of his name, was gently reclining in a cool and tranquil shade, amidst the baggage of his camp, and the train of mules that were laden with gold and silver. On the sound of danger he started from his couch ; but his flight was overtaken by a valiant Arab, who caught him by the foot, struck off his head, hoisted it on a lance, and instantly returning to the field of battle, carried slaughter and dismay among the thickest ranks of the Persians. The Saracens confess a loss of seven thousand five hundred men ; and the battle of Gadesia is justly described by the epithets of obstinate and atrocious \*. The standard of the monarchy was overthrown and captured in the field—a leathern apron of a blacksmith, who, in ancient times, had arisen the deliverer of Persia ; but this badge of heroic poverty was disguised, and almost concealed by a profusion of precious gems †. After this victory, the wealthy province of Irak or Assyria submitted to the caliph, and his conquests were firmly established by the speedy foundation of Bassora ‡, a place

At the distance of fourscore miles from the Gulf, the Euphrates and Tigris unite in a broad and direct current, which is aptly stiled the river of the Arabs. In the mid-way, between the junction and the mouth of these famous streams, the new settlement was planted on the western bank; the first colony was composed of eight hundred Moslems; but the influence of the situation soon reared a flourishing and populous capital. The air, though excessively hot, is pure and healthy; the meadows are filled with palm-trees and cattle; and one of the adjacent vallies has been celebrated among the four paradises or gardens of Asia. Under the first caliphs, the jurisdiction of this Arabian colony extended over the southern provinces of Persia; the city has been sanctified by the tombs of the companions and martyrs; and the vessels of Europe still frequent the port of Bassora, as a convenient station and passage of the Indian trade.

After the defeat of Cadesia, a country intersected by rivers and canals might have opposed an insuperable barrier to the victorious cavalry; and the walls of Ctesiphon or Madayn, which had resisted the battering rams of the Romans, would not have yielded to the darts of the Saracens. the strongest posts were abandoned by treachery or cowardice; and the king, with a part of his family and treasures, escaped to Holwan at the foot of the Median hills. In the third month after the battle, Said, the lieutenant of Omar, passed the Tigris without opposition; the capital was taken by assault; and the disorderly resistance of the people gave a keener edge to the sabres of the Moslems, who shouted with religious transport, "This is the white palace of Chosroes, this is the promise of the apostle of God!" The naked robbers of the desert were suddenly enriched beyond the measure of their hope or knowledge. Each chamber revealed a new treasure secreted with art, or ostentatiously displayed; the gold and silver, the various wardrobes and precious furniture, surpassed (says Abulfeda) the estimate of fancy or numbers; and another historian defines the untold and almost infinite mass, by the fabulous computation of three thousands of thousands of thousands of pieces of gold\*. Some minute though curious facts represent the contrast of riches and ignorance. From the remote islands of the Indian Ocean, a large provision of camphire† had been imported, which

† The camphire tree grows in China and Japan; but many hundred weight of those meaner sorts are exchanged for a single pound of the more precious gum of Borneo and Sumatra, (Raynal, *Hist. These may be the islands of the first climate from whence the Arabians imported their camphire, (*Geograph. Nub.* p. 34, 35. *d'Herbelot*, p. 232.)

CHAPTER II. is employed with a mixture of wax to illuminate the palaces of the East. Strangers to the name and properties of that odoriferous gum, the Saracens mistaking it for salt, mingled the camphire in their bread, and were astonished at the bitterness of the taste. One of the apartments of the palace was decorated with a carpet of silk, sixty cubits in length, and as many in breadth; a paradise or garden was depicted on the ground; the flowers, fruits, and shrubs, were imitated by the figures of the gold embroidery, and the colours of the precious stones; and the ample square was encircled by a variegated and verdant border. The Arabian general persuaded his soldiers to relinquish their claim, in the reasonable hope that the eyes of the caliph would be delighted with the splendid workmanship of nature and industry. Regardless of the merit of art and the pomp of royalty, the rigid Omar divided the prize among his brethren of Medina; the picture was destroyed; but such was the intrinsic value of the materials, that the share of Ali alone was sold for twenty thousand drams. A mule that carried away the tiara and cuirass, the belt and bracelets of Chosroes, was overtaken by the pursuers; the gorgeous trophy was presented to the commander of the faithful, and the gravest of the companions condescended to smile when they beheld the white beard, hairy arms, and uncouth figure of the veteran, who was invested with the spoils of the great king\*. The sack of Ctesiphon was followed by its desertion and gradual

dual decay. The Saracens disliked the air and situation of the place; and Omar was advised by his general to remove the seat of government to the western side of the Euphrates. In every age, the foundation and ruin of the Assyrian cities has been easy and rapid; the country is destitute of stone and timber, and the most solid structures \* are composed of bricks baked in the sun, and joined by a cement of the native bitumen. The name of *Cufa* † describes an habitation of reeds and earth; but the importance of the new capital was supported by the numbers, wealth, and spirit, of a colony of veterans; and their licentiousness was indulged by the wisest caliphs, who were apprehensive of provoking the revolt of an hundred thousand swords: "Ye men of Cufa," said Ali, who solicited their aid, "you have been always conspicuous by your valour. You conquered the Persian king, and scattered his forces, till you had taken possession of his inheritance." This mighty conquest was atchieved by the battles of Jalula and Nehavend. After the loss of the former, Yezdegerd fled from Holwan, and concealed his shame and despair in the mountains of Farsistan, from whence Cyrus had descended with his equal and valiant companions. Conquest  
 of Persia,  
 A. D.  
 637—651.

The geography of Persia is darkly delineated  
 by the Greeks and Latins ; but the most illustrious  
 of her cities appear to be more ancient than the  
 invasion of the Arabs. By the reduction of Ha-  
 madan and Ispahan, of Caswin, Tauris, and Rei,  
 they gradually approached the shores of the Cas-  
 pian Sea ; and the orators of Mecca might applaud  
 the success and spirit of the faithful, who had  
 already lost sight of the northern bear, and had  
 almost transcended the bounds of the habitable  
 world †. Again turning towards the West and the  
 Roman empire, they repassed the Tigris over the  
 bridge of Mosul, and, in the captive provinces of

Armenia and Mesopotamia, embraced their victorious brethren of the Syrian army. From the palace of Madayn their Eastern progress was not less rapid or extensive. They advanced along the Tigris and the Gulf; penetrated through the passes of the mountains into the valley of Estachar or Persepolis; and profaned the last sanctuary of the Magian empire. The grandson of Chosroes was nearly surprised among the falling columns and mutilated figures; a sad emblem of the past and present fortune of Persia\*: He fled with accelerated haste over the desert of Kirman, implored the aid of the warlike Segestans, and sought an humble refuge on the verge of the Turkish and Chinese power. But a victorious army is insensible of fatigue; the Arabs divided their forces in the pursuit of a timorous enemy; and the caliph Othman promised the government of Chorasán to the first general who should enter that large and populous country, the kingdom of the ancient Bactrians. The condition was accepted; the prize was deserved; the standard of Mahomet was planted on the walls of Herat, Merou, and Balch; and the successful leader neither halted nor reposed till his foaming cavalry had tasted the waters of the Oxus. In the public anarchy, the independent governors of the cities and castles obtained their separate capitulations; the terms were granted or imposed by the esteem, the

After a noble defence, Harmozan, the prince or satrap of Ahwaz and Sufa, was compelled to surrender his person and his state to the discretion of the caliph ; and their interview exhibits a portrait of the Arabian manners. In the presence, and by the command of Omar, the gay Barbarian was despoiled of his silken robes, embroidered with gold, and of his tiara, bedecked with rubies and emeralds. “ Are you now sensible,” said the conqueror to his naked captive ; “ are you now sensible of the judgment of God, and of the different rewards of infidelity and obedience ? ” “ Alas ! ” replied Harmozan, “ I feel them too deeply. In the days of our common ignorance, we fought with the weapons of the flesh, and my nation was superior. God was then neuter : Since he has espoused your quarrel, you have subverted our kingdom and religion.” Oppressed by this painful dialogue, the Persian complained of intolerable thirst, but discovered some apprehensions lest he should be killed whilst he was drinking a cup of water. “ Be of good courage,” said the caliph, “ your life is safe till you have drank this water.” The crafty satrap accepted the assurance, and instantly dashed the vase against the ground. Omar would have avenged the deceit ; but his companions represented the sanctity of an oath ; and the speedy conversion of Harmozan entitled him not only to a free pardon, but even to a stipend of two thousand pieces of gold. The flight of Yezdegerd had carried him beyond the Oxus, and as far as the Jaxartes, two rivers ‡ of ancient and modern renown, which descend from the mountains of India towards the Caspian Sea. He was hospitably entertained by Tarkhan, prince of Fargana §, a fertile province on the Jaxartes; the king of Samarcand, with the Turkish tribes of Sogdiana and Scythia, were moved by the lamentations and promises of the fallen monarch; and he solicited, by a suppliant embassy, the more solid and powerful friendship of the emperor of China ||. His last garrisons of Cashgar and Khoten maintained a frequent intercourse with their neighbours of the Jaxartes and Oxus; a recent colony of Persians had introduced into China the astronomy of the Magi; and Tait song might be alarmed by the rapid progress and dangerous vicinity of the Arabs. The influence, and perhaps the supplies, of China, revived the hopes of Yezdegerd and the zeal of the worshippers of fire; and he returned with an army of Turks to conquer the inheritance of his fathers. The fortunate Moslems, without unsheathing their swords, were the spectators of his ruin and death. The grandson of Chosroes was betrayed by his servant, insulted by the seditious inhabitants of Merou, and oppressed, defeated, and pursued, by his Barbarian allies. In this moment of hesitation and delay, the last of the Sassanian kings was overtaken and slaughtered by the Turkish cavalry, in the nineteenth year of his unhappy reign\*. His son Firuz, an humble client of the Chinese emperor, accepted the station of captain of his guards; and the Magian worship was long preserved by a colony of loyal exiles in the province of Bucharía. His grandson inherited the regal name; but after a faint and fruitless enterprise, he returned to China, and ended his days in the palace of Sigan. The male line of the Sassanides was extinct; but the female captives, the daughters of Persia, were given to the conquerors in servitude, or marriage; and the race of the caliphs and imams was ennobled by the blood of their royal mothers †.

After the fall of the Persian kingdom, the river Oxus divided the territories of the Saracens and of the Turks. This narrow boundary was soon overleaped by the spirit of the Arabs; the governors of Chorasan extended their successive inroads; and one of their triumphs was adorned with the buskin of a Turkish queen, which she dropped in her precipitate

The conquest of Transoxiana, A. D. 710.

\* I have endeavoured to harmonize the various narratives of Elmacin, (*Hist. Saracen.* p. 37.) Abulpharagius, (*Dynast.* p. 116.) Abulfeda, (*Annal.* p. 74. 79.) and d'Herbelot, (p. 485.) The end of Yezdegerd was not only unfortunate but obscure.

† The two daughters of Yezdegerd married Hassan, the son of Ali, and Mohammed, the son of Abubeker; and the first of these was the father of a numerous progeny. The daughter of Phirouz became the wife of the caliph Walid, and their son Yezid derived his genuine or fabulous descent from the Chosroes of Persia, the Cæsars of Rome, and the Chagans of the Turks or Avars, (d'Herbelot, *Bibliot. Orientale*, p. 96. 487.)

 LI. the final conquest of Transoxiana †, as well as of  
 Spain, was reserved for the glorious reign of the  
 inactive Walid ; and the name of Catibah, the  
 camel-driver, declares the origin and merit of his  
 successful lieutenant. While one of his colleagues  
 displayed the first Mahometan banner on the banks  
 of the Indus, the spacious regions between the  
 Oxus, the Jaxartes, and the Caspian Sea, were  
 reduced by the arms of Catibah to the obedience  
 of the prophet and of the caliph ‡. A tribute of  
 two millions of pieces of gold was imposed on the  
 infidels ; their idols were burnt or broken ; the  
 Mussulman chief pronounced a sermon in the new  
 mosch of Carizme ; after several battles, the  
 Turkish hords were driven back to the desert ;  
 and the emperors of China solicited the friendship  
 of the victorious Arabs. To their industry, the  
 prosperity of the province, the Sogdiana of the  
 ancients, may in a great measure be ascribed ;  
 but

\* It was valued at 2000 pieces of gold, and was the prize of Obeidollah the son of Ziyad, a name afterwards infamous by the murder of Hosein, (Ockley's *History of the Saracens*, vol. ii. p. 142, 143.) His brother Salem was accompanied by his wife, the first Arabian woman (A. D. 680.) who passed the Oxus ; she borrowed, or rather stole, the crown and jewels of the princess of the Sogdians, (p. 231, 232.)

† A part of Abulfeda's *Geography* is translated by Greaves, inserted in Hudson's collection of the minor Geographers, (tom. iii.) and entitled, *Descriptio Chorasmiae et Mawaralnabre*, id est, regionum extra fluvium, Oxum, p. 80. The name of *Trans-oxiana*, softer in sound, equivalent in sense, is aptly used by Petit de la Croix, (*Hist. de Gengiscan*, &c.) and some modern Orientalists, but they are mistaken in ascribing it to the writers of antiquity.

‡ The conquests of Catibah are faintly marked by Elmacin, (*Hist. Saracen.* p. 84.) d'Herbelot, (*Bibliot. Orient. Catibah, Samarcand Valid*,) and de Guignes, (*Hist. des Huns*, tom. i. p. 58, 59.)

but the advantages of the soil and climate had been understood and cultivated since the reign of the Macedonian kings. Before the invasion of the Saracens, Carizme, Bocara, and Samarcand, were rich and populous under the yoke of the shepherds of the north. These cities were surrounded with a double wall; and the exterior fortification, of a larger circumference, inclosed the fields and gardens of the adjacent district. The mutual wants of India and Europe were supplied by the diligence of the Sogdian merchants; and the inestimable art of transforming linen into paper has been diffused from the manufacture of Samarcand over the western world \*.

II. No sooner had Abubeker restored the unity of faith and government, than he dispatched a circular letter to the Arabian tribes. “ In the name of the most merciful God, to the rest of the true believers. Health and happiness, and the mercy and blessing of God be upon you. I praise the most high God, and I pray for his prophet Mahomet. This is to acquaint you, that I intend to send the true believers into Syria †

The librarian Casiri (tom. ii. 9.) relates, from credible testimony, that paper was first imported from China to Samarcand, A. H. 30, and invented, or rather introduced, at Mecca, A. H. 88. The Escorial library contains paper MSS, as old as the fourth or fifth century of the Hegira.

† A separate history of the conquest of Syria has been composed by Al Wakidi, cadi of Bagdad, who was born A. D. 748, and died A. D. 822; he likewise wrote the conquest of Egypt, of Diarbekir, &c. LI. “ I would have you know, that the fighting for

“ religion is an act of obedience to God.” His messengers returned with the tidings of pious and martial ardour, which they had kindled in every province; and the camp of Medina was successively filled with the intrepid bands of the Saracens, who panted for action, complained of the heat of the season, and the scarcity of provisions; and accused, with impatient murmurs, the delays of the caliph. As soon as their numbers were complete, Abubeker ascended the hill, reviewed the men, the horses, and the arms, and poured forth a fervent prayer for the success of their undertaking. In person and on foot, he accompanied the first day’s march; and when the blushing leaders attempted to dismount, the caliph removed their scruples by a declaration, that those who rode, and those who walked, in the service of religion, were equally meritorious. His instructions \* to the chiefs of the Syrian army were inspired by the warlike fanaticism which advances to seize, and affects to despise, the objects of earthly ambition. “ Remember,”

Till something better shall be found, his learned and spirited interpreter (Ockley, in his *History of the Saracens*, vol. i. p. 21—342.) will not deserve the petulant animadversion of Reiske; (*Prodidagmata ad Hagji Chalifæ Tabulas*, p. 236.) I am sorry to think that the labours of Ockley were consummated in a jail; (see his two prefaces to the first vol. A. D. 1708, to the second, 1718, with the list of authors at the end.)

\* The instructions, &c. of the Syrian war, are described by Al Wakidi and Ockley, tom. ii. p. 22—27, &c. In the sequel it is necessary to contract, and needless to quote, their circumstantial narrative. My obligations to others shall be noticed.

 “ Satan, who have shaven crowns † ; be sure you  
 “ cleave their skulls, and give them no quarter,

\* Notwithstanding this precept, M. Pauw (*Recherches sur les Egyptiens*, tom. ii. p. 192. edit. Lausanne) represents the Bedouens as the implacable enemies of the Christian monks. For my own part, I am more inclined to suspect the avarice of the Arabian robbers, and the prejudices of the German philosopher.

† Even in the seventh century, the monks were generally laymen ; they wore their hair long and dishevelled, and shaved their heads when they were ordained priests. The circular tonsure was sacred and mysterious ; it was the crown of thorns ; but it was likewise a royal diadem, and every priest was a king, &c. (Thomassin, *Discipline de l'Eglise*, tom. i. p. 721—758. especially p. 737, 738.)

C H A P. "bute." All profane or frivolous conversation ;  
 LL. all dangerous recollection of ancient quarrels, was  
 { severely prohibited among the Arabs ; in the tu-  
 mult of a camp, the exercises of religion were as-  
 siduously practised ; and the intervals of action  
 were employed in prayer, meditation, and the study  
 of the Koran. The abuse, or even the use of wine,  
 was chastised by fourscore strokes on the soles of  
 the feet ; and in the fervour of their primitive zeal,  
 many secret sinners revealed their fault, and soli-  
 cited their punishment. After some hesitation, the  
 command of the Syrian army was delegated to  
 Abu Obeidah, one of the fugitives of Mecca, and  
 companions of Mahomet ; whose zeal and devo-  
 tion were assuaged, without being abated, by the  
 singular mildness and benevolence of his temper.  
 But in all the emergencies of war, the soldiers de-  
 manded the superior genius of Caled ; and who-  
 ever might be the choice of the prince, the *sword*  
*of God* was both in fact and fame the foremost  
 leader of the Saracens. He obeyed without reluc-  
 tance ; he was consulted without jealousy ; and such  
 was the spirit of the man, or rather of the times,  
 that Caled professed his readiness to serve under  
 the banner of the faith, though it were in the  
 hands of a child or an enemy. Glory, and riches,  
 and dominion, were indeed promised to the vic-  
 torious Mussulman ; but he was carefully instruct-  
 ed, that if the goods of this life were his only in-  
 citement, *they* likewise would be his only reward.

Siege of  
 Bosra.

One of the fifteen provinces of Syria, the cul-  
 tivated lands to the eastward of the Jordan, had  
 been

been decorated by Roman vanity with the name of *Arabia* \*; and the first arms of the Saracens were justified by the semblance of a national right. The country was enriched by the various benefits of trade; by the vigilance of the emperors it was covered with a line of forts; and the populous cities of Gerafa, Philadelphia, and Bosra †, were secure, at least from a surprise, by the solid structure of their walls. The last of these cities was the eighteenth station of Medina; the road was familiar to the caravans of Hejaz and Irak, who annually visited this plenteous market of the province and the desert; the perpetual jealousy of the Arabs had trained the inhabitants to arms; and twelve thousand horse could sally from the gates of Bosra, an appellation which signifies, in the Syriac language, a strong tower of defence. Encouraged by their first success against the open towns and flying parties of the borders, a detachment of four thousand Moslems presumed to summon and attack the fortress of Bosra. They were oppressed by the numbers of the Syrians; they were saved by the presence of Caled, with fifteen hundred horse; he blamed the enterprise, restored the battle, and rescued

Confident in their strength, the people of Bosra threw open their gates, drew their forces into the plain, and swore to die in the defence of their religion. But a religion of peace was incapable of withstanding the fanatic cry of—"Fight, fight! Paradise, paradise!" that re-echoed in the ranks of the Saracens; and the uproar of the town, the ringing of bells†, and the exclamations of the priests and monks, increased the dismay and disorder of the Christians. With the loss of two hundred and thirty men, the Arabs remained masters of the field; and the ramparts of Bosra, in expectation of human or divine aid, were crowded with holy crosses and consecrated banners. The governor Romanus had recommended an early submission; despised by the people, and degraded from his office, he still retained the desire and opportunity of

In a nocturnal interview, he informed the enemy of a subterraneous passage from his house under the wall of the city; the son of the caliph, with an hundred volunteers, were committed to the faith of this new ally, and their successful intrepidity gave an easy entrance to their companions. After Caled had imposed the terms of servitude and tribute, the apostate or convert avowed in the assembly of the people his meritorious treason. "I renounce your society," said Romanus, "both in this world, and the world to come. And I deny him that was crucified, and whosoever worships him. And I chuse God for my Lord, Islam for my faith, Mecca for my temple, the Moslems for my brethren, and Mahomet for my prophet; who was sent to lead us into the right way, and to exalt the true religion in spite of those who join partners with God."

same unabated ardour, Caled answered, encountered and vanquished a second champion; and the heads of his two captives who refused to abandon their religion were indignantly hurled into the midst of the city. The event of some general and partial actions reduced the Damascenes to a closer defence: But a messenger whom they dropped from the walls, returned with the promise of speedy and powerful succour, and their tumultuous joy conveyed the intelligence to the camp of the Arabs. After some debate it was resolved by the generals to raise, or rather to suspend, the siege of Damascus, till they had given battle to the forces of the emperor. In the retreat, Caled would have chosen the more perilous station of the rear-guard; he modestly yielded to the wishes of Abu Obeidah. But in the hour of danger he flew to the rescue of his companion, who was rudely pressed by a sally of six thousand horse and ten thousand foot, and few among the Christians could relate at Damascus the circumstances of their defeat. The importance of the contest required the junction of the Saracens who were dispersed on the frontiers of Syria and Palestine; and I shall transcribe one of the circular mandates which was addressed to Amrou the future conqueror of Egypt.

“ In the name of the most merciful God; from  
 “ Caled to Amrou, health and happiness. Know  
 “ that thy brethren the Moslems design to march  
 “ to Aiznadin, where there is an army of seventy  
 “ thousand Greeks, who purpose to come against

 " din, where thou shalt find us, if it please the  
 " most high God." The summons was cheer-  
 fully obeyed, and the forty-five thousand Mos-  
 lems who met on the same day, on the same spot,  
 ascribed to the blessing of providence the effects  
 of their activity and zeal.

Battle of  
 Aiznadir,  
 A.D. 638,  
 July 13.

About four years after the triumphs of the Per-  
 sian war, the repose of Heraclius and the empire  
 was again disturbed by a new enemy, the power of  
 whose religion was more strongly felt than it was  
 clearly understood by the Christians of the East.  
 In his palace of Constantinople or Antioch, he was  
 awakened by the invasion of Syria, the loss of Bosra,  
 and the danger of Damascus. An army of seventy  
 thousand veterans, or new levies, was assembled  
 at Hems or Emesa, under the command of his  
 general Werdan †; and these troops, consisting  
 chiefly of cavalry, might be indifferently stiled  
 either Syrians, or Greeks, or Romans: *Syrians*,  
 from the place of their birth or warfare; *Greeks*,  
 from

\* These words are the text of the Koran, c. ix. 32. lxi. 8.  
 Like our fanatics of the last century, the Moslems, on every  
 familiar or important occasion, spoke the language of *their*  
 scriptures; a style more natural in their mouths, than the He-  
 brew idiom transplanted into the climate and dialect of Britain.

† The name of Werdan is unknown to Theophanes, and,  
 though it might belong to an Armenian chief, has very little of  
 a Greek aspect or sound. If the Byzantine historians have  
 mangled the oriental names, the Arabs, in this instance, like-  
 wise have taken ample revenge on their enemies. In transpos-  
 ing the Greek character from right to left, might they not pro-  
 duce, from the familiar appellation of *Andrew*, something like  
 the anagram *Werdan*?

from the religion and language of their sovereign; and *Romans*, from the proud appellation which was still profaned by the successors of Constantine. On the plain of Aiznadin, as Werdan rode on a white mule decorated with gold chains, and surrounded with ensigns and standards, he was surprised by the near approach of a fierce and naked warrior, who had undertaken to view the state of the enemy. The adventurous valour of Derar was inspired, and has perhaps been adorned, by the enthusiasm of his age and country. The hatred of the Christians, the love of spoil, and the contempt of danger, were the ruling passions of the audacious Saracen; and the prospect of instant death could never shake his religious confidence, or ruffle the calmness of his resolution, or even suspend the rank and martial pleantry of his humour. In the most hopeless enterprises, he was bold, and prudent, and fortunate: After innumerable hazards, after being thrice a prisoner in the hands of the infidels, he still survived to relate the achievements, and to enjoy the rewards, of the Syrian conquest. On this occasion, his single lance maintained a flying fight against thirty Romans, who were detached by Werdan; and after killing or unhorsing seventeen of their number, Derar returned in safety to his applauding brethren. When his rashness was mildly censured by the general, he excused himself with the simplicity of a soldier. “Nay,” said Derar, “I did not begin first: But they came out to take me, and I was afraid that God should see me turn my back: And indeed I fought in good earnest, and without

 LI. "not been apprehensive of disobeying your or-  
 ders, I should not have come away as I did;  
 "and I perceive already that they will fall into  
 "our hands." In the presence of both armies, a  
 venerable Greek advanced from the ranks with a  
 liberal offer of peace; and the departure of the  
 Saracens would have been purchased by a gift to  
 each soldier, of a turban, a robe, and a piece of  
 gold; ten robes, and an hundred pieces to their  
 leader; one hundred robes, and a thousand pieces  
 to the caliph. A smile of indignation expressed  
 the refusal of Caled. "Ye Christian dogs, you  
 "know your option: The koran, the tribute, or  
 "the sword. We are a people whose delight is  
 "in war, rather than in peace; and we despise  
 "your pitiful alms, since we shall be speedily  
 "masters of your wealth, your families, and your  
 "persons." Notwithstanding this apparent dis-  
 dain, he was deeply conscious of the public dan-  
 ger: Those who had been in Persia, and had seen  
 the armies of Chosroes, confessed that they never  
 beheld a more formidable array. From the supe-  
 riority of the enemy, the artful Saracen derived a  
 fresh incentive of courage: "You see before you,"  
 said he, "the united force of the Romans, you  
 "cannot hope to escape, but you may conquer  
 "Syria in a single day. The event depends on  
 "your discipline and patience. Reserve your-  
 "selves till the evening. It was in the evening  
 "that the prophet was accustomed to vanquish."  
 During two successive engagements, his temperate  
 firmness sustained the darts of the enemy, and the  
 murmurs

murmurs of his troops. At length, when the spirits and quivers of the adverse line were almost exhausted, Caled gave the signal of onset and victory. The remains of the Imperial army fled to Antioch, or Cæsaria, or Damascus; and the death of four hundred and seventy Moslems was compensated by the opinion that they had sent to hell above fifty thousand of the infidels. The spoil was inestimable; many banners and crosses of gold and silver, precious stones, silver and gold chains, and innumerable suits of the richest armour and apparel. The general distribution was postponed till Damascus should be taken; but the seasonable supply of arms became the instrument of new victories. The glorious intelligence was transmitted to the throne of the caliph, and the Arabian tribes, the coldest or most hostile to the prophet's mission, were eager and importunate to share the harvest of Syria.

The sad tidings were carried to Damascus by the speed of grief and terror; and the inhabitants beheld from their walls the return of the heroes of Aiznadid. Amrou led the van at the head of nine thousand horse: The bands of the Saracens succeeded each other in formidable review; and the rear was closed by Caled in person, with the standard of the black eagle. To the activity of Derar he entrusted the commission of patrolling round the city with two thousand horse, of scouring the plain, and of intercepting all succour or intelligence. The rest of the Arabian chiefs were fixed in their respective stations before the seven gates of Damascus;

The art, the labour, the military engines, of the Greeks and Romans, are seldom to be found in the simple, though successful, operations of the Saracens : It was sufficient for them to invest a city with arms, rather than with trenches ; to repel the sallies of the besieged ; to attempt a stratagem or an assault ; or to expect the progress of famine and discontent. . Damascus would have acquiesced in the trial of Aiznadin, as a final and peremptory sentence between the emperor and the caliph ; her courage was rekindled by the example and authority of Thomas, a noble Greek, illustrious in a private condition by the alliance of Heraclius \*. The tumult and illumination of the night proclaimed the design of the morning sally ; and the Christian hero, who affected to despise the enthusiasm of the Arabs, employed the resource of a similar superstition. At the principal gate, in the sight of both armies, a lofty crucifix was erected ; the bishop, with his clergy, accompanied the march, and laid the volume of the New Testament before the image of Jesus ; and the contending parties were scandalised or edified by a prayer, that the Son of God would defend his servants and vindicate his truth. The battle raged with incessant fury ; and the dexterity of Thomas,**

\* Vanity prompted the Arabs to believe, that Thomas was the son-in-law of the emperor. We know the children of Heraclius by his two wives ; and his *august* daughter would not have married in exile at Damascus, (see Ducange, *Fam. Byzantin.* p. 118, 119.) Had he been less religious, I might only suspect the legitimacy of the damsel.

Thomas \*, an incomparable archer, was fatal to the boldest Saracens, till their death was revenged by a female heroine. The wife of Aban, who had followed him to the holy war, embraced her expiring husband. "Happy," said she, "happy art thou my dear; thou art gone to thy Lord who first joined us together, and then parted us asunder. I will revenge thy death, and endeavour to the utmost of my power to come to the place where thou art, because I love thee. Henceforth shall no man ever touch me more, for I have dedicated myself to the service of God." Without a groan, without a tear, she washed the corpse of her husband, and buried him with the usual rites. Then grasping the manly weapons, which in her native land she was accustomed to wield, the intrepid widow of Aban sought the place where his murderer fought in the thickest of the battle. Her first arrow pierced the hand of his standard-bearer; her second wounded Thomas in the eye; and the fainting Christians no longer beheld their ensign or their leader. Yet the generous champion of Damascus refused to withdraw to his palace: His wound was dressed on the rampart; the fight was continued till the evening; and the Syrians rested on their arms. In the silence of the night, the signal was given by a stroke on the great bell; the gates were thrown open, and each gate discharged an impetuous column on the sleeping camp of the Saracens.

\* Al Wakidi (Ockley, p. 101.) says, "with poisoned arrows;" but this savage invention is so repugnant to the practice of the Greeks and Romans, that I must suspect, on this occasion, the malevolent credulity of the Saracens.

**C H A P.** Saracens, Caled was the first in arms; at the head  
**LI.** of four hundred horse he flew to the post of danger,  
 and the tears trickled down his iron cheeks, as he  
 uttered a fervent ejaculation; "O God! who  
 " never sleepest, look upon thy servants, and do  
 " not deliver them into the hands of their enemies."  
 The valour and victory of Thomas were arrested  
 by the presence of the *sword of God*; with the  
 knowledge of the peril, the Moslems recovered  
 their ranks, and charged the assailants in the flank  
 and rear. After the loss of thousands, the Christian  
 general retreated with a sigh of despair, and the  
 pursuit of the Saracens was checked by the mili-  
 tary engines of the rampart.

The city

 by storm  
 and capi-  
 tulation,  
 A. D. 634.

After a siege of seventy days \*, the patience,  
 and perhaps the provisions, of the Damascenes,  
 were exhausted; and the bravest of their chiefs  
 submitted to the hard dictates of necessity. In  
 the occurrences of peace and war, they had been  
 taught to dread the fierceness of Caled, and to re-  
 vere the mild virtues of Abu Obeidah. At the  
 hour of midnight, one hundred chosen deputies of  
 the clergy and people were introduced to the tent  
 of that venerable commander. He received and  
 dismissed

\* Abulfeda allows only seventy days for the siege of Damas-  
 cus; (Annal. Moslem, p. 67. vers. Reiske,) but Elmacin, who  
 mentions this opinion, prolongs the term to six months, and  
 notices the use of *balistæ* by the Saracens, (Hist. Saracen. p. 25.  
 32.) Even this longer period is insufficient to fill the interval  
 between the battle of Aiznadid (July A.D. 633) and the acces-  
 sion of Omar, (24. July A.D. 634,) to whose reign the conquest  
 of Damascus is unanimously ascribed, (Al Wakidi, apud Ock-  
 ley, vol. i. p. 115. Abulpharagius, Dynast. p. 112. vers. Po-  
 cock.) Perhaps, as in the Trojan war, the operations were in-  
 terrupted by excursions and detachments, till the last seventy  
 days of the siege.

dismissed them with courtesy. They returned with C H A P.  
a written agreement, on the faith of a companion LI.  
of Mahomet, that all hostilities should cease; that  
the voluntary emigrants might depart in safety,  
with as much as they could carry away of their  
effects; and that the tributary subjects of the cal-  
iphs should enjoy their lands and houses, with the  
use and possession of seven churches. On these  
terms, the most respectable hostages, and the gate  
nearest to his camp, were delivered into his hands;  
his soldiers imitated the moderation of their chief;  
and he enjoyed the submissive gratitude of a people  
whom he had rescued from destruction. But the  
success of the treaty had relaxed their vigilance,  
and in the same moment the opposite quarter of  
the city was betrayed and taken by assault. A  
party of an hundred Arabs had opened the east-  
ern gate to a more inexorable foe. "No quarter,"  
cried the rapacious and sanguinary Caled, "no  
quarter to the enemies of the Lord;" his trumpets  
sounded, and a torrent of Christian blood was  
poured down the streets of Damascus. When he  
reached the church of St Mary, he was astonished  
and provoked by the peaceful aspect of his com-  
panions: Their swords were in the scabbard, and  
they were surrounded by a multitude of priests  
and monks. Abu Obeidah saluted the general;  
"God," said he, "has delivered the city into my  
hands by way of surrender, and has saved the  
believers the trouble of fighting." "And am  
I not," replied the indignant Caled, "am I not  
the lieutenant of the commander of the faith-  
ful? Have I not taken the city by storm? The  
unbelievers

The hungry and cruel Arabs would have obeyed the welcome command: And Damascus was lost, if the benevolence of Abu Obeidah had not been supported by a decent and dignified firmness. Throwing himself between the trembling citizens and the most eager of the Barbarians, he adjured them by the holy name of God, to respect his promise, to suspend their fury, and to wait the determination of their chiefs. The chiefs retired into the church of St Mary; and after a vehement debate, Caled submitted in some measure to the reason and authority of his colleague; who urged the sanctity of a covenant, the advantage as well as the honour which the Moslems would derive from the punctual performance of their word, and the obstinate resistance which they must encounter from the distrust and despair of the rest of the Syrian cities. It was agreed that the sword should be sheathed, that the part of Damascus which had surrendered to Abu Obeidah, should be immediately entitled to the benefit of his capitulation, and that the final decision should be referred to the justice and wisdom of the caliph \*. A large majority of the people accepted the terms of toleration and tribute; and Damascus is still peopled by twenty thousand Christians. But the valiant Thomas, and the free-born patriots who had fought under his banner, embraced the alternative of poverty and exile. In the adjacent meadow, a numerous encampment was formed of

\* It appears from Abulfeda, (p. 125.) and Elmacin, (p. 32.) that this distinction of the two parts of Damascus was long remembered, though not always respected, by the Mahometan sovereigns. See likewise Eutychius, (Annal. tom. ii. p. 379, 380, 383.)

of priests and laymen, of soldiers and citizens, of women and children: They collected with haste and terror their most precious moveables; and abandoned, with loud lamentations or silent anguish, their native homes, and the pleasant banks of the Pharphar. The inflexible soul of Caled was not touched by the spectacle of their distress: He disputed with the Damascenes the property of a magazine of corn; endeavoured to exclude the garrison from the benefit of the treaty; consented, with reluctance, that each of the fugitives should arm himself with a sword, or a lance, or a bow; and sternly declared, that, after a respite of three days, they might be pursued and treated as the enemies of the Moslems.

The passion of a Syrian youth completed the ruin of the exiles of Damascus. A nobleman of the city, of the name of Jonas \*, was betrothed to a wealthy maiden; but her parents delayed the consummation of his nuptials, and their daughter was persuaded to escape with the man whom she had chosen. They corrupted the nightly watchmen of the gate Keisan: The lover, who led the way, was encompassed by a squadron of Arabs; but his exclamation in the Greek tongue, " the  
" bird

Pursuit of  
the Da-  
mascenes.

\* On the fate of these lovers, whom he names Phocyas and Eudocia, Mr Hughes has built the siege of Damascus, one of our most popular tragedies, and which possesses the rare merit of blending nature and history, the manners of the times and the feelings of the heart. The foolish delicacy of the players compelled him to soften the guilt of the hero and the despair of the heroine. Instead of a base renegado, Phocyas serves the Arabs as an honourable ally; instead of prompting their pursuit, he flies to the succour of his countrymen, and after killing Caled and Derar, is himself mortally wounded, and expires in the presence of Eudocia, who professes her resolution to take the veil at Constantinople. A frigid catastrophe!

C H A P. "bird is taken," admonished his mistress to hasten  
LI. her return. In the presence of Caled, and of  
death, the unfortunate Jonas professed his belief  
in one God, and his apostle Mahomet; and continued till the season of his martyrdom, to discharge the duties of a brave and sincere Mussulman. When the city was taken, he flew to the monastery, where Eudocia had taken refuge; but the lover was forgotten; the apostate was scorned; she preferred her religion to her country; and the justice of Caled, though deaf to mercy, refused to detain by force a male or female inhabitant of Damascus. Four days was the general confined to the city by the obligation of the treaty, and the urgent cares of his new conquest. His appetite for blood and rapine would have been extinguished by the hopeless computation of time and distance; but he listened to the importunities of Jonas, who assured him that the weary fugitives might yet be overtaken. At the head of four thousand horse, in the disguise of Christian Arabs, Caled undertook the pursuit. They halted only for the moments of prayer; and the guide had a perfect knowledge of the country. For a long way the footsteps of the Damascenes were plain and conspicuous: They vanished on a sudden; but the Saracens were comforted by the assurance that the caravan had turned aside into the mountains, and must speedily fall into their hands. In traversing the ridges of the Libanus, they endured intolerable hardships, and the sinking spirits of the veteran fanatics were supported and cheered by the unconquerable ardour of a lover. From a peasant of the  
country,

country, they were informed that the emperor C H A P.  
 had sent orders to the colony of exiles, to pursue LI.  
 without delay the road of the sea-coast, and of Con-  
 stantinople ; apprehensive, perhaps, that the sol-  
 diers and people of Antioch might be discouraged  
 by the sight and the story of their sufferings. The  
 Saracens were conducted through the territories of  
 Gabala \* and Laodicea, at a cautious distance from  
 the walls of the cities ; the rain was incessant, the  
 night was dark, a single mountain separated them  
 from the Roman army ; and Caled, ever anxious  
 for the safety of his brethren, whispered an ominous  
 dream in the ear of his companion. With the  
 dawn of day, the prospect again cleared, and they  
 saw before them, in a pleasant valley, the tents  
 of Damascus. After a short interval of repose and  
 prayer, Caled divided his cavalry into four squa-  
 drons, committing the first to his faithful Derar,  
 and reserving the last for himself. They successive-  
 ly rushed on the promiscuous multitude, insuffi-  
 ciently provided with arms, and already vanquished  
 by sorrow and fatigue. Except a captive who was  
 pardoned and dismissed, the Arabs enjoyed the  
 satisfaction of believing that not a Christian of either  
 sex escaped the edge of the scymetars. The gold  
 and silver of Damascus was scattered over the  
 camp, and a royal wardrobe of three hundred load

Had not the Christians been overtaken, they must have crossed the Orontes on some bridge in the sixteen miles between Antioch and the sea, and might have rejoined the high road of Constantinople at Alexandria. The itineraries will represent the directions and distances, (p. 146. 148. 581, 582. edit. Wesseling.)

In the tumult of the battle, Jonas sought and found the object of his pursuit ; but her resentment was inflamed by the last act of his perfidy ; and, as Eudocia struggled in his hateful embraces, she struck a dagger to her heart. Another female, the widow of Thomas, and the real or supposed daughter of Heraclius, was spared and released without a ransom ; but the generosity of Caled was the effect of his contempt ; and the haughty Saracen insulted, by a message of defiance, the throne of the Cæsars. Caled had penetrated above an hundred and fifty miles into the heart of the Roman province : He returned to Damascus with the same secrecy and speed. On the accession of Omar, the *sword of God* was removed from the command ; but the caliph, who blamed the rashness, was compelled to applaud the vigour and conduct, of the enterprise.

Fair of  
Abyla.

Another expedition of the conquerors of Damascus will equally display their avidity and their contempt for the riches of the present world. They were informed that the produce and manufactures of the country were annually collected in the fair of Abyla \*, about thirty miles from the city ; that the cell of a devout hermit was visited at the same time by a multitude of pilgrims ; and that the festival of trade and superstition would be ennobled by

by the nuptials of the daughter of the governor of Tripoli. Abdallah, the son of Jaafar, a glorious and holy martyr, undertook, with a banner of five hundred horse, the pious and profitable commission of despoiling the infidels. As he approached the fair of Abyla, he was astonished by the report of the mighty concourse of Jews and Christians, Greeks and Armenians, of natives of Syria and of strangers of Egypt, to the number of ten thousand, besides a guard of five thousand horse that attended the person of the bride. The Saracens paused: "For my own part," said Abdallah, "I *dare not* go back; our foes are many, our danger is great; but our reward is splendid and secure, either in this life or in the life to come. Let every man, according to his inclination, advance or retire." Not a Mussulman deserted his standard. "Lead the way," said Abdallah to his Christian guide, "and you shall see what the companions of the prophet can perform." They charged in five squadrons; but after the first advantage of the surprise, they were encompassed and almost overwhelmed by the multitude of their enemies; and their valiant band is fancifully compared to a white spot in the skin of a black camel \*. About the hour of sunset, when their weapons dropped from their hands, when they panted on the verge of eternity, they discovered an approaching cloud of dust, they heard the wel-

The Christians were broken by his attack, and slaughtered in their flight as far as the river of Tripoli. They left behind them the various riches of the fair ; the merchandises that were exposed for sale, the money that was brought for purchase, the gay decorations of the nuptials, and the governor's daughter, with forty of her female attendants. The fruits, provisions, and furniture, the money, plate, and jewels, were diligently laden on the backs of horses, asses, and mules ; and the holy robbers returned in triumph to Damascus. The hermit, after a short and angry controversy with Caled, declined the crown of martyrdom, and was left alive in the solitary scene of blood and devastation.

It was published in Arabic and Latin, Lipsiæ, 1766, in quarto, with the learned notes of Kochler and Reiske, and some extracts of geography and natural history from Ibn Ol Wardii. Among the modern travels, Pocock's description of the East (of Syria and Mesopotamia, vol. ii. p. 88—209.) is a work of superior learning and dignity ; but the author too often confounds what he had seen and what he had read.

climate is tempered by the vicinity of the sea and mountains, by the plenty of wood and water; and the produce of a fertile soil affords the subsistence, and encourages the propagation, of men and animals. From the age of David to that of Heraclius, the country was overspread with ancient and flourishing cities: The inhabitants were numerous and wealthy; and, after the slow ravage of despotism and superstition, after the recent calamities of the Persian war, Syria could still attract and reward the rapacious tribes of the desert. A plain, of ten days journey, from Damascus to Aleppo and Antioch, is watered, on the western side, by the winding course of the Orontes. The hills of Libanus and Anti-Libanus are planted from north to south, between the Orontes and the Mediterranean, and the epithet of *hollow* (Cœlesyria) was applied to a long and fruitful valley, which is confined in the same direction by the two ridges of snowy mountains\*. These verses of the Latin version of Rufus Avienus are wanting in the Greek original of Dionysius; and since they are likewise unnoticed by Eustathius, I must, with Fabricius, (Bibliot. Latin. tom. iii. p. 153. edit. Ernesti,) and against Salmasius, (ad Vopiscum, p. 366, 367. in Hist. August.) ascribe them to the fancy rather than the MSS. of Avienus.

† I am much better satisfied with Maundrell's slight octavo, (Journey, p. 134—139.) than with the pompous folio of Doctor Pocock; (Description of the East, vol. ii. p. 100—113.) but every preceding account is eclipsed by the magnificent description and drawings of M. M. Dawkins and Wood, who have transported into England the ruins of Palmyra and Baalbec.

The proportions and ornaments of the Corinthian order express the architecture of the Greeks; but as Baalbec has never been the seat of a monarch, we are at a loss to conceive how the expence of these magnificent structures could be supplied by private or municipal liberality\*. From the conquest of Damascus the Saracens proceeded to Heliopolis and Emesa: But I shall decline the repetition of the sallies and combats which have been already shewn on a larger scale. In the prosecution of the war, their policy was not less effectual than their sword. By short and separate truces they dissolved the union of the enemy; accustomed the Syrians to compare their friendship with their enmity; familiarised the idea of their language, religion, and manners; and exhausted, by clandestine purchase, the magazines and arsenals of the cities which they returned to besiege. They aggravated the ransom of the more wealthy, or the more obstinate; and Chalcis alone was taxed at five thousand ounces of gold, five thousand ounces of silver, two thousand robes of silk, and as many figs and olives as would load

 conquest of the plain and valley of Syria was at-

 mander of the faithful reproved the slowness of  
 their progress, and the Saracens, bewailing their  
 fault with tears of rage and repentance, called  
 aloud on their chiefs to lead them forth to fight  
 the battles of the Lord. In a recent action, un-

Battle of  
 Yermuk,  
 A. D. 636,  
 Novem-  
 ber.

It was incumbent on the Saracens to exert the  
 full powers of their valour and enthusiasm against  
 the forces of the emperor, who was taught by  
 repeated losses, that the rovers of the desert had  
 undertaken, and would speedily atchieve, a regular  
 and permanent conquest. From the provinces of  
 Europe and Asia, fourscore thousand soldiers were  
 transported

transported by sea and land to Antioch and Cæsarea; the light troops of the army consisted of sixty thousand Christian Arabs of the tribe of Gassan. Under the banner of Jabalah, the last of their princes, they marched in the van; and it was a maxim of the Greeks, that, for the purpose of cutting diamond, a diamond was the most effectual. Heraclius withheld his person from the dangers of the field; but his presumption, or perhaps his despondency, suggested a peremptory order, that the fate of the province and the war should be decided by a single battle. The Syrians were attached to the standard of Rome and of the cross; but the noble, the citizen, the peasant, were exasperated by the injustice and cruelty of a licentious host, who oppressed them as subjects, and despised them as strangers and aliens\*. A report of these mighty preparations was conveyed to the Saracens in their camp of Emesa; and the chiefs, though resolved to fight, assembled a council; the faith of Abu Obeidah would have expected on the same spot the glory of martyrdom; the wisdom of Caled advised an honourable retreat to the skirts of Palestine and Arabia, where they might await the succours of their friends, and the attack of the unbelievers. A speedy messenger soon returned from the throne of Medina, with the blessings of Omar and Ali, the prayers of the

In their way they overturned a detachment of Greeks, and when they joined at Yermuk the camp of their brethren, they found the pleasing intelligence, that Caled had already defeated and scattered the Christian Arabs of the tribe of Gassan. In the neighbourhood of Bosra, the springs of Mount Hermon descend in a torrent to the plain of Decapolis, or ten cities; and the Hieromax, a name which has been corrupted to Yermuk, is lost after a short course in the lake of Tiberias \*. The banks of this obscure stream were illustrated by a long and bloody encounter. On this momentous occasion, the public voice, and the modesty of Abu Obeidah, restored the command to the most deserving of the Moslems. Caled assumed his station in the front, his colleague was posted in the rear, that the disorder of the fugitives might be checked by his venerable aspect, and the sight of the yellow banner which Mahomet had displayed before the walls of Chaibar. The last line was occupied by the sister of Derar, with the Arabian women who had enlisted in this holy war, who were accustomed to wield the bow and the lance, and who in a moment of captivity had defended, against the uncircumcised

Yet such was the weight of the Roman cavalry, that the right wing of the Arabs was broken and separated from the main body. Thrice did they retreat in disorder, and thrice were they driven back to the charge by the reproaches and blows of the women. In the intervals of action, Abu Obeidah visited the tents of his brethren, prolonged their repose, by repeating at once the prayers of two different hours; bound up their wounds with his own hands, and administered the comfortable reflection, that the infidels partook of their sufferings without partaking of their reward. Four thousand and thirty of the Moslems were buried in the field of battle; and the skill of the Armenian archers enabled seven hundred to boast that they had lost an eye in that meritorious service. The veterans of the Syrian war acknowledged that it was the hardest and most doubtful of the days which they had seen. But it was likewise the most decisive; many thousands of the Greeks and Syrians fell by the swords of the Arabs; many were slaughtered, after the defeat in the woods and mountains; many, by mistaking the ford, were drowned in the waters of the Yermuk; and however the loss may be magnified †, the

He had once inclined to the profession of Islam; but in the pilgrimage of Mecca, Jabalah was provoked to strike one of his brethren, and fled with amazement from the stern and equal justice of the caliph. The victorious Saracens enjoyed at Damascus a month of pleasure and repose; the spoil was divided by the discretion of Abu Obeidah; an equal share was allotted to a soldier and to his horse, and a double portion was reserved for the noble coursers of the Arabian breed.

After the battle of Yermuk, the Roman army no longer appeared in the field; and the Saracens might securely chuse among the fortified towns of Syria, the first object of their attack. They consulted the caliph whether they should march to Cæsarea or Jerusalem; and the advice of Ali determined the immediate siege of the latter. To a profane eye, Jerusalem was the first or second capital of Palestine; but after Mecca and Medina, it was revered and visited by the devout Moslems, as the temple of the Holy Land, which had been sanctified by the revelation of Moses, of Jesus, and of Mahomet himself. The son of Abu Sophian was sent with five thousand Arabs to try the first experiment of surprise or treaty: But on the eleventh day, the town was invested by the whole force of Abu Obeidah. He addressed the customary summons to the chief commanders and people of *Ælia* \*. “ Health and happiness to every one that follows the right way! The epithet of *Al Cods*, the Holy, is used as the proper name of Jerusalem.

**C H A P.** “till I have destroyed those that fight for you,

city was defended on every side by deep vallies and steep ascents; since the invasion of Syria, the walls and towers had been anxiously restored; the bravest of the fugitives of Yermuk had stopped in the nearest place of refuge; and in the defence of the sepulchre of Christ, the natives and strangers might feel some sparks of the enthusiasm which so fiercely glowed in the bosoms of the Saracens. The siege of Jerusalem lasted four months; not a day was lost without some action of sally or assault; the military engines incessantly played from the ramparts; and the inclemency of the winter was still more painful and destructive to the Arabs. The Christians yielded at length to the perseverance of the besiegers. The patriarch Sophronius appeared on the walls, and by the voice of an interpreter demanded a conference. After a vain attempt to dissuade the lieutenant of the caliph from his impious enterprise, he proposed, in the name of the people, a fair capitulation, with this extraordinary clause, that the articles of security should be ratified by the authority and presence of Omar himself. The question was debated in the council of Medina; the sanctity of the place, and the advice of Ali, persuaded the caliph to gratify the wishes of his soldiers and enemies, and the simplicity of his journey is more illustrious than the royal pageants of vanity and oppression. The conqueror of Persia and Syria was mounted on a red camel, which carried, besides his person, a bag of corn, a bag of dates, a wooden

 relieved the tributaries from extortion and cruelty,  
 and chastised the luxury of the Saracens, by de-  
 spoiling them of their rich silks, and dragging  
 them on their faces in the dirt. When he came  
 within sight of Jerusalem, the caliph cried with a  
 loud voice, "God is victorious. O Lord, give us  
 "an easy conquest;" and pitching his tent of coarse  
 hair, calmly seated himself on the ground. After  
 signing the capitulation, he entered the city with-

But the castle of Aleppo \*, distinct from the city, stood erect on a lofty artificial mound : The sides were sharpened to a precipice, and faced with freestone ; and the breadth of the ditch might be filled with water from the neighbouring springs. After the loss of three thousand men, the garrison was still equal to the defence ; and Youkinna, their valiant and hereditary chief, had murdered his brother, an holy monk, for daring to pronounce the name of peace. In a siege of four or five months, the hardest of the Syrian war, great numbers of the Saracens were killed and wounded ; their removal to the distance of a mile could not seduce the vigilance of Youkinna ; nor could the Christians be terrified by the execution of three hundred captives, whom they beheaded before the castle wall. The silence, and at length the complaints, of Abu Obeidah, informed the caliph, that their hope and patience were consumed at the foot of this impregnable fortress. “ I am variously affected,” replied Omar, “ by the difference of your success ; but I charge

It is now in the midst of the city, of no strength, with a single gate, the circuit is about 500 or 600 paces, and the ditch half full of stagnant water ; (Voyages de Tavernier, tom. i. p. 149. The exhortation of the commander of the faithful was fortified by a supply of volunteers from all the tribes of Arabia, who arrived in the camp on horses or camels. Among these was Dames, of a servile birth, but of gigantic size and intrepid resolution. The forty-seventh day of his service he proposed, with only thirty men, to make an attempt on the castle. The experience and testimony of Caled recommended his offer; and Abu Obeidah admonished his brethren not to despise the baser origin of Dames, since he himself, could he relinquish the public care, would cheerfully serve under the banner of the slave. His design was covered by the appearance of a retreat; and the camp of the Saracens was pitched about a league from Aleppo. The thirty adventurers lay in ambush at the foot of the hill; and Dames at length succeeded in his inquiries, though he was provoked by the ignorance of his Greek captives. " God curse these dogs," said the illiterate Arab, " what a strange barbarous language they speak!" At the darkest hour of the night, he scaled the most accessible height which he had diligently surveyed, a place where the stones were less entire, or the slope less perpendicular, or the guard less vigilant. Seven of the stoutest Saracens mounted on each other's shoulders, and the weight of the column

column was sustained on the broad and sinewy back of the gigantic slave. The foremost in this painful ascent could grasp and climb the lowest part of the battlements ; they silently stabbed and cast down the sentinels ; and the thirty brethren, repeating a pious ejaculation, “ O apostle of God, “ help and deliver us ! ” were successively drawn up by the long folds of their turbans. With bold and cautious footsteps, Dames explored the palace of the governor, who celebrated, in riotous merriment, the festival of his deliverance. From thence returning to his companions, he assaulted on the inside the entrance of the castle. They overpowered the guard, unbolted the gate, let down the draw-bridge, and defended the narrow pass, till the arrival of Caled, with the dawn of day, relieved their danger, and assured their conquest. Youkinna, a formidable foe, became an active and useful proselyte ; and the general of the Saracens expressed his regard for the most humble merit, by detaining the army at Aleppo till Dames was cured of his honourable wounds. The capital of Syria was still covered by the castle of Aazaz and the iron bridge of the Orontes. Flight of  
 Heraclius,  
 A. D. 638.

In the life of Heraclius, the glories of the Persian war are clouded on either hand by the disgrace and weakness of his more early and his later days. When the successors of Mahomet unsheathed the sword of war and religion, he was astonished at the boundless prospect of toil and danger ; his nature was indolent, nor could the infirm and frigid age of the emperor be kindled to a second effort. The sense of shame, and the importunities of the Syrians, prevented his hasty departure from the scene of action ; but the hero was no more ; and the loss of Damascus and Jerusalem, the bloody fields of Aïznadin and Yermuk, may be imputed in some degree to the absence or misconduct of the sovereign. Instead of defending the sepulchre of Christ, he involved the church and state in a metaphysical controversy for the unity of his will ; and while

John Malela, in Chron. p. 91. edit. Venet. We may distinguish his authentic information of domestic facts from his gross ignorance of general history.

Heraclius crowned the offspring of his second nuptials, he was tamely stripped of the most valuable part of their inheritance. In the cathedral of Antioch, in the presence of the bishops, at the foot of the crucifix, he bewailed the sins of the prince and people; but his confession instructed the world, that it was vain, and perhaps impious, to resist the judgment of God. The Saracens were invincible in fact, since they were invincible in opinion; and the desertion of Youkinna, his false repentance and repeated perfidy, might justify the suspicion of the emperor, that he was encompassed by traitors and apostates, who conspired to betray his person and their country to the enemies of Christ. In the hour of adversity, his superstition was agitated by the omens and dreams of a falling crown; and after bidding an eternal farewell to Syria, he secretly embarked with a few attendants, and absolved the faith of his subjects \*. Constantine, his eldest son, had been stationed with forty thousand men at Cæsarea, the civil metropolis of the three provinces of Palestine. But his private interest recalled him to the Byzantine court; and, after the flight of his father, he felt himself an unequal champion to the united force of the caliph. His vanguard was boldly attacked by three hundred Arabs and a thousand black slaves, who, in the depth

Their labours were terminated by the unexpected surrender of Cæsarea : The Roman prince had embarked in the night \* ; and the defenceless citizens solicited their pardon with an offering of two hundred thousand pieces of gold. The remainder of the province, Ramlah, Ptolemais, or Achre, Sichem, or Neapolis, Gaza, Ascalon, Berytus, Sidon, Gabala, Laodicea, Apamea, Hierapolis, no longer presumed to dispute the will of the conqueror ; and Syria bowed under the sceptre of the caliphs seven hundred years after Pompey had despoiled the last of the Macedonian kings †.

\* In the loose and obscure chronology of the times, I am guided by an authentic record, (in the book of ceremonies of Constantine Porphyrogenitus,) which certifies, that, June 4, A. D. 638, the emperor crowned his younger son Heraclius in the presence of his eldest Constantine, and in the palace of Constantinople ; that January 1, A. D. 639, the royal procession visited the great church, and on the 4th of the same month, the hippodrome.

The sieges and battles of six campaigns had consumed many thousands of the Moslems. They died with the reputation and the cheerfulness of martyrs; and the simplicity of their faith may be expressed in the words of an Arabian youth, when he embraced, for the last time, his sister and mother: "It is not," said he, "the delicacies of Syria, or the fading delights of this world, that have prompted me to devote my life in the cause of religion. But I seek the favour of God and his apostle; and I have heard, from one of the companions of the prophet, that the spirits of the martyrs will be lodged in the crops of green birds, who shall taste the fruits, and drink of the rivers, of paradise. Farewel; we shall meet again among the groves and fountains which God has provided for his elect." The faithful captives might exercise a passive and more arduous resolution; and a cousin of Mahomet is celebrated for refusing, after an abstinence of three days, the wine and pork, the only nourishment that was allowed by the malice of the infidels. The frailty of some weaker brethren exasperated the implacable spirit of fanaticism; and the father of Amer deplored, in pathetic strains, the apostacy and damnation of a son, who had renounced the promises of God, and the intercession of the prophet, to occupy, with the priests and deacons, the lowest mansions of hell. The more fortunate Arabs, who survived the war, and persevered in the faith, were restrained by their abstemious leader from the abuse of prosperity. After a refreshment of three days, Abu Obeidah withdrew his troops from the per-

 to use, or to abuse, this gracious permission; but  
 the year of their triumph was marked by a morta-  
 lity of men and cattle; and twenty-five thousand  
 Saracens were snatched away from the possession  
 of Syria. The death of Abu Obeidah might be la-

His valour, which founded in Arabia and Syria the empire of the caliphs, was fortified by the opinion of a special providence ; and as long as he wore a cap, which had been blessed by Mahomet, he deemed himself invulnerable amidst the darts of the infidels.

The place of the first conquerors was supplied by a new generation of their children and countrymen : Syria became the seat and support of the house of Ommyyah ; and the revenue, the soldiers, the ships of that powerful kingdom, were consecrated to enlarge on every side the empire of the caliphs. But the Saracens despise a superfluity of fame ; and their historians scarcely condescend to mention the subordinate conquests which are lost in the splendour and rapidity of their victorious career. To the *north* of Syria, they passed mount Taurus, and reduced to their obedience the province of Cilicia, with its capital Tarsus, the ancient monument of the Assyrian kings. Beyond a second ridge of the same mountains, they spread the flame of war, rather than the light of religion, as far as the shores of the Euxine and the neighbourhood of Constantinople. To the *east* they advanced to the banks and sources of the Euphrates and Tigris \* : The long disputed barrier of Rome

A gigantic statue of Apollo or the sun, seventy cubits in height, was erected at the entrance of the harbour, a monument of the freedom and the arts of Greece. After standing fifty-six years, the colossus of Rhodes was overthrown by an earthquake; but the massy trunk, and huge fragments, lay scattered eight centuries on the ground, and are often described as one of the wonders of the ancient world. They were collected by the diligence of the Saracens, and sold to a Jewish merchant of Edessa, who is said to have laden nine hundred camels with the weight of the brass metal: An enormous weight, though we should include the hundred colossal figures\*, and the three thousand statues, which adorned the prosperity of the city of the sun.

II. The conquest of Egypt may be explained by the character of the victorious Saracen, one of the first of his nation, in an age when the meanest of the brethren was exalted above his nature by the spirit of enthusiasm. The birth of Amrou was at once base and illustrious: His mother, a notorious prostitute, was unable to decide among five of the Koreish; but the proof of resemblance adjudged the child to Aasi, the oldest of her lovers†. of his works, the *Rhodus* of Meursius, (l. i. c. 15. p. 715—719.) The Byzantine writers, Theophanes and Constantine, have ignorantly prolonged the term to 1360 years, and ridiculously divide the weight among 30,000 camels.

\* Centum colossi alium nobilitaturi locum, says Pliny, with his usual spirit. Hist. Natur. xxxiv. 18.

† We learn this anecdote from a spirited old woman, who reviled to their face the caliph and his friend. She was encouraged by the silence of Amrou and the liberality of Moawiyah, (Abulfeda, Annal. Moslem. p. 111.)

C H A P. youth of Amrou was impelled by the passions and  
 LI. prejudices of his kindred : His poetic genius was  
 exercised in satirical verses against the person and  
 doctrine of Mahomet ; his dexterity was employed by the reigning faction to pursue the religious  
 exiles who had taken refuge in the court of the  
 Æthiopian king \*. Yet he returned from this  
 embassy a secret proselyte ; his reason or his interest determined him to renounce the worship of  
 idols ; he escaped from Mecca with his friend Cal-  
 led, and the prophet of Medina enjoyed at the  
 same moment the satisfaction of embracing the two  
 firmest champions of his cause. The impatience  
 of Amrou to lead the armies of the faithful was  
 checked by the reproof of Omar, who advised  
 him not to seek power and dominion, since he  
 who is a subject to-day, may be a prince to-mor-  
 row. Yet his merit was not overlooked by the two  
 first successors of Mahomet ; they were indebted  
 to his arms for the conquest of Palestine ; and in  
 all the battles and sieges of Syria, he united with  
 the temper of a chief, the valour of an adventurous  
 soldier. In a visit to Medina, the caliph express-  
 ed a wish to survey the sword which had cut down  
 so many Christian warriors : The son of Aasi un-  
 sheathed a short and ordinary scymetar ; and as  
 he perceived the surprise of Omar, “ Alas,” said  
 the modest Saracen, “ the sword itself, without the  
 “ arm of its master, is neither sharper nor more  
 “ weighty than the sword of Pharezdak the  
 “ poet.”

“poet \*.” After the conquest of Egypt, he was recalled by the jealousy of the caliph Othman; but in the subsequent troubles, the ambition of a soldier, a statesman, and an orator, emerged from a private station. His powerful support, both in council and in the field, established the throne of the Ommiades; the administration and revenue of Egypt were restored by the gratitude of Moawiyah to a faithful friend, who had raised himself above the rank of a subject; and Amrou ended his days in the palace and city which he had founded on the banks of the Nile. His dying speech to his children is celebrated by the Arabians as a model of eloquence and wisdom: He deplored the errors of his youth; but if the penitent was still infected by the vanity of a poet, he might exaggerate the venom and mischief of his impious compositions †.

From his camp, in Palestine, Amrou had surprised or anticipated the caliph's leave for the invasion of Egypt ‡. The magnanimous Omar trusted in his God and his sword, which had shaken

The readers of Tacitus may aptly compare Vespasian and Mucianus, with Moawiyah and Amrou. Yet the resemblance is still more in the situation, than in the characters of the men.

‡ Al Wakidi had likewise composed a separate history of the conquest of Egypt, which Mr Ockley could never procure; and

CHAP. shaken the thrones of Chosroes and Cæsar; but  
 LI. when he compared the slender force of the Mos-  
 — lems with the greatness of the enterprise, he con-  
 demned his own rashness, and listened to his timid  
 companions. The pride and the greatness of Pha-  
 raoh were familiar to the readers of the Koran;  
 and a tenfold repetition of prodigies had been  
 scarcely sufficient to effect, not the victory, but  
 the flight of six hundred thousand of the children  
 of Israel: The cities of Egypt were many and po-  
 pulous; their architecture was strong and solid;  
 the Nile, with its numerous branches, was alone an  
 insuperable barrier; and the granary of the Im-  
 perial city would be obstinately defended by the  
 Roman powers. In this perplexity, the com-  
 mander of the faithful resigned himself to the de-  
 cision of chance, or, in his opinion, of providence.  
 At the head of only four thousand Arabs, the in-  
 trepid Amrou had marched away from his station  
 of Gaza, when he was overtaken by the messenger  
 of Omar. “If you are still in Syria,” said the  
 ambiguous mandate, “retreat without delay; but  
 “if, at the receipt of this epistle, you have al-  
 “ready reached the frontiers of Egypt, advance  
 “with confidence, and depend on the succour of  
 “God and of your brethren.” The experience,  
 perhaps the secret intelligence, of Amrou, had  
 taught him to suspect the mutability of courts;  
 and

and his own inquiries (vol. i. p. 344—362.) have added very little to the original text of Eutychius, (Annal. tom. ii. p. 296—323. vers. Pocock,) the Melchite patriarch of Alexandria, who lived three hundred years after the revolution.

and he continued his march till his tents were unquestionably pitched on Egyptian ground. He there assembled his officers, broke the seal, perused the epistle, gravely inquired the name and situation of the place, and declared his ready obedience to the commands of the caliph. After a siege of thirty days, he took possession of Farmah or Pelusium; and that key of Egypt, as it has been justly named, unlocked the entrance of the country, as far as the ruins of Heliopolis and the neighbourhood of the modern Cairo.

On the western side of the Nile, at a small distance to the east of the Pyramids, at a small distance to the south of the Delta, Memphis, one hundred and fifty furlongs in circumference, displayed the magnificence of ancient kings. Under the reign of the Ptolemies and Cæsars, the seat of government was removed to the sea-coast; the ancient capital was eclipsed by the arts and opulence of Alexandria; the palaces, and at length the temples, were reduced to a desolate and ruinous condition: Yet in the age of Augustus, and even in that of Constantine, Memphis was still numbered among the greatest and most populous of the provincial cities \*. In the proper Egypt, Ammianus enumerates Memphis among the four cities, *maximis urbibus quibus provincia nitet*, (xxii. 16.) and the name of Memphis appears with distinction in the Roman Itinerary and Episcopal lists.

 protected the passage of the river, and the second

 might fairly be described as a part of Memphis, or  
*Misrab*, was invested by the arms of the lieutenant  
 of Omar: A reinforcement of four thousand Sara-  
 cens soon arrived in his camp; and the military  
 engines, which battered the walls, may be imputed  
 to the art and labour of his Syrian allies. Yet the  
 siege was protracted to seven months; and the rash  
 invaders were encompassed and threatened by the  
 inundation of the Nile †. Their last assault was  
 bold and successful: They passed the ditch, which  
 had been fortified with iron spikes, applied their  
 scaling-ladders, entered the fortress with the shout  
 of "God is victorious!" and drove the remnant  
 of the Greeks to their boats and the isle of Rouda.  
 The spot was afterwards recommended to the con-

‡ The position of New and of Old Cairo is well known, and has been often described. Two writers who were intimately acquainted with ancient and modern Egypt, have fixed, after a learned inquiry, the city of Memphis at *Gizeh*, directly opposite the old Cairo, (Sicard, *Nouveaux Memoires des Missions du Levant*, tom. vi. p. 5, 6. Shaw's *Observations and Travels*, p. 296—304.) Yet we may not disregard the authority or the arguments of Pocock, (vol. i. p. 25—41.) Niebuhr, (*Voyage*, tom. i. 77.—106.) and, above all, of D'Anville, (*Description de l'Egypte*, p. 111, 112, 130—149.) who have removed Memphis towards the village of Mohannah, some miles farther to the south. In their heat, the disputants have forgot that the ample space of a metropolis covers and annihilates the far greater part of the controversy.

 LI. was assisted by the superstition and revolt of the  
 natives ; they abhorred their Persian oppressors, the disciples of the Magi, who had burnt the temples of Egypt, and feasted with sacrilegious appetite on the flesh of the god Apis \*. After a period of ten centuries the same revolution was renewed by a similar cause ; and in the support of an incomprehensible creed, the zeal of the Coptic Christians was equally ardent. I have already explained the origin and progress of the Monophysite controversy, and the persecution of the emperors, which converted a sect into a nation, and alienated Egypt from their religion and government. The Saracens were received as the deliverers of the Jacobite church ; and a secret and effectual treaty was opened during the siege of Memphis, between a victorious army and a people of slaves. A rich and noble Egyptian, of the name of Mokawkas, had dissembled his faith to obtain the administration of his province : In the disorders of the Persian war he aspired to independence ; the embassy of Mahomet ranked him among princes ; but he declined, with rich gifts and ambiguous compliments, the proposal of a new religion †. his trust exposed him to the resentment of Heraclius; his submission was delayed by arrogance and fear; and his conscience was prompted by interest to throw himself on the favour of the nation and the support of the Saracens. In his first conference with Amrou, he heard without indignation the usual option of the Koran, the tribute, or the sword. "The Greeks," replied Mokawkas, "are determined to abide the determination of the sword; but with the Greeks I desire no communion, either in this world or in the next, and I abjure for ever the Byzantine tyrant, his synod of Chalcedon, and his Melchite slaves. For myself and my brethren, we are resolved to live and die in the profession of the gospel and unity of Christ. It is impossible for us to embrace the revelations of your prophet; but we are desirous of peace, and cheerfully submit to pay tribute and obedience to his temporal successors." The tribute was ascertained at two pieces of gold for the head of every Christian; but old men, monks, women, and children, of both sexes, under sixteen years of age, were exempted from this personal assessment; the Copts above and below Memphis swore allegiance to the caliph, and promised an hospitable entertainment of three days to every Mussulman who should travel through their country. By the retreat of the Greeks from the provinces of Upper Egypt, a considerable force was collected in the island of Delta: The natural and artificial channels of the Nile afforded a succession of strong and defensible posts; and the road to Alexandria was laboriously cleared by the victory of the Saracens in two and twenty days of general or partial combat. In their annals of conquest, the siege of Alexandria \* is perhaps the most arduous and important enterprise. The first trading city in the world was abundantly replenished with the means of subsistence and defence. Her numerous inhabitants fought for the dearest of human rights, religion and property; and the enmity of the natives seemed to exclude them from the common benefit of peace and toleration. The sea was continually open; and if Heraclius had been awake to the public distress, fresh armies of Romans and Barbarians might have been poured into the harbour to save the second capital of the empire. A circumference of ten miles would have scattered the forces of the Greeks, and favoured the stratagems of an active enemy; but the two sides of an oblong square were covered by the sea and the lake Mæotis,

\* The local description of Alexandria is perfectly ascertained by the master hand of the first of geographers; (d'Anville, *Mémoire sur l'Égypte*, p. 52—63.) but we may borrow the eyes of the modern travellers, more especially of Thevenot, (*Voyage au Levant*, part i. p. 381—395.) Pocock, (vol. i. p. 2—13.) and Niebuhr, (*Voyage en Arabie*, tom. i. p. 34—43.) Of the two modern rivals, Savary and Volney, the one may amuse, the other will instruct.

**C H A P.** ræotis, and each of the narrow ends exposed a front  
**LI.** of no more than ten furlongs. The efforts of the  
 — Arabs were not inadequate to the difficulty of the  
 attempt and the value of the prize. From the  
 throne of Medina, the eyes of Omar were fixed on  
 the camp and city: His voice excited to arms the  
 Arabian tribes and the veterans of Syria; and the  
 merit of an holy war was recommended by the pe-  
 culiar fame and fertility of Egypt. Anxious for the  
 ruin or expulsion of their tyrants, the faithful na-  
 tives devoted their labours to the service of Amrou;  
 some sparks of martial spirit were perhaps rekindled  
 by the example of their allies; and the sanguine  
 hopes of Mokawkas had fixed his sepulchre in the  
 church of St John of Alexandria. Eutychius the  
 patriarch observes, that the Saracens fought with  
 the courage of lions; they repulsed the frequent and  
 almost daily sallies of the besieged, and soon assault-  
 ed in their turn the walls and towers of the city. In  
 every attack, the sword, the banner of Amrou, glit-  
 tered in the van of the Moslems. On a memorable  
 day, he was betrayed by his imprudent valour: His  
 followers who had entered the citadel were driven  
 back; and the general, with a friend and a slave,  
 remained a prisoner in the hands of the Christians.  
 When Amrou was conducted before the præfect,  
 he remembered his dignity and forgot his situation;  
 a lofty demeanour, and resolute language, revealed  
 the lieutenant of the caliph, and the battle-axe of a  
 soldier was already raised to strike off the head of  
 the audacious captive. His life was saved by the  
 readiness of his slave, who instantly gave his master  
 a blow on the face, and commanded him, with an  
 angry

angry tone, to be silent in the presence of his superiors. The credulous Greek was deceived; he listened to the offer of a treaty, and his prisoners were dismissed in the hope of a more respectable embassy, till the joyful acclamations of the camp announced the return of their general, and insulted the folly of the infidels. At length, after a siege of fourteen months \*, and the loss of three and twenty thousand men, the Saracens prevailed: The Greeks embarked their dispirited and diminished numbers, and the standard of Mahomet was planted on the walls of the capital of Egypt. “ I have taken,” said Amrou to the caliph, “ the great city of the West. It is impossible for me to enumerate the variety of its riches and beauty; and I shall content myself with observing, that it contains four thousand palaces, four thousand baths, four hundred theatres or places of amusement, twelve thousand shops for the sale of vegetable food, and forty thousand tributary Jews. The town has been subdued by force of arms, without treaty or capitulation, and the Moslems are impatient to seize the fruits of their victory †.” The commander of the faithful re-

 The intelligence of this disgraceful and calamitous  
 event afflicted the declining health of the emperor;  
 and Heraclius died of a dropsy about seven weeks  
 after the loss of Alexandria \*. Under the mino-  
 rity of his grandson, the clamours of a people, de-  
 prived of their daily sustenance, compelled the  
 Byzantine court to undertake the recovery of the  
 capital of Egypt. In the space of four years, the  
 harbour and fortifications of Alexandria were twice  
 occupied by a fleet and army of Romans. They  
 were twice expelled by the valour of Amrou, who  
 was recalled by the domestic peril from the distant  
 wars of Tripoli and Nubia. But the facility of  
 the attempt, the repetition of the insult, and the  
 obstinacy of the resistance, provoked him to swear,  
 that if a third time he drove the infidels into the  
 sea, he would render Alexandria as accessible on  
 all sides as the house of a prostitute. Faithful to  
 his promise, he dismantled several parts of the  
 walls

\* Notwithstanding some inconsistencies of Theophanes and Cedrenus, the accuracy of Pagi (*Critica*, tom. ii. p. 824.) has extracted from Nicephorus and the *Chronicon Orientale*, the true date of the death of Heraclius, February 11. I should deceive the expectation of the reader, if I passed in silence the fate of the Alexandrian library, as it is described by the learned Abulpharagius. The spirit of Amrou was more curious and liberal than that of his brethren, and in his leisure hours, the Arabian chief was pleased with the conversation of John, the last disciple of Ammonius, and who derived the surname of *Philoponus*, from his laborious studies of grammar and philosophy\*. Emboldened by this familiar intercourse, Philoponus presumed to solicit a gift, inestimable in *his* opinion, contemptible in that of the Barbarians; the royal library, which alone, among the spoils of Alexandria, had not been appropriated by the visit and the seal of the conqueror. Amrou was inclined to gratify the wish of the grammarian, but his rigid integrity refused to alienate the minutest object without the consent of the caliph; and the well-known answer of Omar was inspired by the ignorance of a fanatic. “ If these writings of the  
“ Greeks agree with the book of God, they are  
“ useless and need not be preserved; if they  
“ disagree, they are pernicious and ought to be  
F f 4 “ destroyed.”

\* Many treatises of this lover of labour (*φιλοπονους*) are still extant; but for readers of the present age, the printed and unpublished are nearly in the same predicament. Moses and Aristotle are the chief objects of his verbose commentaries, one of which is dated as early as May 10th, A. D. 617. (Fabric. Bibliot. Græc. tom. ix. p. 458—468.) A modern, (John Le Clerc) who sometimes assumed the same name, was equal to old Philoponus in diligence, and far superior in good sense and real knowledge.

 LI. blind obedience; the volumes of paper or parchment were distributed to the four thousand baths of the city; and such was their incredible multitude, that six months were barely sufficient for the consumption of this precious fuel. Since the Dynasties of Abulpharagius \* have been given to the world in a Latin version, the tale has been repeatedly transcribed; and every scholar, with pious indignation, has deplored the irreparable shipwreck of the learning, the arts, and the genius, of antiquity. For my own part, I am strongly tempted to deny both the fact and the consequences. The fact is indeed marvellous; "Read and wonder!" says the historian himself; and the solitary report of a stranger who wrote at the end of six hundred years on the confines of Media, is overbalanced by the silence of two annalists of a more early date, both Christians, both natives of Egypt, and the most ancient of whom, the patriarch Eutychius, has amply described the conquest of Alexandria †. The rigid sentence of Omar is repugnant to the sound and orthodox precept of the Mahometan casuists; they expressly declare, that the religious books of the Jews and Christians, which are ac-

A more destructive zeal may perhaps be attributed to the first successors of Mahomet; yet in this instance, the conflagration would have speedily expired in the deficiency of materials. I shall not recapitulate the disasters of the Alexandrian library, the involuntary flame that was kindled by Cæsar in his own defence †, or the mischievous bigotry of the Christians who studied to destroy the monuments of idolatry ‡. But if we gradually descend from the age of the Antonines to that of Theodosius, we shall learn from a chain of contemporary witnesses, that the royal palace and the temple of Serapis no longer contained the four, or the seven, hundred thousand volumes, which had been assembled by the curiosity and magnificence of the Ptolemies §. In the administration of Egypt \*, Amrou balanced the demands of justice and policy; the interest of the people of the law, who were defended by God; and of the people of the alliance, who were protected by man. In the recent tumult of conquest and deliverance, the tongue of the Copts and the sword of the Arabs were most adverse to the tranquillity of the province. To the former, Amrou declared, that faction and falsehood would be doubly chastised; by the punishment of the accusers, whom he should detest as his personal enemies, and by the promotion of their innocent brethren, whom their envy had laboured to injure and supplant. He excited the latter by the motives of religion and honour to sustain the dignity of their character, to endear themselves by a modest and temperate conduct to God and the caliph, to spare and protect a people who had trusted to their faith, and to content themselves with the legitimate and splendid rewards of their victory. In the management of the revenue he disapproved the simple but oppressive mode of a capitation, and preferred with reason a proportion of taxes, deducted

A third part of the tribute was appropriated to the annual repairs of the dykes and canals, so essential to the public welfare. Under his administration the fertility of Egypt supplied the dearth of Arabia; and a string of camels, laden with corn and provisions, covered almost without an interval the long road from Memphis to Medina \*. But the genius of Amrou soon renewed the maritime communication which had been attempted or atchieved by the Pharaohs, the Ptolemies, or the Cæsars; and a canal, at least eighty miles in length, was opened from the Nile to the Red Sea. This inland navigation, which would have joined the Mediterranean and the Indian ocean, was soon discontinued as useless and dangerous: The throne was removed from Medina to Damascus; and the Grecian fleets might have explored a passage to the holy cities of Arabia †.

Of his new conquest, the caliph Omar had an imperfect knowledge from the voice of fame and the legends of the Koran. He requested that his lieutenant would place before his eyes the realm of Pharaoh and the Amalekites; and the answer of Amrou exhibits a lively and not unfaithful picture of

 "deep yellow of a *golden* harvest \*." Yet this  
 beneficial order is sometimes interrupted; and the  
 long delay and sudden swell of the river in the first  
 year of the conquest might afford some colour to  
 an edifying fable. It is said, that the annual sa-  
 crifice of a virgin † had been interdicted by the  
 piety of Omar; and that the Nile lay sullen and  
 inactive in his shallow bed, till the mandate of the  
 caliph was cast into the obedient stream, which rose  
 in a single night to the height of sixteen cubits.  
 The admiration of the Arabs for their new con-

 spirit. We may read, in the gravest authors, that  
 Egypt was crowded with twenty thousand cities  
 or villages ‡; that, exclusive of the Greeks and  
 Arabs,

\* In a twenty years residence at Cairo, the consul Maillet had contemplated that varying scene, the Nile; (lettre ii. particularly p. 70. 75.) the fertility of the land, (lettre ix.) From a college at Cambridge, the poetic eye of Gray had *seen* the same objects with a keener glance:

What wonder in the sultry climes that spread,  
 Where Nile, redundant o'er his summer bed,  
 From his broad bosom life and verdure flings,  
 And broods o'er Egypt with his wat'ry wings;  
 If with advent'rous oar, and ready sail,  
 The dusky people drive before the gale;  
 Or on frail floats to neighbouring cities ride,  
 That rise and glitter o'er the ambient tide.

triangle of the Delta, a flat surface of two thousand  
one hundred square leagues, compose a twelfth  
part of the magnitude of France ‡. A more ac-

of four millions three hundred thousand pieces of  
gold,

His own emendation of 4,300,000 pieces, in the ninth century, maintains a probable medium between the 3,000,000 which the Arabs acquired by the conquest of Egypt, (*idem*, p. 168.) and the 2,400,000 which the sultan of Constantinople levied in the last century, (Pietro della Valle, tom. i. p. 352.; Thevenot, part i. p. 824.) Pauw, (*Recherches*, tom. ii. p. 365—373.) gradually raises the revenue of the Pharaohs, the Ptolemies, and the Cæsars, from six to fifteen millions of German crowns.

† The list of Schultens (*Index Geograph. ad calcem Vit. Saladin*. p. 5.) contains 2396 places; that of d'Anville, (*Mem. sur l'Egypte*, p. 29.) from the divan of Cairo, enumerates 2696.

‡ See Maillet, (*Description de l'Egypte*, p. 28.) who seems to argue with candour and judgment. I am much better satisfied with the observations than with the reading of the French consul. He was ignorant of Greek and Latin literature, and his fancy is too much delighted with the fictions of the Arabs. Their best knowledge is collected by Abulfeda, (*Descript. Ægypt. Arab. et Lat.* a Joh. David Michaelis, Gottingæ, in 4to, 1776,) and in two recent voyages into Egypt, we are amused by Savary, and instructed by Volney. I wish the latter could travel over the globe.

§ My conquest of Africa is drawn from two French interpreters of Arabic literature, Cardonne, (*Hist. de l'Afrique et de l'Espagne sous la Domination des Arabes*, tom. i. p. 8—55.) and Otter, (*Hist. de l'Academie des Inscriptions*, tom. xxi. p. 111—125. and 136.) arms of the caliph Othman. The pious design was approved by the companions of Mahomet and the chiefs of the tribes ; and twenty thousand Arabs marched from Medina, with the gifts and the blessing of the commander of the faithful. They were joined in the camp of Memphis by twenty thousand of their countrymen ; and the conduct of the war was entrusted to Abdallah \*, the son of Said, and the foster-brother of the caliph, who had lately supplanted the conqueror and lieutenant of Egypt. Yet the favour of the prince, and the merit of his favourite, could not obliterate the guilt of his apostacy. The early conversion of Abdallah, and his skilful pen, had recommended him to the important office of transcribing the sheets of the Koran ; he betrayed his trust, corrupted the text, derided the errors which he had made, and fled to Mecca to escape the justice, and expose the ignorance, of the apostle. After the conquest of Mecca, he fell prostrate at the feet of Mahomet ; his tears, and the entreaties of Othman, extorted a reluctant pardon ; but the prophet declared, that he had so long hesitated, to allow time for some zealous disciple to avenge his injury in the blood of the apostate. With apparent fidelity and effective merit, he served the religion which it

 might be impervious to a Roman legion ; but the  
 Arabs were attended by their faithful camels ; and  
 the natives of the desert beheld without terror the  
 familiar aspect of the soil and climate. After a  
 painful march, they pitched their tents before the

Venetia, 1550, fol. 76. *verso*.) and Marmol, (*Description de l'Afrique*, tom. ii. p. 562.) The first of these writers was a Moor, a scholar, and a traveller, who composed or translated his African geography in a state of captivity at Rome, where he had assumed the name and religion of pope Leo X. In a similar captivity among the Moors, the Spaniard Marmol, a soldier of Charles V. compiled his *Description of Africa*, translated by d'Ablancourt into French, (Paris, 1667, 3 vols. in 4to.) Marmol had read and seen, but he is destitute of the curious and extensive observation which abounds in the original work of Leo the African.

siege for the perils and the hopes of a decisive action. If his standard was followed by one hundred and twenty thousand men, the regular bands of the empire must have been lost in the naked and disorderly crowd of Africans and Moors, who formed the strength, or rather the numbers, of his host. He rejected with indignation the option of the Koran or the tribute; and during several days, the two armies were fiercely engaged from the dawn of light to the hour of noon, when their fatigue and the excessive heat compelled them to seek shelter and refreshment in their respective camps. The daughter of Gregory, a maid of incomparable beauty and spirit, is said to have fought by his side; from her earliest youth she was trained to mount on horseback, to draw the bow, and to wield the scymetar; and the richness of her arms and apparel was conspicuous in the foremost ranks of the battle. Her hand, with an hundred thousand pieces of gold, was offered for the head of the Arabian general, and the youths of Africa were excited by the prospect of the glorious prize. At the pressing solicitation of his brethren, Abdallah withdrew his person from the field; but the Saracens were discouraged by the retreat of their leader, and the repetition of these equal or unsuccessful conflicts.

Greeks, and pressed forwards without tasting  
either food or repose, to partake of the dangers of  
his brethren. He cast his eyes round the field :  
“ Where,” said he, “ is our general ? ” “ In

a blush the importance of his own life, and the

“ one hundred thousand pieces of gold.” To the  
courage and discretion of Zobeir the lieutenant  
of the caliph entrusted the execution of his own  
stratagem, which inclined the long-disputed ba-  
lance in favour of the Saracens. Supplying by  
activity and artifice the deficiency of numbers, a  
part of their forces lay concealed in their tents,  
while the remainder prolonged an irregular skir-  
mish with the enemy, till the sun was high in the  
heavens. On both sides they retired with fainting  
steps ; their horses were unbridled, their armour was  
laid aside, and the hostile nations prepared, or seem-

the encounter of the ensuing day. On a sudden, the  
charge was sounded ; the Arabian camp poured  
forth a swarm of fresh and intrepid warriors ; and

the long line of the Greeks and Africans was surprised, assaulted, overturned by new squadrons of the faithful, who, to the eye of fanaticism, might appear as a band of angels descending from the sky. The præfect himself was slain by the hand of Zobeir: His daughter, who sought revenge and death, was surrounded and made prisoner; and the fugitives involved in their disaster the town of Sufetula, to which they escaped from the sabres and lances of the Arabs. Sufetula was built one hundred and fifty miles to the south of Carthage: A gentle declivity is watered by a running stream, and shaded by a grove of Juniper trees; and, in the ruins of a triumphal arch, a portico, and three temples of the Corinthian order, curiosity may yet admire the magnificence of the Romans\*. After the fall of this opulent city, the provincials and Barbarians implored on all sides the mercy of the conqueror. His vanity or his zeal might be flattered by offers of tribute or professions of faith: But his losses, his fatigues, and the progress of an epidemical disease, prevented a solid establishment; and the Saracens, after a campaign of fifteen months, retreated to the confines of Egypt, with the captives and the wealth of their African expedition. The caliph's fifth was granted to a favourite, on the nominal payment of five hundred thousand pieces of gold†; but the state was

**LI.** each foot-soldier had shared one thousand, and  
 each horseman three thousand pieces, in the real division of the plunder. The author of the death of Gregory was expected to have claimed the most precious reward of the victory: From his silence it might be presumed that he had fallen in the battle, till the tears and exclamations of the præfect's daughter at the sight of Zobeir revealed the valour and modesty of that gallant soldier. The unfortunate virgin was offered, and almost rejected as a slave, by her father's murderer, who coolly declared that his sword was consecrated to the service of religion; and that he laboured for a recompense far above the charms of mortal beauty, or the riches of this transitory life. A reward congenial to his temper, was the honourable commission of announcing to the caliph Othman the success of his arms. The companions, the chiefs, and the people, were assembled in the mosch of Medina, to hear the interesting narrative of Zobeir; and, as the orator forgot nothing except the merit of his own counsels and actions, the name of Abdallah was joined by the Arabians with the heroic names of Caled and Amrou\*.

The western conquests of the Saracens were suspended near twenty years, till their dissensions were composed by the establishment of the house of Ommiyah; and the caliph Moawiyah was invited by the cries of the Africans themselves. The successors

cessors of Heraclius had been informed of the tribute which they had been compelled to stipulate with the Arabs ; but instead of being moved to pity and relieve their distress, they imposed, as an equivalent or a fine, a second tribute of a similar amount. The ears of the Byzantine ministers were shut against the complaints of their poverty and ruin ; their despair was reduced to prefer the dominion of a single master ; and the extortions of the patriarch of Carthage, who was invested with civil and military power, provoked the sectaries, and even the Catholics, of the Roman province, to abjure the religion as well as the authority of their tyrants. The first lieutenant of Moawiyah acquired a just renown, subdued an important city, defeated an army of thirty thousand Greeks, swept away fourscore thousand captives, and enriched with their spoils the bold adventurers of Syria and Egypt \*. But the title of conqueror of Africa is more justly due to his successor Akbah. He marched from Damascus at the head of ten thousand of the bravest Arabs ; and the genuine force of the Moslems was enlarged by the doubtful aid and conversion of many thousand Barbarians. It would be difficult, nor is it necessary, to trace the accurate line of the progress of Akbah. The interior regions have been peopled by the Orientals with fictitious armies and imaginary citadels. As we approach the sea-coast, the well-known cities of Bugia † and Tangier ‡ define the more certain limits of the Saracen victories. A remnant of trade still adheres to the commodious harbour of Bugia, which, in a more prosperous age, is said to have contained about twenty thousand houses ; and the plenty of iron, which is dug from the adjacent mountains, might have supplied a braver people with the instruments of defence. The remote position and venerable antiquity of Tingi, or Tangier, have been decorated by the Greek and Arabian fables ; but the figurative expressions of the latter, that the walls were constructed of brass, and that the roofs were covered with gold and silver, may be interpreted as the emblems of strength and opulence. The fearless Akbah plunged into the heart of the country, traversed the wilderness in which his successors erected the splendid capitals of Fez and Morocce †, and at length penetrated to the verge of the Atlantic and the great desert. The river Sus descends from the western sides of mount Atlas, fertilises, like the Nile, the adjacent soil, and falls into the sea at a moderate distance from the Canary, or Fortunate Islands. Its banks were inhabited

lived at the time of the final reduction of that country by the emperor Claudius: Yet almost thirty years afterwards, Pliny (Hist. Nat. v. 1.) complains of his authors, too lazy to inquire, too proud to confess their ignorance of that wild and remote province.

\* The foolish fashion of this citron wood prevailed at Rome among the men, as much as the taste for pearls among the women. A round board or table, four or five feet in diameter, sold for the price of an estate, (*latefundii taxatione*), eight, ten, or twelve thousand pounds Sterling; (Plin. Hist. Natur. xiii. 29.) I conceive that I must not confound the tree *citrus* with that of the fruit *citrum*. But I am not botanist enough to define the former (it is like the wild cypress) by the vulgar or Linnæan name; nor will I decide whether the *citrum* be the orange or the lemon. Salmasius appears to exhaust the subject, but he too often involves himself in the web of his disorderly erudition; (Plinian. Exercitat. tom. ii. p. 666, &c.)

† Leo African. fol. 16. verso. Marmol, tom. ii. p. 28. This province, the first scene of the exploits and greatness of the *cherifs*, is often mentioned in the curious history of that dynasty at the end of the third volume of Marmol, Description de l'Afrique. The third volume of the Recherches Historiques sur les Maures (lately published at Paris) illustrates the history and geography of the kingdoms of Fez and Morocco.

The career, though not the zeal, of Akbah, was checked by the prospect of a boundless ocean. He spurred his horse into the waves, and raising his eyes to heaven, exclaimed with the tone of a fanatic: "Great God! if my course were not stopped by this sea, I would still go on, to the unknown kingdoms of the West, preaching the unity of thy holy name, and putting to the sword the rebellious nations who worship any other gods than thee \*." Yet this Mahometan Alexander, who sighed for new worlds, was unable to preserve his recent conquests. By the universal defection of the Greeks and Africans, he was recalled from the shores of the Atlantic, and the surrounding multitudes left him only the resource of an honourable death. The last scene was dignified by an example of national virtue. An ambitious chief, who had disputed the command, and failed in the attempt, was led about as a prisoner in the camp of the Arabian general. The insurgents had trusted to his discontent and revenge; he disdained their offers, and revealed their designs. In the hour

 fetters, and advised him to retire; he chose to die  
 under the banner of his rival. Embracing as  
 friends and martyrs, they unsheathed their scy-  
 metars, broke their scabbards, and maintained an  
 obstinate combat, till they fell by each other's  
 side on the last of their slaughtered countrymen.  
 The third general or governor of Africa, Zuheir,  
 avenged and encountered the fate of his prede-  
 cessor. He vanquished the natives in many  
 battles; he was overthrown by a powerful army,  
 which Constantinople had sent to the relief of  
 Carthage.

It had been the frequent practice of the Moorish  
 tribes to join the invaders, to share the plunder,  
 to profess the faith, and to revolt to their savage  
 state of independence and idolatry, on the first re-  
 treat or misfortune of the Moslems. The prudence  
 of Akbah had proposed to found an Arabian co-  
 lony in the heart of Africa; a citadel that might  
 curb the levity of the barbarians, a place of re-  
 fuge to secure, against the accidents of war, the  
 wealth and the families of the Saracens. With  
 this view, and under the modest title of the station  
 of a caravan, he planted this colony in the fiftieth  
 year of the Hegira. In its present decay, Cai-

 wild beasts and serpents were extirpated, when the  
 forest, or rather wilderness, was cleared, the ves-

 plain ; the vegetable food of Cairoan is brought  
 from afar ; and the scarcity of springs constrains  
 the inhabitants to collect in cisterns and reservoirs  
 a precarious supply of rain-water. These obstacles  
 were subdued by the industry of Akbah ; he trac-  
 ed a circumference of three thousand and six  
 hundred paces, which he encompassed with a  
 brick-wall ; in the space of five years, the gover-  
 nor's palace was surrounded with a sufficient num-

 supported by five hundred columns of granite,  
 porphyry, and Numidian marble ; and Cairoan  
 became the seat of learning as well as of empire.  
 But these were the glories of a later age ; the new  
 colony was shaken by the successive defeats of  
 Akbah and Zuheir, and the western expeditions  
 were again interrupted by the civil discord of the

Conquest  
of Car-

A. D.  
692—698.

The return of domestic peace allowed the caliph Abdalmalek to resume the conquest of Africa ; the standard was delivered to Hassan governor of Egypt, and the revenue of that kingdom, with an army of forty thousand men, was consecrated to the important service. In the vicissitudes of war, the interior provinces had been alternately won and lost by the Saracens. But the sea-coast still remained in the hands of the Greeks ; the predecessors of Hassan had respected the name and fortifications of Carthage ; and the number of its defenders was recruited by the fugitives of Cades and Tripoli. The arms of Hassan were bolder and more fortunate ; he reduced and pillaged the metropolis of Africa ; and the mention of scaling-ladders may justify the suspicion that he anticipated, by a sudden assault, the more tedious operations of a regular siege. But the joy of the conquerors was soon disturbed by the appearance of the Christian succours. The præfect and patrician John, a general of experience and renown, embarked at Constantinople the forces of the Eastern empire † ; they were joined by the ships and

The weight of the confederate navy broke the chain that guarded the entrance of the harbour; the Arabs retired to Cairoan, or Tripoli; the Christians landed; the citizens hailed the ensign of the cross, and the winter was idly wasted in the dream of victory or deliverance. But Africa was irrecoverably lost: The zeal and resentment of the commander of the faithful † prepared in the ensuing spring a more numerous armament by sea and land; and the patrician in his turn was compelled to evacuate the post and fortifications of Carthage. A second battle was fought in the neighbourhood of Utica: The Greeks and Goths were again defeated; and their timely embarkation saved them from the sword of Hassan, who

The patriarch of Constantinople, with Theophanes, (Chronograph. p. 309.) have slightly mentioned this last attempt for the relief of Africa. Pagi (Critica, tom. iii. p. 129. 141.) has nicely ascertained the chronology by a strict comparison of the Arabic and Byzantine historians, who often disagree both in time and fact. See likewise a note of Otter, (p. 121.)

Whatever yet remained of Carthage was delivered to the flames, and the colony of Dido \* and Cæsar lay desolate above two hundred years, till a part, perhaps a twentieth, of the old circumference, was repeopled by the first of the Fatimite caliphs. In the beginning of the sixteenth century, the second capital of the West was represented by a mosch, a college without students, twenty-five or thirty shops, and the huts of five hundred peasants, who, in their abject poverty, displayed the arrogance of the Punic senators. Even that paltry village was swept away by the Spaniards whom Charles the Fifth had stationed in the fortress of the Goletta. The ruins of Carthage have perished; and the place might be unknown, if some broken arches of an aqueduct did not guide the footsteps of the inquisitive traveller †.

The former of these accounts, which gives 823 years before Christ, is more consistent with the well-weighed testimony of Velleius Paterculus: But the latter is preferred by our chronologists, (Marsham, Canon. C H A P. under the first Cæsars, so formidable to the Byzantine princes, maintained a disorderly resistance to the religion and power of the successors of Mahomet. Under the standard of their queen Cahina the independent tribes acquired some degree of union and discipline ; and as the Moors respected in their females the character of a prophetess, they attacked the invaders with an enthusiasm similar to their own. The veteran bands of Hassan were inadequate to the defence of Africa ; the conquests of an age were lost in a single day ; and the Arabian chief, overwhelmed by the torrent, retired to the confines of Egypt, and expected, five years, the promised succours of the caliph. After the retreat of the Saracens, the victorious prophetess assembled the Moorish chiefs, and recommended a measure of strange and savage policy. “ Our cities,” said she, “ and the gold and silver which they contain, perpetually attract the arms of the Arabs. These vile metals are not the objects of *our* ambition ; we content ourselves with the

From the time, at least, of Herodotus, it was extended to *all* the nations who were strangers to the language and manners of the Greeks. 3. In the age of Plautus, the Romans submitted to the insult, (Pompeius Festus, l. ii. p. 48. edit. Dacier,) and freely gave themselves the name of Barbarians. They insensibly claimed an exemption for Italy, and her subject provinces ; and at length removed the disgraceful appellation to the savage or hostile nations beyond the pale of the empire. 4. In every sense, it was due to the Moors ; the familiar word was borrowed from the Latin provincials by the Arabian conquerors, and has justly settled as a local denomination (Barbary) along the northern coast of Africa.

 “ these cities; let us bury in their ruins those per-  
 “ nicious treasures; and when the avarice of our  
 “ foes shall be destitute of temptation, perhaps  
 “ they will cease to disturb the tranquillity of a  
 “ warlike people.” The proposal was accepted  
 with unanimous applause. From Tangier to Tri-  
 poli the buildings, or at least the fortifications,  
 were demolished, the fruit-trees were cut down,  
 the means of subsistence were extirpated, a fertile  
 and populous garden was changed into a desert,  
 and the historians of a more recent period could  
 discern the frequent traces of the prosperity and  
 devastation of their ancestors. Such is the tale of  
 the modern Arabians. Yet I strongly suspect that  
 their ignorance of antiquity, the love of the mar-  
 vellous, and the fashion of extolling the philoso-  
 phy of Barbarians, has induced them to describe,  
 as one voluntary act, the calamities of three hun-  
 dred years since the first fury of the Donatists  
 and Vandals. In the progress of the revolt Ca-  
 hina had most probably contributed her share of  
 destruction; and the alarm of universal ruin might  
 terrify and alienate the cities that had reluctantly  
 yielded to her unworthy yoke. They no longer  
 hoped, perhaps they no longer wished, the return  
 of their Byzantine sovereigns: Their present ser-  
 vitude was not alleviated by the benefits of order  
 and justice; and the most zealous Catholic must  
 prefer the imperfect truths of the Koran to the  
 blind and rude idolatry of the Moors. The ge-  
 neral of the Saracens was again received as the  
 saviour of the province: The friends of civil so-

C H A P. ciety conspired against the savages of the land;  
 LI. and the royal prophetess was slain in the first battle, which overturned the baseless fabric of her superstition and empire. The same spirit revived under the successor of Hassan; it was finally quelled by the activity of Musa and his two sons; but the number of the rebels may be presumed from that of three hundred thousand captives; sixty thousand of whom, the caliph's fifth, were sold for the profit of the public treasury. Thirty thousand of the Barbarian youth were enlisted in the troops; and the pious labours of Musa to inculcate the knowledge and practice of the Koran, accustomed the Africans to obey the apostle of God and the commander of the faithful. In their climate and government, their diet and habitation, the wandering Moors resembled the Bedoweens of the desert. With the religion, they were proud to adopt the language, name, and origin of Arabs; the blood of the strangers and natives was insensibly mingled; and from the Euphrates to the Atlantic the same nation might seem to be diffused over the sandy plains of Asia and Africa. Yet I will not deny that fifty thousand tents of pure Arabians might be transported over the Nile, and scattered through the Lybian desert; and I am not ignorant that five of the Moorish tribes still retain their *barbarous* idiom, with the appellation and character of *white* Africans \*.

 ana,) the stile and spirit of a Roman classic; and after the  
 twelfth century, his knowledge and judgment may be safely  
 trusted. But the Jesuit is not exempt from the prejudices of  
 his order; he adopts and adorns, like his rival Buchanan, the  
 most absurd of the national legends; he is too careless of criti-  
 cism and chronology, and supplies, from a lively fancy, the  
 chasms of historical evidence. These chasms are large and  
 frequent; Roderic, archbishop of Toledo, the father of the  
 Spanish history, lived five hundred years after the conquest of  
 the Arabs; and the more early accounts are comprised in some  
 meagre lines of the blind chronicles of Isidore of Badajoz,

The monarchy was still elective; but the sons of Witiza, educated on the steps of the throne, were impatient of a private station. Their resentment was the more dangerous, as it was varnished with the dissimulation of courts; their followers were excited by the remembrance of favours and the promise of a revolution; and their uncle Oppas, archbishop of Toledo and Seville, was the first person in the church, and the second in the state. It is probable that Julian was involved in the disgrace of the unsuccessful faction, that he had little to hope and much to fear from the new reign; and that the imprudent king could not forget or forgive the injuries which Roderic and his family had sustained. The merit and influence of the count rendered him an useful or formidable subject; his estates were ample, his followers bold and numerous, and it was too fatally shewn, that, by his Andalusian and Mauritanian commands, he held in his hand the keys of the Spanish monarchy. Too feeble, however, to meet his sovereign in arms, he sought the aid of a foreign power; and his rash invitation of the Moors and Arabs produced the calamities of eight hundred years. The Goths were no longer the victorious Barbarians who had humbled the pride of Rome, despoiled the queen of nations, and penetrated from the Danube to the Atlantic ocean. Secluded from the world by the Pyrenæan mountains, the successors of Alaric had slumbered in a long peace ; the walls of the cities were mouldered into dust ; the youth had abandoned the exercise of arms ; and the presumption of their ancient renown would expose them in a field of battle to the first assault of the invaders. The ambitious Saracen was fired by the ease and importance of the attempt ; but the execution was delayed till he had consulted the commander of the faithful ; and his messenger returned with the permission of Walid to annex the unknown kingdoms of the West to the religion and throne of the caliphs. In his residence of Tangier, Musa, with secrecy and caution, continued his correspondence and hastened his preparations. But the remorse of the conspirators was soothed by the fallacious assurance that he should content himself with the glory and spoil, without aspiring to establish the Moslems beyond the sea that separates Africa from Europe \*.

Before Musa would trust an army of the faithful to the traitors and infidels of a foreign land, he made a less dangerous trial of their strength and veracity. One hundred Arabs, and four hundred Africans, passed over, in four vessels, from Tangier or Ceuta; the place of their descent on the opposite shore of the streight, is marked by the name of Tarif their chief; and the date of this memorable event \* is fixed to the month of Ramadan, of the ninety-first year of the Hegira, to the month of July, seven hundred and forty-eight years from the Spanish æra of Cæsar †, seven hundred and ten after the birth of Christ. The librarian of the Escorial has not satisfied my hopes; yet he appears to have searched with diligence his broken materials; and the history of the conquest is illustrated by some valuable fragments of the *genuine* Razis, (who wrote at Corduba, A. H. 300,) of Ben Hazil, &c. See Bibliot. Arabico Hispana, tom. ii. p. 32. 105, 106. 182. 252. 319—332. On this occasion, the industry of Pagi has been aided by the Arabic learning of his friend the Abbé de Longuerue, and to their joint labours I am deeply indebted.

\* A mistake of Roderic of Toledo, in comparing the lunar years of the Hegira with the Julian years of the Æra, has determined Baronius, Mariana, and the crowd of Spanish historians, to place the first invasion in the year 713, and the battle of Xeres in November 714. This anachronism of three years has been detected by the more correct industry of modern chronologists, above all, of Pagi, (*Critica*, tom. iii. p. 169, 171—174.) who have restored the genuine state of the revolution. At the present time an Arabian scholar, like Cardonne, who adopts the ancient error, (tom. i. p. 75.) is inexcusably ignorant or careless.

† The Æra of Cæsar, which in Spain was in legal and popular use till the fourteenth century, begins thirty-eight years before the birth of Christ. I would refer the origin to the general peace by sea and land, which confirmed the power and *partition* of the triumvirs. (Dion. Cassius, l. xlviii. p. 547. 553. Appian de Bell. Civil. l. v. p. 1034. edit. fol.) Spain was a province of Cæsar Octavian; and Tarragona, which raised the first temple to Augustus, (Tacit. Annal. i. 78.) might borrow from the Orientals this mode of flattery.

 their standard, their inroad into a fertile and un-  
 guarded province, the richness of their spoil and  
 the safety of their return, announced to their  
 brethren the most favourable omens of victory.  
 In the ensuing spring, five thousand veterans and  
 volunteers were embarked under the command of  
 Tarik, a dauntless and skilful soldier, who sur-  
 passed the expectation of his chief; and the ne-  
 cessary transports were provided by the industry  
 of their too faithful ally. The Saracens landed †

 familiar appellation of Gibraltar (*Gebel al Tarik*)  
 describes the mountain of Tarik; and the intrench-  
 ments of his camp were the first outline of those  
 fortifications, which, in the hands of our coun-  
 trymen, have resisted the art and power of the  
 house of Bourbon. The adjacent governors in-

Roderic of the magnitude of the danger. At the royal summons, the dukes and counts, the bishops and nobles of the Gothic monarchy, assembled at the head of their followers; and the title of king of the Romans, which is employed by an Arabic historian, may be excused by the close affinity of language, religion, and manners, between the nations of Spain. His army consisted of ninety or an hundred thousand men; a formidable power, if their fidelity and discipline had been adequate to their numbers. The troops of Tarik had been augmented to twelve thousand Saracens; but the Christian malecontents were attracted by the influence of Julian, and a crowd of Africans most greedily tasted the temporal blessings of the Koran. In the neighbourhood of Cadiz, the town of Xeres \* has been illustrated by the encounter which determined the fate of the kingdom; the stream of the Guadalete, which falls into the bay, divided the two camps, and marked the advancing and retreating skirmishes of three successive and bloody days. On the fourth day, the two armies joined a more serious and decisive issue; but Alaric would have blushed at the sight of his unworthy successor, sustaining on his head a diadem of pearls, incumbered with a flowing robe of gold and silken embroidery, and reclining on a litter, or car of ivory, drawn by two white mules.  “prostrate king of the Romans.” Besides the resource of despair, he confided in the secret correspondence and nocturnal interviews of count Julian, with the sons and the brother of Witiza. The two princes and the archbishop of Toledo occupied the most important post; their well-timed defection broke the ranks of the Christians; each warrior was prompted by fear or suspicion to consult his personal safety; and the remains of the Gothic army were scattered or destroyed in the flight and pursuit of the three following days. Amidst the general disorder, Roderic started from his car, and mounted Orelia, the fleetest of his horses; but he escaped from a soldier’s death to perish more ignobly in the waters of the Boëtis or Guadalquivir. His diadem, his robes, and his courser, were found on the bank; but as the body of the Gothic prince was lost in the waves, the pride and ignorance of the caliph must have been gratified with some meaner head, which was exposed in triumph before the palace of Damascus. “And such,” continues a valiant historian of the Arabs, “is the fate of those kings who withdraw  
 “themselves from a field of battle \*.”

Ruin of  
the Gothic  
monar-  
chy,  
A.D. 711,

Count Julian had plunged so deep into guilt and infamy, that his only hope was in the ruin of his country. After the battle of Xeres he recommended the most effectual measures to the victorious Saracen. "The king of the Goths is slain ; " their princes are fled before you, the army is " routed, the nation is astonished. Secure with " sufficient detachments the cities of Boetica ; but " in person, and without delay, march to the " royal city of Toledo, and allow not the dis- " tracted Christians either time or tranquillity for " the election of a new monarch." Tarik listened to his advice. A Roman captive and proselyte, who had been enfranchised by the caliph himself, assaulted Cordova with seven hundred horse ; he swam the river, surprised the town, and drove the Christians into the great church, where they defended themselves above three months. Another detachment reduced the sea-coast of Boetica, which in the last period of the Moorish power has comprised in a narrow space the populous kingdom of Grenada. The march of Tarik from the Boetis to the Tagus \*, was directed through the Sierra Morena, that separates Andalusia

tom. ii. p. 327. Some credulous Spaniards believe that king Roderic, or Roderigo, escaped to an hermit's cell ; and others, that he was cast alive into a tub full of serpents, from whence he exclaimed, with a lamentable voice, " they devour the part with which I have so grievously sinned." (Don Quixote, part ii. l. iii. c. i.)

\* The direct road from Corduba to Toledo was measured by Mr Swinburne's mules in  $72\frac{1}{2}$  hours ; but a larger computation must be adopted for the slow and devious marches of an army. The Arabs traversed the province of La Mancha, which the pen of Cervantes has transformed into classic ground to the reader of every nation.

**C H A P.** Lusitania and Castille, till he appeared in arms under  
**LI.** the walls of Toledo \*. The most zealous of the  
 Catholics had escaped with the relics of their  
 saints; and if the gates were shut, it was only till  
 the victor had subscribed a fair and reasonable capi-  
 tulation. The voluntary exiles were allowed to de-  
 part with their effects; seven churches were appro-  
 priated to the Christian worship; the archbishop  
 and his clergy were at liberty to exercise their  
 functions, the monks to practise or neglect their  
 penance; and the Goths and Romans were left  
 in all civil and criminal cases to the subordinate  
 jurisdiction of their own laws and magistrates. But  
 if the justice of Tarik protected the Christians,  
 his gratitude and policy rewarded the Jews, to  
 whose secret or open aid he was indebted for his  
 most important acquisitions. Persecuted by the  
 kings and synods of Spain, who had often pressed  
 the alternative of banishment or baptism, that  
 outcast nation embraced the moment of revenge;  
 the comparison of their past and present state was  
 the pledge of their fidelity; and the alliance be-  
 tween the disciples of Moses and of Mahomet,  
 was maintained till the final æra of their common  
 expulsion. From the royal seat of Toledo, the  
 Arabian leader spread his conquests to the north,

 the maritime town of Gijon was the term † of the  
 lieutenant of Musa, who had performed, with the  
 speed of a traveller, his victorious march, of seven  
 hundred miles, from the rock of Gíbraltar to the  
 bay of Biscay. The failure of land compelled  
 him to retreat; and he was recalled to Toledo,  
 to excuse his presumption of subduing a kingdom in  
 the absence of his general. Spain, which in a more  
 savage and disorderly state, had resisted, two hun-  
 dred years, the arms of the Romans, was over-  
 run in a few months by those of the Saracens;  
 and such was the eagerness of submission and treaty,  
 that the governor of Cordova is recorded as the  
 only chief who fell, without conditions, a pri-  
 soner into their hands. The cause of the Goths  
 had been irrevocably judged in the field of Xeres;

\* In the *Historia Arabum*, (c. 9. p. 17. ad calcem Elmacin,) Roderic of Toledo describes the emerald tables, and inserts the name of Medinat Almeyda in Arabic words and letters. He appears to be conversant with Mahometan writers; but I cannot agree with M. de Guignes, (*Hist. des Huns*, tom. i. p. 350,) that he had read and transcribed Novairi; because he was dead an hundred years before Novairi composed his history. This mistake is founded on a still grosser error. M. de Guignes confounds the historian Roderic Ximenes, archbishop of Toledo in the thirteenth century, with cardinal Ximenes who governed Spain in the beginning of the sixteenth, and was the subject, not the author, of historical compositions.

† Tarik might have inscribed on the last rock, the boast of Regnard and his companions in their Lapland journey, "*Hic tandem stetimus, nobis ubi desuit orbis.*"

C H A P. harchy declined a contest with the antagonist who  
 LI. had vanquished the united strength of the whole\*.

— That strength had been wasted by two successive seasons of famine and pestilence; and the governors, who were impatient to surrender, might exaggerate the difficulty of collecting the provisions of a siege. To disarm the Christians, superstition likewise contributed her terrors; and the subtle Arab encouraged the report of dreams, omens, and prophecies, and of the portraits of the destined conquerors of Spain, that were discovered on breaking open an apartment of the royal palace. Yet a spark of the vital flame was still alive; some invincible fugitives preferred a life of poverty and freedom in the Austrian vallies; the hardy mountaineers repulsed the slaves of the caliph; and the sword of Pelagius has been transformed into the sceptre of the catholic kings †.

Conquest  
 of Spain  
 by Musa,  
 A. D. 712,  
 718.

On the intelligence of this rapid success, the applause of Musa degenerated into envy; and he began, not to complain, but to fear that Tarik would leave him nothing to subdue. At the head of ten thousand Arabs and eight thousand Africans, he passed over in person from Mauritania to Spain; the first of his companions were the noblest of the  
 Koreish ;

\* Such was the argument of the traitor Oppas, and every chief to whom it was addressed did not answer with the spirit of Pelagius: *Omnis Hispania dudum sub uno regimine Gothorum, omnis exercitus Hispaniæ in uno congregatus Ismaelitarum non valuit sustinere impetum.* Chron. Alphonsi Regis apud Pagi, tom. iii. p. 177.

Koreish; his eldest son was left in the command of Africa; the three younger brethren were of an age and spirit to second the boldest enterprises of their father. At his landing in Algezire, he was respectfully entertained by count Julian, who stifled his inward remorse, and testified, both in words and actions, that the victory of the Arabs had not impaired his attachment to their cause. Some enemies yet remained for the sword of Musa. The tardy repentance of the Goths had compared their own numbers and those of the invaders; the cities from which the march of Tarik had declined, considered themselves as impregnable; and the bravest patriots defended the fortifications of Seville and Merida. They were successively besieged and reduced by the labour of Musa, who transported his camp from the Boëtis to the Anas, from the Guadalquivir to the Guadiana. When he beheld the works of Roman magnificence, the bridge, the aqueducts, the triumphal arches, and the theatre, of the ancient metropolis of Lusitania, "I should imagine," said he to his four companions, "that the human race must have united their art and power in the foundation of this city; happy is the man who shall become its master!" He aspired to that happiness, but the *Emeritans* sustained on this occasion the honour of their descent from the veteran legionaries of Augustus \*. Dis-

\* The honourable relics of the Cantabrian war (Dion. Cassius, l. liii. p. 720.) were planted in this metropolis of Lusitania, perhaps of Spain, (submittit cui tota suos Hispania fasces.) Nonius (Hispania, c. 31. p. 106—110.) enumerates the ancient

 cade rising from the shelter of a quarry, or a ruin, chastised their indiscretion and intercepted their return. The wooden turrets of assault were rolled forwards to the foot of the rampart; but the defence of Merida was obstinate and long; and the *castle of the martyrs* was a perpetual testimony of the losses of the Moslems. The constancy of the besieged was at length subdued by famine and despair; and the prudent victor disguised his impatience under the names of clemency and esteem. The alternative of exile or tribute was allowed; the churches were divided between the two religions; and the wealth of those who had fallen in the siege, or retired to Gallicia, was confiscated as the reward of the faithful. In the midway between Merida and Toledo, the lieutenant of Musa saluted the vicegerent of the caliph, and conducted him to the palace of the Gothic kings. Their first interview was cold and formal; a rigid account was exacted of the treasures of Spain; the character of Tarik was exposed to suspicion and obloquy; and the hero was imprisoned, reviled, and ignominiously scourged by the hand, or the command of Musa. Yet so strict was the discipline, so pure the zeal, or so tame the spirit, of the primitive Moslems, that after this public indignity, Tarik could serve and be trusted in the reduction of the Tarragonese province. A mosch was erected at Saragossa, by the

The exploits of Musa were performed in the evening of life, though he affected to disguise his age, by colouring with a red powder the whiteness of his beard. But in the love of action and glory, his breast was still fired with the ardour of youth ; and the possession of Spain was considered only as the first step to the monarchy of Europe. With a powerful armament by sea and land, he was preparing to repass the Pyrenees, to extinguish in Gaul and Italy the declining kingdoms of the Franks and Lombards, and to preach the unity of God on the altar of the Vatican. From thence subduing the Barbarians of Germany, he proposed to follow the course of the Danube from its source to the Euxine Sea, to overthrow the Greek or Roman empire of Constantinople, and returning from Europe to Asia, to unite his new acquisitions with Antioch and the provinces of Syria \*. **C H A P.** terprise, perhaps of easy execution, must have  
**LI.** seemed extravagant to vulgar minds; and the vi-  
 sionary conqueror was soon reminded of his de-  
 pendence and servitude. The friends of Tarik had  
 effectually stated his services and wrongs : At the  
 court of Damascus, the proceedings of Musa were  
 blamed, his intentions were suspected, and his de-  
 lay in complying with the first invitation was chas-  
 tised by an harsher and more peremptory summons.  
 An intrepid messenger of the caliph entered his  
 camp at Lugo in Gallicia, and in the presence of  
 the Saracens and Christians, arrested the bridle of  
 his horse. His own loyalty, or that of his troops,  
 inculcated the duty of obedience ; and his disgrace  
 was alleviated by the recal of his rival, and the  
 permission of investing with his two governments  
 his two sons, Abdallah and Abdelaziz. His long  
 triumph from Ceuta to Damascus displayed the  
 spoils of Afric and the treasures of Spain ; four  
 hundred Gothic nobles, with gold coronets and  
 girdles, were distinguished in his train : And the  
 number of male and female captives, selected for  
 their birth or beauty, was computed at eighteen,  
 or even at thirty, thousand persons. As soon as  
 he reached Tiberias in Palestine, he was apprised  
 of the sickness and danger of the caliph, by a pri-  
 vate message from Soliman, his brother and pre-  
 sumptive heir ; who wished to reserve for his own  
 reign the spectacle of victory. Had Walid re-  
 covered, the delay of Musa would have been cri-

minal : He pursued his march, and found an enemy on the throne. In his trial before a partial judge, against a popular antagonist, he was convicted of vanity and falsehood ; and a fine of two hundred thousand pieces of gold either exhausted his poverty, or proved his rapaciousness. The unworthy treatment of Tarik was revenged by a similar indignity ; and the veteran commander, after a public whipping, stood a whole day in the sun before the palace gate, till he obtained a decent exile, under the pious name of a pilgrimage to Mecca. The resentment of the caliph might have been satiated with the ruin of Musa ; but his fears demanded the extirpation of a potent and injured family. A sentence of death was intimated with secrecy and speed to the trusty servants of the throne both in Africa and Spain ; and the forms, if not the substance, of justice, were superseded in this bloody execution. In the mosch or palace of Cordova, Abdelaziz was slain by the swords of the conspirators ; they accused their governor of claiming the honours of royalty ; and his scandalous marriage with Egilona, the widow of Roderic, offended the prejudices both of the Christians and Moslems. By a refinement of cruelty, the head of the son was presented to the father, with an insulting question, whether he acknowledged the features of the rebel ? “ I know his features,” he exclaimed with indignation : “ I assert his innocence ; and “ I imprecate the same, a juster fate, against the “ authors of his death.” The age and despair of Musa raised him above the power of kings ; and

C H A P. he expired at Mecca of the anguish of a broken

 { services were forgiven ; and Tarik was permitted  
 to mingle with the crowd of slaves \*. I am ignorant whether count Julián was rewarded with the death which he deserved indeed, though not from the hands of the Saracens ; but the tale of their ingratitude to the sons of Witiza is disproved by the most unquestionable evidence. The two royal youths were reinstated in the private patrimony of their father ; but on the decease of Eba the elder, his daughter was unjustly despoiled of her portion by the violence of her uncle Sigebut. The Gothic maid pleaded her cause before the caliph Hasheim, and obtained the restitution of her inheritance ; but she was given in marriage to a noble Arabian, and their two sons, Isaac and Ibrahim, were received in Spain with the consideration that was due to their origin and riches.

 Spain under the

A province is assimilated to the victorious state by the introduction of strangers and the imitative spirit of the natives ; and Spain, which had been successively tinctured with Punic, and Roman, and Gothic blood, imbibed, in a few generations, the name and manners of the Arabs. The first conquerors, and the twenty successive lieutenants of the caliphs,

\* I much regret our loss, or my ignorance, of two Arabic works of the eighth century, a *Life of Musa*, and a *Poem on the Exploits of Tarik*. Of these authentic pieces, the former was composed by a grandson of Musa, who had escaped from the massacre of his kindred ; the latter by the Vizir of the first Abdalrahman, caliph of Spain, who might have conversed with some of the veterans of the conqueror ; (*Bibliot. Arabico-Hispana*, tom. ii. p. 36. 139.)

caliphs were attended by a numerous train of civil and military followers, who preferred a distant fortune to a narrow home : The private and public interest was promoted by the establishment of faithful colonies ; and the cities of Spain were proud to commemorate the tribe or country of their Eastern progenitors. The victorious though motley bands of Tarik and Musa, asserted, by the name of *Spaniards*, their original claim of conquest ; yet they allowed their brethren of Egypt to share their establishments of Murcia and Lisbon. The royal legion of Damascus was planted at Cordova ; that of Emesa at Seville ; that of Kinnisrin or Chalcis at Jaen ; that of Palestine at Algezire and Medina Sidonia. The natives of Yemen and Persia were scattered round Toledo and the inland country ; and the fertile seats of Grenada were bestowed on ten thousand horsemen of Syria and Irak, the children of the purest and most noble of the Arabian tribes \*. A spirit of emulation, sometimes beneficial, more frequently dangerous, was nourished by these hereditary factions. Ten years after the conquest, a map of the province was presented to the caliph : The seas, the rivers, and the har-

— In the space of two centuries, the gifts of nature were improved by the agriculture †, the manufactures, and the commerce of an industrious people; and the effects of their diligence have been magnified by the idleness of their fancy. The first of the Ommiades who reigned in Spain solicited the support of the Christians; and, in his edict of peace and protection, he contents himself with a modest imposition of ten thousand ounces of gold, ten thousand pounds of silver, ten thousand horses, as many mules, one thousand cuirasses, with an equal number of helmets and lances ‡. The most powerful of his successors derived from the same kingdom the annual tribute of twelve millions and forty-five thousand dinars or pieces of gold,

† A copious treatise of husbandry, by an Arabian of Seville, in the xiith century, is in the Escorial library, and Casiri had some thoughts of translating it. He gives a list of the authors quoted, Arabs as well as Greeks, Latins, &c.; but it is much if the Andalusian saw these strangers through the medium of his countryman Columella, (Casiri, Bibliot. Arabico-Hispana, tom. i. p. 333—338.)

‡ Bibliot. Arabico-Hispana, tom. ii. p. 104. Casiri translates the original testimony of the historian Rasis, as it is alleged in the Arabic Biographia Hispanica, pars ix. But I am most exceedingly surprised at the address, Principibus cæterisque Christianis Hispanis suis *Castellæ*. The name of *Castellæ* was unknown in the viith century; the kingdom was not erected till the year 1022, an hundred years after the time of Rasis, (Bibliot. tom. ii. p. 330.) and the appellation was always expressive, not of a tributary province, but of a line of *castles* independent of the Moorish yoke. gold, about six millions of Sterling money \* ; a sum, which, in the tenth century, most probably surpassed the united revenues of the Christian monarchs. His royal seat of Cordova contained six hundred moschs, nine hundred baths, and two hundred thousand houses : He gave laws to eighty cities of the first, to three hundred of the second and third order ; and the fertile banks of the Guadalquivir were adorned with twelve thousand villages and hamlets. The Arabs might exaggerate the truth, but they created and they describe the most prosperous æra of the riches, the cultivation, and the populousness of Spain †.

The wars of the Moslems were sanctified by the prophet ; but, among the various precepts and examples of his life, the caliphs selected the lessons of toleration that might tend to disarm the resistance of the unbelievers. Arabia was the temple and patrimony of the God of Mahomet ; but he beheld with less jealousy and affection the nations of the earth. The polytheists and idolaters who were ignorant of his name, might be lawfully extirpated

Matrite, in folio, tomus prior, 1760. tomus posterior, 1770.* The execution of this work does honour to the Spanish press ; the MSS. to the number of MDCCCLII, are judiciously classed by the editor, and his copious extracts throw some light on the Mahometan literature and history of Spain. These relics are now secure, but the task has been supinely delayed, till in the year 1771, a fire consumed the greatest part of the Escorial library, rich in the spoils of Grenada and Morocco.

The disciples of Abraham, of Moses, and of Jesus, were solemnly invited to accept the more *perfect* revelation of Mahomet; but if they preferred the payment of a moderate tribute, they were entitled to the freedom of conscience and religious worship †. In a field of battle, the forfeit lives of the prisoners were redeemed by the profession of *Islam*; the females were bound to embrace the religion of their masters, and a race of sincere proselytes was gradually multiplied by the education of the infant captives. But the millions of African and Asiatic converts, who swelled the native band of the faithful Arabs, must have been allured, rather than constrained, to declare their belief in one God, and the apostle of God. By the repetition of a sentence and the loss of a foreskin, the subject or the slave, the captive or the criminal, arose in a moment the free and equal companion of the victorious Moslems.  the multitude were tempted by the invisible as  
 well as temporal blessings of the Arabian prophet ;  
 and charity will hope that many of his proselytes  
 entertained a serious conviction of the truth and  
 sanctity of his revelation. In the eyes of an inqui-

 inconsistent with reason, than the creed of myste-

The milder sentiment was consecrated by the practice of Mahomet † and the prudence of the caliphs ; the Magians, or Ghebers, were ranked with the Jews and Christians among the people of the written law ‡ ; and as late as the third century of the Hegira, the city of Herat will afford a lively contrast of private zeal and public toleration §. The caliph Al Mamun confirms this honourable distinction in favour of the three sects, with the vague and equivocal religion of the Sabæans, under which the ancient polytheists of Charræ were allowed to shelter their idolatrous worship, (Hottinger, Hist. Orient. p. 167, 168.)

§ This singular story is related by d'Herbelot, (Bibliot. Orient. p. 448, 449.) on the faith of Khondemir, and by Mirchond himself, (Hist. priorum Regum Persarum, &c. p. 9, 10. not. p. 88, 89.)

Excited by his voice, the people assembled in tumult; the two houses of prayer were consumed by the flames, but the vacant ground was immediately occupied by the foundations of a new mosch. The injured Magi appealed to the sovereign of Chorasán; he promised justice and relief; when, behold! four thousand citizens of Herat, of a grave character and mature age, unanimously swore that the idolatrous fane had *never* existed; the inquisition was silenced, and their conscience was satisfied (says the historian Mirchond \*) with this holy and meritorious perjury †. \* Mirchond, (Mohammed Emir Khoondah Shah,) a native of Herat, composed, in the Persian language, a general history of the East, from the Creation to the year of the Hegira 875, (A. D. 1471.) In the year 904, (A. D. 1498,) the historian obtained the command of a princely library, and his applauded work, in seven or twelve parts, was abbreviated in three volumes by his son Khondemir, A. H. 927, A. D. 1520. The two writers, most accurately distinguished by Petit de la Croix, (Hist. de Genghizcan, p. 537, 538. 544, 545.) are loosely confounded by d'Herbelot, (p. 358, 410. 994, 995.) but his numerous extracts, under the improper name of Khondemir, belong to the father rather than the son. The historian of Genghizcan refers to a MS. of Mirchond, which he received from the hands of his friend d'Herbelot himself. A curious fragment (the Taherian and Soffarian Dynasties) has been lately published in Persic and Latin, (Viennæ, 1782, in quarto, cum notis Bernard de Jenisch;) and the editor allows us to hope for a continuation of Mirchond.

† Quo testimonio boni se quidpiam præstitisse opinabantur. Yet Mirchond must have condemned their zeal, since he approved the legal toleration of the Magi, cui (the fire temple) peracto singulis annis censû, uti sacra Mohammedis lege cautum, ab omnibus molestiis ac oneribus libero esse licuit.

In the mountains and deserts, an obstinate race of unbelievers adhered to the superstition of their fathers; and a faint tradition of the Magian theology is kept alive in the province of Kirman, along the banks of the Indus, among the exiles of Surat, and in the colony, which, in the last century, was planted by Shaw Abbas at the gates of Ispahan. The chief pontiff has retired to mount Elbourz, eighteen leagues from the city of Yezd; the perpetual fire (if it continue to burn) is inaccessible to the profane; but his residence is the school, the oracle, and the pilgrimage, of the Ghebers, whose hard and uniform features attest the unmingled purity of their blood. Under the jurisdiction of their elders, eighty thousand families maintain an innocent and industrious life; their subsistence is derived from some curious manufactures and mechanic trades; and they cultivate the earth with the fervour of a religious duty. The northern coast of Africa is the only land in which the light of the Gospel, after a long and perfect establishment, has been totally extinguished. The arts, which had been taught by Carthage and Rome, were involved in a cloud of ignorance; the doctrine of Cyprian and Augustan was no longer studied. Five hundred episcopal churches were overturned by the hostile fury of the Donatists, the Vandals, and the Moors. The zeal and numbers of the clergy declined; and the people, without discipline, or knowledge, or hope, submissively sunk under the yoke of the Arabian prophet. Within fifty years after the expulsion of the Greeks, a lieutenant of Africa informed the caliph that the tribute of the infidels was abolished by their conversion †; and, though he sought to disguise his fraud and rebellion, his specious pretence was drawn from the rapid and extensive progress of the Mahometan faith. After the revolution of eleven centuries, the Jews and Christians of the Turkish empire enjoy the liberty of conscience, which was granted by the Arabian caliphs. During the first age of the conquest, they suspected the loyalty of the Catholics, whose name of Melchites betrayed their secret attachment to the Greek emperor, while the Nestorians and Jacobites, his inveterate enemies, approved themselves the sincere and voluntary friends of the Mahometan government †. Yet this partial jealousy was healed by time and submission ; the churches of Egypt were shared with the Catholics ‡ ; and all the Oriental sects were included in the common benefits of toleration. At the end of the first century of the Hegira,  
 the caliphs were the most potent and absolute  
 monarchs of the globe. Their prerogative was  
 not circumscribed, either in right or in fact, by the  
 power of the nobles, the freedom of the commons,  
 the privileges of the church, the votes of a senate,

rity of the companions of Mahomet expired with  
 their lives ; and the chiefs or emirs of the Arabian  
 tribes left behind, in the desert, the spirit of equali-

 they were the supreme judges and interpreters of  
 that divine book. They reigned by the right of  
 conquest over the nations of the East, to whom  
 the name of liberty was unknown, and who were  
 accustomed to applaud in their tyrants the acts of

\* See the article *Eslamiab*, (as we say Christendom,) in the  
 Bibliotheque Orientale, (p. 325.) This chart of the Mahome-  
 tan world is suited by the author, Ebn Alwardi, to the year of  
 the Hegira 385, (A. D. 995.) Since that time, the losses in  
 Spain have been overbalanced by the conquests in India, Tar-  
 tary, and the European Turkey.

LI.  The Moor and the Indian embraced as country-men and brothers in the pilgrimage of Mecca; and the Arabian language was adopted as the popular idiom in all the provinces to the westward of the Tigris \*.

\* The Arabic of the Koran is taught as a dead language in the college of Mecca. By the Danish traveller, this ancient idiom is compared to the Latin; the vulgar tongue of Hejaz and Yemen to the Italian; and the Arabian dialects of Syria, Egypt, Africa, &c. to the Provençal, Spanish, and Portuguese, (Niebuhr, Description de l'Arabie, p. 74, &c.)
